**Reflector:** Fluted, formed aluminum reflector fastens to main housing with steel spring release latches for secure fit.

**Refractor:** Open bottom refractor is designed for efficient performance at a low initial cost. Type V distribution is standard.

**Dimensions:** 17 ⅞ H x 12" W.

**Installation:** Includes 15" mounting bracket and all hardware.

**Lamp included:** Mogul-base lamps. No. 4PK99 has 100W high pressure sodium lamp. No. 4PL01 has 175W mercury vapor lamp.

Meets NEMA specifications for off-street area lighting. UL Listed (E12585) for wet locations and CSA Certified.

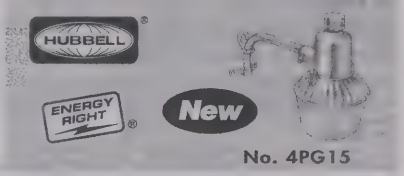
## NITE-TO-LITE® AREA FIXTURES



**Applications:** Security light provides dusk-to-dawn lighting for building corner areas, perimeters, low-cost area lighting from a pole, and other general purpose security lighting.

**Housing:** Die-cast aluminum. Head is NEMA rated utility grade with mogul socket for lamp.

**Refractor:** Type V acrylic refractor provides wide light distribution.

**Installation:** Includes arm, fixture, photo control and all hardware.

**Lamp included:** See suggested lamps in table below, or see index under lamps HID.

## COBRAHEAD™ ROADWAY LIGHTING

**Applications:** Designed for use in roadways, storage or construction sites, parking areas, residential neighborhoods, and bridge structures. Fixtures are tested to 3G vibration to ensure reliable operation under severe conditions.

**Housing:** Die-cast aluminum construction with a cast door hinge are finished in gray polyester powder coat for durability. Has adjustable mogul-base percelain socket.

**Reflector:** Precision hydroformed, anodized aluminum with a Dacron polyester filter.

**Lens:** No. 4PK62 has removable acrylic refractor; No. 4PK63 and 4PK64 have a flat glass lens; No. 4PK65, 4PK66, 4PK78 and 4PK79 have a glass reflector. 4PK62-4PK65 have NEMA II distribution; 4PK66, 4PK78 and 4PK79 have NEMA III distribution.

**Ballast:** Hard-mounted ballast with encapsulated starter and plastic terminal block for protection from environmental abuse. Multi-tap ballasts are 120/208/240/277 volts.

**Dimensions:** 26¼ L x 9¾" H.

**Installation:** Two-bolt/one clamp slipfitter for 1¼" or 2" mounting arms.

**Lamp not included:** See suggested lamps in table below, or see Index under Lamps, HID.

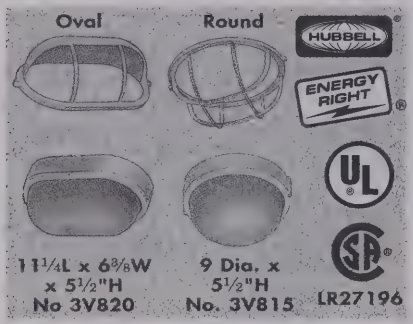
## ACCESSORIES FOR ROADWAY FIXTURES

### 24" MOUNTING BRACKET

Formed aluminum and galvanized steel bracket for use with Nos. 4PK62 thru 4PK66, 4PK78, 4PK79, 4PK99, and 4PL01 fixtures. Fits 1½" OD pipe. Hardware not included. Lumark (P125S020).



***New!* No. 4PK92.** Shpg. wt. 12.0 lbs. List $99.60. Each ..... **$49.80**

### HEAVY-DUTY TWIST-LOCK SWITCH

Heavy-duty photoelectric switch provides dusk to dawn operation for roadway fixtures listed above. Meets EEI-NEMA standards for locking devices with solid brass terminals. 120-277V. Intermatic brand. (LC4536).

**No. 5U792.** Shpg. wt. 0.2 lbs. List $18.65. Each ..... **$8.55**

# WALL & CEILING OUTDOOR FIXTURES

## DECORATIVE WALL/CEILING FIXTURES

**Applications:** Entries, walkways, corridors, stairwells, and other commercial, residential, and industrial applications. Retrofit fixtures save energy and enhance appearance. Incandescent, and HPS models available.

**Housing:** Sturdy, die-cast aluminum finished in white polyester. Maintains attractive, maintenance-free appearance over long years of use.

**Lamps:** Not included.

**Optical Assembly:** Heavy borosilicate glass diffuser for excellent light distribution; maintains its attractive appearance over years of use in indoor and outdoor applications. Cast guard and half shield available for protection, shielding, and styling.

**Installation:** Mounts directly to or over a recessed junction box.

**Ballasts:** High pressure sodium HPF ballasts (starting –40°F).

**UL Listed** and CSA Certified (LR27196) for wet locations.

# HID CANOPY AND AREA FIXTURES

## 150 AND 175 WATT HID CANOPY FIXTURES

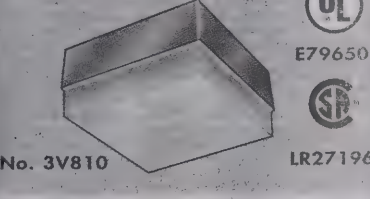
**Applications:** Energy-saving HID fixtures for entries, parking garages, walkways, corridors, stairwells, and other commercial/outdoor and industrial applications. Retrofit fixtures reduce maintenance and enhance appearance.

**Housing:** Rugged die-cast aluminum with durable polyester bronze finish. Two 1/2" hubs for surface conduit. Mounts over recessed junction box.

**Reflector:** One-piece hydroformed aluminum. Completely fluted for even light distribution and full lamp life.

**Refractor:** One-piece injection molded clear prismatic acrylic for even light distribution and low side glare. Fully gasketed for weatherproof/bugproof integrity. Slotted drive and Torx screws provided for multiple applications.

**Dimensions:** 14" square x 8⅛"H.



**Ballasts:** High pressure medium base sodium NPF ballast (starting –40°F) or medium base metal halide NPF (starting –20°F).

**Approvals:** UL Listed (E17657) for wet locations; CSA Certified (LR27196) for 120 or 277 volt indoor/outdoor use.

## LOW WATTAGE HID & FLUORESCENT CANOPY FIXTURES

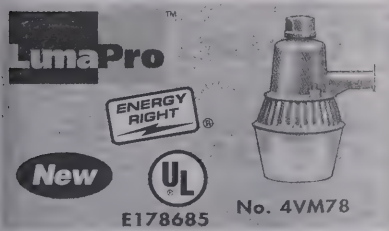
**Applications:** Exterior canopies, stairwells, entrances, parking decks, as well as interior halls, lobbies, or storage rooms. Durable construction provides outdoor security for apartments, schools and commercial buildings.

**Housing:** One-piece injection molded bronze polycarbonate. Low 5" profile. Permanent color with textured finish.

**Optical Assembly:** Unique prismatic polycarbonate refractor for low side brightness and even light distribution.

**Installation:** Mounts directly to or over a standard junction box.

**Dimensions:** 10" square x 5"H.



**Ballasts:** High pressure medium base sodium NPF ballast (–40°F starting) or fluorescent NPF (No. 3V808 is 32°).

**Approvals:** UL Listed (E79650) for damp locations; CSA (LR27196) Certified for 120V indoor/outdoor use.

## 70 & 175W AREA FIXTURES

**Applications.** Perimeter lighting, parking areas, rural homes, farm yards, loading platforms, and general commercial security lighting.

**Factory pre-wired fixture, ready to install.** Includes die-cast aluminum housing, twist-lock photoelectric cell, 5" mounting arm, and mounting hardware.

**Plug-in twist-lock photoelectric cell.** Automatically turns lights On at dusk and Off at dawn.

**One-piece acrylic prismatic refractor** and aluminum reflector screws directly into housing. Open at bottom for easy maintenance.

**High reactance, 120V, 60 Hz** normal power factor ballast starts lamp to -20°F.

**Lamp Included.** Use replacement lamp listed below or see Index under Lamps, HID.

**UL Listed** (E178685), CSA Certified (LR60920).

# HIGH ABUSE INDOOR/ OUTDOOR FIXTURES

## VANDAL RESISTANT LIGHTING

- One-piece injection molded UV stabilized polycarbonate lens. Prisms/blondels on inside to reduce dirt build-up and make cleaning easier
- Lens attached to housing with four stainless steel TORX® screws with center reject pin
- Mounting plate 16 ga. CRS with white high reflectance powder coat finish. Cast aluminum SCB housing with 1/2" conduit knockouts
- Sealed with one-piece die cut closed-cell EPDM gasket. UL Listed/CSA Certified for all wet locations
- Fixtures have T20 Torx screw. Use 5F525 Torx bit to unscrew lens from fixture

Used to illuminate areas with a high degree of exposure to unsupervised public traffic. Applications include public restrooms, hallways, stairwells, loading areas, transit stations, loading docks, and minimum security institutions.

Fixtures feature architecturally angled facets with radius corners that increase the ability of the lens to deflect blows and absorb impact.

Extra thick injection molded polycarbonate lens designed to obscure lamp image and spread light evenly over a large area. Black perimeter paint finish. Mounting boxes available below. Fail-Safe brand.

## 12" VANDAL-RESISTANT FLUORESCENT SQUARES

- Safe for wet locations
- Clear prismatic refractor
- Non-shrinking, double-baked neoprene gasket seals out the environment
- Lamp not included

An energy-efficient light for use in public access areas where vandalism may occur. Designed to answer the problem of repeated replacement and downtime. Refractors and diffusers completely surround the backplate, leaving no exposed metal, while providing more than adequate lighting for areas such as building corridors, stairwells, schools, dormitories, or building perimeters. Fasten with tamper-proof TORX® -head screws to prevent unauthorized access. Die-formed 16-gauge cold-rolled steel backplate forms a rigid mounting anchor. Lamp not included. Nos. 4PK35 and 4PK36 have a surface steel junction box and include battery back-up pack. Dimensions: 12L x 12W x 4¾"D. UL Listed, CSA Certified. Fail-Safe brand.

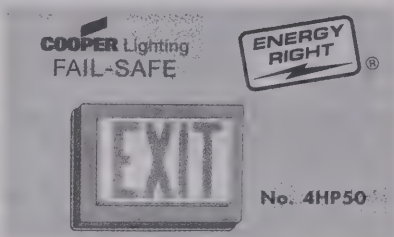
# HIGH ABUSE INDOOR/OUTDOOR FIXTURES

## VANDAL RESISTANT EXIT SIGN

**Housing:** One-piece unbreakable housing/face panel. Injection molded from black UV stabilized, polycarbonate. Wraparound design for maximum resistance to shock, impact and abuse. Polyester powder coat finish. Four captive stainless steel tamper-proof TORX® head screws prevent unauthorized access.

**Installation:** Corrosion resistant cast aluminum backplate with reinforced conduit entrance and mounting holes.

**Dimensions:** 14W x 10"H



(✓)Denotes energy efficient product.

**Lamps (included)/Circuit Board:** High intensity light emitting diodes (LED's) mounted to a circuit board panel. Control circuit board has short circuit protection, dual 120/277 VAC input and constant current circuitry to eliminate effects of line voltage fluctuations.

**Approvals:** UL Listed, NEMA 4X Certified, standard wet location label.

**Fail-Safe brand** (XLW-W-S-RW-DUAL-TBK)

✓**No. 4HP50.** Shpg. wt. 12.0 lbs.
List $218.08. Each ..... **$198.25**

## VANDAL RESISTANT EXIT SIGNS

- **Energy efficient**
- **Single or double face for mounting versatility**
- **Red letters on white face**

**Housing:** An integrated, impact-resistant polycarbonate textured black housing provides even illumination with an edge glow effect. Four captive stainless steel tamper-proof TORX®-head screws prevent unauthorized access.

**Installation:** One-piece cast aluminum mounting base provides a rigid mounting anchor for housing and ensures a secure installation. Typical areas of use include schools, universities, hospitals, parking structures, public housing and institutions.

**Lamps included:** Uses two compact fluorescent lamps.

**UL Listed (E112980).** Fail-Safe brand.

## FLUORESCENT CLEAN ROOM TROFFERS

- **Housing and door are designed to work with 1 or 1½" inverted "T" ceiling grids**
- **Protect against infiltration of airborne bacteria and other contaminant particles**
- **Electronic ballast**
- **Lamps not included, order No. 6VR66**

Versatile troffers are enclosed and gasketed to maintain ceiling integrity. Applications include clean rooms, technical and biomedical labs, and food processing/testing centers. Re-lamp without contaminating clean areas. Features a flush-mounted extruded aluminum door frame with mitered corners, a baked white enamel finish, and a one-piece extruded lens gasket that provides an additional and dependable seal between the lens and lens frame.

**Housing:** Constructed of 4½" deep-recessed, one-piece housing made of 20-gauge cold rolled steel; it is die-formed and seam-welded to create a sealed chamber.

**UL Listed (E113705) and CSA Certified.** Fail-Safe brand.

# HIGH ABUSE FIXTURES

## VANDAL-RESISTANT FLUORESCENT FIXTURES

**Applications:** Strong, energy-saving, vandal resistant lighting for use in corridors, dormitories, public restrooms, rapid transit stations, loading docks, and shower/locker rooms.

**Housing:** Nos. 4PK32 and 4PK33 have a gasketed, wraparound design that prohibits the entrance of environmental contaminants.

**Reflector/Lens:** Angled facets with radius corners increase lens' ability to deflect blows and absorb impact. Extra-thick, easy-cleaning polycarbonate lens incorporates optical design that spreads light evenly. Stainless steel TORX® screws are recessed into the lens to maximize tamper-resistance.

**Ballast:** All units 120V; 60Hz.

**Installation:** Fasteners are captive in the lens and sealed by means of a neoprene o-ring.

**Lamp not included:** See table below

**Approvals:** UL Listed E78458 and CSA Certified for wet locations.

| Qty. | Suggested Lamp | Ballast Type | Suggested Watts | Min. Start Temp (°F) | Dimensions (In.) L | W | H | Fail-Safe Model | New! Stock No. | Less Lamps List | Less Lamps Each | Shpg. Wt. |

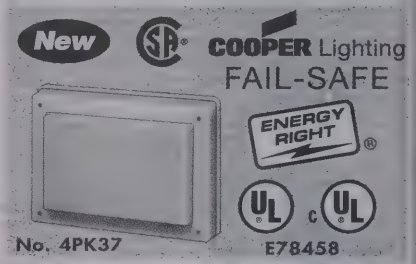
(*) Will operate standard wattage lamps.

## VANDAL-RESISTANT LOW-PROFILE DECORATIVE LUMINAIRES



**Applications:** For use in public access areas; ideal for building perimeters, corridors, stairwells, schools and dormitories. Ideal for low ceiling heights and narrow corridors. Vandal-resistant, yet attractive. 120V, 60 Hz., compact flourescent fixture provides high illumination while significantly reducing your maintenance costs.

**Housing:** One-piece polycarbonate housing/lens. Non-shrinking, double-baked neoprene gasket seals out the environment. Fastened with four captive stainless steel tamperproof TORX®-head screws that prevent unauthorized access.

**Installation:** Mounting base is one-piece cast aluminum that provides a rigid mounting anchor for housing that ensures secure installation. Provides a low profile, unbreakable, surface-mounted unit

**Approvals:** UL Listed (E78458) and CSA Certified suitable for wet locations.

**Lamps not included:** See table below

| Qty. | Suggested Lamp | Min. Start Temp (°F) | Finish | Dimensions (In.) D | W | H | Fail-Safe Model | New! Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|---|---|

(*) Comes with opal diffuser insert. (✓) Denotes energy efficient product.

## VANDAL-RESISTANT SURFACE MOUNT AREA LUMINAIRES

**Applications:** For use in public access areas where vandalism may occur, such as parking structures, loading docks, park shelters, schools, and dormitories.

**Housing:** Impact- and corrosion-resistant cast aluminum with a standard bronze polyester powder coat finish. Captive, stainless steel tamperproof TORX® -head screws prevent unauthorized access. Non-shrinking neoprene gasket seals out the environment.

**Reflector/Lamp:** Designed with a vertical burn lamp and symmetrical distribution. Reflectors have a baked white polyester powder coat finish.

**Refractor:** Injection-molded, prismatic polycarbonate refractor withstands environmental abuse.

**Lamps not included:** See table below.

**Approvals:** UL Listed (E71880) and CSA Certified, standard wet label.

# HIGH ABUSE FIXTURES

## WORK PAL PORTABLE AREA LIGHT

**Applications:** The Work PAL is designed to provide bright, energy-efficient temporary lighting in virtually any construction environment. Made in U.S.A.

**Housing:** Sturdy, lightweight die-cast aluminum housing and polycarbonate lens. Safety yellow color. Easy-grip handle for carrying and hanging.

**Installation:** Convenient wall mounting with 200 lb. magnet.

**Power source/Power usage:** 6 Ft., 3 conductor SJTOW-A black grounded cord and plug. 120V, 60 Hz.

**Lamp included:** Order 4V604 (100W replacement).

**Approvals:** UL Listed (E182662).

***New*** ✓ **No. 4PK45.** Fail-Safe brand (HPEC-100N-120V-PAL). Shpg. wt. 7.5 lbs. List $265.45. Each.....**$224.00**

(✓) Denotes energy efficient product.

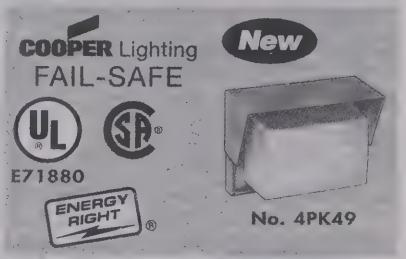
## VANDAL-RESISTANT WALL MOUNT FIXTURE WITH VISOR

**Application:** A low mounted fixture for outdoor lighting that stands up to abuse.

**Housing/Refractor:** Double gaskets and one-piece construction of both the UV stabilized polycarbonate refractor and the corrosion-resistant cast aluminum housing. Tamperproof TORX®-head screws prevent unauthorized access. Standard bronze polyester powder coat finish with a non-shrinking, double-baked neoprene gasket that seals out the environment.

**Additional Features:** Horizontal visor provides upward light cutoff.

**Dimensions:** 9⅜W x 6⅝H x 6½"D.



**Power Usage:** 120V. 60 Hz.

**Lamp not included:** Order No. 2V632 (70W HPS Lamp).

**Approvals:** UL Listed (E71880), CSA Certified, standard wet label.

***New*** ✓ **No. 4PK49.** Fail-Safe brand (HVH-705-120V-NPF-LV). Shpg. wt. 7.5 lbs. List $147.30. Each.....**$131.15**

(✓) Denotes energy efficient product.

## VANDAL-RESISTANT HIGH-ABUSE FIXTURES

**Application:** Ideal for building perimeters, corridors, stairwells, schools, and dormitories. A low cost, energy-efficient answer to the problems of repeated replacement and down times in areas where broken lamps could increase owner liability. Made in U.S.A.

**Refractor:** Injection molded, impact-resistant prismatic polycarbonate refractor lens offers high efficiency, low surface brightness and maximum strength. Choice of prismatic refractor or opal diffuser lens.

**Housing/Lens:** Tamperproof TORX®-head screws prevent unauthorized access. Double-baked neoprene gasket seals out the environment. Durable polycarbonate one-piece lens construction.

**Installation:** Versatile mounting capability.

**Power Usage:** 120V, 60 Hz.

**Lamp not included:** See table below.

**Approvals:** UL Listed (E78458) and CSA Certified.

# SPECIAL APPLICATION FIXTURES

## HAZARDOUS LOCATION FIXTURES

**BX FLUORESCENT FIXTURES FOR CLASS I, DIVISION 1 LOCATIONS**

**Applications:** Compact fixture used in areas classified as hazardous by NEC. For use in Class I, II, and III classified areas. 13 watt fluorescent lamp output equals two, 60 watt incandescent lamps at 120V.

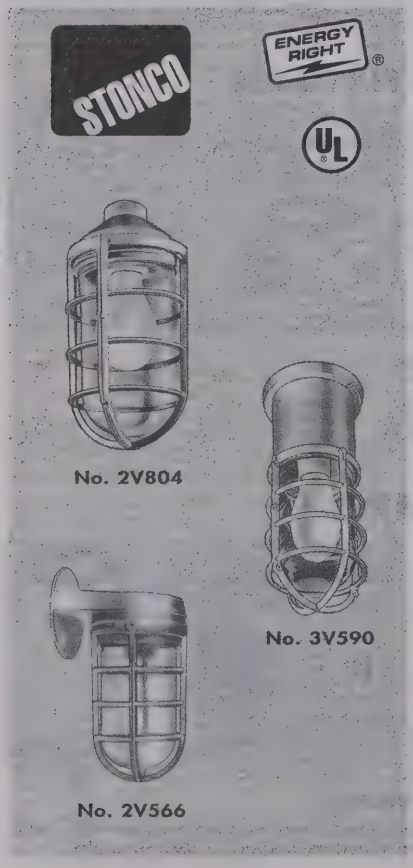
**Housing/Components:** Die-cast, copper-free aluminum with baked epoxy coating for corrosion resistance.

**Mounting:** Ceiling or pendant mountings constructed of die-cast, copper-free aluminum. Optional die-cast globe-guard.

**Ribbed Prismatic Globe:** Uniform surface brightness for glare control and viewing comfort. Good visibility with minimal light levels.

**Installation:** Mounting cap attaches to conduit, independent of fixture housing. Wiring attaches to integral female connecting block. Electrical connection between cap and housing is not complete until a sufficient quantity of the double pitch Acme threads are engaged to meet hazardous requirements. 316 stainless steel set screws secure cap to conduit and housing to cap.

**Approvals:** UL 844 for Class I, Division 1 & 2, Groups C & D. Class II, Division 1 & 2, Groups E, F, & G. Class III, Division 1 & 2. CSA Certified.



**Dimensions:** 8½ dia. x 14¼"H.

**Lamps not included:** Use two 13W, Biax lamps No. 6V712.

**No. 3V799.** Guard for Globe. Hubbell brand (EMGI). Shpg. wt. 0.5 lbs. List $16.00. Each ..... **$11.58**

## VAPOR-TIGHT FIXTURES

**Applications:** Designed for heavy-duty, non-explosive environments. Vapor resistant fixtures for use in weather-exposed, high traffic areas. These include processing plants, cold storage, foundries, factories, loading docks, railways, tunnels, bridges, walkways. Recommended for use whenever dust, or moisture are involved. UL Listed for wet locations if installation has a weatherproof outlet box. Stonco brand.

**Housing:** Die-cast aluminum housing and twist on guard secured by 4 set screws. Premium porcelain socket. Fully enclosed and gasketed.

**Lens:** Clear glass globe is fully enclosed and gasketed.

### INCANDESCENT FIXTURES

**Ceiling Mount No. 2V565 Fixture** fits on standard 3½" round and octagon and 4" round boxes.

**Wall Mount No. 2V566 Fixture** fits on standard 4" round and octagon boxes.

**Pendant Mount No. 2V804 Fixture** fits on standard 1/2" conduit and has tapped 1/2" NPT hub.

**Lamp not included:** Uses 100 watt maximum incandescent lamps, suggest rough service or industrial incandescent lamps listed on page 968. Use No. 2V567 4" weatherproof round box with Nos. 2V565 and 2V566.

**Installation:** Prewired with 11" long leads for mounting on surface or recessed boxes (not included).

**UL Listed (E57163).**

### HIGH PRESSURE SODIUM FIXTURES

**Ballast:** Normal power factor, 120V, suitable for outdoor installations. Ambient temperature down to –20°F.

**Lamp included:** 50 watt high pressure sodium, medium base. For replacement lamp, suggest No. 2V657.

**Ceiling Mount No. 3V590 Fixture** with 3½" round weatherproof box for surface mounting and conduit access.

**Wall Mount No. 3V591 Fixture** supplied with 4" round box.

**UL Listed** (E86021), CSA Certified (LR28586).

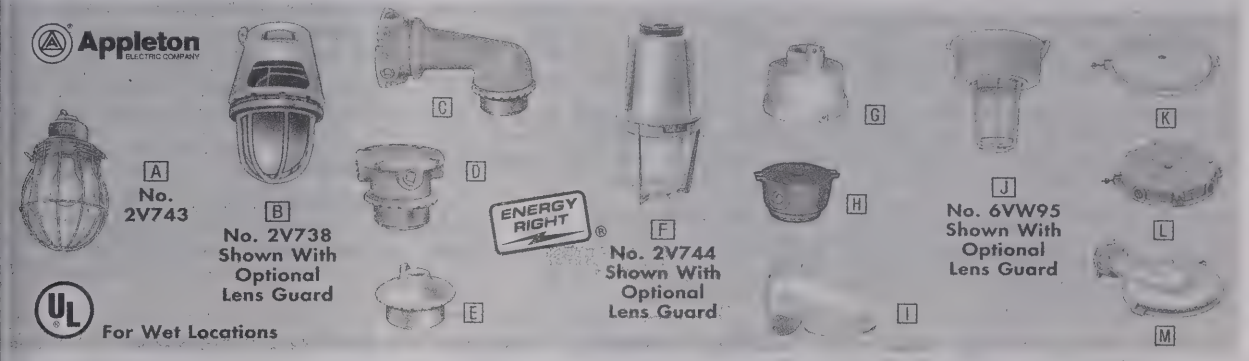
When it comes to lighting, no distributor outshines Grainger.



# HAZARDOUS LOCATION FIXTURES

## NATIONAL ELECTRICAL CODE EXPLOSIVE ATMOSPHERE CLASSIFICATIONS

Certain locations are hazardous because the atmosphere does or may contain gas, vapor or dust in explosive quantities. The National Electrical Code (NEC) divides these locations into Classes, Divisions and Groups according to the type of explosive agent which may be present. For complete list, see Section 500 of the National Electrical Code.

Underwriters' Laboratories tests devices for safety in explosive atmospheres and publishes a list of those meeting its standards for each Class, Division and Group.

Use of UL listed devices does not necessarily make an installation conform to the NEC or local codes. Consult Chapter 5 of the NEC, local building codes, OSHA requirements and insurance company inspectors for detailed information as to proper procedures.

### INCANDESCENT HAZARDOUS LOCATION FIXTURES

**No. 2V743 60-200 Watt Incandescent Fixture.**

**Applications:** For use in areas where dust and ignitable fibers may be present. UL Listed (EI0794).

**Lamp not included:** For use with 60-200 watt incandescent lamp. Suggest rough service or industrial incandescent lamps. See Index under Incandescent, Rough Service.

**Installation:** One tapped opening for rigid or flexible conduit mounting, 1/2" hub size.

**No. 2V738 60-300 Watt Incandescent Fixture.** Requires mounting hood Fig. C, D, or E to comply with UL Listing.

**Applications:** For use in chemical and petrochemical plants and other heavy process areas where ignitable vapors, dust, moisture, and corrosive atmospheres may be present. UL Listed (E10444).

**Lamp not included:** For use with 60-300 watt incandescent lamp. Suggest rough service or industrial incandescent lamps. See Index under Incandescent, Rough Service.

**Installation:** Mounting hoods have ¾" opening for rigid or flexible conduit.

### HID HAZARDOUS LOCATION FIXTURES

**Applications:** For use in tunnels, walkways, bridges, storage facilities, processing plants, parking lots, foundries, manufacturing plants, power plants, and wherever moisture, dirt, dust or corrosive atmospheres are present. UL Listed (E10444 and NEMA 4X).

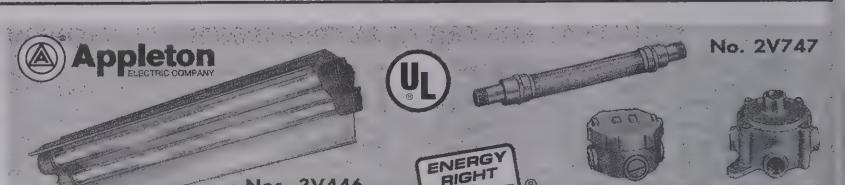
**Installation:** Mounting hoods have ¾" opening for rigid or flexible conduit.

**No. 2V744 70 Watt High Pressure Sodium Fixture.** Requires mounting hood Fig. G, H, or I to comply with UL Listing.

**Ballast:** 120V enclosed and gasketed integral ballast.

**Lamp not included:** Suggest No. 2V632, 70 watt medium base HPS lamp.

**No. 6VW95 150 Watt High Pressure Sodium Fixture.** Requires mounting hood Fig. K, L, or M to comply with UL Listing.



**Ballast:** Multi-tap (120, 208, 240, 277V) enclosed and gasketed integral ballast.

**Lamp not included:** Suggest No. 2V452, 150 watt mogul base HPS lamp.

# HAZARDOUS LOCATION FLUORESCENT FIXTURES

**Applications:** For use in classified areas such as inside paint spray booths, pharmaceutical firms, paint manufacturing plants, and printing plants. Can be used in any location where ignitable dust, fumes, gases, paint residue, paint powder, or corrosive atmospheres may be present. UL Listed for wet locations.

For use in Class I, II and III, Div. 1 and Div. 2 classified areas. 120V operation.

Explosion, dust, and ignition-resistant integrally-balanced fixture can be mounted directly inside a paint spray booth. Complies with NEC 516-3(c) and NFPA No. 33.

**No. 3V446** is a two lamp, 40 watt, F40T12 rapid-start fixture. UL Listed (E10794).

**No. 3V447** is a two lamp, 60 watt, F48T12HO rapid-start fixture. UL Listed (E10794).

**Lamps not included** Nos. 3V446 and 3V447: For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Fluorescent lamps listed in Index under Lamps, Fluorescent.

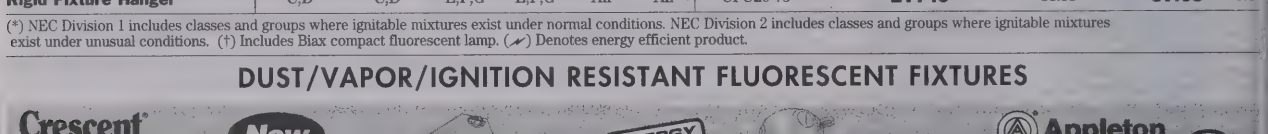
**No. 6VW94** is a 40 watt, 29" Biax compact fluorescent fixture. UL Listed (E10794).

**Biax lamps included:** For replacement lamp suggest No. 4VC27.

**No. 2V747 Flexible Hanger Coupling.** 3/4" female end fittings with removable male close nipples. Bronze outer braid. Lined brass core. 1½" dia. x 13⁹⁄₁₆"L. UL Listed (E10444).

**No. 2V748 Conduit Outlet Box.** Five 3/4" threaded hubs; 3 close-up plugs. Cast aluminum body and cover with aluminum polymer enamel finish. 4¼" dia. x 2¾"H. UL Listed (E10444).

**No. 2V749 Rigid Fixture Hanger.** For locations where fixture stem does not exceed 12". Plated malleable iron with aluminum polymer enamel finish. Accepts 3/4" fixture stem. Furnished with four 3/4" conduit hubs, four 3/4 to 1/2" reducers and three close-up plugs. 4⅝" dia. x 3¹¹⁄₁₆"H. UL Listed (E10444).



**MOUNTING KIT for fixtures above.** Hooks and clamp included. Appleton brand.

**No. 2V818.** Shpg. wt. 2.1 lbs. List $25.33.
Each ..... $16.37

# DUST/VAPOR/IGNITION RESISTANT FLUORESCENT FIXTURES

## FLUORESCENT FIXTURES

**No. 4PL84 Dust Ignition Resistant Fixture** for use where grain, flour, sugar, textile, chemical, carbon, and wood dusts are present.

**No. 4PL83 Vapor Resistant Fixture** for use where volatile flammable liquids, gases, or vapors are used, but would become hazardous only in case of an accident or of some unusual operating condition.

**Nos. 4PL84 and 4PL83** are two lamp, 48", 40 watt, F40T12 rapid-start energy saving fixtures. 120V, 60 Hz operation. Maximum internal or external temperature of any part of fixture should not exceed 120°C.

**Housing:** Non-corrosive fiberglass reinforced polyester composite housing protects against moisture, dirt, and chipping.

**Dimensions:** 53¾L x 11¹⁵⁄₁₆W x 7⁵⁄₁₆"H

**Installation:** Mounting and wiring accessories Nos. 2V747, 2V748, and 2V749 in above listing are suitable for use with fluorescent fixtures Nos. 4PL84 and 4PL83.

**Lamps not included:** For better lighting results use energy-saving, high color rendering lamps such as Staybright-XL, SP, or SPX lamps from GE. See Index under Lamps, Fluorescent.

UL & C-UL Listed (E12134). Crescent brand.

## MOUNTING AND WIRING ACCESSORIES

**No. 4V289 Conduit Outlet Box.** Four tapped 3/4" openings; 2 close-up plugs. 2¹⁄₁₆" inside depth. Includes mounting lugs. UL Listed (E2527). Appleton brand.

**No. 4V290 Ball Box Cover.** For use with No. 4V289 conduit box. Gasketed; 10-24 mounting screws included. 15° swing. Supports 250 lbs. 2⅜" height. Accepts 1/2" conduit. UL Listed (E2527). Appleton brand.

**No. 4V291 Cushion Box Cover.** For use with No. 4V289 conduit box. Enclosed and gasketed; cushions 40 lbs. 10-24 mounting screws included. 8° swing. Supports 250 lbs. 1¹¹⁄₁₆" height. Accepts 1/2" conduit. UL Listed (E2527). Appleton brand.

**No. 2V818. MOUNTING KIT** for fixtures above. Hooks and clamp included. Appleton brand (AC-KT).

# PASSIVE INFRARED MOTION SENSORS

## OUTDOOR YARD-SCAN™ DIE-CAST, HEAVY-DUTY DETECTOR

- Detects motion outside the home or office. Turns lights On automatically. Includes dusk to dawn 24 hour reset.
- Die-cast aluminum housing with rain-tight construction makes unit suitable for all-weather outdoor operation
- Passive infrared sensor detects moving people or vehicles up to 60 ft. away. 110° horizontal width; 180° right angle adjustment
- Built-in photocell distinguishes daylight from darkness
- Use existing wall switch (no modifications needed) to control all operating modes (Off, Auto, Test, Dusk to Dawn manual override)
- Combination of heat and movement turns lights On. When motion stops, lights remain On for 5 minutes and then shut Off
- Switching capacity: 500W maximum of incandescent load only, switched by a relay, 120VAC, 60 Hz
- UL Listed (E103501); NEMA 4X rated.

**No. 2V946.** Motion Detector. Regent brand (PIR2ES). Shpg. wt. 1.3 lbs. List $137.33. Each ..... $88.90

(✓) Denotes energy efficient product.

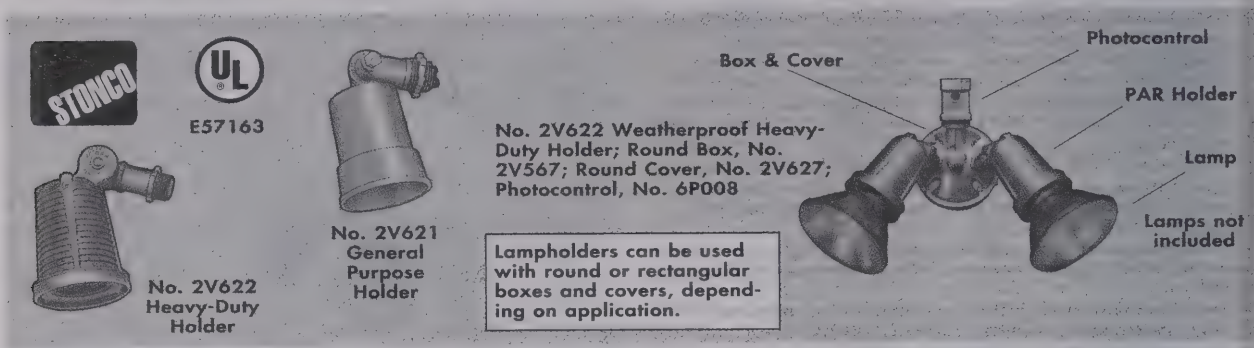
## OUTDOOR 110° MOTION ACTIVATED FLOODLIGHT KIT

- Components pre-assembled and prewired for easy installation
- Fixture components: 2 PAR holders, cover plate, and motion detector
- Manual override turns lights On and Off with existing switch
- Motion activated twin floodlight detects movement up to 60 ft. and within 110°
- 4 or 12 minute time selection; multiple sensitivity adjustments
- Test switch allows for easy aiming day or night
- Can be wall or soffit/eave mounted
- Universal weatherproof cover plate mounts to round, octagonal, and rectangular junction cover boxes
- High-impact weatherproof non-metallic construction in white or bronze finish
- Lamps not included. Uses maximum two 150W incandescent PAR type lamps; see Index under Lamps, Incandescent
- UL Listed (E95388) and CSA Certified (LR95695)

| Color | Regent Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| White | MS-37 | ✓3V688 | $41.09 | $25.50 | 1.2 |
| Bronze | MS-35 | ✓3V687 | 41.09 | 25.50 | 1.2 |

(✓) Denotes energy efficient product.

## INDOOR H-MOSS PASSIVE INFRARED MOTION SENSOR



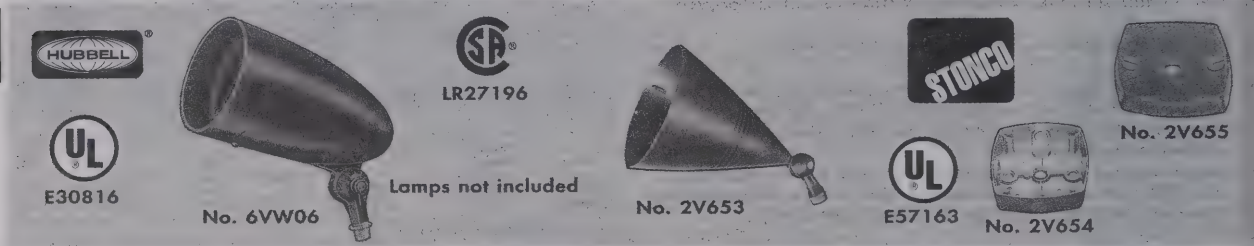
- Passive infrared system scans an area for changes in temperature or motion
- Saves energy by turning lights On only when ambient light is below set level
- Time delay adjusts from 1 to 20 minutes to shut off lights when area is left vacant
- Sensing range up to 40 feet
- Covers 1200 sq. ft. (111.5 sq. m.)
- Works with all incandescent and fluorescent lighting loads including electronic and energy saving ballasts
- Replaces standard toggle switch
- 180° field of view
- Rated 1500 watts at 120 VAC and 277 VAC, incandescent and fluorescent
- Ivory color
- UL Listed (E103666); CSA Certified (LR700758)
- For indoor use only

| Field of View | Coverage | Hubbell Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| 180° | 1200 sq. ft. (111.5 sq. m.) | WSSL200 | 4CW33 | $103.83 | $83.10 | 0.5 |

# ARCHITECTURAL LAMPHOLDERS

## WEATHERPROOF INCANDESCENT ALUMINUM LAMPHOLDERS

### HEAVY-DUTY LAMP HOLDER



Recommended for use with 250 watt max., medium base PAR38 lamps, see Index under Lamps, Incandescent. UL Listed wet locations, for above horizontal aiming. Ribbed die cast aluminum design to maximize heat dissipation. Porcelain socket. Multi-part gasket with plated steel lock ring. Adjustable threaded 1/2" NPS arm, degree marked for aiming. UL Listed (E57163) for wet locations.

### GENERAL PURPOSE LAMP HOLDER

Recommended for use with 150 watt max., medium base PAR38 lamps, see Index under Lamps, Incandescent. Zinc housing with weather-resistant rubber gasket. Not suitable for aiming above horizontal. Adjustable threaded 1/2" NPS arm. UL Listed (E57163) for wet locations.

| Description | Color | Stonco Model | Stock No. | List | Less Lamp Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| **METALLIC LAMPHOLDERS** | | | | | | |
| **Weatherproof Heavy-Duty Parholder** | Aluminum | 150L | **2V622** | $18.56 | **$8.50** | 1.2 |
| **Weatherproof General Purpose Parholder** | Aluminum | 3300 | **2V621** | 13.32 | **4.11** | 1.0 |

## ARCHITECTURAL LAMPHOLDERS, BOX, AND COVER

For use where both light and appearance are important. **Lamps not included.**

**Hubbel Bullet Architectural Lampholders.** Use 120V, 150 watt max. PAR38 lamps. No. 6VW05 designed for indoor or outdoor down aiming application. Die cast design is durable and protects lamp.

No. 6VW06 designed for wet locations with universal aiming. Tempered lens is sealed in extension collar providing weather protection and deep shielding to prevent glare.

Both units mount with 1/2" knuckle and have Lektrocote gray powder finish.

**Stonco Bullet Architectural Lampholder.** For up to 150W PAR-38 incandescent or 250W QPAR-38 quartz-halogen lamps. May be used for above horizontal aiming. Ribbed die-cast aluminum design to maximize heat dissipation. Adjustable 1/2" NPT degree marked threaded arm with serrated locking teeth, and lock nut. Multi-part gasket seal prevents weathering of socket and lamp base. Textured black finish. 10" maximum length; 6" maximum diameter. Stonco brand.

**Approvals:** UL Listed (E57163), CSA Certified (LR27196) for wet locations.

**Electrical Box.** Die-cast aluminum with black polyester powder finish. Four side and one back 1/2" NPS tapped holes. Four closure plugs. 5 3/16L x 5 3/16W x 1 1/2"D. Stonco brand (69-41B).

**No. 2V654.** Shpg. wt. 0.5 lbs. List.....$36.97. Each **$23.61**; Lots 3.....**$22.43**

**Cover Plate.** Die-cast aluminum with matte black epoxy finish. Three 1/2" NPT tapped holes. Two closure plugs. Fits No. 2V654. Stonco brand (67-3B).

**No. 2V655.** Shpg. wt. 0.5 lbs. List.....$21.33. Each **$12.02**; Lots 6.....**$11.42**

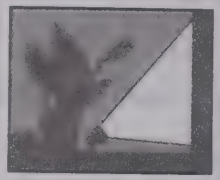
(*) Use PAR-38 lamps see Index under Lamps, Incandescent.

When it comes to lighting, no distributor outshines Grainger.

# LANDSCAPE LIGHTING SELECTION GUIDE

Hadco landscape lighting is designed to highlight particular objects or foliage to create dramatic or subtle lighting effects. This step-by-step guide will help you design a lighting system to fit your outdoor lighting applications.

**Step 1** DECIDE WHAT OBJECT(S) ARE TO BE ILLUMINATED



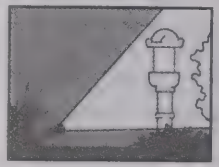
- Trees
- Shrubbery
- Ground Cover
- Pond
- Signage
- Statues
- Sculpture
- Fountain
- Wall
- Architectural Detail
- Walkway
- Driveway
- Steps
- Deck
- Patio
- Entryway

**Step 2** DECIDE WHICH LIGHTING TECHNIQUES WILL ACHIEVE THE DESIRED EFFECT

## Landscape Lighting Techniques

### SILHOUETTING

The silhouette of a plant or object is highlighted using this technique. The light source should be close to the base and concealed directly behind the object. The silhouette is created by projecting the light source directly onto a wall or other vertical surface. This subtle effect can be dramatic when silhouetting plants with unusually shaped leaves or branches.



### SHADOWING

Shadowing is similar to silhouetting, however it projects the object's image or shadow onto a wall or other flat surface. The light source is located in front of the object to be highlighted. This effect can be even more dramatic than silhouetting because the shadow is often greatly magnified.

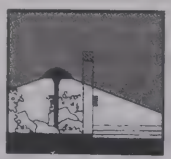
### SPOTLIGHTING

Spotlighting is used to accent a particular object or landscape detail by focusing an intense beam of light directly on it. This technique is best used in combination with other lighting techniques to reduce the potential of glare or ruining the effect with misdirected light.

## Spread/Path Lighting Techniques

### SPREAD LIGHTING

This low area lighting produces symmetrical patterns of illumination and is most effective when used for lighting ground cover and low shrubbery. Use well shielded fixtures set near the plantings to highlight an interesting array of textures, shapes, and colors.



### PATH LIGHTING

Path lighting also casts symmetrical light patterns, but at a lower height. This type of lighting is used to illuminate pathways, sidewalks, borders, steps, and landscape contours. Use lights that are diffused or shielded to reduce glare.

### TRAFFIC LIGHTING

To create effective traffic lighting, it is important to use a combination of spread and path lighting. Traffic lighting is used to illuminate garden spaces that direct visitors through the landscape, show them what obstacles to avoid, and where they should walk.

### SECURITY LIGHTING

Create a secure environment that also enhances the surroundings by strategically combining low level lighting with accent lighting. The result is security lighting that is not harsh or glaring.

CONTINUED ON NEXT PAGE

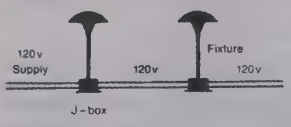
# LANDSCAPE LIGHTING SELECTION GUIDE

## Step 3 DECIDE *HOW MANY* AND *WHAT STYLE* OF FIXTURES NEEDED TO PROPERLY ILLUMINATE AN AREA OR OBJECT

**Accent or Spot/Flood Lighting.** Choose fixtures that will blend into the landscape or can be hidden from sight behind shrubbery or buried in the ground. Also consider lamp source wattage based on distance to the object and the desired brightness. In general, use just enough light to show what is important in a landscape such as objects, architectural details, and traffic patterns—do not over light.

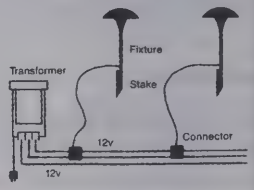
**Spread/Path Lighting.** Choose these fixtures based on recommended spacing for continuous illumination or space out fixtures to create pools of light. Many styles are available to compliment the surrounding ground cover or low shrubbery.

**Spread/Path Lighting Example**



Spacing for Continuous Illumination of Light

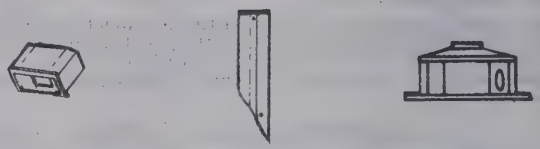
Spacing for Pools of Light



## Step 4 CHOOSE WHETHER TO USE 120 VOLT LINE VOLTAGE OR 12 VOLT LOW VOLTAGE SYSTEM

**120 Volt Line Voltage System.** Normally used for permanent commercial installations and retrofit of previously installed systems. Conduit or direct burial UF cable is usually required for installation (check local codes). Best for applications when 100 ft. or more of cable could be used.

**12 Volt Low Voltage System.** A transformer is plugged or wired into a 120 volt supply line and low voltage wires are then run over or under ground to low voltage fixtures. Low voltage systems are typically safer, more economical to install, and the fixtures are easily moved to fine tune or completely change the installation. Best suited for short distances, generally under 100 feet from the transformer.



120V System

12V System

## Step 5 DETERMINE MOUNTING ACCESSORIES REQUIRED

Most low voltage fixtures are installed using mounting stakes and quick pin-type connectors to tap into the power line (page 1113). 120V line voltage installations require an approved weatherproof junction box or mounting standard in which to make the wiring connections (page 1113).

## Step 6 DETERMINE THE PROPER POWER TRANSFORMER AND CABLE (FOR LOW VOLTAGE APPLICATIONS ONLY)

**a.** Add up wattages of all lamps

**b.** Add 10% for future additions, changes, lamp wattage increases, etc.

**c.** Select the transformer to handle the number of cable runs and lamp wattages

**d.** Minimize voltage drop by planning cable runs as short as possible. Use larger gauge cable for more light output. Voltage drop can be calculated by the following formula:

$$\frac{\text{(Total Watts x Cable Length)}}{\text{Cable Constant}}$$

Wire Gauge Cable Constant:

14 AWG = 3500 12 AWG = 7500 10 AWG = 11920

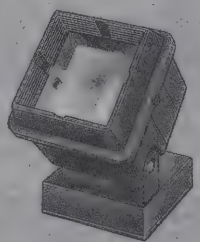
Example:

5 fixtures with 27W lamps on 100 ft. of 12 AWG cable will produce a voltage drop of:

$$\frac{(5 \times 27W) \times 100\ ft}{7500} = 1.8V$$

Total voltage on the 12V line will be 10.2V.

Voltage drop will decrease the amount of light a standard, non-halogen lamp will deliver as follows:



| Voltage | 12.0V | 11.5V | 11.0V | 10.5V | 10.0 |
|---|---|---|---|---|---|
| Light Output | 100% | 80% | 75% | 65% | 50% |

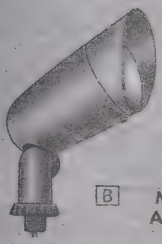
Whenever possible it is advisable to keep the voltage drop at less than 2V. However, with halogen lamps, such as MR11 and MR16, a voltage drop of more than 1.2V may severely affect lamp life.

**Additional Fixtures Commonly Used for Landscape Lighting**

See Page 1106

See Page 1092

See Page 1106

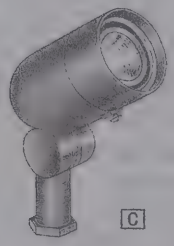


# LANDSCAPE ACCENT LIGHTING FIXTURES

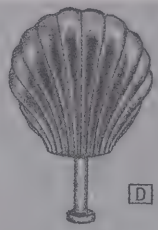
## LOW VOLTAGE (12V) TYPES

### HADCO

A PAR36 Accent Light



B MR16 Mini Accent Light



E161028

E161028

Lamp Not Included

C MR11 Micro Accent Light

D Wall Lyter

Accent lighting highlights landscapes at night by illuminating particular objects, details, or foliage. Large plants, shrubs, trees, doorways, walls, statues, fountains, sculptures, decks, and patios can all be enhanced using the techniques described on pages 1107 and 1108. To prevent glare, accent fixtures should be aimed away from observers and concealed behind shrubbery to keep the landscape natural and uncluttered. Use in-ground lights to restrict glare on all sides when lighting an object that is seen from several directions.

**Note:** Low voltage lighting system components need to be ordered separately unless noted. Low voltage components include fixtures, mounting stems, mounting stakes, lamps, cables, transformers, and connectors.

## STAKE MOUNTED ACCENT LIGHTS

**Construction:** Fully adjustable swivel arm with locking teeth for precision aiming capability.

**Installation:** Pre-wired with 36" cable and quick connect (included) for hook-up to low voltage supply line.

**Accessories:** Low voltage mounting stakes (not included). Use No. 3V881 (12") or No. 3V882 (2-14") on page 1113.

### A PAR36 ACCENT LIGHT

**Applications:** Versatile, multi-purpose fixture is popular for uplighting trees, building facades, walls, and spot lighting.

**Construction:** One-piece injection molded Ryton PPS with rotatable shroud to reduce glare.

**Finish:** Color impregnated material in bronze.

**Lamp (not included):** Uses double screw terminal PAR36 lamp up to 50W.

**Approvals:** UL Listed (E161028) for USA and Canada.

### B MR16 MINI ACCENT LIGHT

**Applications:** Small sized fixture with bright halogen light source is easily hidden when uplighting trees, building facades, walls, and spot lighting.

**Construction:** One-piece injection molded Ryton PPS with rotatable shroud to reduce glare. Includes clear tempered glass lens affixed at 10° angle for natural cleaning.

**Finish:** Color impregnated material in bronze.

**Lamp (not included):** Uses bi-pin MR16 lamp up to 50W.

**Approvals:** UL Listed (E161028) for USA and Canada.

### C MR11 MICRO ACCENT LIGHT

**Applications:** Micro size allows fixture to be hidden in planters or among ground cover for spot lighting smaller objects.

**Construction:** Durable cast aluminum housing with shroud. Two-piece construction for easy relamping. Includes clear tempered glass lens.

**Finish:** Bronze powder coat.

**Lamp included:** 20W MR11 wide flood. Fixture uses up to 35W.

**Approvals:** UL Listed (E161028) for USA and Canada.

### D WALL LYTER

**Applications:** Clam shell style fixture is perfect for general wall washing to create silhouetting or shadowing effects.

**Construction:** Durable cast aluminum housing with extruded stem and 1/2" NPT fitter. Includes molded acrylic lens secured with stainless steel spring clips.

**Finish:** Hand rubbed verde antiqued over black thermoset powder coat.

**Lamp included:** 1156 lamp. Suggested replacement No. 1E752.

**Approvals:** UL Listed (E161028) for USA and Canada.

Accessories On Page 1113

# LANDSCAPE SPREAD & PATH LIGHTING FIXTURES

## LOW VOLTAGE (12V) TYPES

### COMMON FEATURES

**Applications:** Spread and path lighting techniques are most effective along pathways, walkways, borders, driveways, low shrubbery, and decorative ground cover (see pages 1107 and 1108 for design details). When properly arranged, the safety, security, and aesthetic quality of a landscape is enhanced.

**Construction:** Heavy-duty cast aluminum housings and aluminum stems; except No. 3V873 has extruded aluminum housing.

**Lamp (included):** 27 watt, 1156 type, single bayonet base lamp. For replacement lamp use No. 1E752.

**Installation:** Pre-wired with 36" cable and quick connector (included) for hook-up to low voltage supply line.

**Accessories:** Low voltage mounting stakes (not included). Use No. 3V881 (12") or No. 3V882 (2 to 14"); order on page 1113.

**Approvals:** UL Listed (E161028) for USA and Canada.

### A MUSHROOM LIGHTS

**Applications:** Mushroom style fixtures compliment traditional as well as contemporary landscapes.

**Construction:** Stainless steel fasteners secure mushroom cap to cone bottom. Aluminum stem (included). Lamp is positioned in the bottom of the mushroom cone to produce a smooth uniform light pattern without any glare.

**Finish:** Hand rubbed verde antiqued over black powder coat gives fixture the appearance of natural weathered copper. Underside of mushroom cap is reflective white.

### B TULIP LIGHTS

**Applications:** Graceful flower shaped lines and petal details of fixture compliment any landscape.

**Construction:** Fixture is open at the bottom for higher light levels and easy re-lamping.

**Finish:** Hand rubbed verde antiqued over black powder coat gives appearance of natural weathered copper.

### C SHELL TYPE PATH LIGHT

**Construction:** Molded acrylic lens secured with stainless steel screw clips included with extruded stem and 1/2" NPT fitter.

**Finish:** Hand rubbed verde antiqued over black powder coat gives fixture an appearance of natural weathered copper.

### D MINI PATH LIGHT

**Applications:** Small contemporary designed fixture remains unobtrusive in the landscape.

**Construction:** Fixture is open at the bottom for higher light levels and easy re-lamping. Black powder coat finish

### E INDIRECT PATH LIGHT

**Applications:** Fixtures create a luminescent ambiance especially suited for special garden areas and around patios and decks.

**Construction:** Stainless steel fasteners secure pagoda cap to the bottom. Aluminum stem included. Glass jar is painted white on the inside for added efficiency and painted verde on the outside to hide light source. Light is reflected off the underside of the pagoda cap to provide a smooth glare-free uniform light pattern.

**Finish:** Hand rubbed verde antiqued over black powder coat gives fixture an appearance of natural weathered copper.

### F PAGODA PATH LIGHT

**Applications:** Pagoda style blends in with gardens, curved pathways, and long driveways.

**Construction:** Stainless steel fasteners secure pagoda cap and louvers to the bottom. Frosted glass jar lens screws into the pagoda bottom. 1/2" NPT threaded bottom for stem (not included). Garden green powder coat finish.

**Accessories:** 12" mounting stem No. 3V920 (not included, see page 1113).

### G MICRO BOLLARD

**Applications:** Durable, high traffic area fixtures. Compact 15" bollard provides 360° light spread.

**Construction:** Compact fixture has extruded aluminum housing and cast aluminum end caps with stainless steel fasteners securing the bollard assembly to the mounting plate and allowing for easy re-lamping. An opal acrylic lens shields the light source. Black powder coat finish.

(*) Lamp type included; 27.5W, 1156 single bayonet base. Order replacement lamp Stock No. 1E752.

When it comes to lighting, no distributor outshines Grainger.

# LOW VOLTAGE (12V) TYPES

## IN-GROUND AND UNDERWATER ACCENT LIGHTS

### [A] WELLYTE

**Applications:** Installation with straight-cut end up allows flush ground mounting for uplighting. Installation with angle-cut end up allows 3" to be mounted above ground for spot lighting with glare cutoff.

**Construction:** Heavy-wall single piece PVC housing allows easy installation and water to run through when installed on drainage material. Durable, silicone rubber lamp holder allows height adjustment and up to a 45° angle adjustment of lamp without tools or any mechanical moving parts that will corrode or rust.

**Installation:** 48" cable with spade terminals and quick connector (included) for hook-up to low voltage supply line.

**Accessories:** Optional bronze finish rockguard No. 3V846 constructed of tough fiberglass reinforced polyester composite that will not fade or peel (see below).

**Lamp not included.**

**Approvals:** UL and C-UL Listed (E161028).

### ROCK GUARD

**Application:** Bronze color rock guard makes light origin less conspicuous in surrounding landscape. Prevents large objects from falling into Wellyte that could damage the lamp. For use with No. 3V845 PAR36 Wellyte.

**Construction:** Tough, fiberglass reinforced polyester composite.

**No. 3V846.** HADCO brand (IG30-H). Shpg. wt. 1.0 lbs. List $36.50.
Each ..... $24.43

### [B] PAR36 ROCKLYTE

**Applications:** Simulated rock with concealed PAR36 lamp inside blends into the landscape for general accent lighting.

**Construction:** Fiberglass reinforced molded concrete construction has natural looking granite shape. Durable silicone rubber lamp holder allows height adjustment and up to a 45° angle adjustment of lamp without tools or any mechanical moving parts that will corrode or rust. Open-ended design allows water to drain through fixture and keeps lamp clean. Natural granite color finish.

**Installation:** 48" cable with spade terminals and quick connector (included) for hook-up to low voltage supply line.

**Lamp not included.**

**Approvals:** UL C-UL Listed (E161028).

### [C] MINI IN-GROUND UPLIGHTS

**Applications:** Flush mount installation for uplighting trees, building facades, and walls.

**Construction:** Single-piece fiberglass reinforced polyester composite housing and guard will not corrode or peel from soil contaminants or weather—including coastal salt spray environments. Self-washing, tempered glass convex lens. Internal gimbal ring lamp holder allows 358° rotation and 15° off vertical adjustability for aiming lamp. Directional guard helps control glare. Bronze finish.

**Installation:** 36" cable and quick connector (included) for hook-up to low voltage supply line.

**Lamp not included.**

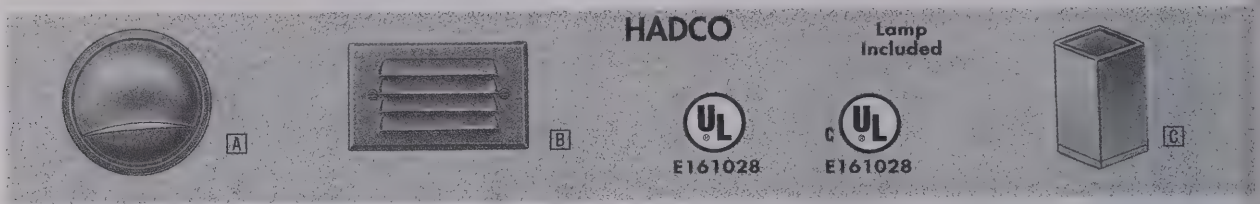
**Approvals:** UL C-UL Listed (E161028).

### [D] UNDERWATER POND LIGHT

**Applications:** Weighted bottom allows watertight fixture to remain submerged for uplighting applications in ponds.

**Construction:** Single-piece fiberglass reinforced polyester composite housing with watertight connector will not corrode or peel from weather or soil contaminants. Self-washing, tempered glass convex lens. Internal gimbal ring clamp holder allows 358° rotation and 15° off vertical adjustability for aiming lamp. Bronze finish.

**Installation:** Pre-wired with 10' round cable for wiring directly to low voltage supply line.



**Lamp not included.**

# LOW VOLTAGE OUTDOOR LIGHTING

## LOW VOLTAGE STEP AND DECK LIGHTING FIXTURES

Fixtures can be mounted on walls or posts along steps, pathways, walkways, decks, and borders. Provide illumination for footing safety. Available in surface and recessed mounting configurations.

**UL Listed** (E161028) for USA and Canada.

### [A] SURFACE MOUNT STEP & DECK LIGHT

**Applications:** Rugged, small profile fixture is ideal for mounting to railing posts and along steps, walkways, decks, and pathways.

**Construction:** Cast aluminum back and front cover. Horizontal cut-off and frosted glass shield directs light down for glare-free lighting.

**Finish:** Bronze powder coat.

**Lamp Included:** 18W, 1141-type single bayonet base lamp.

**Installation:** Pre-wired with 72" cable and quick connector (included) for hook-up to low voltage supply line.

### [B] RECESSED LOUVERED STEP LIGHT

**Applications:** For recessed lighting along steps, walkways, hallways, and decks.

**Construction:** Steel housing. Single gang recess box (3½L x 2¼W x2¾"D). Removable cast aluminum louvered faceplate with frosted glass lens directs light downward. Rubber gasketed.

**Finish:** Black powder coat.

**Lamp Included:** 12W, 93-type single bayonet base lamp.

**Installation:** Pre-wired with 72" cable and quick connector (included) for hook-up to low voltage supply line.

### [C] MINI SQUARE SURFACE DOWNLIGHT

**Applications:** Small, compact fixture is especially designed for placement under railings on decks or walkway fences.

**Construction:** Heavy-duty cast aluminum housing with frosted glass lens provides soft wide light distribution. Lens also prevents dirt and insect infiltration.

**Finish:** Black powder coat.

**Lamp (Included):** 18W, 1141-type single bayonet base lamp.

**Installation:** Pre-wired with 6 ft. cable and quick connector (included) for hook-up to low voltage supply line.

Check the Branch Locations listed in the front of this catalog for the location closest to you.**

**SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE**

**Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.**

# LANDSCAPE LIGHTING ACCESSORIES

## LOW VOLTAGE (12V)
### POWER CONSOLE TRANSFORMERS

Used to power and control 12V landscape lighting systems. 300W, 600W and 900W models have provision for optional plug-in timer (not included). 600W models feature two separate 300W circuits. 900W models feature three separate 300W circuits. Formed steel case with dark gray polyester powder coat finish. Epoxy encapsulated transformer. Thermostat protection on 120V primary side. Heavy-duty toggle magnetic circuit breaker protects transformer from overload on 12V circuit.

300W, 600W and 900W transformers feature 3 different voltage selections; 11V output for longer lamp life on short runs; 12V output for normal runs of cable up to 100 ft.; or 13V output for runs between 100 and 250 ft. in length, providing greater power availability. One, two, or three voltages may be utilized at the same time. Consoles supplied with 3 ft., 3-wire cord and plug for use with 120V 15A outlet (GFI protection recommended). Consoles can be 120V direct wired through 1/2" knockouts. Terminal connector strip accepts up to 8 AWG low voltage cable. **For timer use No. 2E274. For automatic dusk-to-dawn operation use photocell control No. 6P008.** UL Listed for wet locations and pool and spa use.

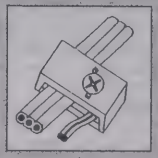
## MOUNTING STAKES

HADCO

No. 3V881 No. 3V882

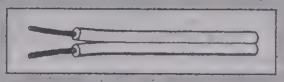
**Applications:** For ground installation of most low voltage fixtures requiring a 1/2" threaded NPT. Stakes can be driven into ground prior to installation to prevent damage to fixture.

**Construction:** Heavy wall PVC stake and cap will not corrode in soil. Bottom is cut at 45° angle for driving into ground. Cap is threaded to allow fixture to screw into opening and slotted on the side to allow voltage wire to exit. Stainless steel screws lock cap onto stake.



**No. 3V881. 12" Mounting Stake.** For low voltage light fixtures. HADCO brand (S-4). Shpg. wt. 0.5 lbs. List $18.60. Each ..... $10.24

**No. 3V882. Telescopic Mounting Stake.** For low voltage light fixtures. Provides height adjustment 2" to 14" above ground. HADCO brand (S-6). Shpg. wt. 1.5 lbs. List $28.41. Each ..... $17.86



**No. 3V920. 12" Long Mounting Stem.** For Pagoda Style path lighting fixtures. 1/2" NPS. Garden green powder coat finish. HADCO brand (S12-K). Shpg. wt. 0.4 lbs. List $23.20. Each ..... $13.35

## CONNECTOR AND CABLE

HADCO

No. 3V883

No. 3V937

**Connectors:** For quickly and securely connecting low voltage fixture wire to main 12V supply line without cutting or stripping wire or using wire connectors. High impact non-corrosive two-part plastic connector. Top part of connector has heavy-duty contact prongs that pierce cables. Captive stainless steel screw locks connector together. For 18-16 AWG parallel low voltage fixture wire and 14-10 AWG parallel low voltage supply line cable. HADCO brand (LVC-3).

**No. 3V883.** Shpg. wt. 0.1 lbs. List $10.16. Each ..... $6.35

**Cable:** For outdoor surface or direct burial applications. Sunlight resistant. UL Listed (E11368). See pages 1107 and 1108 for additional application information. Carol Cable brand.

## OUTDOOR LIGHTING MOUNTING STANDARD

**Description:** Ground mounting lighting standard which installs faster, easier, and is less expensive than conventional conduit and FS box installations.

**Applications:** For outdoor ground level mounting of landscape products, sign and accent lighting, and walkway and security lighting.

**Construction:** Heavy wall noncorrosive PVC pipe and cap resist abuse from mowing and chemical fertilizers. Molded-in color won't peel or fade.

**Installation:** Sloped bottom access hole allows conduit or UF cable to enter from different levels. Approved as a wiring chamber with 1/2" NPS metal hub in cap. Includes integral ground wire. Built-in stabilizer prevents tilting or shifting without concrete. Paintable with water based paint.

**Approvals:** UL Listed (E57163) for wet locations.

**Stonco brand.**

STONCO

# LANDSCAPE ACCENT LIGHTING FIXTURES & ACCESSORIES

## LINE VOLTAGE (120V) TYPES

### A & B PAR38 FLOOD LIGHT & PAR20 ACCENT LIGHT

**Applications:** Versatile, multi-purpose fixture is popular for uplighting trees, building facades, walls, and spot lighting.

**Construction:** One-piece injection molded Ryton PPS. Fully adjustable swivel arm with locking teeth for precise aiming capability. Bronze thermoset powder coat finish.

**Lamp (not included):** No. 3V838 uses a PAR38 lamp up to 150W. An R40 up to 150W may be used with optional lens/shroud No. 3V839. No. 3V836 uses a PAR20 lamp up to 50W. An R20 up to 50W may be used with optional lens/shroud No. 3V837.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120 volt circuit. 1/2" NPS mounting arm.

**Accessories:** No. 3V838. Rotatable lens/shroud (No. 3V839) reduces glare and seals fixture.

No. 3V836. Rotatable lens/shroud (No. 3V837) reduces glare and seals fixture.

**UL and C-UL Listed** (E151372).

### C PAR38 CLASSIC ACCENT

**Applications:** Uplighting trees, building facades, walls, and spot lighting. Its attractive design makes it a good choice for applications where it remains in view, such as floodlighting. It also works well for silhouetting and shadowing.

**Construction:** Heavy-duty cast aluminum housing. Large weep areas in shroud allow water and debris to wash off the front of the lamp. Fully adjustable swivel arm with locking teeth provides precise aiming capability. Bronze powder coat finish.

**Lamp (not included):** PAR38, 150 watt maximum.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. 1/2" NPS mounting arm.

**UL and C-UL Listed** (E151372).

### D MINI IN-GROUND UPLIGHTS

**Applications:** Flush mount installation for uplighting trees, building facades, and walls.

**Construction:** Single-piece fiberglass reinforced polyester composite housing and guard will not corrode or peel from soil contaminants or weather—including coastal salt spray environments. Self-washing tempered glass convex lens. Integral low voltage transformer (included) for MR16 low voltage lamping. Internal gimbal ring lamp holder allows 358° rotation and 15° off vertical adjustability for aiming lamp. Directional guard helps control glare. Architectural bronze finish.

**Lamp (not included):** MR16, 75 watt maximum.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit.

**UL and C-UL Listed** (E116655).

### E FLUORESCENT SIGNLYTER

**Applications:** Use for sign lighting, wall washing building facades, and roof lighting.

**Construction:** Heavy-duty one-piece extruded aluminum housing with architecturally styled, rounded cast aluminum end caps and integral shroud. Highly reflective hammertone aluminum reflector for a smooth beam pattern. Clear acrylic, fully gasketed lens. Bracket is hinged for easy relamping. Twin adjustable mounting arms with vibration proof locking teeth. **Finish:** Tough bronze thermoset powder coat finish.

**Lamp and ballast:** Uses one F32 T8 lamp, (not included) and encapsulated, high efficiency cold weather (0°F) electronic ballast.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. Two, 1/2" NPS mounting arms with adjustable distance between swivels.

**UL Listed** (E100287) for wet locations.

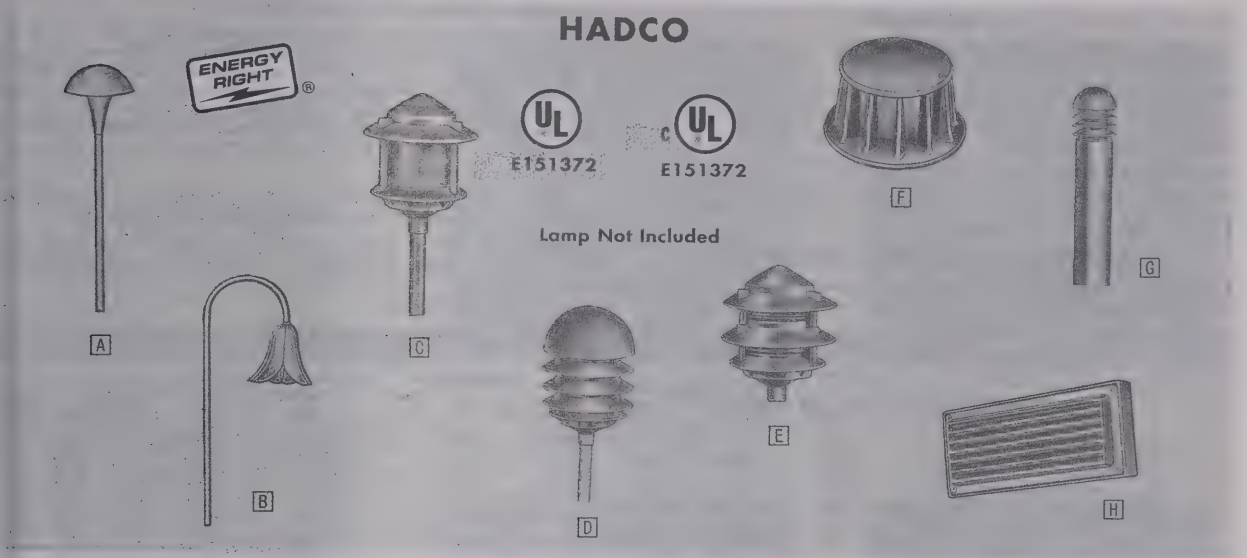
(*) Other lamp types available, for a more complete listing see Index under Lamps, Incandescent. (✓) Denotes energy efficient product.

## LINE VOLTAGE (120V) LIGHTING ACCESSORIES

### ROTATABLE LENSES/SHROUDS



Reduces lighting glare and seals fixtures from moisture and dirt. Must be used with type "R" lamps.

**No. 3V839.** For use on No. 3V838. Hadco brand (4CHLC). Shpg. wt. 0.9 lbs. List $80.92. Each ..... **$47.20**

**No. 3V837.** For use on No. 3V836. Hadco brand (1CHLC). Shpg. wt. 0.8 lbs. List $72.19. Each ..... **$40.95**

# LINE VOLTAGE (120V) TYPES

## HADCO

All fixtures are designed for path, walkway and spread lighting around ground cover and small plantings.

**UL AND C-UL Listed (E151372)**

### A MUSHROOM LIGHT & B TULIP LIGHT

**Applications:** Both styles compliment traditional and contemporary landscapes.

**Construction:** Heavy-duty cast aluminum housing and stem (included). No. 3V860 has hidden stainless steel fasteners that secure mushroom cap to cone bottom. Lamp is positioned in the bottom of mushroom cone to produce a smooth uniform light pattern without any glare. No. 3V863 fixture is open at the bottom for higher light levels and easy re-lamping.

**Finish:** Hand rubbed verde antiqued over black powder coat gives appearance of natural weathered copper. Underside of mushroom cap is a reflective white.

**Lamp (Not Included):** Use A19 lamp up to 100W. Suggest No. 5V600.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. 1/2" NPS thread stem (included) for mounting.

### C INDIRECT PATH LIGHT

**Applications:** Creates a soft, luminescent ambience especially suited for garden areas and around patios and decks.

**Construction:** Heavy-duty cast aluminum. Stainless steel fasteners secure pagoda cap to the bottom. 12" long aluminum stem (included). Glass jar lens is painted white on the inside for added efficiency and painted verde on the outside to hide light source. Light is reflected off underside of pagoda cap to provide a glare-free smooth uniform light pattern.

**Finish:** Hand rubbed verde antiqued over black powder coat gives appearance of natural weathered copper.

**Lamp (Not Included):** Uses A19 lamp up to 75W. Suggest No. 5V599.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. 1/2" NPS threaded stem (included) for mounting.

### D DOMED LOUVER PATH LIGHT

**Applications:** Contemporary design of fixture can be used alone or to compliment Bollard accent lights.

**Construction:** Heavy-duty all cast aluminum. Stainless steel fasteners secure domed cap and louvers to the bottom. Clear molded glass lens. 12" long stem (included).

**Finish:** Bronze powder coat.

**Lamp (Not Included):** Uses A19 lamp up to 100W. Suggest No. 5V600.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. 1/2" NPS threaded stem for mounting.

### E PAGODA PATH LIGHT

**Applications:** Pagoda style is a popular addition to green gardens, curved pathways and long driveways.

**Construction:** Heavy-duty all cast aluminum. Stainless steel fasteners secure pagoda cap and louvers to the bottom. Clear molded glass lens screws into the pagoda bottom.

**Finish:** Green garden powder coat.

**Lamp (Not Included):** Uses A19 lamp up to 60W. Suggest No. 5V598.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit.

**Accessories:** 12" long mounting stem. 1/2" NPS. Green powder coat finish No. 3V920 (not included, see page 1113).

### F GROUND MOUNTED BEACON

**Applications:** For pathway, sidewalk, driveway, poolside, dock and marina lighting. Beacons can be mounted in the ground or semi-recessed in brick, concrete, or wood. Durable fixtures are able to withstand abuse and wear and tear.

**Construction:** Heavy-duty cast aluminum housing. Stainless steel fasteners and removable roof cap for easy relamping. Tough borosilicate glass refractor lens directs light downward to reduce glare and provide 360° light distribution.

**Finish:** Bronze powder coat.

**Lamp (Not Included):** Uses A19 lamp up to 100W. Suggest No. 5V600.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. Can be hard wired directly to socket terminals eliminating need for additional junction box.

CONTINUED ON NEXT PAGE

# LINE VOLTAGE (120V) TYPES (cont.)

## G BOLLARD

**Applications:** Used when wide, large scale 360° light distribution is desired.

**Construction:** Cast aluminum fixture is secured with stainless steel fasteners to the extruded aluminum bollard. Clear glass lens protects lamp. Top assembly easily removed for re-lamping.

**Finish:** Bronze powder coat.

**Lamp (Not Included):** Uses A19 lamp up to 100W.

**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. Cast aluminum base plate is anchored with three, 1/2" dia. rods for sturdy mounting.

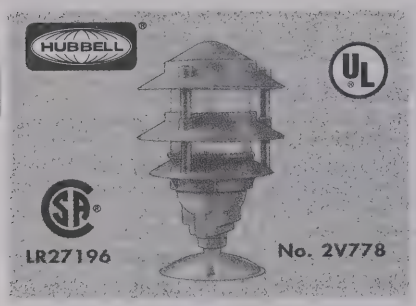
## H RECESSED LOUVERED BRICKLYTES

**Applications:** Designed as matched replacement for a standard size brick. Light fixtures provide safety and aesthetics along steps, pathways, walkways, decks, and borders.

**Construction:** Rugged, cast aluminum housing has four 1/2" NPT inlets and an internal wiring chamber. Recessed housing dimensions 8¼L x 2¼H x 3½"D. Heavy-duty cast aluminum louvered faceplate with frosted glass lens provides 45° cut-off for low glare light distribution. High performance aluminum reflector to optimize symmetrical light output. Silicone O-ring gasket. Front faceplate easily removed for re-lamping.

**Finish:** Bronze powder coat.

**Lamp (Not Included):** No. 3V854 uses T10 incandescent lamp up to 40W. No. 3V855 uses 9W compact fluorescent F9BX lamp.



**Installation:** Pre-wired with 18 AWG high temperature wire for 120V circuit. Mounting hardware included for concrete pour applications.

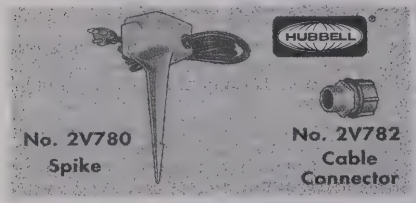
# 120V, PERMANENT INSTALLATION FIXTURES

**Available in Incandescent and Energy-Saving Fluorescent Types**

Permanent installation fixtures used to define walkways and driveways, to accent landscapes and provide security lighting.

**Housing:** Weather and corrosion-resistant thermoplastic. 1/2" NPT hub with 16" wire leads. Dark green color.

**Globe:** Clear ribbed lens has weathertight seal and diffuses light. No. 2V778 fluorescent unit has 10 times the life of an incandescent lamp and reduces energy costs.



**120 Volt, 60 Hz.** Hubbell Lightscaper® brand.

**Lamp:** Included on No. 2V778, recommended replacement lamp No. 2V833. Lamp not included on No. 2V779, recommended lamp 40W, No. 2V482.

**UL Listed;** CSA Certified (LR27196).

# HALO POWER-TRAC® TRACK LIGHTING

## TRACK LIGHTING SELECTION GUIDE

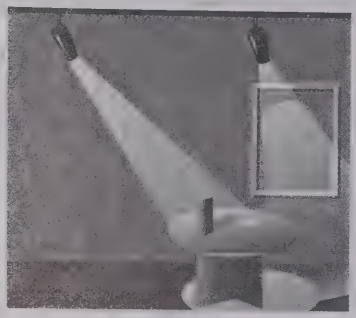
### TRACK LIGHTING

Versatile Halo Power-Trac track lighting allows light to be directed where it is needed to achieve a variety of effects: accent lighting, task lighting, general illumination, and wall washing.

### BROAD SELECTION OF TRACK FIXTURES

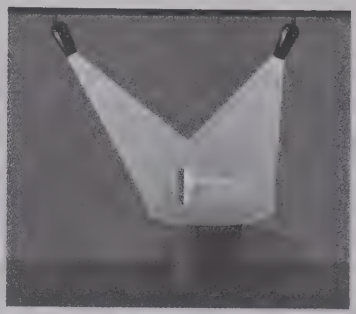
Select from a wide variety of fixture styles ranging from contemporary to traditional in colors to match most commercial or residential decor.

Halo standard line voltage and low voltage track fixtures are offered in a wide range of wattages. Each provides maximum efficiency when used with the recommended lamp. Standard line voltage track fixtures accept A-lamps, R and PAR lamps, as well as PAR20, PAR30, and PAR38 tungsten halogen lamps. Low voltage track fixtures accommodate 12V MR16 lamps.



### VARIETY OF FEATURES

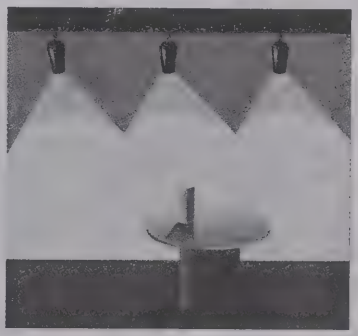
Track fixtures are engineered to rotate 358° and adjust horizontally 90°, providing greater lighting flexibility. Halo track fixtures and connectors meet UL standards and provide optimum safety. Fixture adapters are both mechanically and visually keyed. An integral mechanical feature assures safe electrical operation when the polarity lines of the track and the polarity marks of the fixture adapter are aligned.



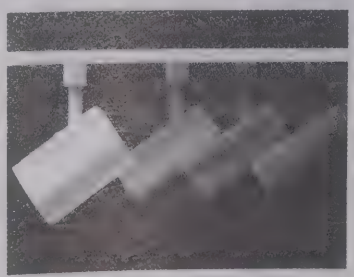
Low voltage track lighting provides additional energy-savings with contemporary accent lighting. Each low voltage fixture requires a transformer to convert line voltage to low voltage—some track fixtures include a built-in transformer while others require a separate solid state transformer. See page 1120 for specific fixtures and transformer options. Electrical lockout prevents accidental operation.

Track fixtures can be snapped in at any point along the track section. Exclusive Quick-Loc Mounting Mechanism makes the track fixtures easy to install. All wires and swivel stops are concealed. Contacts in the adapter are spring loaded to assure proper connection with Power-Trac electrical conductors.

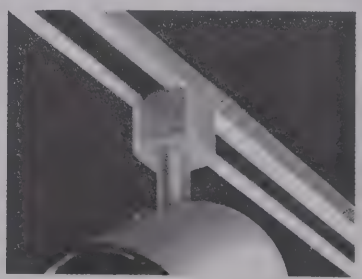
Lamp sockets with nickel plated brass screw shells will not oxidize, therefore relamping is easy.



**Accent Lighting—Provides directional lighting to bring out the best selling features of merchandise, pinpoint high key decor, emphasize artwork, make a room look larger by adding contrast and shadows.**



**Task Lighting—Delivers well-focused illumination on work surfaces, desks, or counters.**



**General Lighting—Provides a uniform level of illumination for entrances, corridors, lobbies and large rooms.**

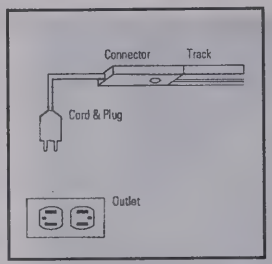
**Wall Washing—Illuminates vertical surfaces from ceiling to floor. Can be used to expand space visually, define a space, light a wall of pictures, emphasize color or texture.**

**Track fixtures can be snapped in at any point on Power-Trac section.**

**Track fixture adapters are keyed. An integral mechanical feature assures safe electrical operation when the polarity lines of the track section and the fixture are aligned.**

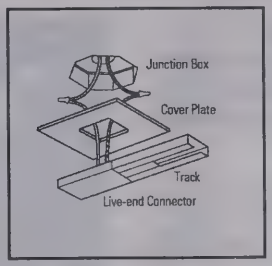
# HALO POWER-TRAC® TRACK LIGHTING

## TRACK LIGHTING INSTALLATION INFORMATION



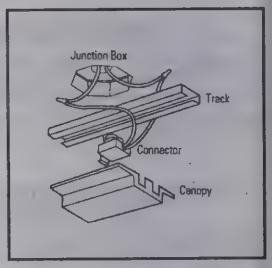
### TRACK ELECTRICAL CONNECTIONS

Halo Power-Trac is rated for a maximum 20 amp capacity. Power-Trac Track Lighting electrical connections can be made in a variety of ways:



**Cord and Plug Connector.** A simple way to connect track without permanent wiring. Snap the connector into the track and plug the cord into wall outlet.

**Live End Connector.** An easy way to connect the track to the junction box. Join the live end connector with the track, mount to ceiling and attach wires to the live end connection.

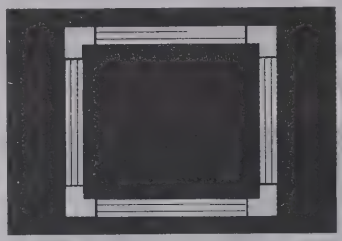


**Floating Canopy.** A convenient way to join the junction box to any point on the track. Connect the junction box wires to the twist lock connector and secure the connector to the track. The canopy should cover the connector and the track.

**Cord and Plug Connector**

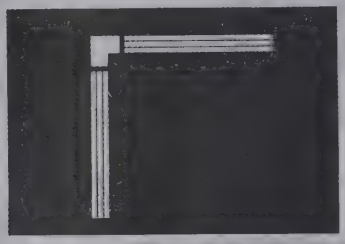
**Live-End Connector (shown with outlet box cover)**

**Floating Canopy**



### TRACK LIGHTING LAYOUTS

Halo Power-Trac sections can be surface mounted individually or joined to form continuous runs of any length. The Power-Trac system also allows the formation of any 90° angle or rectangular grid pattern by using appropriate connectors. The flexible connector permits angular layouts from 0-90° on a ceiling or continuous connection from wall to ceiling. Plan layouts using the following steps:



Lay out the track pattern desired. Normally this plan is based on a 4' module since track sections come in 2, 4 and 8' lengths. Note that the module is measured from the center of the outlet box to the center of the connectors.

Should special lengths be required, track sections may be easily cut. Instructions are included with each Power-Trac section.

Upon completing the layout, locate the electrical feed points (outlet box locations). The feed point is generally located at the beginning of a track run requiring the use of a Live End Connector or any connection point (except mini-connector) and an Outlet Box Cover. If more than one length of track is needed, a connector must be ordered for each additional track section.

# HALO POWER-TRAC® LIGHTING SECTIONS AND CONNECTORS

COOPER Lighting HALO

UL E40128

## POWER-TRAC® SECTIONS

- Sections available in 2, 4 and 8' lengths
- Only 11/16" deep by 1⅜" wide
- Available in white or black finishes
- Fully polarized and grounded
- Extruded aluminum channel
- Connectors sold separately below
- Visual polarity line indicates proper electrical installation
- Connectors simply push into the ends of Power-Trac section—no splicing
- Connectors allow assembly in any pattern
- UL Listed (E40128)

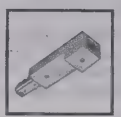
## POWER-TRAC® CONNECTORS

COOPER Lighting HALO

UL E40128 (Except Nos. 6VT12 & 6VT13)



A Outlet Box Cover. Can be used in any electrical feed point.

D Straight Connector. Connects two Power-Trac Sections end-to-end with center feed option.

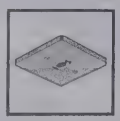
G Mini-Connector. Joins two straight Power-Trac sections end-to-end. (Not a feed point).

J Live End Conduit Fitter. Accepts standard 1/2" trade size conduit. Use when feeding to track with surface conduit system.

B Live End Connector. To start a run of track.

E L Connector. Connects two track sections at a right angle. Adjustable for either right or left angle applications.

H Floating Canopy and Connector. Power-Trac section connects to existing outlet box located anywhere along the track. Cover, connector, dead-end & mounting hardware.



K T-Bar Attachment Clip. Allows track to be attached to inverted T-Bar ceiling. Order as follows: 2 kits for 2 or 4' and 3 kits for 8' Trac.

C Flex Connector. Connects two track sections at any angle up to 90°, wall to ceiling or pitched ceiling application.

F Outlet Box. For use with T-Bar ceiling. Live end connector, straight or L connector also required.

I Canopy Adapter. Mounts permanently to outlet box. 4 ½" square. Allows any lampholder to be converted to canopy installation. Low voltage, use Nos. 6VT11 or 6VT20.

L Cord and Plug Connector. 12' three-wire cord with grounded plug. Maximum capacity is 10 amp.

# HALO RECESSED DOWNLIGHTING SELECTION INFORMATION

## RECESSED LIGHTING

- Adds light to an area without affecting the other design elements
- Fixtures are unobtrusive—provide a variety of lighting effects from general illumination to wall washing
- Installation: 1) Choose type of housing that best suits construction requirements; 2) Choose trim required for desired lighting effect

## HOUSING TYPES

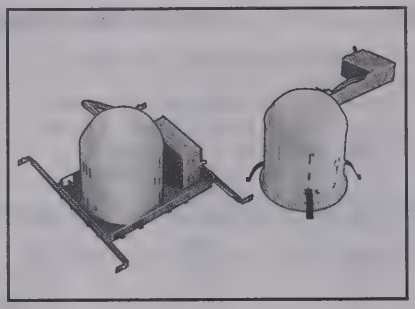
The housing is the main element of a recessed lighting installation. They are available in various types and lamp sources to meet specific requirements.

### Standard Recessed Housings

- Used for applications such as new construction or remodeling where there is access above the ceiling
- Fully adjustable, captive bar hangers will span 24" joists or T-bars
- Housing can be positioned at any point along bar hangers; bar hangers can be easily repositioned 90° to fit any installation configuration

### Remodel Housings

- Simplifies installation where there is no access above a ceiling such as between floors in a building
- Housing slips through ceiling opening; flange secures fixture against ceiling
- Includes remodeling clips to secure housing in place and adjusts for different ceiling material thickness



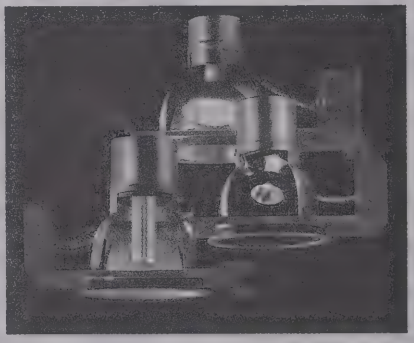
## TRIM TYPES

The trim is the finishing part of a recessed lighting installation.

- Housings accept several different trims to achieve desired lighting effects—general downlighting, directional lighting, wall washing
- No tools necessary
- Different trims may be substituted if lighting needs change

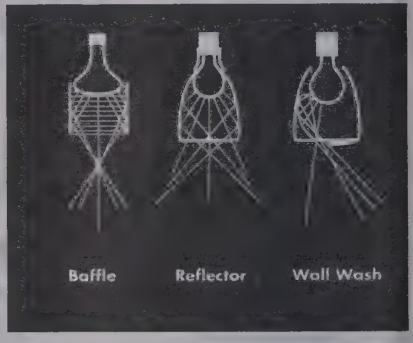
## SAFETY

- All Halo recessed downlights are equipped with thermal protection
- Lights shut off if abnormal heat buildup occurs; problems arise if lamp wattage is too high or insulation is not properly installed around housing
- All Halo housings are UL Listed for damp locations; Meet current NEC requirements
- To ensure safety, use Halo recessed housings with Halo trims only



## CHOICE OF HOUSING TYPES

- Standard Recessed Downlights are used for new construction and where there is access above the ceiling
- Remodel Recessed Downlights are used for remodeling installations where there is no access above the ceiling
- Frame-In Recessed Fixtures may be used for either new construction or remodeling

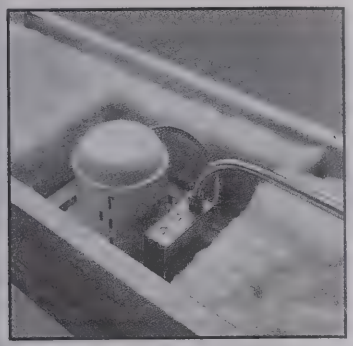


## VARIETY OF LIGHTING EFFECTS

- General lighting provides uniform level of illumination
- Wall washing provides light on walls and makes an area seem larger
- Accent lighting or task lighting provides well-focused illumination on work surfaces

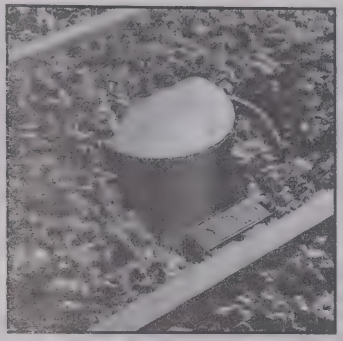
## CHOICE OF LAMP TYPES

- Incandescent housings use low cost A and R type lamps
- Incandescent Low Voltage lamp housing provide dramatic spotlighting and accent lighting
- Compact Fluorescent lamp housings combine high efficiency, low wattage, and good color
- HID recessed Downlights offer the highest efficiency and lowest operating cost



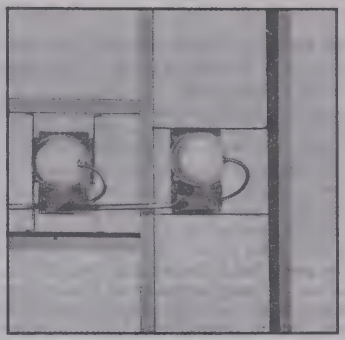
## TRIMS CONTROL LIGHT OUTPUT

- Baffles minimize glare and control light
- Reflectors and reflector cones provide broad lighting coverage
- Wall wash trims direct the light towards the wall
- Eyeball and adjustables direct the light where needed



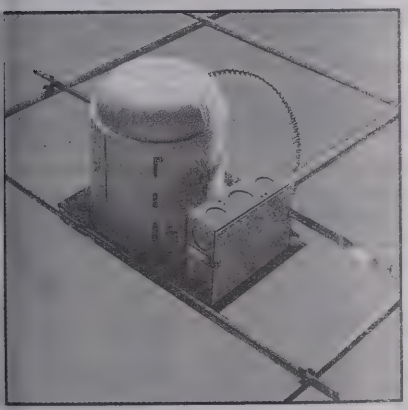
CONTINUED ON NEXT PAGE

# HALO RECESSED DOWNLIGHTING INSTALLATION INFORMATION



## T HOUSINGS—KEEP INSULATION 3" FROM FIXTURE

- Halo T housings may be used in areas where insulation is present but insulation material must be kept at least 3 inches from the housing
- T housings are equipped with a thermal protector that will shut off the light if insulation material is not properly spaced from the fixture or if the lamp wattage listing is exceeded

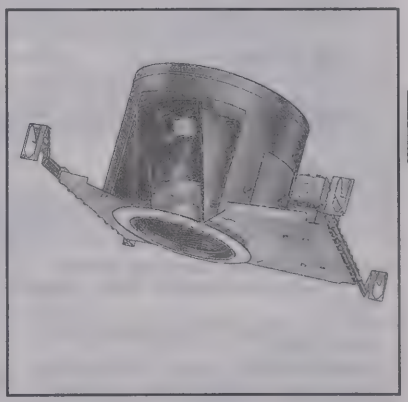


## ICT HOUSINGS—CAN BE COVERED WITH INSULATION

- Halo ICT housings may be completely covered with insulation material; Note that ICT housings usually have lower wattage listings than standard T housings
- ICT housings help maintain heating and air conditioning efficiency
- Constructed of heat dissipating aluminum which provides energy savings and reduces costs

## FEED THROUGH ELECTRICAL WIRING

- Recessed downlights are equipped with "Feed-Thru" junction boxes which allow a series of lights to be wired from one to the other or branch circuits to be fed through the housing junction box
- Housings may be wired with conduit, Romex or BX (be sure to follow local codes)
- All housings and trims are UL Listed

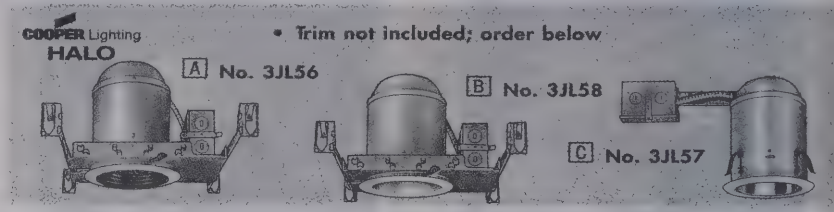


## HOUSINGS FOR NEW CONSTRUCTION/ACCESS ABOVE CEILING

- Recessed downlights include captive, adjustable bar hangers for installation to wooden joists or T-bar grid ceiling members
- Hanger bars may be positioned on either side of housing to simplify installation

## HOUSINGS FOR REMODELING/NO ACCESS ABOVE CEILING

- Remodel housings can be installed from below the ceiling
- Flexible cable is used for power connections
- Remodel springs and clips anchor housing to ceiling and adjust for different ceiling thickness



## HOUSINGS FOR SPECIAL APPLICATIONS

- Slope ceiling units are available for vaulted or cathedral slope ceiling installations
- Shallow housings for areas with limited ceiling space
- Deep baffle housings are available for superior visual cutoff

# RECESSED LIGHTING

## 5" RECESSED HOUSINGS

- All housings are thermally protected
- Socket snaps into trim for consistent lamp positioning
- Junction box is approved for through branch circuit wiring; seven 1/2" knockouts with true pry-out slots
- Four Romex pryouts with integral strain relief to simplify installation
- Pre-installed, captive bar hangers allow positioning at any point within a 24" joist span. Score lines provided for easy field shortening for 12" joists. Unique arrowhead design provides "nailless" installation. Bar hangers can be repositioned 90° without tools on plaster frame
- UL Listed for damp locations (E75440); CSA Certified (LR31006) feed through junction box
- 7½" height allows installation in 2 x 8 construction
- Housing adjusts 1⅜" to accommodate various ceiling thicknesses

A **No. 3JL56. ICAT Air-Tite Housing.** For installation where there will be direct contact with ceiling insulation. Integral thermal protector provides positive protection against over-lamping. Meets restricted air flow requirements; prevents valuable energy dollars from being wasted. Halo brand (H5-ICAT).

**No. 3JL56.** Shpg. wt. 3.1 lbs. List $30.95.
Each ..... **$18.55**

B **No. 3JL58. T Housing.** Non-IC thermally protected housing for use in insulated and uninsulated ceilings. When installed in a ceiling with insulation, air space around fixture is required. Halo brand (H5-T).

**No. 3JL58.** Shpg. wt. 3.9 lbs. List $26.55.
Each ..... **$15.89**

C **No. 3JL57. Remodel RT Housing.** Designed for quick and easy installation in new or existing buildings. Can be installed from below a finished ceiling. Spring clips lock the fixture in place. Halo brand (H5-RT).

**No. 3JL57.** Shpg. wt. 2.3 lbs. List $26.55.
Each ..... **$15.89**

Order trims on page 1126

Order lamps separately; see Index under Lamps, Incandescent

- UL Listed for damp locations
- Feed through junction box

## REMODEL RECESSED HOUSINGS

### A No. 6VT92 H7 RT HOUSING

- Heavy-duty steel housing
- Thermally protected T housing; keep insulation 3" from fixture
- Use in remodeling applications where there is no access above ceiling
- Adjustable socket plate

### B No. 6VT91 H7 RICT HOUSING

- Heat dissipating aluminum housing
- Thermally protected ICT housing; may be covered with insulation providing energy-savings, reducing costs
- Use in remodeling applications where there is no access above ceiling

## STANDARD RECESSED HOUSINGS

### C No. 6VT90 H7 T HOUSING

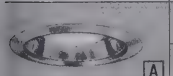
- Heat dissipating aluminum housing
- Thermally protected ICT housing; may be covered with insulation providing energy-savings, reducing costs
- Use in remodeling applications where there is no access above ceiling

### D No. 6VT89 H7 ICT HOUSING

- Heat dissipating aluminum housing
- Thermally protected ICT housing; may be covered with insulation providing energy-savings, reducing costs
- Use in new construction or where there is access above the ceiling
- Nailess captive bar hangers can be used on either side for ease of installation

### E No. 6W832 H7 UICT HOUSING

- Heat dissipating aluminum housing
- Thermally protected double wall UICT housing permits cool operation with high wattage lamps when covered with insulation providing energy-saving, reducing costs
- Use in new construction or where there is access above the ceiling
- Fixed socket position



### F No. 6F552 H7 ICAT AIR TIGHT HOUSING

- Heat dissipating aluminum housing
- Housing is thermally protected; can be covered with insulation for energy savings
- Used in new construction, or where there is access above ceiling
- Nailess captive bar hangers can be used on either side for easy installation
- Gasket provided to prevent air leakage into unconditioned space
- Conforms to section 502.4.4 of Washington State Energy Code

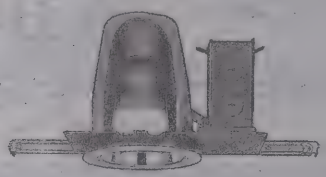
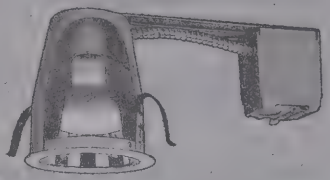
# 4" RECESSED HOUSING



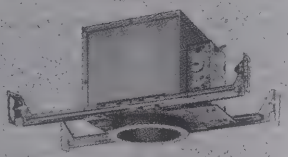
**COOPER Lighting**
**HALO**

E75440

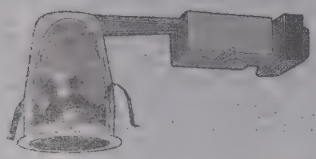


**Order trims on following page**

**Order lamps separately; see Index under Lamps, Incandescent (line voltage models); Lamps, Low Voltage Display (low voltage models)**



- **UL Listed for damp locations**
- **Feed through junction box**



A No. 6VCH9
T Housing

B No. 6VT82
Remodel RT Housing

C No. 6F551 ICAT
Air Tight Housing

D No. 6VCK1
Remodel RT Housing

E No. 6VCK0
T Housing

## LINE VOLTAGE

### A No. 6VCH9 T HOUSING

- Thermally protected T housing; keep insulation 3" from fixture
- Use in new construction or where there is access above the ceiling
- Nailess captive bar hangers may be positioned on either side of housing for ease of installation

### B No. 6VT82 REMODEL RT HOUSING

- Thermally protected T housing; keep insulation 3" from fixture
- Use for remodel applications where there is no ceiling access
- Housing may be removed and replaced

### C No. 6F551 ICAT AIR TIGHT HOUSING

- Heat dissipating aluminum housing
- Housing is thermally protected; can be covered with insulation for energy savings
- Used in new construction where there is access above ceiling
- Gasket provided to prevent air leakage into unconditioned space
- Conforms to section 502.4.4 of Washington State Energy Code

## LOW VOLTAGE

### D No. 6VCK1 REMODEL RT HOUSING

- Thermally protected T housing; keep insulation 3" from fixture
- Use 12V lamps not included, see Index under Lamps, Low Voltage Display
- Integral magnetic transformer steps 120V input down to energy efficient low voltage operation
- To dim system, order No. 6E030 (single pole) or No. 6E031 (3-way)
- Use for remodel applications where there is no ceiling access

### E No. 6VCK0 T HOUSING

- Thermally protected T housing; keep insulation 3" from fixture
- Use 12V lamps not included, see Index under Lamps, Low Voltage
- Integral magnetic transformer steps 120V input down to energy efficient low voltage operation
- To dim system, order No. 6E030 (single pole) or No. 6E031 (3-way)
- Use for new construction or where there is access above the ceiling
- Captive bar hangers may be positioned on either side of housing for ease of installation

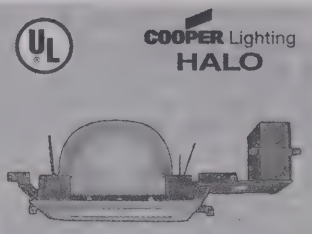
# SQUARE HOUSINGS

## T HOUSINGS

alo T Housings may be used in areas here insulation is present, but insulation aterial must be kept at least 3" from the de of the housing. T housings are quipped with a thermal protector that will ut off the light if insulation material is ot properly spaced from the fixture or if ie lamp wattage listing is exceeded.



## HOW TO ORDER

**rder trims separately below.**

**o Order:** Find housing Stock No. on top f chart and move down the column to esired trim. Compatible trims are indicat- d by lamp type and maximum wattage.

# EMERGENCY AND EXIT LIGHTING

## SELECTION AND APPLICATION INFORMATION

### Emergency Lighting

Emergency lights are designed to provide egress lighting in critical areas during power failures. Although local codes may be more specific, emergency lights should provide illumination in halls, stairways, and other public areas. Some installations may require a remote lighting head at each exitway.

### Exit Lighting

Exit signs are designed to provide safe and dependable egress marking to help direct occupants from public areas of buildings. Local codes may vary, but exit signs should provide directional information on halls, stairways, and corridors.

### CONSTRUCTION

Material used in construction of emergency and exit lighting

**Thermoplastic**

Used extensively in unit heads and some housings. This durable, lightweight, flame resistant (U/L 94-VO) material is a perfect match for the demanding environment of life safety equipment.

**Die-Formed Steel**

No housing material matches the strength of steel. The die-formed housing with baked enamel finish makes this enclosure an economical choice.

**Die Cast Aluminum**

Provides the combination of strength, durability, and style in exit lighting.

**Universal Mounting**

The backplate of all surface mount products include pre-formed punch-out universal mounting holes. This allows the unit or exit to be mounted onto most standard j-boxes. Exits also have similar type holes that allow wall or top mounting the exit with the supplied canopy.

### ELECTRONIC COMPONENTS

All components for charging or activating the fixture in a power failure are solid state—there are no mechanical parts to wear or corrode.

**Dual Voltage**

The unit will accept both 120 or 277 volts on the primary input.

**Line Latching**

Allows connection of the battery before the primary power is activated. It is not necessary for the contractor to return to the job, a second time, to connect the battery when the AC power is permanently turned on.

**Low Voltage Disconnect**

Removes the lamp load from the battery at a preset level. This prevents over-discharging the battery. A condition that can permanently damage the battery. Automatically resets when AC power is restored.

**Brownout**

Activates the emergency lighting when an AC brownout condition exists (80% of normal voltage) on the primary supply. This reduction in power may cause ballasted fixtures to extinguish, leaving the area without lighting, even though a total power failure has not occurred.

**Overload/Short Circuit**

A solid state device in the DC circuit constantly monitors the circuit load and instantly disconnects the lamps when an overload condition occurs. The device automatically resets when the trouble is removed from the circuit.

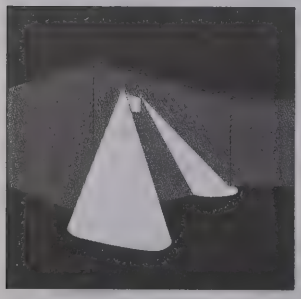
**Solid State Switching**

Solid state electronic switching ensures a smooth transfer to emergency status every time. Accurate, continuous sensing of the AC power supply provides instant changeover to battery power when a power failure occurs. Upon restoration of power, the unit will switch back to standby mode and begin recharging the battery.

### BATTERIES

**Lead Calcium**

The most popular compact, maintenance free battery is an economical choice for the standby service demands of emergency lighting. Stable internal construction, integrated vents, and a high-impact outer case allows this battery to be installed in any position.



### INSTALLATION

Emergency lights should be installed in accordance with local codes. All emergency lights require a 24 hour unswitched power supply. Some units have a sufficient wattage output to power other units or remote heads. Remotes may be connected to the main unit with only DC wiring.

Batteries are sealed and maintenance free and automatically charged and recharged. A monitor light indicates that the AC power is on and a test switch is available on all units to conduct a test of the battery charger and DC lamps. All units should be tested periodically. For additional information on exit sign and emergency lighting requirements, contact your local authority.

# SELECTION AND APPLICATION INFORMATION

## Helpful Hints

### What factors should be considered when designing an emergency exit lighting system?

-Local codes

-Mounting height

-Direction of lamps to minimize glare and
/e contact

-Environment—to be sure that equipment
compatible with explosive or corrosive
mospheres—a concern in areas like oil
elds or industrial plants

-Operating temperature—the placement
the unit in areas with high or low ambi-
nt temperatures can seriously degrade
ther the performance of the unit or life
xpectancy of the battery

-Mobility of visitors and/or their familiar-
y with a facility. In areas where evacua-
on may take extra time because of physi-
al impairments or surroundings unfamil-
r to infrequent visitors, (important in
ospitals, doctors' offices, nursing homes,
c.), it may be desirable to raise the level
f illumination above the minimum
equired or to extend the discharge time
eyond 90 minutes

-Narrow exit stairwells—it may be neces-
ary to increase the level of illumination
here narrow or steep stairwells are used
or exit

### How should emergency lighting be tested?

All emergency lighting equipment is supplied with a test switch for checking illumination. The Life Safety Code 101 addresses testing for the first time and will require that all emergency lighting systems be tested at least monthly for 30 seconds and yearly for 90 minutes. Written records must be kept and provided for verification upon request during inspections.

### How should emergency lighting equipment be maintained?

All emergency lighting including "maintenance-free" equipment requires periodic inspection and maintenance. The words "maintenance-free" refer to the battery. To service "maintainable batteries" the manufacturers instruction manual should be consulted. Maintenance-free batteries should be replaced as required when they no longer provide sufficient output to maintain the lighting load. In addition, the lenses of emergency lighting fixtures should be cleaned periodically to ensure optimum light transmission.

### Can maintenance-free batteries be used as substitutes/replacements in units originally equipped with maintainable batteries?

No, they cannot! Maintenance-free batteries require different charging techniques as well as important safeguards for the discharge of the battery.

### Can maintainable equipment be replaced with maintenance-free equipment?

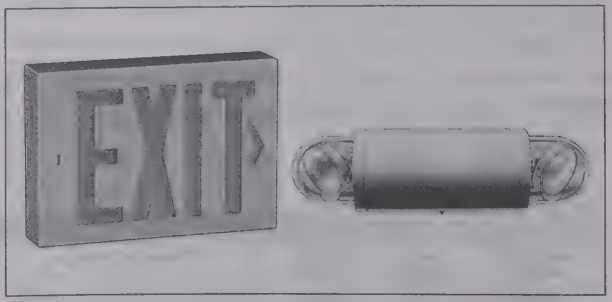
Typically when replacing maintainable equipment with maintenance-free equipment both the emergency unit and all lamp heads should be replaced. This ensures that wattage requirements do not exceed the battery's capabilities to power the head for a minimum of 90 minutes which conforms with the National Electrical Code. Always check with a local electrical inspector for possible additional local code requirements.

### What standard features should be included in emergency lighting equipment?

The features that a user of emergency lighting equipment should look for are solid state charger, maintenance-free battery, low voltage disconnect, properly designed lighting heads, and overload protection.

### Are all competitive units the same?

All reputable manufacturers' equipment is generally UL Listed which means that the equipment meets the minimum standards set by UL for emergency lighting equipment. However, that is where the similarity in equipment ends. Before purchasing equipment compare the standard features of several brands of equipment.



## EMERGENCY/EXIT ECONOMIC COMPARISON

| Description | Incandescent | LED |
|---|---|---|
| ypical Cost | $45.00 | $56.10 |
| amp Cost | $3.00 | N/A** |
| lumber of Lamps | 2 | 2 LED Modules |
| amp Life | 5000 Hours | 20 years |
| abor Rate | $20.00/Hour | $20.00/Hour |
| nput Watts | 30 | 5.9 |
| nergy Costs | 0.10/KWHR | 0.10/KWHR |
| telamping Labor | 0.15 Hours | N/A |
| ystem Life | 10 Years | 20 Years |
| **Annual Costs** | | |
| amp Maintenance* | $15.77 | N/A |
| nergy Costs† | 26.28 | 5.17 |
| perating Costs | 42.05 | 5.17 |
| wning Costs# | 46.55 | 7.98 |

*) Annual lamp maintenance = (Relamping Hours x Labor Rate x 8760 Hours/Lamp Life) + (Number of Lamps x Lamp Cost x 8760 Hours/Lamp Life).
†) Energy Cost = Input Watts x $KWHRS x 8760. (#) Annual Owning Cost = Initial Cost/System Life + Annual Operating Cost.
Assumptions: Analysis does not use time value of money and compares single face exits.
**) LED lamp modules are not replaceable

# SELF-DIAGNOSTIC EXIT SIGNS & EMERGENCY FIXTURES

Solid-state microprocessor-based system continually monitors the battery, lamps, charger/transfer circuit and input transformer of the fixture to detect functional failures, pinpoints the cause, and communicates the diagnostic information using both visual and audible indicators to alert service personnel.

**Automatic Testing:** Continuous monitoring of battery charger/transfer circuit and input transformer. Lamps are tested once each day for less than 0.1 second to insure components are working. Lamps are continually monitored in emergency mode. A monthly test checks the battery, charger/transfer circuit and lamps. Every 6 months it conducts an automatic full battery capacity test.

**Manual Testing:** Two manual test types are available. A 5-minute confidence test or a full battery capacity test can be executed with a press of the test switch; a second press of the test switch delays the latter test for 36 hours.

**Automatic Lamp Load Calibration:** Automatically measures the system lamp load at AC power up. No potentiometers to adjust and no jumpers to move, thus saving installation labor. Any time a change is required to the lamp load, just disconnect the AC power and battery, and the system recalibrates.

**In-Field Programmability:** Operating parameters are field programmable by pressing the test button. No need to move PC board jumpers or set board switches.

**System Test Abuse Restriction (STAR) Feature:** Prohibits excessive manual testing by limiting the full capacity tests to one per day and 5-minute confidence tests to four per day.

**Solid-state Transfer:** No mechanical relays to reduce fixture reliability.

**Watchdog Timer:** Resets the microprocessor in the event of a fault that interferes with normal operation.

**Sense Resolution:** Senses, measures and calibrates with an accuracy of ±0.1%. This degree of accuracy eliminates the possibility of false indications.

**Visual Diagnostic Indicator:** A single tri-color (red, yellow, green ) LED indicates fixture status by its color and flash rate. In the stand-by mode, the tri-color LED also indicates charge status.

**Audible Diagnostic Indicator:** When a failure occurs, indicator alerts service personnel of the need for attention by beeping in a pulsing fashion. It can also be field programmed to sound continuously or to be disabled.

**Press test switch to silence failure alarm.**

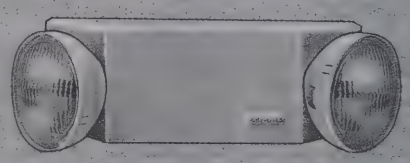
Sure-Lites self-diagnostic units automatically conduct various tests to ensure optimum system performance and compliance with the NFPA 101 Life Safety Code.

- **Once per day the lamps are tested for less than 0.1 second to ensure that the lamps are in good working condition.**
- **Every 30 days a 60-second test is performed to test the battery, charger/transfer circuit, lamps and transformer.**
- **Every 6 months a full battery capacity test is performed.**
- **A tri-color LED diagnostic indicator alerts service personnel of fixture status or problems prior to an emergency situation.**

# SELF-DIAGNOSTIC EMERGENCY FIXTURE

**Housing:** All components are injection molded, high impact UL 94-5V rated polycarbonate material. White finish.

**Lamps:** Include (2) incandescent 5.4 watt PAR36 type lamps.



**Battery and Charger:** Maintenance-free long-life lead calcium battery. Fully automatic solid state charging system provides minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power failures. Brownout circuit activates fixtures even though a total power failure has not occurred.

**Installation:** Housing has keyhole mounting slots and knockouts in rear and side for AC connections. Universal pattern knockouts on rear allow easy mounting to industry standard boxes.

**Approvals:** UL 924 Listed (E65048). Meets all applicable NEC, OSHA, and NFPA Life Safety Codes. Sure-Lites brand.

**COOPER** Lighting

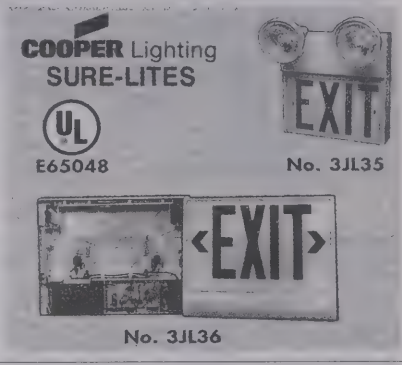
# SELF-DIAGNOSTIC EXIT SIGNS & EMERGENCY FIXTURES

## SELF-DIAGNOSTIC LED POLYCARBONATE EMERGENCY EXIT SIGN & EMERGENCY EXIT SIGN WITH EMERGENCY FIXTURE

**ousing:** Injection molded, high impact UL-4-5V rated polycarbonate. White textured nish. Snap-fit construction. Reinforcing ibs. Molded-in wireways. Snap-out hevron directional indicators. Red let-ers. Configure as single or double face.

**amps:** Long life LED lamp modules pro-ide uniform diffused illumination. No. JL35 has two 6 volt, 9 watt PAR36 sealed-eam type lamps.



**attery and Charger:** Maintenance-free long-fe lead calcium battery. Fully automatic olid state charging system provides a min-num of 90 minutes of emergency power. Low voltage disconnect, brownout circuit protection. All electronics and battery housed inside. Input volts (AC): 120/277. Output volts (DC): 6.

**Installation:** Snap-fit canopy with captive mounting screws. Backplate has universal mounting pattern for mounting to junction box. Push-in AC power connectors, snap-fit construction throughout.

**Approvals:** UL 924 Listed (E65048). Meets all applicable NEC, OSHA, and NFPA Life Safety Codes.

## SIGNATURE® SELF-DIAGNOSTIC CAST-ALUMINUM LED EMERGENCY EXIT SIGNS

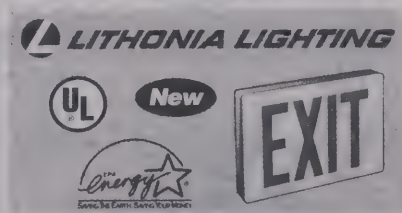
**Diagnostics:** Self-diagnostic testing for five minutes every 30 days and 30 minutes every six months. Single multi-chromatic LED indicator displays two-state charging, test activation, and three-state diagnostic status. Test switch for manual activation of 30-second diagnostic testing. Diagnostic evaluation of LED light source, AC to DC transfer, charging and battery condition.

**Housing:** Compact, ultra-slim molded die-cast aluminum housing.

**Battery and Charger:** Sealed, maintenance-free nickel-cadmium battery delivers 90 minutes capacity to lamp and automatically recharges after battery discharge. Single-point microcomputer control for all electronic features. Two-state constant-current charging to maximize battery life.

**Lamps:** Long-life LED lamps offer low energy consumption - only 1.5W.

Exit Face Assembly: Letters are 6" H with 3/4" stroke.



**Installation:** Universal mounting (top, end, or back). No exposed hardware. die-cast aluminum canopy included.

**Dimensions:** 11⅜ L x 7⅞ H x 1¾" W.

**Approvals:** UL listed. Meets UL 924, NFPA 101 (current Life Safety Code), NEC and OSHA illumination standards. Meets Energy Star standards.

# COMMERCIAL & INDUSTRIAL EMERGENCY EXIT LIGHTING

## COMMON FEATURES

**Applications:** Commercial, institutional, and public facilities where moderate loads, economy, ease of installation, safety, and reliability are important.

**Housing:** Sturdy, corrosion-resistant metal housings.

**Lamps:** Includes (2) incandescent 9 watt PAR36 type lamps; No. 5VC01 (2) 3.6 watt PAR36 type lamps.

**Battery and Charger:** Maintenance-free long-life lead calcium battery. Fully automatic solid state charging system provides minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power failures. Brownout circuit activates fixtures even though a total power failure has not occurred. AC line-latching reduces installation labor.

**Installation:** Housing has keyhole mounting slots and knockouts in rear and side for AC connections. Models with remote capability have an additional slot and knockout on top for AC/DC wiring connections. Universal pattern knockouts on rear allow easy mounting to industry standard boxes.

**Approvals:** UL 924 Listed (E65048). Meets all applicable NEC, OSHA, and NFPA Life Safety Codes. Sure-Lites brand.

## ECONOMY, COMMERCIAL EMERGENCY LIGHT

**Housing:** 18-gauge steel housing with white finish. Matching finis thermoplastic Noryl heads adjust 180°.

**Input/Output:** 120/277VAC input, 6V, 10.8 watt output for 90 min utes.

Dimensions: 18½L x 2¾W x 4⅝"H.

## GENERAL PURPOSE, COMMERCIAL EMERGENCY LIGHT

**Housing:** 22-gauge steel housing with white finish. Matching finis thermoplastic Noryl heads permit 80° vertical adjustment an 358° rotation.

**Input/Output:** 120/277VAC input, 6V, 18 watt output for 90 min utes.

Dimensions: 12¼L x 2¼W x 9⅛"H

## COMMERCIAL/INDUSTRIAL EMERGENCY LIGHTS (WITH REMOTE CAPABILITY)

**Applications:** These fixtures offer the extra capacity of a central ized emergency lighting power source. Additional lighting may b added by wiring remote heads, lamps, and exits to the basic unit The number of remote heads possible is determined by totalin the remote wattage load plus 18W fixed load and matching to th fixture's maximum output. Order remote lighting heads below.

**Housing:** 18-gauge steel housing with choice of white or gray fin ish. Matching impact-resistant molded thermoplastic heads Three dimensional swivel assembly allows 80° vertical adjust ment and 358° rotation.

**Input/Output:** 120/277VAC input (see table for output voltages an rated wattages).

**Dimensions:** Nos. 3V888, 3V889, and 5VC08, 12¼L x 2½W x 13¼"H; Nos. 3V890, 3V891, and 5VC09, 12¼L x 4¼W x 13¼"H No. 7V240, 17L x 8W x 16⅞"H.

**For Additional Accessories and Replacement Batteries, See Page 1152.**

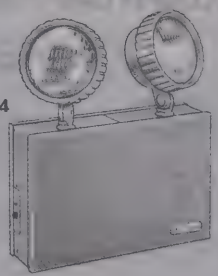
## TITAN® STEEL EMERGENCY LIGHTS

**Housing:** 20-Gauge steel housing (18 gauge housing with 7D463 and 7D464) in instrument tan color; hinged faceplate for easy maintenance.



**Battery and Charger:** Maintenance-free lead calcium battery provides 90 minutes of emergency power. 10W voltage disconnect prevents total battery discharge. Short circuit protection reduces risk of shorts and maximizes battery life. Thermal protection and compensation features prevent overheating and charger failure.

**Lampheads:** 4PG94 and 4PG95 supplied with two 8 watt lampheads; 4PG96, 7D463, and 7D464 supplied with two 12 watt lampheads. Additional remote lamp heads (see below) can be used up to maximum battery wattage (except for 4PG94 which is all ready at capacity).

**Approvals:** UL listed—meets: UL 924, NFPA 101, NEC, and OSHA illumination standards. 3-year total customer satisfaction warranty.

# EMERGENCY LIGHTING FIXTURES

## EMERGENCY LIGHTING FIXTURES

COOPER Lighting SURE-LITES

No. 5VC22

E65048

**Housing:** Contemporary styled injection molded high-impact thermoplastic housing with white finish (5VC22) or black finish (3V887) and clear domes over adjustable lighting heads. 18⅛L x 5⁹⁄₁₆W x 5"H.

**Battery and Charger:** Maintenance-free, long-life 6 volt lead calcium battery. Fully automatic solid state charging system provides a minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power failures. Brownout circuit activates unit even without a total power failure. AC line-latching reduces installation labor.

**Lamps:** Furnished with two 5.4 watt wedge base incandescent lamps. 10.8 watt output for 90 minutes.

**Installation:** Unique wiring module with universal mounting pattern makes installation simple. Single polarized plug makes final connection to unit—tether strap eliminates need to balance unit while making wiring connections.

**Approvals:** UL 924 Listed (E65048); meets all applicable NEC, OSHA, and NFPA Life Safety Codes. Sure-Lites brand.

| Description | Input Volts (AC) | Output Volts (DC) | Finish | Sure-Lites Model | Stock No. | List | Each | Shpg. Wt. |

COOPER Lighting SURE-LITES

No. 3JL31

E65048

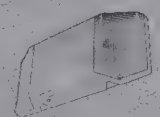
**Designed for installation in under two minutes.** Components snap together to facilitate installation in 2 minutes or less. Both heads have total horizontal and vertical adjustability. Housing: Injection molded, color stable, high impact UL94-5V rated polycarbonate housing and mounting plate. White textured finish.

**Battery and Charger:** Dual voltage input 120/277 VAC, 60Hz., 7.2W output for 90 minutes. Maintenance-free long-life lead calcium battery. Fully automatic solid state charging system provides a minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power outages. Brownout circuit activates unit even though total power failure has not occurred.

**Lamps:** Includes two incandescent 3.6W lamps. Both heads have total horizontal and vertical adjustability.

**Installation:** Can be snapped together in 2 minutes or less. Backplate has universal mounting pattern for mounting to junction box. Cutouts provided in housing for surface conduit attachment. Suitable for wall or ceiling mount applications.

**Approvals:** UL 924 Listed (E65048). Meets all applicable NEC, OSHA, and NFPA Life Safety Codes.



**Dimensions:** 16⅛ L x 5⅜H x 2⅝"W. Sure Lites Brand (CC2)

**No. 3JL31.** . Shpg. wt. 3.5 lbs. List ..... $65.50.
Each ..... $44.00

## QUANTUM® EMERGENCY UNIITS

LITHONIA LIGHTING

New

No. 4PH07

No. 4PH08

**Housing:** UV stabilized polycarbonate to resist discoloration, scatches and corrosion. UL 94 V-O flame rating.

**Battery and charger:** Sealed, maintenance-free, lead calcium battery provides 90 minutes of emergency power. Fully automatic solid-state charging system.

**Lampheads:** Features high temperature acrylic lens. Unique track and swivel design permits full-range adjustment of lampheads.

**Installation:** Quick-mount feature — innovative, snap-together design allows for installation in less than five minutes.

**Approvals:** Meets UL 924, NFPA 101-1991 NEC and OSHA illumination standard.

Each ..... $190.75

## RECESSED EMERGENCY LIGHTING

COOPER Lighting SURE-LITES

No. 3V893

No. 5VC00

E65048

**Applications:** Use in areas that have little wall space or in areas hat require flexible lamp head positioning. Can also be used in lrywall or suspended ceilings.

**Housing:** Corrosion-resistant 20 gauge rough-in section/battery support. 20 gauge steel face plate finished with white polyester paint. Heads are constructed of flame-resistant and impact-resistant Noryl® 190 injection molded thermoplastic with matching white finish. Three dimensional swivel assembly permits 80° aiming adjustment from vertical and 358° rotation.

**Input/Output:** 120/277VAC input, 6VDC output for 90 minutes.

**Battery and Charger:** Long-life, maintenance-free sealed lead calcium battery. Fully automatic solid state charging system provides a minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power failures. Brownout circuit activates unit even though total power failure has not occurred. AC line latching reduces installation labor.

**Lamps (Included):** No. 5VC00-Two, incandescent, 9 watt PAR36 type lamps. No. 3V893-two, 3.6 watt PAR36 type lamps.

**Installation:** No. 5VC00-Flanged housing mounts easily in grid type ceilings. Cabinet has knockouts on the side for AC/DC wiring

**Connections:** Up to three lighting heads can be mounted on the face plate. No. 3V893-Rough-in section/battery support comes complete with hanger bars for installation in plaster or drywall. Includes T-bar clips for installation in suspended grid type ceilings.

**Approvals:** UL 924 Listed. Complies with NEC, OSHA, NFPA Life Safety Codes.

**Accessories and Replacement Batteries, See Pages 1152**

## RECESSED EMERGENCY GIMBAL LIGHTING

**Housing:** All metal housing and gimbal assembly features a matte-white baked enamel finish. Lamp adjusts in two planes to 26°.

**Lamp:** High output 8W halogen lamp head.

**Battery and Charger:** 6VDC sealed, maintenance-free lead-calcium battery provides a minimum of 90 minutes of emergency power. Fully automatic solid-state charging system.

**Input/Output:** Dual voltage input 120/277 VAC.

**Approvals:** Approved for use in air handling plenums. UL listed. UL 924, NFPA 101, NEC and OSHA illumination standards.

**Dimensions:** 8⅜ L x 8⅜ W x 8¼" H.

***New*No. 4PH46.** Shpg. wt. 3.0 lbs. List . $182.05. Each ..... **$165.50**

## FLUORESCENT EMERGENCY DOWNLIGHT

**Housing:** Rugged steel frame with integral plaster flange to accommodate plaster, sheet rock or ceiling tile construction. Galvanized steel junction box with bottom-hinged access cover and spring latches.

**Battery and Charger:** Maintenance-free nickel-cadmium batteries provide 90 minutes of emergency power.

**Lamps not included:** Operates 2/F13BX lamps, suggested Stock No. 2V835, in normal mode; powers one lamp at 500-600 lumens in emergency mode.

**Input:** 120V 60 Hz.

**Dimensions:** 13⅞ L X 8½ W x 6½" H.

**Lithonia No:** LF6-2/13TT-120 HPF EL-F602

**Approvals:** UL listed. UL 924, NFPA 101, NEC and OSHA illumination standards.

***New*No. 7D478.** Shpg. wt. 14.8 lbs. List $412.05. Each ..... **$373.00**

## INCANDESCENT EMERGENCY DOWNLIGHT

**Housing:** 20 gauge die-stamped cold rolled steel housing finished with white corrosion-resistant polyester paint. Housing adjusts in the plaster frame 1⅜" to accommodate different ceiling thicknesses. Pre-wired and IC Rated for insulated ceiling applications. Includes gimbal ring type trim with a white polyester paint. Assembly permits 40° vertical adjustment and 358° rotation. Polarized molex connectors between trim ring and housing.

**Operation:** For use as an emergency downlight only.

**Input/Output:** 120/277 VAC input, 6VDC 10.8W output for 90 mins.

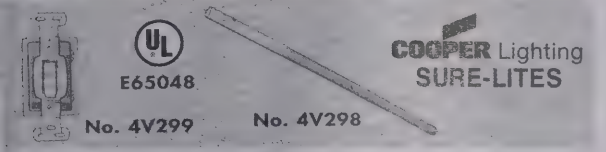
**Battery and Charger:** Long-life, maintenance-free sealed lead calcium battery. Fully automatic solid state charging system provides a minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power failures. Brownout circuit activates unit even though total power failure has not occurred. AC line-latching reduces installation labor.

**Lamps:** Includes 9 watt PAR36 type lamp.

**Installation:** Sliding bar hangers accommodate joist spacing up to 24" on center. Trim held in place with torsion springs.

**Approvals:** UL 924 Listed (E65048), IC Rated. Complies with all applicable NEC, OSHA, and NFPA Life Safety Codes.

**Dimensions:** 13L x 8W x 7⅛"H.



**Sure-Lites brand (RG1).**

**Accessories and Replacement Batteries Available on Page 1152**

**No. 3V894.** Shpg. wt. 8.0 lbs. List $166.43. Each ..... **$136.20**

# FLUORESCENT LIGHT STICK AND FLUORESCENT POWER PACKS

## FLUORESCENT LIGHT STICK AND SWITCH

### FLUORESCENT EMERGENCY LIGHT STICK

**pplications/Installation:** Replaces one standard four foot F40T12 apid-start bi-pin lamp in strip, wraparound, or recessed fluoresent lighting fixtures. No wiring required. 120-minute emergency peration. For switched circuits, use single pole bypass switch lo. 4V299 listed below.

**amp:** Produces 2200 lumens of cool white light under normal onditions and 600-700 initial lumens in emergency mode. **For ıdoor use only. Sure-Lites brand (SLS4).**

**lo. 4V298.** Shpg. wt. 3.5 lbs. List ..... $267.59.-
ach ..... **$170.00**

### SINGLE POLE BYPASS SWITCH

llows installation of No. 4V298 fluorescent emergency light in ny switched circuit. Replaces standard wall switch; will activate mergency light sensor during power failure. Automatically acti-ates emergency mode lamp circuits with switch On or Off. mergency battery pack charges even with bypass switch in the ff position. 120VAC. Ivory color.

**ure-Lites brand (BP12INF).**

**lo. 4V299.** Shpg. wt. 0.5 lbs. List ..... $47.69.
ach ..... **$30.30**

## FIELD INSTALLABLE FLUORESCENT POWER PACKS

**Applications:** Converts new or existing fluorescent fixtures to emergency lights. Economical method of incorporating emergency lighting without adding additional emergency lighting fixtures. May be used with magnetic and electronic ballasts, and will operate T12, T8, and 4-pin long compact fluorescent lamps.

**Installation:** Mounts inside ballast channel of most fluorescent fixtures. Must be used with existing ballast(s). Can be installed in either switched or unswitched troffers. 120/277VAC.

**Battery and Charger:** Long-life maintenance-free nickel cadmium battery. Unit will operate designated lamps at emergency levels for 90 minutes of emergency power. Upon restoration, the solid state charging circuit automatically recharges the battery to rated voltage.

**Test Switch/Indicator Light:** Push-to-test switch simulates a power failure to test the battery pack system. LED indicator light shows AC charger status.

**Approvals:** UL 924 Listed (E65048) for field retrofit installation and conforms to UL924; meets all NEC, OSHA, and NFPA Life Safety Codes. **Sure-Lites brand.**

| No. Fluorescent Lamps Powered (Ft.) | Lumens | Sure-Lites Model | Stock No. | List | Each | Shpg. Wt. |

## POWER SENTRY® FIELD-INSTALLABLE FLUORESCENT BATTERY PACKS

**Applications:** Converts standard fluorescent fixtures and compact fluorescent downlights to emergency fixtures. Provides glare-free, vandal resistant lighting for a minimum of 90 minutes.

**Installation:** Nos. 4PG83, 4PH45, and 4PH49 have mounts concealed within fixture wireway for most fluorescent fixtures. Nos. 4PH43, 4PH11, and 4PH54 are plenum-rated for mounting next to downlight. All fixtures can be used for either switch or unswitched fixtures. 120/277V AC Input

**Battery Charger:** Sealed, maintenance-free, high-temperature nickel-cadmium battery. Ensures long life over a wide range of temperatures. 24-hour battery recharge after 90-minute discharge. External battery connectors allow battery pack to be disabled for maintenance and installation. Pilot light and test switch provide visual and manual means of monitoring system operation.

**Approvals:** UL Listed. Meets UL 924, NFPA 101 (current Life Safety Code), NEC and OSHA illumination standards.

No. 5VC16

**Housing:** 20-gauge steel with corrosion-resistant white polyester paint finish. Backplate has universal knockout pattern for mounting directly to junction box. 12¼L x 2¼W x 12¼"H.

**Battery and Charger:** Power pack automatically illuminates EXIT sign for minimum of 90 minutes following interruption of normal AC power. Power pack supplied with 6 volt maintenance free sealed lead calcium battery. AC line-latching reduces installation labor.

**Lamps:** No. 5VC16 includes two 20W, T6 1/2 lamps with 5000 hours plus expected lamp life; No. 3JL43 includes two long life LED lamp modules. Two 6 volt 3.6 watt DC lamps provide EXIT illumination and two 9 watt PAR36 type heads provide emergency illumination. 27 watt output for 90 minutes. Recommend No. 4V479 20W replacement lamps for No. 5VC16.

**Exit Face Assembly:** Letters 6" high with 3/4" stroke. Red fiberglass color panel. Knockout chevrons for conversion to directional sign. Includes two panels for single or double face application.

**Installation:** Universal. Includes mounting canopy for wall, ceiling or end mount applications. Backplate has universal mounting pattern knockouts for installation to junction box.

**Approvals:** UL 924 Listed (E65048); complies with NEC, OSHA, and NFPA Life Safety Codes. Sure-Lites brand.

## QUANTUM® POLYCARBONATE EXIT SIGN/ EMERGENCY LIGHTING FIXTURES

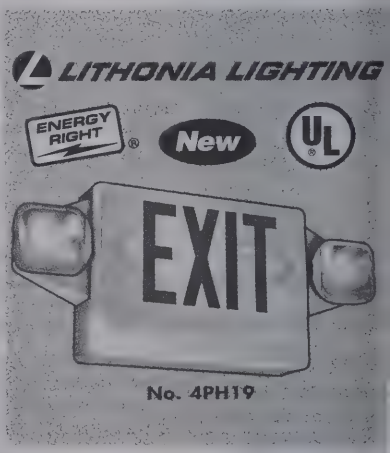
**Housing:** Streamlined design is only 10 inches tall. Engineering-grade polycarbonate housing is impact- and scratch-resistant and corrosion-proof. UL94 V-0 flame rating. UV-stable resin resists discoloration from natural man-made light resources. Side-mounted lamp heads have redesigned optics to reduce glare and provide brighter illumination along the path of egress.

**Input:** 120/277 VAC

**Battery and Charger:** Sealed, maintenance-free lead-calcium battery delivers 90 minutes capacity to lamps. Automatic recharge after 90 minutes. Test switch and LED to monitor system.

**Lamps:** Nos. 4PH15 and 4PH16 feature long-life incandescent lamps; 5W, T-6 style. Suggested replacement No. 4V450. Nos. 4PH20 and 4PH19 feature long-life LEDs that offer low energy consumption - only 2.5 watts.

**Installation:** QUICK-MOUNT installation. Innovative, snap-together design allows for installation in less than five minutes.



**Approvals:** UL listed. Meets UL 924, NFPA 101 (current Life Safety Code), NEC and OSHA illumination standards.

**Dimensions:** 22¾"L x 4"Wx 10¼"H

**Accessories and Replacement Batteries, See Page 1153**

# POLYCARBONATE AND CAST ALUMINUM EXIT SIGNS

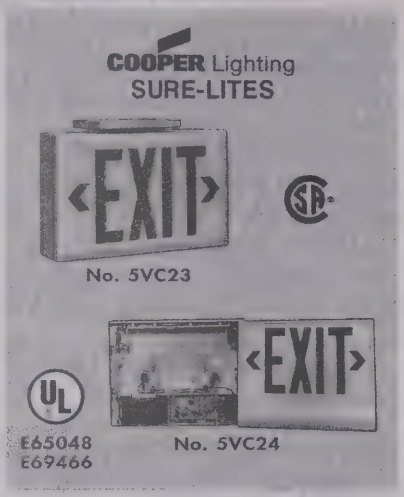
## INCANDESCENT POLYCARBONATE EXIT SIGNS

**Housing:** Tough, impact resistant, corrosion resistant, UV stable, scratch resistant polycarbonate with molded-in wireways. All electronics housed internally. Snap-fit canopy improves installation and frees hands for wire termination. Soft corner design and attractive white textured finish. Measures 13L x 2¾W x 8"H (AC only) and 13L x 2¾W x 10"H (Emergency).

**Lamps:** Nos. 5VC23 and 5VC24 include two extended life, 15W T6 candelabra base incandescent lamps. For replacement lamp use No. 4V450.

**Battery and Charger:** No. 5CV24 only. Dual voltage 120/277. Automatically illuminates exit sign for a minimum of 90 minutes following the interruption of normal AC power. Includes two 6 volt, 3.6 watt DC lamps for emergency illumination which is provided by a 6 volt maintenance free sealed lead calcium battery.

**Exit Face Assembly:** Injection molded polycarbonate with snap-out chevron directional indicators. Face snaps on to housing—no tools required for easy maintenance. Glass filled polyester diffuser evenly illuminates 6" high 3/4" stroke letters. Two faces provided.



**Installation:** Universal. Snap-fit canopy and push-in wiring connectors included to ease installation. Backplate has universal knockout mounting pattern for mounting directly to junction box.

**Approvals:** UL 924 Listed (5VC23: E69466; 5VC24: E65048); also meets applicable NEC, OSHA, and NFPA Life Safety Codes. Damp Location Listed (5VC23 only). CSA Certified. Suitable for floor proximity installation.

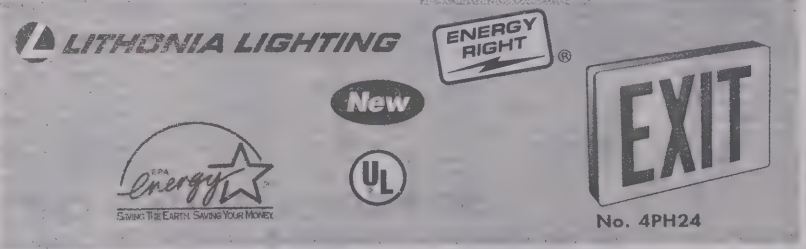
## SIGNATURE® CAST-ALUMINUM LED SIGNS

**Housing:** Smallest die-cast aluminum exit in the market.

**Voltage:** AC only. 120/277 VAC.



**Lamps:** Long-life LEDs offer low energy consumption — less than one total watt of power. Red or Tru-Green™ LEDs utilize high quality, state-of-the-art LED technology. Provides perfectly uniform illumination. Meets Energy Star standards.

**Exit Face Assembly:** Brushed aluminum with matte black electrostatic polymeric trim. Hinged faceplate and spring latches for easy lamp access. Letters are 6" high with 3/4" stroke.

**Installation:** Top, end or back mounting. Completely concealed, easily removed mounting knockouts.

**Dimensions:** 11⅜"L x 1¾" x W x 7⅞" H.

**Approvals:** UL Listed. Meets UL 924, NFPA 101 (current Life Safety Code), NEC and OSHA illumination standards.

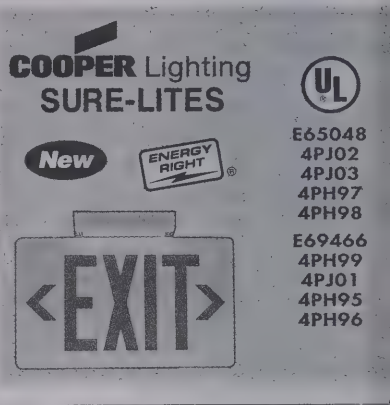
# CAST ALUMINUM AND POLYCARBONATE EXIT SIGNS

## DIE-CAST ALUMINUM EXIT SIGNS

**Housing:** Rugged, die-cast aluminum alloy with white finish. 13⅝L x 8¼H x 2¼"W.

**Exit Face Assembly:** Letters are evenly illuminated to 3/4" stroke required by NFPA101. Knockout chevrons cover LED lamps. Protective optical diffuser.



**Lamps:** LED models feature multiple pinpoint LED sources and optical diffusers provide even illumination. LED panel service life: more than 25 years. LED lamp assembly needs no maintenance or replacement under normal operating conditions. No protruding diodes to gather dust, reduce brightness. Flourescent models have two F5 Biax, compact flourescent lamps. Suggested replacement lamp, No. 2V891.

**Installation:** Low-profile canopy included for ceiling or end mounting. Universal knockout pattern for surface mounting directly to junction box.

**Approvals:** UL 924 Listed (6F537, 6F538: E65048; 6F536, 6F539: E69466). Suitable for floor proximity installation. Meets/-exceeds all applicable UL, NEC, OSHA, and NFPA Life Safety Codes. Complies with ADA requirements for surface mounted fixture depth. Damp location listed (6F536 and 6F537 only).

**EMERGENCY EXIT SIGNS**

**Battery and Charger:** Includes maintenance-free sealed nickel cadmium batteries (min. life expectancy of 15 years). Includes labor saving AC line latching, low voltage disconnect, solid-state switching, brown-outprotection,andshort circuit/overload protection. Recharges within maximum time limit allowable per codes. All components located inside exit sign housing.

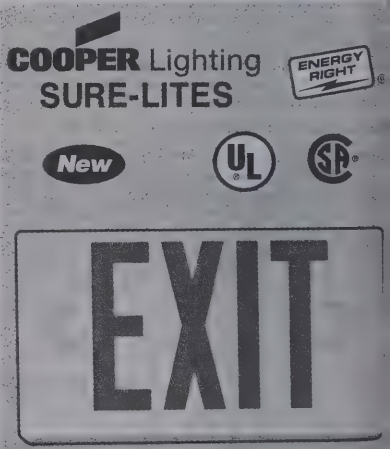
## LED POLYCARBONATE EXIT SIGNS

Available in AC only and self-powered emergency versions. Install in 5 minutes. High visibility LED lamps.

**Housing:** Injection molded, high impact UL-94-5V rated polycarbonate. White textured finish; snap-fit construction; reinforcing ribs. Wireways aid routing, connections. Snap out chevron directional indicators. Configures as single or double face.

**Input/Output:** Dual Voltage input 120/277 VAC, 60 Hz. Provides at least 90 min. of emergency illumination.



**Battery and Charger:** Emergency self-powered models have maintenance-free long-life lead calcium battery. Fully automatic solid state charging system for at least 90 min. of emergency power. Low voltage disconnect, brownout circuit protection. All electronics and battery are within housing.

**Lamps:** Both fitted with long life LED lamp modules.

**Installation:** Snap-fit canpoy with captive mounting screws. Backplate has universal mounting pattern for mounting to junction box. Push-in AC power connectors.

**Approvals:** UL 924 Listed (E65048). CSA certified. Suitable for floor proximity.

**Dimensions:** 13L x 7½H x 2⅛"W.

# POLYCARBONATE AND STEEL EXIT SIGNS

## QUANTUM® INCANDESCENT POLYCARBONATE EXIT SIGNS

**ousing:** Precision-molded polycarbonate ousing is corrosion-proof, impact- and cratch-resistant. UL94 V-0 flame rating. JV-stable resin resists discoloration from atural man-made light resources.

**amps:** Use 15W T6 lamp type. Replacement amp is No. 4V450.

**nstallation:** QUICK-MOUNT installation. nnovative, snap-together design allows or installation in less than five minutes.

**xit Face Assembly:** Fully assembled single-face exit with optional extra faceplate for easy field conversion to double face. Uniform graphics illumination without shadows or hot spots. Reinforced, impact-resistant color panels. No. 4PH32 includes red and green panel.

**Installation:** Universal (top, end or back) mounting.

**Approvals:** UL listed for damp locations. Meets UL924, UL 1571, NFPA 101 (current Life Safety Code), NEC and OSHA illumination standards.

# RECESSED SQUARE EMERGENCY LIGHT AND STEEL EXIT SIGNS

## RECESSED SQUARE EMERGENCY LIGHT

**Housing:** Push-to-test lens recessed in mitered corner housing conceals test switch and indicator light. Unobtrusive polycarbonate housing design has ivory white frame. Black base is impact- and fire-resistant. UL94 V-0 flame rating.

**Dimensions:** 10 5/16W x 10 5/16 L x 3 7/16" H.

**Lamp:** White cone reflector and acrylic prismatic lens provide wide beam spread of the 10-watt tungsten halogen lamp.

**Battery and Charger:** Sealed, maintenance-free lead-calcium battery provides a minimum of 90 minutes of emergency power. Fully automatic solid-state charging system. Short-circuit protection helps stop shorts and maximize battery life. Dual voltage input capability (120/277V). 6VDC, 10W rated output.

**Installation:** Surface mounting on wall or ceiling; universal J-box mounting pattern.

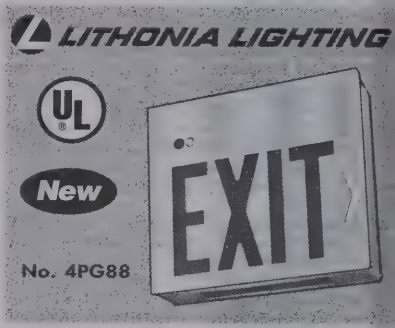
**Approvals:** UL listed. Meets current Life Safety Code, NEC and OSHA illumination standards.

***New*** **No. 4PG73.** (ELSQ). Shpg. wt. 5.5 lbs.
List ..... $110.66.
Each ..... **$100.60**

## TITAN® STEEL EXIT SIGNS

### TITAN® INCANDESCENT AND FLUORESCENT POWERED EXIT SIGNS

**Housing:** Sturdy, die-formed 20-gauge steel housing with corrosion-resistant white polyester paint finish.



**Lamps:** Two 15W T6, incandescent lamps; two F5TT compact fluorescent lamps provide minimum of 15,000 hours. Replacement lamp No 4V450.

**Exit Face Assembly:** Large, easy to read letters measure 6" high with a 3/4" stroke. Universal directional chevron knockouts are easily removed. Uniform graphics illumination, without shadows or hot spots. Fully assembled single-face exit, plus optional extra faceplate for easy field conversion to double face. Available in red or green incandescent.

**Installation:** Universal (top, end or back) mounting. Easily removed mounting knockouts and universal J-box pattern on back panel.

**Approvals:** UL Listed for damp locations and meets UL 924, NFPA 101, NEC and OSHA illumination standards.

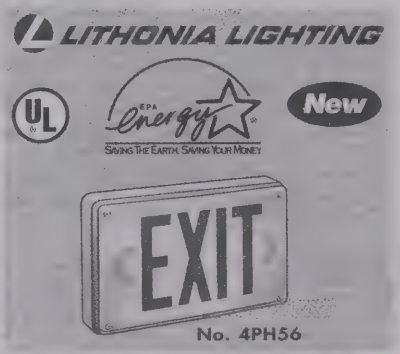
## EXTREME® VANDAL-RESISTANT EXIT SIGNS

**Applications:** Best suited for use in high-abuse environments such as schools, commercial buildings, parking garages, prisons, hallways and stairwells

**Housing:** Low-profile housing is .250" to .325" thick and constructed of durable cast-aluminum. Unit has a vandal-resistant magnetic test switch that maintains the integrity of the housing, while providing a simple means of manual testing.

**Exit Face Assembly:** Polycarbonate faceplate incorporates universal directional chevron knockouts that are concealed and easily removed and replaced. Red letters.



**Installation:** Top, back or end mounting available.

**Lamps:** 4PH42 and 4PH58 use two 15W T6 lamps. Replacement Lamp No. 4V450. All others use long-life LED's that offer low energy consumption using less than 2.5W.

**Battery and Charger:** Emergency LED exit signs are powered by a long-life maintenance-free nickel-cadmium battery that delivers 90 minutes capacity to lamp. Self-diagnostic feature performs a five minute, automatic test once a month on the battery and once every six months for 30 minutes.

**Warranty:** Incandescent units are backed by a 3-year total customer satisfaction warranty (excluding lamps). LED models are covered under a 5-year warranty (including lamps).

**Approvals:** UL listed. Meets UL 924, NFPA 101, and NEC and OSHA Illumination Standards.

## LED RETROFIT KIT FOR EXIT SIGNS

Energy-saving lamps install in seconds. UL listed for use in all manufacturer's exit signs. Designed to replace existing T6½ incandescent lamps typically used in exit signs. Simply remove incandescent lamps and replace with LED retrofit lamps—no additional wiring or fixture modifications required. LED lamps offer low, 1 watt (each) power consumption; estimated to last 25 years under normal operating conditions. Transient voltage surge protected. **Sold in blister pack of two lamps.** T6½ lamp style 5⅜" long.

UL 924 Listed, CSA Certified. Meets all applicable NEC, OSHA, and NFPA Life Safety Codes. Damp location listed. **Sure-Lites brand.**

No. 3JL38

# SPECIAL AND GENERAL PURPOSE EMERGENCY AND EXIT FIXTURES

## HARSH ENVIRONMENT EMERGENCY FIXTURES

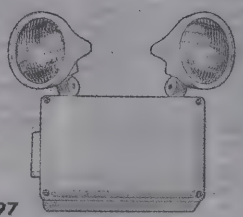
**Applications:** Used where oil, water, dust, or corrosives are present in the atmosphere. Wet location Listed from 0 to 40°C. For indoor use only.

**Housing:** Tough gray fiberglass construction with internal hinges, gasketed cover, and breather vent.

**Lamps Included:** Two 9 watt incandescent PAR36 sealed beam lamps in Noryl heads with gray finish.

**Battery and Charger:** Sealed, maintenance free lead calcium battery. Fully automatic charging system provides a minimum of 90 minutes of emergency power. Low voltage disconnect prevents total battery discharge during long power failures. Brownout circuit activates unit even though total power failure has not occurred. AC line-latching reduces installation labor.

**Installation:** Suitable for surface mounting. Designed for conduit entry. 120/277VAC operation.



**Approvals:** UL 924 Listed (E65048). Complies with all applicable NEC, OSHA, and NFPA Life Safety Codes.

## INDUSTRIAL DUTY EMERGENCY FIXTURES

- **Fiberglass-reinforced, gray/polyester enclosure. Full perimeter gasket seal between front and rear housing.**
- **Two 8W (4PG69) or two 12W (4PG67) glass sealed-beam lamps. Heads rotate 359° to meet aiming requirements.**
- **Sealed, maintenance-free lead-calcium battery. Provides 90 minutes of emergency power.**
- **Lamp housings are sealed, high-impact polycarbonate.**
- **Short circuit protection protects against shorts and maximizes battery life.**

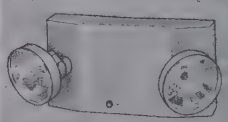
## NEW YORK CITY APPROVED EMERGENCY AND EXIT FIXTURES

### 2 AND 3 HEAD EMERGENCY LIGHTING

- **6" slim design with 2 and 3 head capabilities**
- **Indoor commercial and institutional use emergency lighting**
- **New York City approved**
- **Solid state and transfer circuitry**
- **Dual 120/277 VAC 60Hz input**
- **Test switch for added safety**
- **Battery short circuit and reverse polarity protected**
- **Brown out protection, low voltage disconnect**
- **6 or 12 volt long life, maintenance-free, sealed nickel cadmium battery**

New slim design unit with neutral cream color finish. Double pivoting heads add adjustability and simplify installation. Easy wall or ceiling mounting. UL Listed (E125359). Made in the USA.



### INCANDESCENT AND LED EXIT SIGNS

- **Standard white powder coat finish**
- **Incandescent light source with AC operation only (4PH92); LED light source with AC operation only (4PJ23) and emergency operation (4PJ24)**
- **20-gauge rolled steel housing**
- **Down light provided by a convenient bottom opening**
- **Operates on 120V 60Hz voltage**
- **Phosphorescent glass face displays red letters on white background**
- **Single face with canopy**
- **Meets or exceeds UL 924 requirements; Made in the USA**

**UL Listed: 4PJ23, 4PH92 (E69631) and 4PJ24 (E125359)**

# GENERAL PURPOSE EMERGENCY AND EXIT LIGHTING FIXTURES

## NEW YORK CITY APPROVED SELF-DIAGNOSTIC EMERGENCY/EXIT FIXTURES

- Features a convenient self-check diagnostic system that provides visual assurance, where in the event of a power failure, will transfer to battery power
- All 3 units feature incandescent light sources
- Black housing (4PJ22); or beige powder coat finish (4PH93 & 4PH94)
- 20-gauge cold rolled steel housing
- Down light provided by a convenient bottom opening
- Universal directional chevron knockouts that are concealed and easily removed and replaced
- Solid state charging and transfer circuitry
- Dual 120/277 VAC 60Hz input
- Brown out protection
- Meets or exceeds UL 924 requirements; Made in the USA
- Long-life, maintenance-free lead calcium battery (4PJ22). 6 volt output
- Exit sign/emergency light (4PH93 & 4PH94) features a combination of 12 volt output 2 or 3 head unit with an 8" exit sign

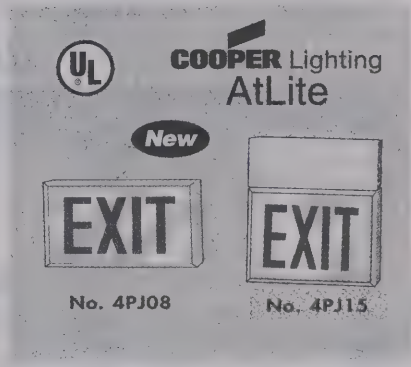
## CHICAGO APPROVED EMERGENCY AND EXIT LIGHTING

### Nos. 4PJ38 and 4PJ39



- 22-gauge cold rolled steel construction, coated with a neutral white finish
- Conduit knockouts on back and side for easy wiring
- Universal J-box mounting pattern; keyhole mounting slots
- Dual voltage input 120/277VAC 60 Hz 6 Volt, DC output
- Brown out circuit protection
- Test switch/power indicator light for added safety
- Sealed lead calcium recombination battery that provides minimum 2 hour emergency illumination
- Meets or exceeds UL 924 (E65048) and City of Chicago requirements for emergency illumination
- CSA certified
- Standard two head, fully adjustable, top mounted lamps
- Glare-free lenses
- Heads are metal with die cast metal swivels
- Uses halogen lamps
- 4PJ39 has capacity for 1 additional remote head

### Nos. 4PJ08 - 4PJ14

- 22-gauge cold rolled steel construction, coated with a neutral white finish
- 120 VAC input voltage
- Steel canopy (where supplied) allows ceiling or end mounting
- Red silkscreened lettering applied to white translucent, heat tempered, impact-resistant glass lens
- Lens installs from side of fixture for more convenient, safe maintenance
- Standard louvered downlight
- Full length 3/4" stroke arrow on directional exits
- UL 924 (E69466) and City of Chicago approved; damp location listed

### Nos. 4PJ15 thru 4PJ21

- 22-gauge steel construction, coated with a neutral white finish
- Solid state switching
- Overload/short circuit protection mechanism
- Dual voltage input 120/277 VAC 60 Hz. 6 Volt, DC output
- Brown out circuit protection
- Test switch/power indicator light for added safety
- Steel canopy (where supplied) allows ceiling or end mounting
- Red silkscreened lettering applied to white translucent, heat tempered, impact-resistant glass lens
- Lens installs from side of fixture for more convenient, safe maintenance
- Maintenance-free, long life, sealed lead calcium recombination battery operates lamps for a minimum of 2 hours
- Meets or exceeds UL 924 (E65048) and City of Chicago requirements for emergency illumination
- Uses incandescent lamps

## TEMPORARY JOBSITE LIGHTING

**Applications:** For general and electrical contractors. Used in new construction, renovation applications, and anywhere temporary jobsite lighting is required.

**Packaging:** Facilitates easy installation, handling, and storage.

**Lamps not included:** Recommend rough service lamp, No. 2V56 (except No. 4V353 recommend lamp No. 4V478) or see Inde under Lamps, Incandescent.

### A No. 4V350 Pigtail Socket

**Construction:** Weatherproof Safety-Yellow® socket with soft rubber lip to form a positive, watertight seal. Porcelain base interior is molded to cover. Full thread copper screw shell with medium base. Has 4½", 14 gauge wire leads. Woodhead brand. UL Recognized (E73750); CSA Certified (LR1533).

**Rating:** 600V, 15A, 300W.

**No. 4V350.** Shpg. wt. 0.2 lbs. List.....$6.34.
Each ..... **$5.82**

### B No. 4V351 Turtle Neck Socket

**Applications:** Used in areas where vibration might be a problem. Allows a more permanent lighting attachment. Metal reinforced mounting flange allows permanent weatherproof installation on 3½" or 4" boxes.

**Construction:** Floats in a soft rubber collar that absorbs vibration and shock impact. One piece NEOTEX® rubber construction. Supplied with 4½" pigtail leads, spring contact, and 3/8" shadeholder groove. UL Listed (E73750); CSA Certified (LR1533).

**Rating:** 600V, 15A, 300W.

**Dimensions:** 1½" diameter.

Woodhead brand.

**No. 4V351.** Shpg. wt. 06.05 lbs. List..... $81.82
Each ..... **$53.10**

### C No. 4V352 String Socket and Guard

**Applications:** Provides expandable, temporary lighting capable of withstanding weather, dampness, seepage, and corrosive environments. Used by contractors, utilities, mines, steel mills, ship builders, and petrochemical plants.

**Construction:** Tough, Safety-Yellow® NEOTEX ® rubber lampholder, with removable weatherproof socket, can be strung in the field with various types of available wire or cable. Shipped with terminals, ground strip, suspension hooks, and wire guard to protect lamp. Strain relief grips at each end keep out dust and grit that could interfere with electrical connection.

**Cord not included:** Accepts up to 10/3 SO cord (See Index under Cords).

**Dimensions:** NEOTEX® rubber housing is 4½L x 2W x 3¾"H. Socket is 1½" O.D. CSA Certified (LR1533) only. Woodhead brand.

**No. 4V352.** Shpg. wt. 1.3 lbs. List.....$48.69.
Each ..... **$43.10**

### D No. 4V353 Lite-A-Site Temporary Construction String Lights

**Construction:** Nonmetallic guard opens fron bottom, simplifying lamp replacement an protecting lamp (even if guard is unfas tened). String light is 100' long and is com plete with 10 guards and sockets at 1( intervals. Two 14-ga. wires with 100 watt per-socket capacity.

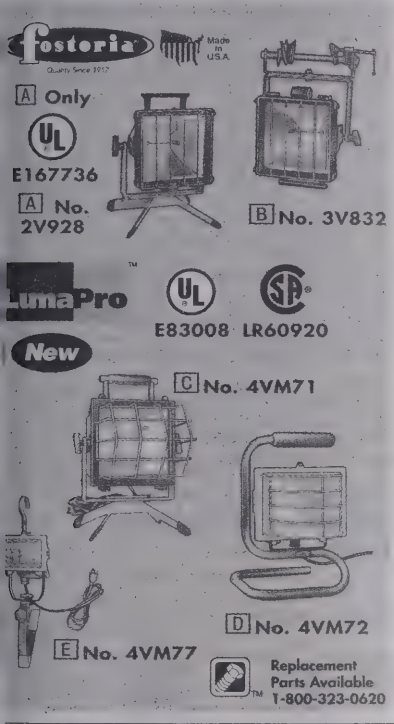
**Packaged:** For easy handling and storage.

**Installation:** Socket hanger brackets sna onto messenger wire (not included), trans ferring strain from the conductor wire and eliminating the need to thread socket onto the messenger wire. Requires n grounding.

**No. 4V353.** Shpg. wt. 6.0 lbs. List.....$81.82.
Each ..... **$53.10**

### No. 4V354 Open-End Replacement String Light Guard (Not shown)

**Applications:** Ideal for use with Nos. 4V350 4V351 and 4V352.



**Construction:** Heavy duty cage type guard i constructed of heavy-gauge steel wire May be grounded if required.

**No. 4V354.** Shpg. wt. 0.4 lbs. List.....$10.58.
Each ..... **$9.35**

When it comes to lighting, no distributor outshines Grainger.

# PORTABLE HAND CARRY LIGHTS AND INCANDESCENT TASK LIGHTS

ortable utility lighting provides rugged wide area, high intensi- floodlighting. Designed for temporary indoor/outdoor lighting pplications such as construction sites, manufacturing plants, aintenance areas, emergency and recreational use.
he Quartz Halogen utility lights provide bright, natural, color correct white light using 1/3 less energy than conventional incandescent lighting. Lightheads supply excellent beam control and instant light. See page 1055 for IES indoor/outdoor recommended task footcandle levels.

## HAND CARRY QUARTZ LIGHTS

### A HEAVY-DUTY HAND CARRY LIGHT

**Housing:** Cool to touch carrying handle. Black & safety yellow powder coat finish. **Lighthead:** Heavy-duty die-cast aluminum, large design and spring-loaded sockets dissipate heat rapidly. Beam adjusts up to 350° vertical aiming. Lens is impact resistant, weatherproof and gasketed. Includes wire lamp guard. 500W lamp included: Replacement lamp 500W, No. 2V384. Fixture can also take a 425W, No. 1F264; or a 300W, No. 2V529. Electrical: Liquid tight connections. All weather 15 ft./18 ga. 3-conductor cord with molded plug. Cord is UL Listed and CSA Certified for Indoor/Outdoor use and resistance to oils and water. Cord temp. range: 0° to 140°F. 120V, 60 Hz. **Approvals:** UL Listed (E167736). **Fostoria brand.**

### B HEAVY-DUTY CLAMP-ON LIGHT

Same Features as A, Except: unique clamp mechanism quickly mounts to any horizontal or vertical round surface up to 1½" in dia. or square surface up to 5½" wide. Unlike magnetic base units, clamp will not release light from surface even if bumped. Clamp parts cast iron. UL Listed (E167736). **Fostoria brand.**

### C PROFESSIONAL'S HAND CARRY LIGHT

**Housing:** Heavy-Duty die-cast aluminum housing. Hinged door frame for easy lamp installation. Foam grip handle and stable base. **Lighthead:** Suitable for outdoor and wet location. Waterproof gasket lens and tempered glass. Large wire guard included for safety. **Lamps Included:** Two 500W quartz lamps; order No. 2V384 for replacement. **Electrical:** Hi/Low switch, 12 ft., 18/3 grounded cord. UL Listed (E159679). **Luma Pro Brand.**

### D GENERAL PURPOSE HAND CARRY LIGHT

**Housing:** Die-cast aluminum housing. Hinged door and "S" handle with foam grip. **Lighthead:** Suitable for outdoor and wet location, waterproof gasket lens and tempered glass. **Lamps included:** 500W quartz lamp; order No. 2V384 for replacement. **Electrical:** 3 position dimmer switch (500W, 250W, Off), 12 ft., 18/3 grounded cord. UL listed (E159679) and CSA Certified (LR88449). **Luma Pro Brand.**

### E 150 WATT QUARTZ HALOGEN CLAMP LIGHT

**Housing:** Die-cast aluminum housing. Hinged door and 6" vinyl coated clamp and hook for versatile mounting. **Lighthead:** Suitable for outdoor and wet location, waterproof gasket lens and tempered glass. **Lamps included:** 150W quartz lamp, order No. 1E041 for replacement. **Electrical:** 12 ft., 18/3 grounded cord with On/Off switch. Operates on 120 volt current. UL Listed (E120560) and CSA certified (LR88449). **Luma Pro Brand.**

## INCANDESCENT TASK LIGHTS

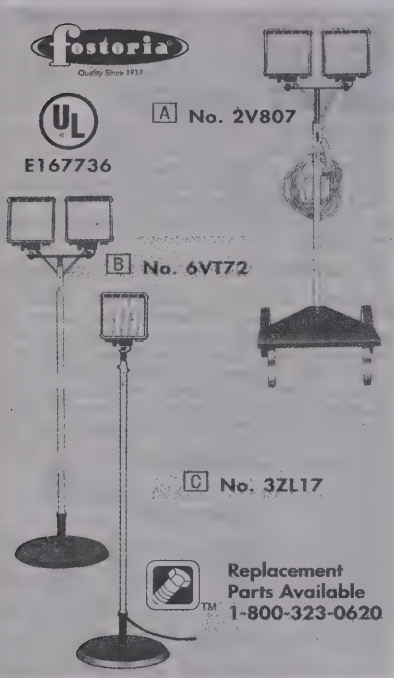
**A REFLECTOR LIGHTS.** Aluminum reflector features vinyl coated clamp and swivel ball joint. For indoor non-hazardous areas only. 120V, 60 Hz. Lamp not included. Fostoria brand.

**No. 2V647 has phenolic socket** with aluminum screw shell and 6 ft. 18/2 cord. UL Listed (E24601) for 100 watts. Recommended lamp No. 5V600.

**No. 2V647.** 100W Clamp-on Light (CL100).
Shpg. wt. 1.0 lbs. List ..... $15.99.
Each ..... **$14.13**

**No. 2V648 has deep reflector** and ceramic socket with copper screw shell. 8 ft. 18/3 cord. UL Listed (E24601) for 300 watts. Can be used with 250W heat lamp, No. 2V294, not included.

**No. 2V648.** 300W Reflector Light (CL-300).
Shpg. wt. 1.7 lbs. List ..... $25.98.
Each ..... **$21.03**



**B BROODER LAMPS.** Designed for use in chicken or pig brooders. Include heat resistant porcelain socket, 10½" diameter aluminum shade with wire guard and 8 ft. 18/2 SJT cord. Available with either vinyl coated clamp or handle for hanging. Accepts up to 250W heat lamp (No. 2V294), not included. UL Listed (E18387). Carol brand.

**No. 2V889.** Hang-up Lamp. Shpg. wt. 1.3 lbs.
List $9.99. Each..... **$9.55**

**No. 2V890.** Clamp-on Lamp. Shpg. wt. 1.7 lbs.
List $13.88. Each..... **$11.44**

# PORTABLE LIGHTCART, LIGHT STANDS, AND PEDESTAL LIGHTS

## HEAVY-DUTY QUARTZ LIGHTCART AND PEDESTAL LIGHTS

### A LIGHTCART

**Housing:** Unit is completely electrically assembled. 10" wheels and handle on mast provide easy transportation. 22" steel tray for supplies or mounting a generator. Welded steel frame construction. Black and safety yellow powder coat steel frame.

**Mast:** 1¼" diameter mast with cord wrap is adjustable to any height setting from 5 ft. 1" to 8 ft. 1".

**Lighthead:** Heavy-duty die-cast aluminum head, large design and spring-loaded sockets dissipate heat rapidly which increases lamp life. Adjustable 360° horizontally and 270° vertically. Allows all direction movement and independent aiming. Easily adjusted. Lens is impact resistant, weatherproof and gasketed. Includes wire lamp guard.

**500W lamps included:** Replacement lamp 500W, No. 2V384. Fixture can also take a 425W, No. 1F264; or 300W, No. 2V529.

**Electrical:** Connections are liquid tight for indoor/outdoor operation. GFCI and 15A duplex receptacle with double-pole On/Off switch on mast. All weather 15 ft. 3-conductor cord with molded plug. Cord is UL Listed and CSA Certified for indoor/outdoor use and resistance to oils and water. Cord temperature range: 0° to 140°F, 120V, 60 Hz.

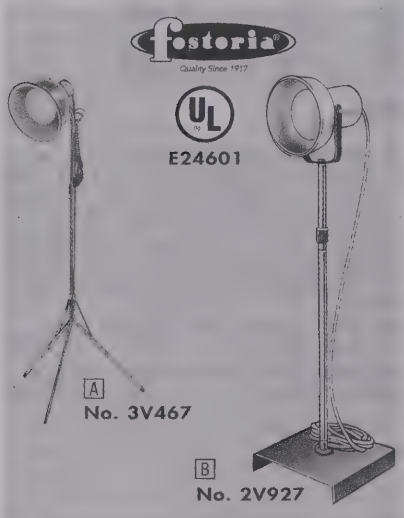
### B, C PEDESTAL LIGHTS

**Housing:** Units are completely electrically assembled. Pedestal is 18" round. Steel frame construction. Black and safety yellow powder coat steel frame.

**Mast:** 1¼" square steel mast with cord wrap and guide. Adjusts easily every 6" from 5 ft. 2½" to 8 ft. 2½". Safety stop prevents overextension.

**Lighthead:** Heavy-duty die-cast aluminum head, large design and spring-loaded sockets dissipate heat rapidly which increases lamp life. Adjustable 360° horizontally and 270° vertically. Allows all direction movement and independent aiming. Easily adjusted. Lens is impact resistant, weatherproof and gasketed. Includes wire lamp guard.

**500W lamps included:** Replacement lamp 500W, No. 2V384. Fixture can also take a 425W, No. 1F264; or 300W, No. 2V529.



**Electrical:** Connections are liquid tight for indoor/outdoor operation. All weather 15 ft. 3-conductor cord with molded plug. Cord is UL Listed and CSA Certified for indoor/outdoor use and resistance to oils, water, and weather. Cord temperature range: 0° to 140°F, 120V, 60 Hz.

**Approvals:** UL Listed (E167736).

**Fostoria brand.**

## INCANDESCENT LIGHT STANDS AND PEDESTAL LIGHT

Designed for use in maintenance and machinery repair, workshops, garages, body shops, manufacturing, construction, farms, and temporary dock lighting.

### A TRIPOD BASE LIGHT

**Housing:** Chrome-plated collapsible tripod base with rubber tips; spreads to 19" for maximum stability. Adjustable height from 36 to 52". Folds down to 27" for easy storage.

**Lighthead:** Medium base ceramic socket with copper screw shell. Adjustable 8" vented shade. Easy aiming with a 4" flex arm.

**Lamp not included:** Accepts up to 300W R40 (No. 2V411), 250W infrared heat lamp (No. 2V294) or 250W Par 38 lamp (No. 1G928).

**Electrical:** Includes 8 ft. 18/3 cordset. 120V, 60 Hz.

**Approvals:** UL Listed (E24601).

**Fostoria brand (PUL-300-MD).**

**No. 3V467.** Shpg. wt. 4.0 lbs. List.....$55.94. Each.....**$42.15**

### B PEDESTAL BASE LIGHT

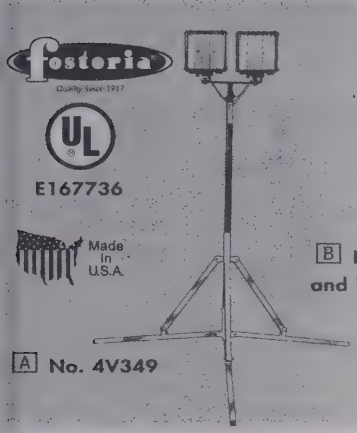
**Housing:** Chrome-plated collapsible tripod base with rubber tips; spreads to 19" for maximum stability. Adjustable height from 36 to 52". Folds down to 27" for easy storage.

**Lighthead:** Medium base ceramic socket with copper screw shell. Adjustable 8" vented shade. Easy aiming with a 4" flex arm.

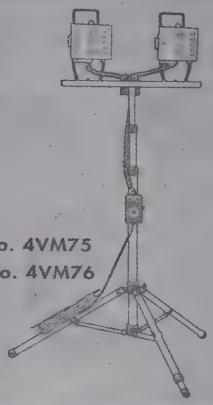
**Lamp not included:** Accepts up to 300W R40 (No. 2V411), 250W infrared heat lamp (No. 2V294) or 250W Par 38 lamp (No. 1G928).

**Electrical:** Includes 8 ft. 18/3 cordset. 120V, 60 Hz.

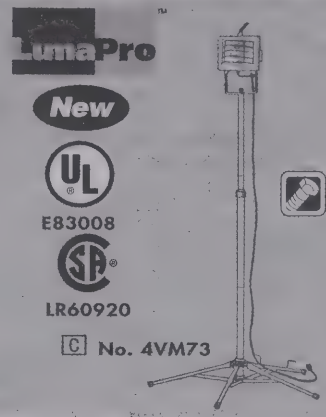
**Approvals:** UL Listed (E24601).



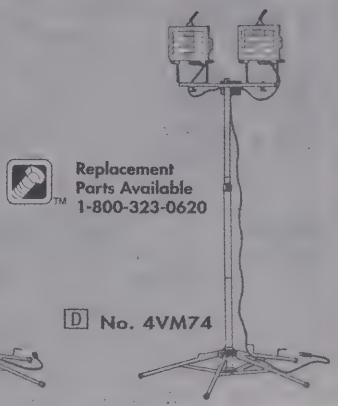
**Fostoria brand (PUL-300-HD).**



**No. 2V927.** Shpg. wt. 10.0 lbs. List $178.60. Each.....**$125.80**



When it comes to lighting, no distributor outshines Grainger.



# LIGHT STANDS

## QUARTZ UTILITY LIGHT STANDS

### A HEAVY-DUTY TRIPOD LIGHT STAND

**ousing:** Unit is completely assembled ectrically. Weight balanced for 1-hand rrying. Steel frame construction. Black d safety yellow powder coat finish.

**ast:** 1¼" square steel mast has cord guide prevent tangling and tip-over. Adjusts sily by a spring-loaded plunger every 6" om 5 ft. 10" to a maximum of 11½ ft. fety stop prevents over extension.

**se:** Folds up and locks in place for easy orage. Tripod base has 4 height settings , 12, 18, and 24").

**ghthead:** Heavy-duty die-cast aluminum ad, large design and spring-loaded sock- s dissipate heat rapidly which increases mp life. Adjustable 360° horizontally and 0° vertically. Allows all direction move- ent and independent aiming. Easily djusted without tools. Lens is impact sistant, weatherproof, and gasketed. cludes wire lamp guard.

**500W lamps included:** Replacement lamp 500W, No. 2V384. Fixture can also use a 425W, No. 1F264; or a 300W, No. 2V529.

**Electrical:** Connections are liquid-tight for indoor/outdoor operation. All weather 15 ft., 3-cond. cord with molded plug. Cord is UL Listed for indoor/outdoor use and resistance to oils, water and weather. Cord temperature range: 0° to 140°F. 120V, 60 Hz.

**Approvals:** UL Listed (E167736)
Fostoria brand.

### B PROFESSIONAL'S WORK LIGHTS

**Housing:** Die-cast aluminum housing.

**Mast:** 1½" diameter steel poles adjust from 40" to 84" high.

**Base:** U-Stand base is adjustable for balance and stability.

**Lighthead:** No. 4VM75 includes a 3-position dimmer switch for each lighthead (250W, 500W, Off). No. 4VM76 includes independent On/Off switch for each lighthead. Lightheads adjust to make directing of light easy.

**Lamps Included:** No. 4VM73 uses two 500W quartz halogen lamps. Use No. 2V384 for replacement. 1600W No. 4VM76 includes two 500W and two 300W quartz halogen lamps. Use No. 2V384 for 500W replacement and No. 2V529 for 300W replacement.

**Electrical:** Both units come with 20 ft. grounded cord, 14/3 gauge. Both units have a storage bracket, weatherproof duplex ground fault (GFCI) receptacle and tip over safety switch which automatically shuts light off if fixture falls. Product is suited for outdoor and wet weather applications.

**Approvals:** For No. 4VM75, UL Listed (E159679) and CSA Certified (LR88449). For 4VM76, UL Listed (E159679). LumaPro brand.

### C GENERAL PURPOSE TRIPOD LIGHT STANDS

**Housing:** Die-cast aluminum housing.

**Mast:** 1½" diameter steel poles adjust from 40" to 84" high.

**Base:** U-stand base is adjustable for balance and stability.

**Lighthead:** includes wireguard. Lightheads adjust to make directing of light easy.

**Lamps Included:** No. 4VM73 uses one and No. 4VM74 uses two 500W quartz halogen lamps. Use No. 2V384 for replacement.

**Electrical:** includes 6 ft. 18/3 gauge grounded cord.

**Approvals:** UL Listed (E159679) and CSA Certified (LR88449) LumaPro brand.

# INDUSTRIAL DOCK LIGHTS

## HEAVY-DUTY QUARTZ HALOGEN AND HPS DOCK LIGHTS

### A & B HIGH PRESSURE SODIUM (HPS) ENERGY SAVING DOCK LIGHTS

**Applications:** Fixtures provide highest footcandle levels with high efficiency (up to 63% energy savings, versus 150W incandescent PAR lamp). HPS lamps have an average rated lamp-life of 24,000 hours, or twelve times the average rated life of incandescent PAR lamps. HPS models use 50W HPS lamp (No. 2V657, included and installed in fixture). Refer to lamp characteristics chart. HPS models operate on reactor-type NPF 120V, 60 Hz ballast. A 5 ft. SJT/SJTO 3-wire cordset with grounded plug is included (except No. 4W999) for easy connection to a grounded wall receptacle. UL Listed (E12434); CSA Certified (LR57750).

A **24, 40 and 60" Models:** 1½" square tubing arms. No. 2V884 has one 24" arm. No. 2V885 has one 24" and one 16" arm. No. 2V886 has one 34" and one 26" arm.

B **No. 4W999 HPS Dock Light Conversion Kit:** Enables easy conversion to a HPS unit from a previously existing incandescent dock light. Consists of a shade assembly with ballast and ignitor, yoke, high purity aluminum reflector, a 12" length of cord, and connector plugs for connecting to existing incandescent dock lights. Yoke accepts 1/2" bolt. 50W HPS lamp included and installed. 120V, 60 Hz operation.

### C INDOOR/OUTDOOR QUARTZ HALOGEN DOCK LIGHTS

**Applications:** Quartz Halogen is most effective in new, longer trailers.

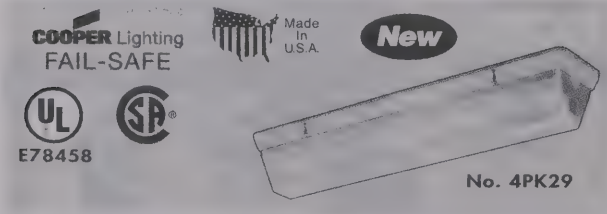
**Construction:** 500W, Heavy-duty die-cast aluminum lighthead with a wide area beam pattern. Provides up to 11,000 lumens for effectively illuminating new longer truck trailers. Also effective for general illumination at dock areas and work stations. Lighthead is gasketed for weathertight construction, making these models suitable for outdoor applications. Includes an impact-resistant lens and sturdy wire lamp guard. Handle provided for easy movement and positioning. A 5 ft. SJTW-A 3-wire cordset with grounded plug is included for easy connection to a grounded wall receptacle.

**Lamp included:** Replacement lamp 300W, No. 2V529; 425W, No. 1F264; or 500W, No. 2V384.

Same arm construction and movement as incandescent and HPS models. UL Listed (E12434).

Model No. 4W996 has one 24" arm.

Model No. 4W997 has one 24" and one 16" arm.



Model No. 4W998 has one 34" and one 26" arm.

D **No. 3ZL13 Optional Polycarbonate Lens** (for HPS models only) added easily to HPS dock light to provide better protection allows dock light to meet OSHA standard for food and pharmaceutical processing industries. Fostoria brand.

C
No. 3V488

**ghtheads:** Heavy gauge, non-rusting spun aluminum reflector is ¼ x 7¾" dia. at lamp end and swivels 300° in horizontal plane. n/Off toggle switch and high temperature porcelain socket with ckel-plated copper screw shell. Socket has push-button spring aded suspension mounting for lamp protection. Powder coated -visibility yellow finish.

**m Construction and Movement:** 14-gauge, 1½" square tubing arms low for vertical and horizontal adjustment. Bearings at all ring joints and rotation stop brackets protect cord. The vertical just feature on all 40, 60 and 90" models allow fixture to "flex ray" with the door, if the door is accidentally closed, and lows for exact positioning. Arms swivel 300° in the horizontal ane and 210° in the vertical plane.

**ounting Base:** 24, 40, and 60" models have a 3 x 5" base, painted ack, and fabricated from 3/16" steel for sturdy mounting sup- ort. 90" model has additional base support. Base accepts 3/8" a. mounting hardware for attachment to a vertical surface. xture swivels 180° at the base area. No. 2V923 has a swivel nger base for overhead installation to a standard 4" junction ox.

**mp not included:** Accepts 150-300W, PAR 38, R or BR-series mps, medium base, 120V rated, in a wide varietry of beam pat- rns. Suggest using 150W PAR Lamp No. 4PL09 or select a lamp om selection guide, or see Index under Lamps, Incandescent.

**ectrical:** 24, 40, 60, and 90" models have a 5' SJT/SJTO 3-wire ounded cordset with grounded plug, for easy connection to a ounded wall receptacle.

**pprovals:** UL Listed; CSA Certified.

A **24, 40 and 60" Models:** 1½" square tubing arms. No. 2V536 has one 24" arm. No. 2V537 has one 24 and one 16" arm. No. 3V371 has one 34 and one 26" arm. UL Listed (E12434); CSA Certified (LR57750).

B **No. 2V923 25" Swing Away Dock Light:** Unit comes with 25" rigid round arm with a flexible coil, which allows fixture to swing out of the way when struck from any direction. Returns to original position after contact. For overhead mounting only, to a std. 4" junction box. UL Listed (E12434); CSA Certified (LR57750).

C **No. 3V488 90" Railcar Dock Light:** Used in railcar loading applications or where extended length is required. Triple arm 90" extension with reinforced double-arm construction for mounting support. Has one 12, one 62 and one 16" arm. UL Listed (E12434); CSA Certified (LR57750).

## ACCESSORIES

# HEAVY-DUTY MACHINE TOOL LIGHTS

**Lightheads:** Designed for strength and function. Constructed of 22 ga. stamped steel; charcoal-gray exterior, and hi-reflective white interior. Replaceable 10 amp rocker switch; rugged, long life glazed porcelain socket with nickel plated copper screw shell.

**Arms:** Variety of lengths to meet specific job application. Will withstand heavy vibration while retaining position. Adjustable disc and collar joints allow 135° vertical and 180° horizontal rotation of 5/8" dia. steel tube arms. Bar knobs adjust and secure fixture in position.

**Mounting base:** Permanent steel base for horizontal or vertical mounting provides 360° rotation. (See optional Clamp—on Attachment No. 4V348, below.)

**Lamp not included:** No. 3ZL12 uses a 50 watt MH lamp (No. 1F398). No. 4V347 uses two 13 watt fluorescent lamps (No. 2V835). Lamps have up to 10 times the life of an incandescent lamp and use 75% less energy. All other models use medium screw base A-19, A-21 or smaller incandescent bulbs. (See chart for recommended lamp.)

**Electrical:** Heavy duty, oil resistant, 8', 18/3 SJTO cordset with molded and grounded plug.

**Approvals:** No. 3ZL12 is UL Listed only. All other models are UL Listed (E24601) and CSA Certified (LL46141).

# WATERPROOF MACHINE LIGHTS AND INCANDESCENT TASK LIGHTING

## WATERPROOF MACHINE LIGHTS

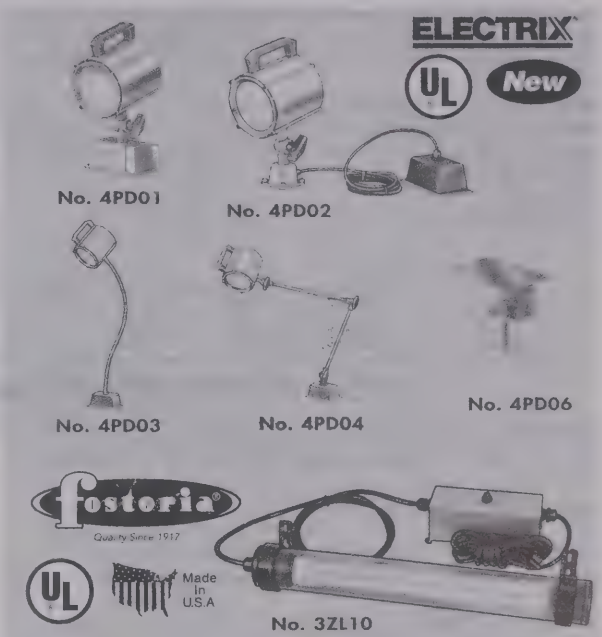
### HALOGEN LIGHTS

**NEMA 4 waterproof, oil-tight, and dustproof**
**Bright white halogen light, see chart below for replacement lamp**
**Safe, low voltage lighting**
**Nos. 4PD01, 4PD03, and 4PD04 have 12V transformer integrated in base**
**No. 4PD02 has a remote mount transformer**

ount directly to work surface or use optional clamp. Zinc cast, sitive lock swivels hold light fixture in desured position with- t slipping. Convenient phenolic handle and waterproof On/Off vitch on shade. Vented aluminum shade stays cool for operator mfort. 9-ft. grounded cord is water and oil resistant with liq- d tight fittings. 55 watt/12V halogen lamp included. UL Listed.

### FLUORESCENT LIGHTS

eets OSHA Standards for use in food and pharmaceutical pro- ssing, lathes, and machine enclosures where coolants, sol- nts, and cutting fluids are present. 21" long fixture is water- oof (not submersible), dust proof, and UL listed for NEMA 13 e. Fixture is attached to an in-line ballast which has stainless eel mounting clips, is not NEMA 13 rated, and must be located t of wet or potentially wet locations.



**mp included:** 39W Biax® compact fluorescent lamp. ecommended replacement 39W, No. 6V039.

**ctrical:** 77" cord from fixture is 18/4 oil--resistant SJTO. 8' cord- t (with grounded molded plug) from the ballast is 18/3 TO/SJT. Push button switch on ballast enclosure. 120V, 60Hz.

**provals:** UL Listed for USA and Canada (E24601).

**o. 3ZL10 with acrylic lens** offers greater resistance to shattering d good resistance to scratching.

**o. 3ZL11 with borosilicate lens** offers greater resistance to chemi- ls and hot debris from machining equipment.

# QUARTZ HALOGEN TASK LIGHTS

## LOW VOLTAGE (12V) TASK LIGHTS

### A No. 2V940 50W Inspection Light

**Applications:** For assembly, small area, and general inspection applications. For indoor use only.
**Construction:** Scientifically designed and patented reflector with 4 x 6 x 1½" shade delivers evenly diffused, wide spread illumination. Features flexible 26" industrial grade steel gooseneck that maintains any desired position. Mounted on a zinc cast base which houses an energy efficient transformer. Black finish.
**Lamp included:** 50W halogen bi-pin lamp provides almost twice the light output of a standard 100W lamp. Order No. 2F518 for replacement lamp.
**Cord:** 120V, 2 conductor, 8 ft. power cord included.
**Approvals:** UL Listed for USA and Canada for indoor use only (E39668).

### B No. 6W903 Magnetic Mount Work Light

**Applications:** Machine tools, lathes, and heavy machines.
**Construction:** Compact 3 x 3" metal shade produces crisp white light exactly where it is needed. Black finish. Features flexible 26" industrial grade steel gooseneck that maintains any desired position. Magnetic base with 90 lbs. pull strength.
**Lamp included:** 20W halogen MR-16 dichroic reflector lamp provides 700 footcandles of crisp white light, over twice that of a standard 100W incandescent lamp. Average 4000 hour lamp life. Replacement lamp No. 1K359.
**Cord:** 120V, 3-conductor, 9 ft. power cord included.
**Approvals:** UL Listed for USA and Canada for indoor use only (E39668).

### C No. 6VT77 Work/Task Light

**Applications:** Machine tool lighting, assembly, small area and general inspection applications.
**Construction:** Compact 3 x 3" metal shade produces crisp white light exactly where it is needed. Features flexible 26" industrial grade steel gooseneck that maintains any desired position. Provided with fully adjustable zinc cast clamp or can be used with all optional mounting accessories (see chart). Black finish.
**Lamp included:** 20W halogen MR-16 dichroic reflector lamp provides twice the amount of light of a standard 100W incandesce lamp. Average 4000 hour lamp life. Replacement lamp No. 1K3
**Cord:** 120V, 3-conductor, 9 ft. power cord included.
**Approvals:** UL Listed for USA and Canada for indoor use o (E39668).

### OPTIONAL MOUNTING ACCESSORIES FOR ELECTRIX LIGHTS

**D Rolling Floor Stand with Casters:** Portable 38" high floor sta can be used to move light source to any desired location w ease. All steel construction with a durable, matching black finis

**ord:** 7 ft., 2-conductor cord with polarized plug. 120 V, 60 Hz.

**mp Included:** 50 watt, bright white halogen light. For replace-ent, use No. 2F518.

L Listed. Electrix brand. (7250 Black).

**ew No. 4PC99.** Shpg. wt. 5.2 lbs. List ..... $59.00.
ach ..... $44.15

## COMPACT TASK LIGHT

**pplications:** For environments where space is at a premium.

**onstruction:** Flexible upright arm for easy light head ositioning.

**ase:** Weighted base includes compartments to hold paper clips, ush pins, etc.

**ord:** 6 ft., 2-conductor cord. 120 V, 60 Hz.

**amp included:** 13-watt Biax compact fluorescent lamp For eplacement lamp order No. 6V712.

L Listed. Ledu brand (L259MB).

**ew No. 4PD31.** Shpg. wt. 2.6 lbs. List ..... $78.00.
ach ..... $58.05

## TASK LIGHT

**pplications:** Asymetrical light pattern reduces glare and reflec-ons. Ideal for desktop and computer environments.

**onstruction:** Steel reflector and adjustable steel arm with 30" each.

**ase:** Includes weighted or clamp-on base for mounting.

**ord:** 6 ft. 2-wire cord included. 120 V, 60 Hz.

**amp Included:** 13-watt Biax compact fluorescent lamp. For eplacement lamp order No. 6V712.

L Listed. Ledu brand (L283MB).

**ew No. 4PD32.** Shpg. wt. 8.0 lbs. List ..... $64.00.
ach ..... $47.60

## DESK/COMPUTER LIGHT

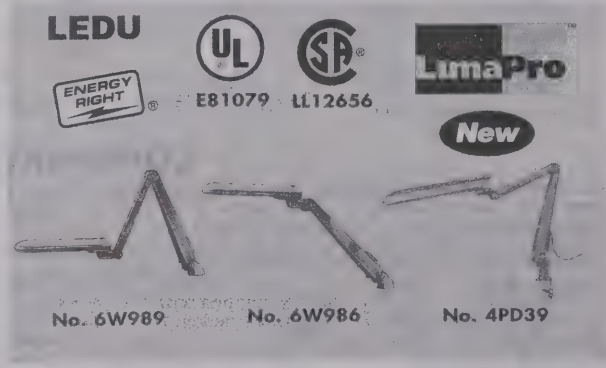
**Applications:** Great near computers, on table tops to add lighting to task area.
**Construction:** 12" adjustable plastic shade. Adjustable steel arm with 30" reach.
**Base:** Includes weighted or clamp-on base for mounting choice.
**Cord:** 6 ft. 2-conductor cord. 120 V, 60 Hz.
**Lamp included:** 13-watt Biax compact fluorescent lamp. Replacement lamp No. 6V712.
UL Listed. LumaPro brand.
***New* No. 4PD53.** Shpg. wt. 6.0 lbs. List ..... $56.40.
Each ..... $39.75

# COMPACT FLUORESCENT TASK LIGHTS

## Nos. 6W986 and 6W989

**pplications:** For office environments, especially around comput-r terminals or areas used for viewing technical drawings.
ntegrated design-molded head and arm assembly. Plastic shade as reflector to optimize light output. Head moves 180° in hori-ontal plane. Single arm units have a 19" reach. Double arm units ave a 34" overall reach. Arms are held in position by friction oints. 2-conductor cord. 120V. 60Hz

**ase:** Both models come with edge clamp mounting bracket. For esk top use, order optional base from table below.
Black matte.



**amp included:** Uses energy saving 18W BIAX ® compact fluores-ent lamp that provides light output equivalent to a 75W incan-escent lamp. For replacement order No. 6V033.
JL Listed (E81079); CSA Certified (LL12656). Ledu brand.

## COMBINATION LIGHTS

**Nos. 6W988 and 6W987.** Provide task lighting flexibility by using both a 60 watt incandescent lamp and a 22 watt circline lamp. Lamps can be turned on separately or combined for bright illumination (over 2100 lumens) and good color rendition. Precision balanced arm offers fingertip control and holds rigidly in desired position with 42" overall reach. Dual reflector prevents heat buildup. Large 9" diameter shade. Equipped with 6 ft., 3 conductor cord, and adjustable "D" mounting bracket. Convenience outlet in base. 120V. 60Hz. Includes lamps. For replacement, order No. 1V860 (fluorescent) and No. 5V598 (incandescent). UL Listed (E69307). Ledu brand

**Nos. 4PD42 and 4PD43.** Illuminate with incandescents, fluorescents, or both in one fixture. Precision balanced arm offers fingertip control. Convenience outlet in base. Steel springs. Provides over 2100 lumens and good color rendition when both lamps are on. Arm with 42" reach holds its position. Dual reflectors prevent heat buildup. Combination lights have a 9" shade, 6 ft., 3 conductor cord, and adjustable "D" bracket. Lamps included. Replacement lamp No. 1V860 (fluorescent) and 5V600 (Incandescent). 120V, 60 Hz. UL Listed. Luma Pro brand.

## UNDERSTANDING MAGNIFICATION

### COMMONLY USED TERMS

**lagnification:** The degree to which the pecimen (viewed object) is enlarged. This s normally expressed by a number fol- owed by an "X" which signifies power. To etermine the magnifying power based on ne lens diopter use the formula below.

$$\text{MP (Magnification Power)} = \frac{\text{d(diopter)} + 1}{4}$$

**iopter:** Identifies the refractive (light ending) capacity of a lens. Note: the rated nagnifying power of a lens is based on the pecimen being viewed at the full focal ength.

**Focal Length:** The distance from the center of the lens (or combination of lenses) to the specimen when it appears at its maximum size without distortion.

### HELPFUL HINTS

As magnifying power increases the focal length and field of view decrease in size (see chart for focal length).

Eyes should be 8-10 inches above lens for viewing comfort and proper ergonomic position (avoid neck and shoulder muscle fatigue).

Generally, 5-diopter is the maximum diopter that can be used for assembly work (it has an 8 inch focal length). A stronger lens, or combination of lenses, will have too short a focal length for most tools to fit under for work; so such lenses are for inspection purposes only.

No magnification

1.75X achieved with a 3-diopter lens

2.75X achieved with a 3-diopter primary lens and a 4-diopter secondary lens

3.75X achieved with a 3-diopter primary lens and an 8-diopter secondary lens

| Magnification | Lens Diopter | Focal Length (In.) | Viewing Area (In.) | Primary | Secondary |
|---|---|---|---|---|---|
| 1¾X | 3 | 13 | 5 | 3d | — |
| 2¼X | 5 | 8 | 5 | 5d | — |
| 2¾X | 7 | 5½ | 4 | 3d | 4d |
| 3¾X | 11 | 3½ | 3¼ | 3d | 8d |

# MAGNIFIER LIGHTS

## QUARTZ HALOGEN MAGNIFIER LIGHTS

**Applications:** For close up inspection and quality control, electronics and industrial components assembly, soldering, equipment calibration, small area and general applications. For indoor use only.

**Construction:** Ruggedly constructed steel suspension spring arms feature locking control knobs at arm joints.

**Lens:** 5" diameter, 3 diopter lens provides 1.75X magnification. For additional amplification order No. 6VT76 auxiliary swing away 3 diopter lens below.

**Switch:** Equipped with a Hi-Lo switch for convenient light level selection.

**Lamp included:** 100W halogen lamp provides 700 footcandles of high quality, bright-white light output, over 3 times the output of a standard fluorescent 22W circline lamp. Use No. 1E362 replacement lamp.

**Convenience outlet:** Both magnifier lights include a 700W, 3 prong convenience outlet which can be used for other electrical appliances.

**Cord:** 9 ft., 3 conductor cord included.
**Finish:** Black.
**Approvals:** UL Listed for USA and Canada (E39668).

**Halogen Magnifier Light**

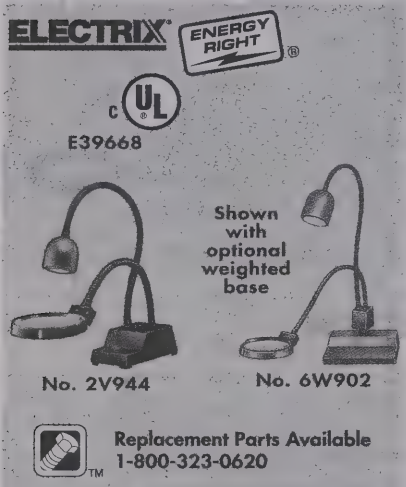
**Base:** Adjustable clamp-on bracket with 2½" opening. Can be used with most optional mounting accessories (see chart on page 1168.

**Reach:** 45".

**Electrix brand** (7426).

**No. 6VT78.** Shpg. wt. 7.7 lbs. List.....$197.56
Each **$178.00;** Lots 3 **$169.10;** Lots 9 **$160.19**

**Weighted Base Halogen Magnifier Light.:** Bas 8½" square. 7 lb. weighted base. Can b used with most optional mounting acce sories (see chart) on page 1168.



**Reach** 34".

**Electrix brand** (7426WB).

**No. 6W905.** Shpg. wt. 17.0 List.....$328.10
Each **$207.00;** Lots 3 **$196.46;** Lots 9 **$186.13**

(✓) Denotes energy efficient product.

## LOW VOLTAGE HALOGEN INSPECTION MAGNIFIERS

**Applications:** For quality control and close up inspection in assembly, small area and general applications. No. 6W902 Long Reach Halogen Combination light can also be used in large area applications. For indoor use only.

**Construction:** Both the magnifier lens and light source are mounted to industrial grade flexible steel goosenecks which can be adjusted to any position desired. Compact 3.5 x 4" metal shade.

**Lens:** 5" diameter, 3 diopter lens provides 1.75X magnification. For additional magnification order No. 6VT76 auxiliary swing away 3 diopter lens below.

**Finish:** Black.

**Approvals:** UL Listed for USA and Canada (E39668).

**Combination Inspection/Magnifier Light with Weighted Base**

**Features:** Compact 4 x 6 x 4" zinc cast weighted base with On/Off switch. Transformer housed in base for maximum light portability. Both magnifier and light source have a 21" reach. Equipped with 3 conductor, 9 ft. cord.

**Lamp included:** 50W halogen bi-pin lam provides almost twice the light output of standard 100W lamp. Avg. 2000 hour lam life. Order replacement lamp No. 2F518.

**Electrix brand** (7310).

**No. 2V944.** Shpg. wt. 10.0 lbs. List ...$166.02
Each **$123.05;** Lots 3 **$116.86;** Lots 9 **$110.71**

**Long Reach Combination Inspection/Magnifi Light.:** Features: Supplied with full adjustable, zinc cast clamp base. Also ca be used with all optional mounting acce sories on page 11678. Both magnifier an light source have a 30" reach. Convenien plug-in remote transformer. Equippe with 2-conductor, 8 ft. power cord.

**Lamp included:** 50W halogen bi-pin lam provides almost twice the light output of standard 100W lamp. Average 2000 hou lamp life.

**Electrix brand** (7308).

**No. 6W902.** Shpg. wt. 5.0 List.....$236.40
Each **$134.15;** Lots 3 **$127.43;** Lots 9 **$120.72**

(✓) Denotes energy efficient product.

## AUXILIARY 3 DIOPTER MAGNIFIER LENS

**Use for additional magnification.** Instant attachment and swing away arm for use with Nos. 2V944, 6VT78, 6W902 and 6W905. **Electrix brand** (MAG-3).

**No. 6VT76.** Shpg. wt. 1.0 lbs. List .....$19.66
Each **$13.91;** Lots 3 **$13.22;** Lots 9 .....**$12.53**

# MAGNIFIER LAMPS

## WIDE ANGLE MAGNIFIER LIGHTS

**pplications:** Electronic assembly ncluding surface mount, QC spection, rework areas, and spection/assembly in laboratoes, clean rooms and medical cilities.

**onstruction:** Features a large 6¾ 4½", 3.5 diopter, distortionee lens mounted in a high tech yle housing which includes ual light sources. Lights may be sed independently or together. oth lights "On" provide shadowee illumination; one light "On" rovides better 3-dimensional iewing. 30 or 45" reach arms are ade of heavy-duty 1/2" square teel tubes with tempered steel prings housed in the lower arm ibes. Supplied with edge mountd bracket or weighted base.

**ord:** Equipped with 3-conductor ord, 120V, 60Hz.

**inish:** Light Gray or Black

**Lamp included:** Uses two 13W quad compact fluorescents. Recommend No. 4V302.

**Accessories:** Optional lenses for additional magnifying power (attach on top of primary lens). Nos. 3VH68 thru 3VH71 snap on and 3VH72 slides on.

**Approvals:** UL Listed (E24877). **Luxo brand.**

# BATTERIES

RAYOVAC®

Priced each.
Sold only in packages and cases, (Except 4LV98 which is priced and sold only in packages of 8).

## ALKALINE INDUSTRIAL BATTERIES

- Alkaline batteries are designed for high drain devices, with frequent use applications
- Up to twice the service life compared to heavy-duty batteries
- Packages are date-coded for easy and proper rotation of stock
- Retains 85% of original life up to 5 years in storage
- Long life alkaline battery
- Mercury free formula
- Warranted against leakage

## 8.4V ZINC AIR MEDICAL BATTERY

RAYOVAC®

New

No. 4LW12

- For medical equipment, telementary devices, and heart monitors
- Zinc air technology
- Vacuum sealed in foil pouch, so battery stays "fresh" until you need it
- Operating temperature range 32° to 122° F (0° to 50° C).

***New*No. 4LW12.** Rayovac (R146A). Shpg. wt. 0.2 lbs.
List $6.95.Each.....$5.95

## BATTERY TESTER

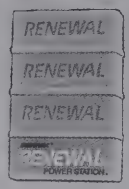
RAYOVAC®

Made in U.S.A.

- All-purpose battery tester will test most batteries
- Voltage range: 1.5 - 9V

**No. 5U001.** Rayovac (GT18). Shpg. wt. 0.7 lbs.
List $28.29.Each.....$25.50

# BATTERIES AND FLASHLIGHTS



## RENEWAL® RECHARGEABLE ALKALINE™ BATTERIES

RAYOVAC®

Made In U.S.A.

New

No. 1C988
Charges
4 Size
AA/AAA

No. 4PG57
Charges
(4) size C/D,
(8) size
AA/AAA

- Long life alkaline power
  - -Comes fully charged, ready to use
  - -Lasts longer per charge than any other rechargeable
  - -Hold its power when not in use—up to 5 years
- Alkaline Battery Performance
- Rechargeable when charged in Renewal Charger
  - -The only charger designed to charge Renewal batteries
- Saves you money
  - -In your flashlight, two D Renewal can replace 15 to 50 regular alkaline
  - -In your pager, one AA or AAA Renewal can provide service up to one year
  - -For maximum savings and life, charge your Renewal batteries frequently, before they are fully drained
- Easy to use
  - -No memory problem with Renewal batteries
- Environmentally responsible
  - -Mercury and cadmium-free formula
  - -Fewer throwaways

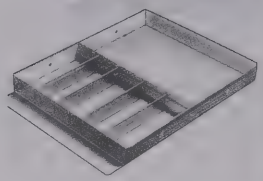
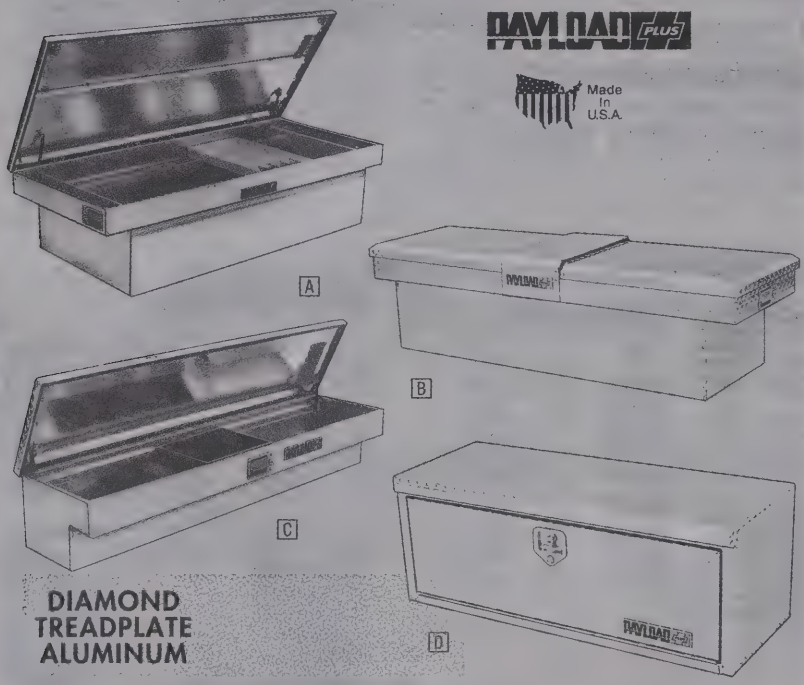
# PREMIUM LINE ALUMINUM TRUCK BOXES



**All Payload Plus® Aluminum and Steel Crossover Boxes Include:**

Oversized, easy-to-open stainless steel paddle handles to improve security



Small parts and tool storage built-in both ends for convenience

Steel tray with adjustable dividers slides for easy access and organization

**Aluminum boxes feature aluminum hinges & closed-cell neoprene foam weatherstripping for protection**

SEE PAGE 1194 FOR TRUCK BOX DIMENSION GUIDE

## A SINGLE LID CROSSOVERS

- Single lid design allows 100% access to interior for loading and unloading
- End-mounted stainless steel locks unlock from either side
- Lid strikers adjust horizontally and vertically for improved security and weather resistance
- Beveled edge lid design with welded cross bracing for superior strength
- Deep channel reinforcements in sidewalls and bottom maximize strength, durability and security

## B GULL WING CROSSOVERS

- Extended lid design for 20% larger opening than standard steel dual lid models for easier loading and unloading
- Beveled edge lid design with welded cross bracing for superior strength
- Welded center section lid mounts provide superior security
- Lid strikers adjust horizontally and vertically for improved security and weather resistance
- Deep channel reinforcements in sidewalls and bottom maximize strength, durability and security

## C INNERSIDES

- Built-in full-length parts and tool storage for convenient access and organization of supplies
- Oversized stainless steel paddle handle is easy to open and is more secure
- Extra-high capacity design provides storage space for hard-to-fit tools, provides space below for 4' wide materials; dimensions between innersides is less than 48"
- Mounts on rail; installation leg support kit included

## D UNDERBODIES

- Extra-heavy 0.100 Aluminum provides superior strength and durability
- Three-point T-handle locks door at top and both sides for superior security
- Mounts above or below platform

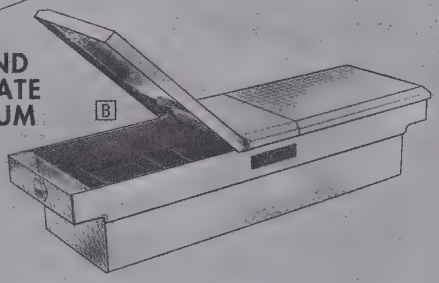
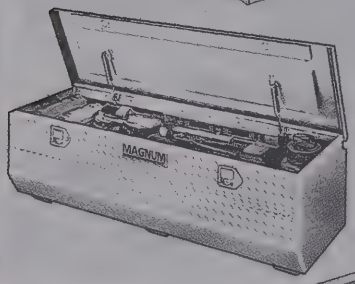
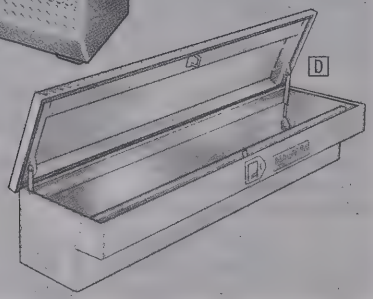
# STANDARD LINE ALUMINUM TRUCK BOXES



MAGNUM

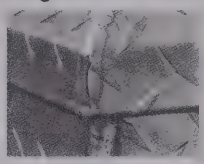


Made In U.S.A.



DIAMOND TREADPLATE ALUMINUM

New



SEE PAGE 1194 FOR TRUCK BOX DIMENSION GUIDE

**All Magnum™ Aluminum and Steel Truck Boxes Include:**

Fully beveled edge lids with welded inner bracing for greater strength, rigidity and security

Small parts and tools storage built in both ends

Gas-springs raise lid without assistance

Full weatherstripping to help seal lid and protect valuables.

## A SINGLE LID CROSSOVERS

- New deeper body design provides storage for tall items
- Lid locks and unlocks from driver's side, opens from either side
- Heavy-duty molded sliding tray with four compartments for convenient access and organization of supplies
- Single lid design allows 100% access for loading and unloading bulky items
- Stainless steel paddle handles for dependable security

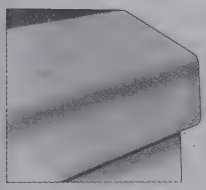
## B GULL WING CROSSOVERS

- Extended lid has 20% larger opening than standard steel dual lids
- Stainless steel paddle handles for dependable security
- Welded center section cover improves security, durability
- Heavy-duty gas spring mounts are welded to lid for durability
- Molded sliding tray with four compartments for convenient access and organization of supplies

## C FULLSIZE STORAGE CHEST

- Recessed lid hinge allows lid to be fully opened when chest is flush against truck bed wall
- Lid opens and unlocks from drivers side. Opens from either side.
- Tapered bottom bolsters designed to fit in truck bedliners and elevate chest above floor to keep contents out of standing water
- Stainless steel paddle handles for improved security and convenience
- Full length lid reinforcement increases strength and security
- Contents not included

## D INNERSIDES



- Built-in full-length parts and tool storage for convenient access and organization of supplies
- Single lid design allows 100% access for loading and unloading bulky items

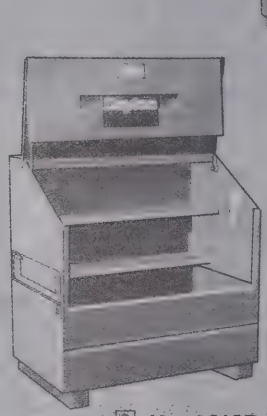
## PADLOCK PLUS LOCKING SYSTEM



Gives two point locking (one at each end) while using only one padlock. Push lock in and system engages, turn key and system unlocks. (Padlock not included.)

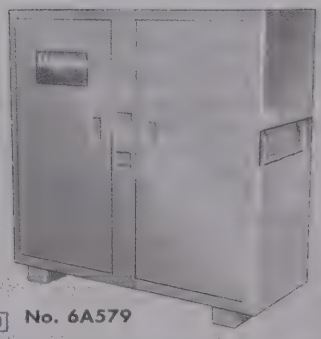
A **10.2, 16.7, 20.8, and 25.8 Cu.-Ft. Chests** have mating cover and body design that form a deep, secure overlap. Locking cover supports prevent cover from dropping. Full length bin across back for small parts and tools.

B **34.0 Cu.-Ft. Slant Top Chest** offers large storage capacity with a slanted cover for reading blue prints and drawings. Mating cover and body design form a deep, secure overlap. Double hinged cover opens up and folds completely out of the way. Heavy-duty gas springs allow for easy opening and closing and prevents top from falling. Two 12" shelves offer storage for small tools and parts. Holds 16 bins, No. 2W329 (not included).

C **34.4 and 50.0 Cu.-Ft. Flat Top Chests** offer huge capacity and easy access. Mating cover and body design form a deep, secure overlap. Double hinged cover opens up and folds completely out of the way. Heavy-duty gas springs allow for easy opening and closing and prevents top from falling. 50 Cu.-ft. chest has three 12" shelves and holds 24 bins, No. 2W329 (not included). 35.4 Cu.-ft. chest has one 12" shelf and holds 8 bins, No. 2W329 (not included).

D **46.7 Cu.-Ft. Cabinet** is designed to store tools, instruments, and devices which are susceptible to damage. Picture frame door construction gives added strength. Three shelves are welded in place and reinforced for increased strength and rigidity. Items can be placed where they can be seen and easily accessed.

B No. 6C697



C No. 6A578

**CASTERS NOT INCLUDED**
**Order Casters No. 3A844 or 3A845**

**CASTERS' MOUNTING HARDWARE NOT INCLUDED**
**Four 3/8-16 x 3/4" hex head, self-tapping, cap screws and four 3/8" split lockwashers required per caster.**

**PADLOCK NOT INCLUDED**
**Order Padlock No. 4T082, or use #5LF Master Lock or equivalent.**

D No. 6A579

# PLASTIC TOOL BOXES

## A 15" TOTE TRAY

- Stackable tote tray
- Drawer for organizing small items
- Light gray finish
- Storage capacity 726 cu-in.

## B 20" TOTE TRAY

- Extra-large tote
- Holes designed for storage of screwdrivers and wrenches
- Conversion information molded into edge of tray
- Light gray finish
- Storage capacity 1,560 cu-in.

## C 20" TOOL BOX

- Tote Tray
- Flat top design makes it stackable
- 2 steel latches add strength to box
- Blue-green finish
- Storage capacity 1,479 cu-in.

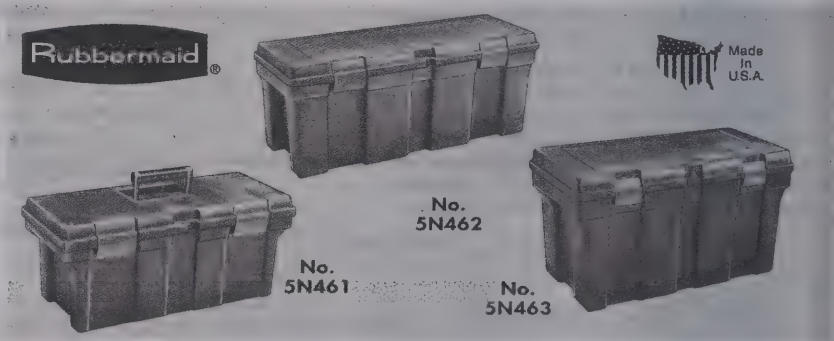
## D 22" TOOL BOX

- Steel-handled tote tray
- 2 steel latches add strength while carrying box
- Blue-green finish
- Storage capacity 2,038 cu-in.

## E GREAT TOOL ORGANIZER

- Contains 3 levels of storage
- Tub is sized to hold many small power tools
- Two removable trays with organizing compartments
- Positive locking latches will not open accidentally
- Light-weight resin strong, durable, and weather-resistant construction
- Hi-VIZ green/black finish
- Storage capacity 1,165 cu-in

## F SIT/STAND/TOTE



- Contains 3 levels of storage
- Tool storage unit functions as a bench or step stool
- Tub is sized to hold many large items
- Top tray with organizing compartments
- Adjustable shoulder strap
- Positive locking latches will not open accidentally
- Hi-VIZ green/black finish
- Storage capacity 4,095 cu-in.

(*) Not for use on impact applications.

## PROTO IMPACT SOCKETS

**Meet Federal Specification GGG-W-660a and ANSI Specification B107.2**

Proto impact sockets are engineered specifically for use with electric and air powered driving tools. The great strength and toughness demanded by this type of rugged service is built into every Proto tool through the use of high tensile steel and specialized heat treating techniques. Proto impact sockets can also be used with manual drive handles for nut turning applications that require greater strength than that provided by standard thin wall sockets.

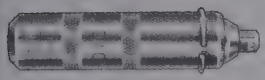
Drive end walls of all Proto impact sockets are drilled for use on driving tools that employ pellet, ball or pin type retaining devices.

Proto impact attachments through 5/8" square drive have a pellet type positive locking device for greater safety. Impact attachments larger than 5/8" drive are drilled to accept retaining pins. Finish is black oxide.

## TORQUE PLUS™ FASTENING SYSTEM

PROTO PROFESSIONAL TOOLS

TORQUEPLUS FASTENING SYSTEM



- **All Proto combination wrenches, chrome sockets, and impact sockets have this design**
- **For use with 6 or 12 point fasteners**
- **Corners have special radius design eliminating stress on fastener points allowing even distribution of torque along fastener flats**
- **Reduces the risk of fastener rounding**
- **Allows increased torque on fasteners**
- **Easier to turn rounded fasteners**
- **Meets AS954D drive specifications**

### LIFETIME LIMITED WARRANTY

All Proto tools are warranted to the original user for the life of the product. Text of warranty available; see page opposite inside back cover.

## TORQUE PLUS™ FASTENING SYSTEM

PROTO PROFESSIONAL TOOLS

TORQUEPLUS™ FASTENING SYSTEM

- All Proto combination wrenches, chrome sockets, and impact sockets have this design
- For use with 6 or 12 point fasteners
- Corners have special radius design eliminating stress on fastener points allowing even distribution of torque along fastener flats
- Reduces the risk of fastener rounding
- Allows increased torque on fasteners
- Easier to turn rounded fasteners
- Meets AS954D drive specifications

# 3/4" DRIVE IMPACT SOCKETS AND ACCESSORIES

PROTO PROFESSIONAL TOOLS

Made In U.S.A.

- Proto impact sockets are an industrial grade line of mechanic's sockets for heavy-duty applications and production use

## LIFETIME LIMITED WARRANTY

**All Proto tools are warranted to the original user for the life of the product.**
**Text of warranty available; see page opposite inside back cover.**

(*) For use with Nos. 1AX78 thru 1AX86, 1ACH5 thru 1ACK2, 1ACR2 thru 1ACR5, 1ACM8 thru 1ACN5, 1ACC2 thru 1ACF0, 1AX65 and 1AX66.
(†) For use with Nos. 1AX87 thru 1AX93, 1ACK3 thru 1ACL4, 1ACN6, 1ACP1, 1ACF1 thru 1ACF7, and 1AX61 thru 1AX63.
(‡) All 3/4" drive impact sockets and attachments.

The only source you need for tools as tough as you are.

# 1" DRIVE IMPACT SOCKETS

PROTO PROFESSIONAL TOOLS

Made in U.S.A.

TORQUEPLUS FASTENING SYSTEM

No. 1AX66 Male/Female Adapter

No. 1AFK6 6 Pt. Deep Impact Socket

No. 1AFM7 6 Point Impact Socket

) 6 Pt. Deep Metric (5 - 13mm)
Ea.) Reversible Ratchet, 6" Spinner Handle, 3 and 6" xtensions, Hinge Handle, 1/4F x 3/8"M Adapter, Universal Joint

### 3/8" DRIVE SOCKETS

1) 12 Pt. Std. SAE (1/4 - 7/8")
3) 6 Pt. Std. SAE (1/4 - 1")
1) 12 Pt. Deep SAE (3/8 - 1")
) 6 Pt. Deep SAE (3/8 - 7/8")
2) 12 Pt. Std. Metric (8 - 19mm)
6) 6 Pt. Std. Metric (7 - 22mm)
) 6 Pt. Std. SAE Impact (1/4 - 11/16")
) 6 Pt. Std. Metric Impact (10 - 19mm)
) 6 Pt. Spark Plug (5/8, 13/16")
) 6 Pt. Universal Spark Plug (5/8, 13/16")
") 12 Pt. Universal SAE (3/8 - 3/4")
) 8 Pt. (1/4 - 1/2")
8) Bit Sockets: Hex (1/8 - 3/8"/4 - 10mm); Slotted (5/16, 1/4"); hillips (#2, 3, 4)
. Ea.) Ratchets: Reversible, Flex-Head Reversible, Quick-elease Reversible; Speed Handle, Extensions (1-3/4, 3, 6, 12, 7"), Hinge Handle, 3/8F x 1/4"M Adapter, 3/8F x 1/2"M Adapter, niversal Joint

### 1/2" DRIVE SOCKETS

5) 12 Pt. Std. SAE (3/8 - 1¼")
5) 6 Pt. Std. SAE (3/8 - 1¼")
1) 12 Pt. Deep SAE (1/2 - 1⅛")
1) 6 Pt. Deep SAE (1/2 - 1⅛")
2) 12 Pt. Std. Metric (10 - 36mm)
8) 12 Pt. Deep Metric (10 - 27mm)
1) 6 Pt. Std. SAE Impact (7/16 - 1⅛")
1) 6 Pt. Std. Metric Impact (13 - 27mm)
) 6 Pt. Spark Plug (5/8, 13/16")
) Bit Sockets: Slotted (15/16")
3) Ratchets: Reversible, Flex-Head, Quick-Release
Ea.) Speed Handle, Extensions (2½, 5, 10"), Hinge Handle, 1/2F 3/8"M Adapter, 1/2F x 3/4"M Adapter, Universal Joint

### 3/4" DRIVE SOCKETS

(24) 12 Pt. Std. SAE (3/4 - 2⅜")

(1 Ea.) Reversible Ratchet, Sliding T-Handle, Extensions (4, 8, 16"), Hinge Handle, 3/4F x 1/2"M Adapter, Universal Joint

### WRENCHES

Combination: (24) Std. (3/4 - 2"); (25) Metric (6-32 mm)

Box End: (6) Std. (3/8 x 7/16 - 15/16 x 1"); (5) Metric (10 x 11 - 18 x 19mm)

(3) Short Box End (3/8 x 7/16, 1/2 x 9/16, 5/8 x 3/4")

Open End: (9) Std. (1/4 x 5/16 - 1¼ x 1⁵⁄₁₆"); (7) Metric (6 x 7 - 17 x 19mm)

Flare Nut: (4) Std. (3/8 x 7/16 - 3/4 x 7/8); (4) Metric (10 x 12 - 19 x 21mm)

(2) Adjustable (Chrome) (4, 8")

Ratcheting Box End: (5) Std.; (5) Metric

8-Pc. Ignition Wrench Set (13/64 - 11/32")

8-Pc. Ignition Wrench Set (4 - 9mm)

### ADDITIONAL TOOLS

(7-Pc.) Nutdriver Set (3/16 - 1/2")

(21) Screwdrivers: Stubby (1/4, 1/8, #1, #2); Round (3/16 - 3/8"); Phillips (#0, 1, 2, 3); Cabinet (3 x 3/16 - 10 x 3/16"); Torx® (T10 - T30)

(32) Pliers: 8" Linesman, 6" Diagonal, 7" Heavy-Duty Diagonal, 7" End Nipper, 6 & 7" Needle Nose, 6" Curved Needle Nose, 6" Comb. Slip Joint, 6" Thin Nose Slip Joint, 10" Power Track, 7" Straight Jaw Locking, 10" Curved Jaw Locking, 5" Angle Nose Ignition, 8" Wire Stripper, (18pc.) Retaining Ring Set

(3) Hammers: 8 and 12 oz. Ball Pein , 16 oz. Soft Face

(22) Punches & Chisels: Cold (5/16 - 7/8"); Prick (3/8, 1/2"); Center (3/8, 1/2"). Starting (1/4 - 3/16"); Pin (3/32 - 1/4"); Drift (1/8 - 5/16")

Tape Measure, Straight Cut Aviation Snips, Putty Knife, Utility Knife, Hacksaw (2 Blades), 25-Blade Feeler Gauge, 7" Pry Bar

### ADD-ON SETS

(7-Pc.) 3/8" Dr Torx® Bit Set; (T10 - T30)

(8-Pc.) 3/8" Dr All Purpose Bit Set

(5-Pc.) Magnetic Screwdriver Set

(5-Pc.) Magnetic Torx® Screwdriver Set (T10 - T25)

(11-Pc.) Short Arm Hex Key Set (.050 - 3/8")

(9-Pc.) Long Arm Hex Key Set (5/64 - 3/8")

(10-Pc.) Metric Hex Key Set (1.27 - 10mm)

(5-Pc.) Screw Extractor Set (1/8 - 11/32")

(9-Pc.) Folding Hex Key Set (5/64 - 1/4")

(26-Pc.) Ratcheting Screwdriver Set

(76-Pc.) Professional Tap & Die Set

## CONTENTS OF 624-PC. MASTER TOOL SET NO. 4PT14

### 1/4" DRIVE SOCKETS

9) 12 Pt. Std. SAE (3/16 - 1/2")

10) 6 Pt. Std. SAE (5/32 - 1/2")

9) 6 Pt. Deep SAE (3/16 - 1/2")

7) 12 Pt. Std. Metric (7 - 13mm)

12) 6 Pt. Std. Metric (4 - 13mm)

9) 6 Pt. Deep Metric (5 - 13mm)

1 ea.) Reversible Ratchet, 6" Spinner Handle, 3 and 6" Extensions, Hinge Handle, 1/4F x 3/8"M Adapter, Universal Joint

### 3/8" DRIVE SOCKETS

10) 12 Pt. Std. SAE (5/16 - 7/8")

11) 6 Pt. Std. SAE (3/8 - 1")

11) 12 Pt. Deep SAE (3/8 - 1")

9) 6 Pt. Deep SAE (3/8 - 7/8")

12) 12 Pt. Std. Metric (8 - 19mm)

16) 6 Pt. Std. Metric (7 - 22mm)

8) 6 Pt. Std. SAE Impact (1/4 - 11/16")

8) 6 Pt. Std. Metric Impact (10 - 19mm)

2) 6 Pt. Spark Plug (5/8, 13/16")

2) 6 Pt. Universal Spark Plug (5/8, 13/16")

7) 12 Pt. Universal SAE (3/8 - 3/4")

5) 8 Pt. (1/4 - 1/2")

18) Bit Sockets: Hex (1/8 - 3/8"/4 - 10mm); Slotted (5/16, 1/4"); Phillips (#1, 2, 3)

1 Ea.) Ratchets: Reversible, Flex-Head Reversible, Quick-Release Reversible, Speed Handle, Extensions (1¾, 3, 6, 12, 17"), Hinge Handle, 3/8F x 1/4"M Adapter, 3/8F x 1/2"M Adapter, Universal Joint

### 1/2" DRIVE SOCKETS

15) 12 Pt. Std. SAE (3/8 - 1¼")

14) 6 Pt. Std. SAE (3/8 - 1¼")

11) 12 Pt. Deep SAE (1/2 - 1⅛")

11) 6 Pt. Deep SAE (1/2 - 1⅛")

22) 12 Pt. Std. Metric (10 - 36mm)

18) 12 Pt. Deep Metric (10 - 27mm)

11) 6 Pt. Std. SAE Impact (7/16 - 1¹⁄₁₆")

11) 6 Pt. Std. Metric Impact (13 - 27mm)

2) 6 Pt. Spark Plug (5/8, 13/16")

1) Bit Sockets: Slotted (15/16")

3) Ratchets: Reversible, Flex-Head, Quick-Release

1 Ea.) Speed Handle, Extensions (2-1/2, 5, 10"), Hinge Handle, 1/2F x 3/8"M Adapter, 1/2F x 3/4"M Adapter, Universal Joint

### 3/4" DRIVE SOCKETS

(23) 12 Pt. Std. SAE (3/4 - 2⅜")

(1 Ea.) Reversible Ratchet, Sliding T-Handle, Extensions (4, 8, 16"), Hinge Handle, 3/4F x 1/2"M Adapter, Universal Joint

### WRENCHES

Combination: (24) Std. (3/8 - 2"); (25) Metric (6 - 32mm)

Box End: (6) Std. (3/8 x 7/16 - 15/16 x 1")

(3) Short Box End: (3/8 x 7/16, 1/2 x 9/16, 5/8 x 3/4")

Open End: (9) Std. (1/4 x 5/16 - 1¼ x 1¹⁄₁₆")

Flare Nut: (4) Std. (3/8 x 7/16 - 3/4 x 7/8)

(3) Adjustable (Chrome) (4, 8, 12")

8-Pc. Ignition Wrench Set (13/64 - 11/32")

### ADDITIONAL TOOLS

(5) Nutdrivers (1/4 - 7/16")

(22) Screwdrivers: Stubby (1/4, 1/8, #1, #2); Round (3/16 - 3/8"); Phillips (#0, 1, 2, 3); Cabinet (3 x 3/16 - 12 x 3/8"); Torx® (T10 - T30)

(32) Pliers: 8" Linesman, 6" Diagonal, 7" Heavy-Duty Diagonal, 7" End Nipper, 6 & 7" Needle Nose, 6" Curved Needle Nose, 6" Comb. Slip Joint, 6" Thin Nose Slip Joint, 10" Power Track, 7" Straight Jaw Locking, 10" Curved Jaw Locking, 5" Angle Nose Ignition, 8" Wire Stripper, (18-Pc.) Retaining Ring Set

(3) Hammers: 8 and 12oz. Ball Pein, 16 oz. Soft Face

(22) Punches & Chisels: Cold (5/16 - 7/8"); Prick (3/8, 1/2"); Center (3/8, 1/2"); Starting (1/4 - 3/16"); Pin (3/32 - 1/4"); Drift (1/8 - 5/16")

Tape Measure, Straight Cut Aviation Snips, Putty Knife, Utility Knife, Hacksaw (2 Blades), Pry Bar

### ADD-ON SETS

(7-Pc.) 3/8" Dr Torx® Bit Set; (T10 - T30)

(8-Pc.) 3/8" Dr All Purpose Bit Set

(5-Pc.) Magnetic Screwdriver Set

(5-Pc.) Magnetic Torx® Screwdriver Set; (T10 - T25)

(11-Pc.) Short Arm Hex Key Set (.050 - 3/8")

(9-Pc.) Long Arm Hex Key Set (5/64 - 3/8")

(10-Pc.) Metric Hex Key Set (1.27 - 10mm)

(5-Pc.) Screw Extractor Set (1/8 - 11/32")

(9-Pc.) Folding Hex Key Set (5/64 - 1/4")

(26-Pc.) Ratcheting Screwdriver Set

# MICROMETER ADJUSTABLE TORQUE WRENCHES

- Calibrated to ±3% of torque clockwise, and ±6% of torque counterclockwise at 20-100% of full scale
- Calibrated to ±2% of torque clockwise at 20-100% of full scale, with certificate of calibration models
- Designed to retain calibration for 30,000 cycles under normal use
- Positive locking mechanism—dial and lock in desired torque
- Features thin head design and longer length for access to tight areas, knurled handle, and large grip

PROTO PROFESSIONAL TOOLS

Made In U.S.A.

No. 1ARM0
Fixed Head Torque Wrench

No. 1ARM8
Ratchet Head Torque Wrench

**PROTO LIMITED WARRANTY**

Torque products are warranted for one year, except for calibration which is warranted for 90 days from date of purchase.
Text of warranty available; see page opposite inside back cover.

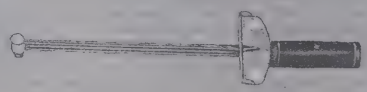
Grainger will supply you with the dependable, brand name products you need to keep your operation running smoothly-plus the solutions you need to keep your operation running more profitably.

# DIAL TORQUE WRENCHES



- Accurate to ±3% of torque reading in both directions at 20-100% of full scale
- Models up to and including 600 ft.-lb. feature memory needle which pinpoints peak torque attained
- 1000 ft.-lb. wrench equipped with an electric light and tone which signals the desired torque has been achieved, permitting use by a single operator
- Length designed so operator does not have to exceed 125 lbs. input force at normal torque range (75% max.)
- Features large, easy-to-read dials, narrow design for access to tight areas, and chrome plating for corrosion resistance
- Fixed head style

# TORQUE SCREWDRIVERS

- Accurate to ±4% of torque reading, clockwise direction
- Used in low torque applications such as electronics assembly and repair and installation of seals and container caps
- Is a true torque limiting device; will not apply more torque than the amount set—this prevents damaging fragile equipment due to over-torquing
- Packaged in blow-molded plastic box

PROTO PROFESSIONAL TOOLS

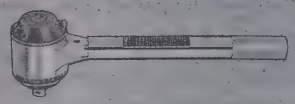
# TORQUE MULTIPLIERS



- Accuracy of ±5%
- Angle of turn protractor in 5° increments
- Tubular reaction system
- Planetary gear system provides zero lash, plus multiple tooth gear engagement for greater durability
- Built-in angle of turn protractor simplifies setting angle specifications

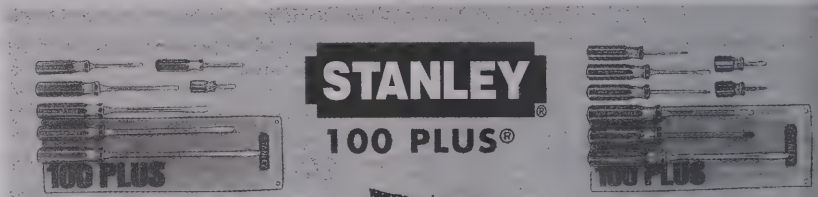
## FOUR-BIT POCKET SCREWDRIVER

No. 3ZH24

- Four heat treated bits: Nos. 0 and 1 Crosspoints, 0.125 and 0.100 straight blades
- Bits are stored in handle for safety and bit protection
- Knurled aluminum body with swivel head
- Steel collet for greater strength
- Overall size is 3/8 X 6½"
- General brand (608).

o. 3ZH24. Shpg. wt. 0.1 lbs. List .....$10.08.
ach .....$9.07

## PRECISION SCREWDRIVER SET AND PRECISION TORX ® SET



- For working on electronics, precision parts or components
- Ergonomically designed handle with a texture-grip surface for a strong hold
- Handle is tapered and fluted for delicate work
- Large swivel head for greater control
- Imprinted sizes on the handle for easy selection
- Media blasted tips for positive fastener engagement
- Chrome-plated vanadium steel blades

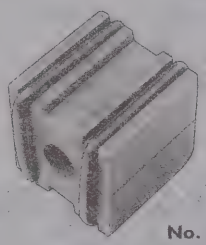
## PRECISION HEX SET

GENERAL

Made in U.S.A.

No. 3ZH30



- For electronics, precision parts, or components
- Ergonomically designed handles with texture-grip surface
- Handle tapered and fluted
- Large swivel head for greater control
- Imprinted sizes on handle for easy selection
- Heat-treated steel blades—black oxide finish
- Includes sizes 1/16, 5/64, 3/32, 7/64 & 1/8"
- Blades—2½"; driver length 6⅛"
- General brand (770)

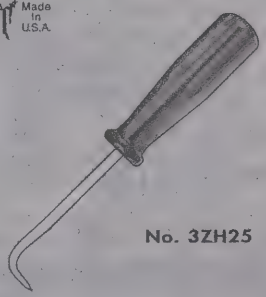
**No. 3ZH30.** Shpg. wt. 0.2 lbs. List $14.82.
Each ..... $13.34

## MAGNETIZER/DEMAGNETIZER

GENERAL

Made in U.S.A.

No. 3ZH19



- Compact (1 x 1 x 1") powerful rare earth magnet designed for magnetizing, demagnetizing screwdrivers, nut runners, wrenches, taps, small tools
- Converts any tool blade into a magnetic retriever for screws, nuts, metallic particles
- General brand (360)

**No. 3ZH19.** Shpg. wt. 0.2 lbs. List $2.72
Each ..... $2.58

## COTTER PIN PULLER

GENERAL

Made in U.S.A.

No. 3ZH25

- Compound bend design allows safe, easy way to remove cotter pins by pulling or twisting motion
- For use in confined spaces
- Plated shaft and point—4½"L; made of heat-treated high carbon steel
- Overall length—7½", includes heavy-duty plastic handle
- General brand (64)

**No. 3ZH25.** Shpg. wt. 0.2 lbs. List $6.28.
Each ..... $5.97

# ADJUSTABLE AND CUSHION GRIP ADJUSTABLE WRENCHES

## WIDE CAPACITY ADJUSTABLE WRENCHES

- Wide capacity opens up from 14-25% wider than standard wrenches
- Precision made alloy steel wrenches are drop-forged and heat treated
- Chrome wrenches have polished head with corrosion and rust-resistant heavy chromium plating
- Black phosphate wrenches have corrosion-resistant finish
- Jaws grip both square and hex nuts securely
- Knurled screw is fitted with a tension spring to help maintain adjustment
- Moving parts are mounted with a threaded bolt with slotted head for easy replacement
- Comfort grip has 71% thicker handle which adds comfort and reduced hand pressure
- Meet Federal Specification GGG-W-631b, Type 1

# TONGUE AND GROOVE PLIERS

## TONGUE & GROOVE PLIERS

- Handle objects of various shapes, including pipes, rods, hose and cable connections, and other mechanical devices
- Inclined tooth configuration for better grip, self-locking jaw opening adjustment, and heavy-duty nut and bolt joint
- Precision milled ribs assure a smooth, positive interlock between two halves
- Heavy-duty nut and bolt eliminate chance of halves separating or jumping out of grooves
- Long handles with plastisol grips provide powerful leverage with comfort and a sure hand grip
- Tough, black phosphate industrial grade finish increases corrosion resistance

| Length (In.) | Jaw Type | Max. Jaw Opening (In.) | Crescent Model | Stock No. | List | Each | Shpg. Wt. |

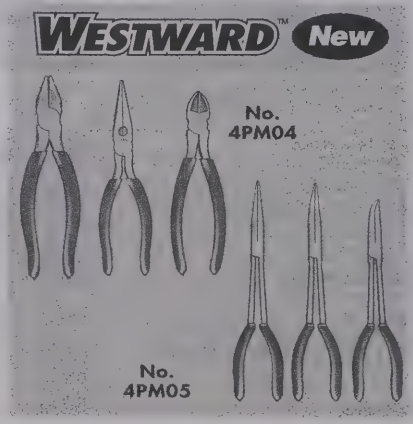
## LONG REACH NEEDLE NOSE PLIERS

- Extra long handle allows greater access to confined, restricted areas
- Improved fulcrum point for more holding power at the tip with less effort
- No. 1C040 has bent nose design to reach around obstructions

| Style | Length (In.) | Nose Length (In.) | Proto Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| Straight | 11 9/16 | 2 13/16 | 240G | 1C042 | $40.82 | $24.95▲ | 0.7 |
| Bent | 11 3/8 | 2 9/16 | 241G | 1C040 | 40.82 | 24.95▲ | 0.7 |



(▲) Net prices, not subject to discounts.

## 3-PC. SOLID JOINT PLIERS

- NiKlear multi-layer plating and coating process provides excellent corrosion resistance
- Hardened and tempered steel for strength and toughness
- Long handles for better access to tight and restricted areas
- Straight, 45° and 90° jaws work around obstructions to securely grip workpiece, vinyl grip handles for comfort
- Westward brand

**New** **No. 4PM04**. Shpg. wt. 2.0 lbs. Each..**$24.95▲**
(▲) Net prices, not subject to discounts.

## 3-PC SOLID JOINT LONG REACH PLIERS

- NiKlear multi-layer plating and coating process provides excellent corrosion resistance
- Hardened and tempered steel for strength and toughness
- Honed sharpened cutting edges for clean wire cuts
- Vinyl grip handles for user comfort
- Use long nose pliers to reach hard-to-get at areas
- Contents: 11" straight, 11" 45°; 11" 90°
- Westward brand

**New** **No. 4PM05**. Shpg. wt. 2.0 lbs. Each...**$9.95▲**

**LIFETIME LIMITED WARRANTY**

All Cooper tools are warranted to the original user for the life of the product. Text of warranty available; see page opposite inside back cover.

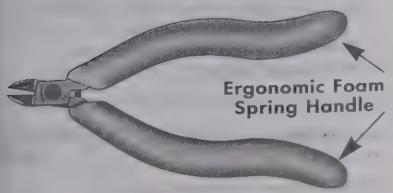
L Heavy-Duty Diagonal Cutter

M Diagonal Cutter

N Long Nose Side Cutter

- For a wide range of electronic assembly requirements
- Features a copper alloy rivet to eliminate friction and a copaloy joint which maintains a perfect cutting edge and tip alignment, smooth operation and longer life
- Manufactured from forged alloy steel; full polished heads
- All Xcelite pliers and cutters are ESD safe

HANDLE TYPES



Cushion- Plastisol, non-slip cushion handles, standard.

Ergonomic- Extended handles allow even application of force from all four fingers

Spring- Handle coil spring allows faster cutting action with reduced user fatigue.

**ACCU-LITE ERGONOMIC HANDLES**

- Lightweight construction
- Extended handle length allows even application of force from all four fingers
- Exclusive, smooth soft foam cushion grips are free of abrupt edges and finger indentations
- Grip material is non-slip and compressible; allows for positive gripping and absorption of mechanical shock
- Handle contours adaptable to either right- or left-hand use

# PLIERS, TWEEZERS, LOCKING WRENCHES TOOL SET AND LOCKING PLIERS

## 8-PC. MINI PLIERS SET

- NiKlear multi-layer plating and coating process provides corrosion resistance
- Hardened and tempered jaws for strength and toughness
- Two leaf springs keep jaws open for quick use
- Vinyl storage pouch stores, protects pliers when not in use
- Westward brand

***New*** **No. 4PM16.** Mini Pliers Set. Shpg. wt. 1.1 lbs.
Each ..... $49.95▲

## TWEEZERS

- Designed for very fine precision work on electronic assemblies
- All tweezers, except No. 4CP90, are anti-magnetic, acid-resistant and temperature-resistant to 300°C
- Erem brand

## VISE-GRIP LOCKING® WRENCHES WITH WIRE CUTTER

- Jaws lock onto three sides of a hex fastener, will not slip or mar
- Tremendous force can be applied without marring or slipping off fastener
- Adjusts to over 16 standard and metric wrench sizes; includes a wire cutter
- Jaw tips knurled for better gripping
- Vise-Grip brand

Three sizes cover a wrench size range of 1/4" (7mm) up to 1⅛" (28mm), equivalent of having over 50 different standard and metric combination wrenches.

## 9-PC. PRECISION TOOL SET

- Stainless steel construction keeps tools corrosion-free and easy to clean
- Hardened and tempered stainless steel for strength and toughness
- Bent nose pliers for reaching around objects; long nose pliers for holding and reaching in tight areas, for bending wire; extra-long needle nose pliers for extended reach, holding in tight areas; diagonal cutters for cutting wire, soft metals; small-tipped slotted and Phillips screwdrivers for delicate and miniature-sized screws
- Westward brand

***New*** **No. 4PM19.** 9-Pc. Precision Tool Set. Shpg. wt. 1.5 lbs. List $49.80. Each ..... $39.95▲

(▲) Net prices, not subject to discounts.

## 5-PC. LOCKING PLIERS SET

- Hardened and tempered jaws for strength and durability
- Nickel-plated finish resists rust
- Spring-loaded jaw release lever and easy turning adjusting screw
- Curved jaw styles used as pipe wrench, clamp, vise, pliers, and for holding round stock
- Straight jaw styles used as clamp, vise, pliers, and wrench
- Comes in vinyl storage pouch
- Westward brand

***New*** **No. 4PM10.** 5-Pc. Locking Pliers Set. Shpg. wt. 3.8 lbs. Each ..... $34.95▲

(▲) Net prices, not subject to discounts.

*The only source you need for tools as tough as you are.*

# LOCKING PLIERS

## VISE-GRIP® STANDARD FEATURES

- Heat treated alloy steel with nickel plated finish for maximum durability
- Easy release trigger and micro-adjustment screw mechanism
- Lock to work without slipping, leaving operator's hands free
- Meet gov't spec. GGG-W-00649

## CURVED JAW LOCKING PLIERS

- Use as pipe or speed wrenches, clamps, pliers, or for holding objects
- Curved jaw adjusts on square, hex, or round objects

## CURVED JAW LOCKING PLIERS (WITH WIRE CUTTER)

- Use as wire cutters, pipe or speed wrenches, clamps, pliers, or for holding small objects
- Curved jaw adjusts on square, hex, or round objects

## LARGE JAW LOCKING PLIERS

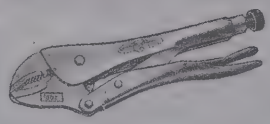
- Jaws open up to 3⅛" for gripping large objects
- Works as a pipe/adjustable wrench, clamp or tongue & groove plier
- For removing tail pipes, freeing oil filters, gripping hoses

## STRAIGHT JAW LOCKING PLIERS

- Use to clamp wood for gluing, drilling, or nailing
- Straight jaw locks to stud bolts for easy removal and to heavy gauge wire for twisting

## LONG NOSE LOCKING PLIERS WITH WIRE CUTTER

- For hard-to-reach places, long-reach clamping, wire cutting, or as a miniature vise or wrench
- Non-slip grip at tip holds small work
- Maximum contact on square, hex, or round work



## BENT NOSE LOCKING PLIERS (WITH WIRE CUTTER)

- For hard-to-reach places
- Nose is bent at 35° angle
- Diamond cross check serrations on tips guarantee user a sure, non-slip grip at all angles

## LOCKING PINCH-OFF CLAMP

- Pinches off; locks on tubing instantly
- Designed for refrigeration industry

# FEELER GAUGES, INSPECTION MIRROR, AND RETRIEVING TOOLS

## FEELER GAUGES

**25-Blade All-Purpose Feeler Gauge Set** contains 1/2 x 3⁵⁄₁₆"L blades in these sizes: 0.0015, 0.002, 0.003, 0.004, 0.005, 0.006, 0.007, 0.008, 0.009, 0.010, 0.011, 0.012, 0.013, 0.014, 0.015, 0.016, 0.018, 0.020, 0.022, 0.024, 0.025, 0.028, 0.030, 0.032, and 0.035". Etched with inch and metric size. Blackhawk brand (MT-1049).

**No. 1AC11.** Shpg. wt. 0.2 lbs. List $10.45. Each.....**$8.88**

**25-Blade Long Feeler Gauge Set** features 1/2 x 12"L blades in steel holder. Includes sizes: 0.0015, 0.002, 0.003, 0.004, 0.005, 0.006, 0.007, 0.008, 0.009, 0.010, 0.011, 0.012, 0.013, 0.014, 0.015, 0.016, 0.017, 0.018, 0.019, 0.020, 0.021, 0.025, 0.027, 0.030, and 0.040". Each blade has combination English and metric decimal markings. Proto brand (000TL).

**No. 5C589.** Shpg. wt. 0.8 lbs. List $38.20. Each.....**$27.90**

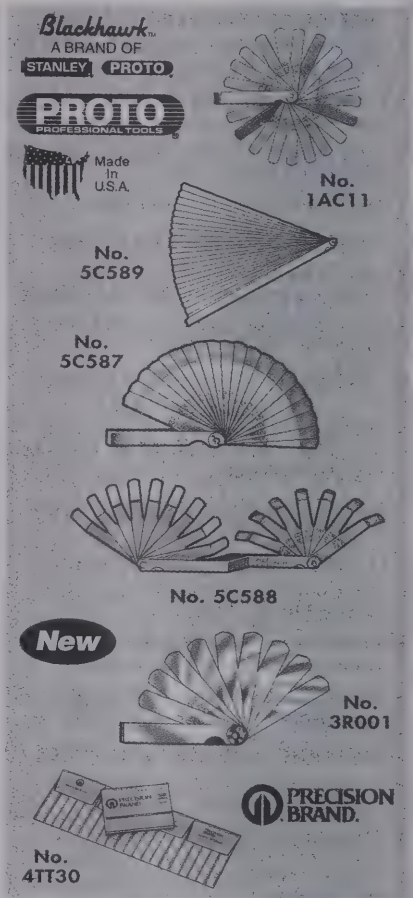
**22-Blade Step Cut Gauge Set** features "go and no-go" 1/2 x 3⁵⁄₁₆"L blades in steel holder. Each blade has two different thicknesses. Sizes include: 0.004/.006, 0.005/.007, 0.006/.008, 0.007/.009, 0.008/.010, 0.009/.011, 0.010/.012, 0.011/.013, 0.012/.014, 0.013/.015, 0.014/.016, 0.015/.017, 0.016/.018, 0.017/.019, 0.018/.020, 0.019/.021, 0.020/.022, 0.021/.023, 0.022/.024, 0.023/.025, 0.024/.026, and 0.025/.027". Blades are etched with both decimal size and metric equivalent. Proto brand (000N).

**No. 5C587.** Shpg. wt. 0.2 lbs. List $24.42. Each.....**$17.83**

**16-Blade Overhead Valve Gauge Set** has 1/2" wide bent gauges for setting overhead valves. Includes sizes: 0.009, 0.010, 0.011, 0.014, 0.015, 0.016, 0.017, 0.018, 0.019, 0.020, 0.021, 0.023, 0.024, 0.025, 0.026, and 0.027". Each blade is etched with both decimal size and metric equivalent. Proto brand (000R).

**No. 5C588.** Shpg. wt. 0.3 lbs. List $16.29. Each.....**$11.89**

**9-Blade Standard Feeler Gauge Set** contains 1/2 x 3¹⁄₁₆"L blades in these sizes: 0.003, 0.004, 0.005, 0.006, 0.008, 0.010, 0.012, 0.015, and 0.018". Each blade is etched with both metric and decimal equivalent. Proto brand (000A).



**No. 3R001.** Shpg. wt. 0.1 lbs. List $6.31. Each.....**$4.61**

**20-blade set** made from a 260 CDA Alloy material; Rockwell Hardness: 30T Scale 56-78. All blades are 5" long and 1/2" wide. 20 thicknesses per assortment; .001, .0015, .002, .003, .004, .005, .006, .007, .008, .009, .010, .012, .014, .015, .016 .018, .020, .022, .025, .030. Thickness is etched on the blades. Precision brand (76740).

***New!*** **No. 4TT30.** Shpg. wt. 0.3 lbs. List $52.52. Each.....**$35.00**

**20-blade set** made from a 300 Series Stainless Steel; Rockwell Hardness: 45-55 C Scale. All blades are 5" long and 1/2" wide. Assortment packaged in a sturdy vinyl case with individual blade pockets 20 blades/16 thicknesses per assortment; 2 each of .001, .0015, .002, .003; 1 each of .004, .005, .006, .007, .008, .009, .010, .012, .015, .020, .025, .031. Thickness is etched on blades from .001 to .031. Precision brand (77750).

***New!*** **No. 4TT31.** Shpg. wt. 0.2 lbs. List $78.78. Each.....**$55.00**

## INSPECTION MIRROR

**Double ball joint permits easy viewing** to 360°. 2¼" Mirror telescopes to 14". Specially designed non-rotating hex rod prevents mirror from swinging out of alignment. Mirror has a vinyl insulated handle. Blackhawk brand (ST-1250).

**No. 1AC09.** Shpg. wt. 0.4 lbs. List $10.10. Each.....**$8.59**

## RETRIEVING TOOLS

**Flexible Retrieving/Holding Tools** position or retrieve small metallic and nonmetallic objects. Spring-loaded plunger actuates jaws at end of flexible casing.

**Magnetic Retrieving Tools** feature all-angle ball joints. Telescoping magnetic retrieving tool, No. 5C598, extends from 16¾ to 26¾".

**Push Button Magnetic Retrieving Tool.** Push button allows reaching an object before energizing the magnet. Lifts up to 1.5 lbs.

*The only source you need for tools as tough as you are.*

# INSULATED PLIERS

- For a wide range of applications
- Steel alloy pliers are drop-forged, hardened, and tempered for maximum strength, problem-free performance and durability
- Each tool consists of two layers: the high-dielectric white inner layer is a thick, exceptionally tough base coating which is bonded to the tool; the outer layer is a flame-retardant, impact-resistant, bright orange color
- All Klein insulated tools comply with IEC 900 and ASTMF 1505-94 standards for insulated hand tools
- Klein insulated tools will reduce the risk of electrical shock which results from the tools making contact with energized lines or equipment with voltages up to 1000 volts when the tools are correctly used under proper conditions

"2000 SERIES"

- High leverage design
- Super tough cutting knives to cut bolts, nails, ACSR, and most hardened wire

**WARNING: Whenever possible, always de-energize lines and equipment prior to working on or around them. Klein insulated tools are designed only to reduce the chance of injury where the tool may make contact with an energized source.**

**WARNING: Always avoid bodily contact with the uninsulated portion of the tools if there is any chance that the tool will make contact with an energized source.**

**WARNING: Do NOT touch uninsulated portion of the tool or any conductive object when either might contact an energized source.**

# INSULATED SCREWDRIVERS AND NUT DRIVERS

- Insulated tools comply with IEC 900 and ASTMF 1505-94 standards for insulated hand tools
- Insulated tools will reduce the risk of electrical shock which results from the tools making contact with energized lines or equipment with voltages up to 1000 volts when the tools are correctly used under proper conditions
- Each tool consists of two layers: the high-dielectric white inner layer is a thick, exceptionally tough base coating which is bonded to the tool; the outer layer is a flame-retardant, impact-resistant, bright orange color

## INSULATED CUSHION-GRIP SCREWDRIVERS

- Made of highest quality tempered steel, heat-treated for maximum strength
- Shafts will not bend or twist in normal use
- Shafts have integral flanges that provide an extra-strong, torque-proof anchor in handle
- Strong, durable black tips are precision forged and ground with square edges to fit screw openings securely and to resist slippage while providing positive turning action
- Insulated Cushion-Grip screwdrivers feature super-comfortable, sure-grip handles

## INSULATED CUSHION-GRIP NUT DRIVERS

- Made of heat-treated and tempered steel
- Blades are fully chrome plated
- Super-comfortable handle grips with cushion sleeve
- Deep-ribbed design and cushioning action permit maximum turning power without discomfort
- Shank has integral flanges to provide a solid, torque-proof anchor deep in the plastic handle
- Full-length insulated hollow shaft fits over long screws
- Handle caps are color-coded for easy identification of hex size

# ELECTRONICS TOOL KITS

- For technicians, servicemen, and field engineers
- Each kit contains an assortment of top quality Xcelite professional hand tools neatly mounted in pockets, plus generous space for individualized selection of test instruments, parts boxes, Weller® soldering iron, Xcelite measuring tapes, and other tools

## 52-PC. TOOL KIT WITH BLACK CORDURA® CASE

- Long lasting wear resistant black Cordura fabric resists nicks and scrapes
- Three outside pockets can be used for service manuals
- Heavy-duty zipper is reinforced for long life
- Case dimensions: 18½ x 13½ x 5"

**No. 6C383.** 52-Pc. Tool Kit with Cordura Case (TCS-150/ST). Shpg. wt. 18.0 lbs. List $659.21. Each.....$494.50

**No. 6C484.** Black Cordura Case Only (TCMB-150/ST). Shpg. wt. 4.5 lbs. List $127.71. Each.....$102.20

## 52-PC. TOOL KIT WITH BLACK POLYETHYLENE CASE

- Tough black polyethylene case resists dents and scratches
- Room is provided for service manuals and technical bulletins
- "Positive locking" hinges secure top pallet to prevent falling over
- Full length piano-style hinge allows secure operation
- Case dimensions: 18½ x 13½ x 5"

**No. 6C381.** 52-Pc. Tool Kit with Polyethylene Case (TCMB-150/ST). Shpg. wt. 17.0 lbs. List $785.74. Each.....$589.50

HAND TOOLS: CUTTERS

# BOLT CUTTERS

## STANDARD FEATURES

- Toggle joints turn 50 lbs. hand pressure to 4000 lbs. cutting pressure
- Rubber grips
- Drop-forged jaws with center cut blades; heat-treated for long cutting life
- Lockplate (on fiberglass and steel handle models) realigns edges

**STEEL HANDLE MODELS**

- Cuts soft, medium, hard materials
- Maximum hardness of materials to be cut: Brinnell 455/Rockwell C48

**ALUMINUM HANDLE MODELS**

- Cuts soft, medium/hard materials
- Maximum hardness of materials to be cut: Brinnell 300/Rockwell C31
- Capacity gauges built in handles eliminate guesswork

**FIBERGLASS HANDLE MODELS**

- Cuts soft, medium, hard materials
- Maximum hardness of materials to be cut: Brinnell 455/Rockwell C48

# CABLE AND BX CUTTERS

### [A] 25½" CABLE CUTTER

Cuts soft copper up to 500 MCM and aluminum up to 750 MCM. Features fiberglass handle with vinyl grips. Not designed for cutting steel or ACSR cable.

### [B] UTILITY CABLE CUTTER

Cuts soft copper and aluminum cable up to 350 MCM. Drop-forged steel with vinyl grips. Not designed for cutting steel or ACSR cable.

### [C] HIGH LEVERAGE CABLE CUTTER

Cuts up to 4/0 aluminum (not Aluminum Conductor Steel Reinforced), up to 2/0 soft copper, and up to 100-pair 24 gauge communications cable. Plastic-dipped handles. Not designed for cutting steel or ACSR cable.

### [D] COMPACT CABLE CUTTER

Cuts copper and aluminum multi-strand cable such as 24 gauge, 100-pair telephone cable. Plastic-dipped handles.Not designed for cutting steel or ACSR cable.

### [E] BX CUTTER

High leverage shears cut sheet metal, steel strapping, bundling wire, and BX. Feature built-in stripping notch and plastic-dipped handles.

## NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE

Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.

# CABLE, WIRE, AND CONDUIT CUTTERS

### [A] RATCHET CABLE CUTTER

For use in deep boxes or against walls. Cuts up through 750 MCM copper and aluminum. Anti-reversing mechanism ensures positive ratchet action and molded rubber cover protects ratchet mechanism. Fiberglass handles.

### [B] STEEL WIRE CUTTER

Cuts Aluminum Conductor Steel Reinforced (ACSR) service entrance cables. Features forged steel blades and custom hand grips.

### [C] BX/FLEXIBLE CONDUIT CUTTER

Allows for easy load/unload and features solid grip with large knob and increased clearance between body and crank. Cranks easily through 14/2 to 10/4 BX.

Flex Splitter blade is exposed for easy replacement with a simple screwdriver. Handle knob stores up to 5 replacement blades.

# PUNCH DRIVER SETS

**A B 5- and 10-Pc. Slug Buster™ Punch Sets** for punching up to 12 gauge mild steel. Manual operation, ratchet wrench not included.

**C 15-Pc. Slug Buster™ Punch Set w/Wrench** for punching up to 10 ga. mild steel. Manual operation.

**D E 5- and 10-Pc. Standard Round Punch Sets** for punching up to 10 ga. mild steel. Manual operation, ratchet wrench not included.

**F 15-Pc. Standard Round Industrial Punch Set** operates manually, or with ratchet or hydraulic drivers. For punching 10, 14, and 16 ga. mild steel.

**G 16-Pc. Slug Splitter® Punch Sets** for punching up to 10 ga. stainless steel. Operate with ratchet or hydraulic drive only—**NOT** included.

**H I Quick Draw™ Hydraulic Punch Driver and Punch Driver Set** for fast, straight-on front panel punching. Easy, one person operation. Develops 8 tons hydraulic force. Punches up to 10 ga. mild steel.

**J Quick Draw™90™ Hydraulic Punch Driver Set** with right angle driver head that rotates 180° for flexibility in tight work areas.

**K L M Hydraulic Punch Driver Sets** feature 11 ton hydraulic ram. Capacity to punch 5⅝" diameter hole in 10 ga. steel. No. 4CN01 punches up to 10 ga. stainless steel. Includes Standard Round, Slug Buster™, or Slug Splitter® punches.

**N Foot Pump Hydraulic Driver** offers hands-free foot operation. Hydraulic punch drives 10 times faster than manual wrench.

**O Hand Pump Hydraulic Driver** is a fast, easy, simple-to-use, compact hydraulic punch that drives 10 times faster than manual wrench. Powerful 11-ton hydraulic ram.

# KNOCKOUT AND HOLE PUNCHES

## KNOCKOUT PUNCHES

### STANDARD ROUND PUNCHES

- Punch mild steel, aluminum, fiberglass and plastic
- Operate manually, or with ratchet or hydraulic drivers
- Hole sizes from 1/2 to 4½" dia.
- Metal rigidly supported by die to prevent distortion during punching
- Inside of die is recessed for clearance so slug falls free

### SLUG BUSTER™ PUNCHES

- Punch mild steel, aluminum, fiberglass and plastic
- Operate manually, or with ratchet or hydraulic drivers
- Hole sizes from 7/8 to 2⅜" dia.
- Creases slug as punch is drawn into the die. Slug is split in half, falls free from die and stud

### SLUG SPLITTER® PUNCHES

- Punch stainless steel, heavy gauge mild steel, fiberglass and plastic
- Operate with ratchet or hydraulic drive only
- Excellent abrasion resistance for punching fiberglass and plastic
- Heavy-duty dies and stainless steel draw studs for longer life

## STUD AND KEYWAY PUNCHES

Metal Stud Punch punches up through 20-gauge steel studs in one stroke. Aluminum head provides strength with minimum weight; contoured handle provides more leverage. Self-stripping design eliminates punch hang-ups. Automatically centers holes on standard studs. $1^{11}/_{32}$" Punched size dia. Studding capacity: 2½" and wider.

**No. 4A735.** Greenlee brand (710). Shpg. wt. 7.0 lbs. List $204.00. Each ..... **$183.75▲**

Bushing snaps securely into holes punched in metal studs, from 24-10 gauge thickness with stud punch No. 4A735. Protects wire insulation from sharp edges, makes pulling smooth, easy. UL Recognized (E88712); CSA Certified (LR57007). 100/pkg.

**No. 4A766.** Greenlee brand (712C). Shpg. wt. 0.7 lbs. Each ..... **$17.61▲**

Keyway Punch cuts 1/8 and 3/16" wide keyways in any predrilled or prepunched hole 3/4" diameter or larger in mild steel up to 10 gauge thickness.

**No. 4A723.** Greenlee brand (720). Shpg. wt. 2.8 lbs. Each..... **$150.25▲**

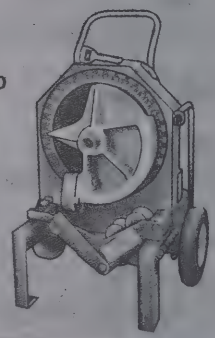
## ELECTRIC BENDERS

- Fast and easy way to bend up to 2" conduit; easy set-up and operation
- Remote pendant control
- Built-in bend charts for easy, accurate bending
- Portable–large handle and heavy-duty wheels
- Will make 180° bends in 1/2 - 2" conduit
- Operates on 120VAC

No. 4NV70 includes benders and shoe groups for 1/2 - 2" conduit. No. 4NV71 includes bender and shoes group for 1/2 - 2" rigid conduit and pipe.



***New*** **No. 4NV70.** Electric Bender (555E). Shpg. wt. 551.0 lbs. List $6658.95. Each..... **$6195.00▲**

***New*** **No. 4NV71.** Electric Bender (555R). Shpg. wt. 468.0 lbs. List $6040.95. Each..... **$5600.00▲**

# CONDUIT BENDERS

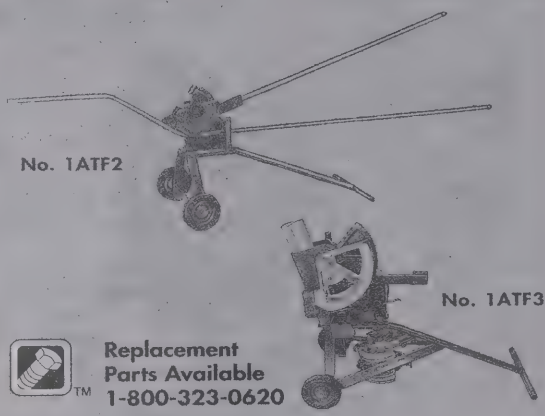
## MECHANICAL BENDERS

### MECHANICAL BENDER

**Features ratchet action for increased leverage** and direct handle position for faster bending of small pipe or conduit. Built-in 0-90° bending gauge. Capacities: 1/2, 3/4, and 1" IMC and rigid conduit. Heavy-duty welded frame positions tool at a stable working height and wheels provide easy movement. Dimensions: 39" long, 8⅝" wide. Greenlee brand (1800).

**No. 1ATF2.** Shpg. wt. 81.0 lbs. List $969.23. Each ..... $872.50▲

### MECHANICAL BENDER



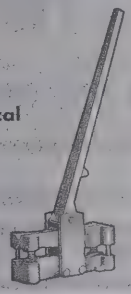
**Features durable ratchet mechanism** for additional force to make conduit bending easier. Each shoe has its own permanently mounted "swing-away" clamp to lock pipe in place, eliminating time lost hammering clamps on and off. Ratchet segment is independent of shoes, providing long life and ease in changing shoes.

**Conduit capacities:** 3/4 to 2" EMT, 1/2 to 1¼" IMC, 1/2 to 1½" rigid, and 1/2 to 1½" aluminum. Bending degrees indicator to compensate for variations in "springback" due to differences in pipe size and material. Releasing ratchet lock automatically ejects bent pipe. Bypass ratchet for fast, direct EMT bending on smaller sizes.

**Complete unit includes** frame and heavy-duty undercarriage unit with wheels, 5 shoes, 2 EMT follow bars, EMT follow bar roller, roller, and roller pin. Greenlee brand (1818).

**No. 1ATF3.** Shpg. wt. 304.0 lbs. Each ..... $3690.00▲

GREENLEE®



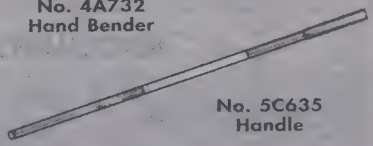
Replacement Parts Available 1-800-323-0620™

## HAND BENDERS

GREENLEE®

- Bends perfect offsets in seconds
- Every bend is identical
- For 1/2" EMT size

No. 4A724 Little Kicker™ Offset Bender



**No. 4A724.** Offset Bender (1810). Shpg. wt. 5.5 lbs. Each ..... $149.25▲

GREENLEE®

- Patented Site-Rite® indicator to easily eyeball key bending angles
- Nonslip pedal for added leverage
- Strong stable square hook design
- Cast-in markings for stub ups, saddle bends, back-to-back bends, and head up or down bending
- Cast-in multiplier factor for offset bends
- Handles sold separately

No. 4A732 Hand Bender

No. 5C635 Handle

## PVC HEATING/BENDING EQUIPMENT

### ELECTRIC PVC HEATER FOR 1/2 TO 2" PVC

Double wall construction with fiberglass insulation helps keep inside temperature uniform. Plug in 115V outlet and preheat 10 minutes, insert PVC and rotate for 1 to 2 minutes, remove PVC and form bend. Features rollers for smooth rotation and On-Off switch with pilot light. Greenlee brand (849).

**No. 5C637.** Shpg. wt. 15.0 lbs. Each ..... $381.00▲

### PVC HEATING BLANKET FOR 1/2 TO 1½" PVC

Provides thermostatically controlled, even heating for uniform bending. Tough cord grip and thermostat housing for rugged use. Velcro strap holds blanket in heating position. Longitudinal stiffeners insure positive contact with PVC. Greenlee brand (860-1-1/2).

**No. 5C638.** Shpg. wt. 1.7 lbs. Each ..... $157.75▲

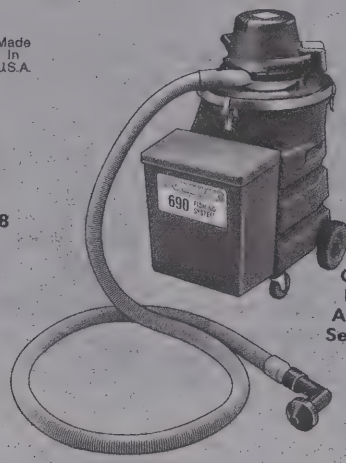
# POWER FISHING SYSTEMS



## VACUUM/BLOWER POWER FISHING SYSTEM

GREENLEE®

Replacement Parts Available 1-800-323-0620

Made In U.S.A.

LR33658

Conduit Pistons Also Sold Separately

No. 5C640 Vacuum/Blower Power Fishing System

- Rugged self-contained includes everything you need to blow or vacuum fish line, poly line or measuring tape
- Durable, the tank and accessory storage box are corrosion, chemical, and impact-resistant polyethylene
- Designed for the jobsite, 10 ft. long hose, large heavy-duty wheels and removable accessory box
- Includes 1/2-4" pistons, hoses, fish line, and adapters
- CSA Certified (LR33658)
- Greenlee brand (690)

**No. 5C640.** Complete Vacuum/Blower Power Fish System. Shpg. wt. 58.0 lbs. Each ..... $854.00▲

### CONDUIT PISTONS

- Use with blower or vacuum power fishing system to pioneer the line through the conduit run
- Flexible foam body for an airtight seal
- Color coded end disk with embossed size markings for fast, easy selection
- Strong steel center rod with tying loops on both ends
- Pistons available for all types and sizes of conduit 1/2 through 2" (including rigid, IMC and EMT conduit)

# FISH TAPES, LEADER, LINE, AND PACKAGES

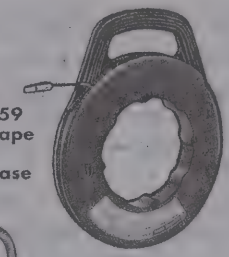
## FISH TAPES

### STEEL FISH TAPES

- 1/8" tape in 50, 100, and 200 ft. lengths
- Oversized locking handle provides hefty grip for needed power
- High quality spring steel resists bending, kinking, and corrosion

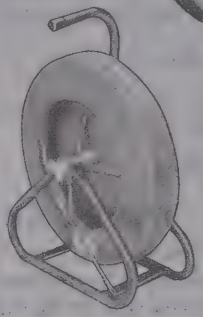
### FLEX-O-TWIST FLEXIBLE FISH TAPES

- 3/16" tape in 50 and 100 ft. lengths
- Heavy-duty locking handle
- Flexible design allows tape to slip through lateral and vertical bends in same run
- Made of wound multi-strand cable for strength and flexibility



### FIBERGLASS FISH TAPES

- Non-conductive fiberglass tape with low friction coating
- Non-coiling properties that enable it to fish in large and small conduit, with wire or cable in place
- Lightweight reel for easy positive feed out and rewind
- For installation of telecommunications and data communication cables in overhead plenums, above suspended ceilings, and under floors
- Intended for fishing only, rope or line is recommended for pulling



### NYLON NON-CONDUCTIVE FISH TAPES

- 3/16" tape in 50 and 100 ft. lengths
- Heavy-duty winder case with hefty handle
- Curl-resistant nylon
- Lightweight and strong, 300 pound average tensile strength
- Tip and leader are made of metal, can be grounded against conduit—tape is non-conductive

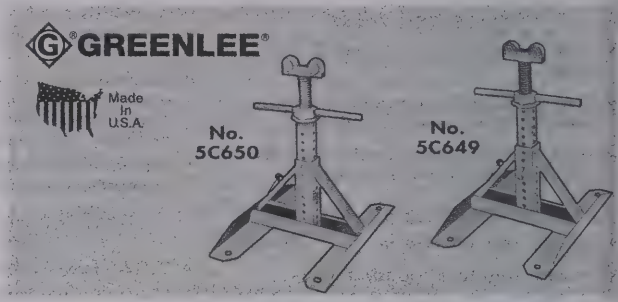
# REEL STANDS, WIRE CARTS, AND STORAGE RACK



## SCREW-TYPE REEL STANDS AND SPINDLES

### TELESCOPING REEL STANDS

- Stands telescope with pins for rough adjustment; feature a screw-type final height adjustment
- Welded wide steel base provides added stability
- Roller bearings fit to the spindle groove and keep spindle in place, turning freely
- For a complete setup two stands and a spindle are required

### SPINDLES

- Tempered steel spindle is grooved to fit between rollers

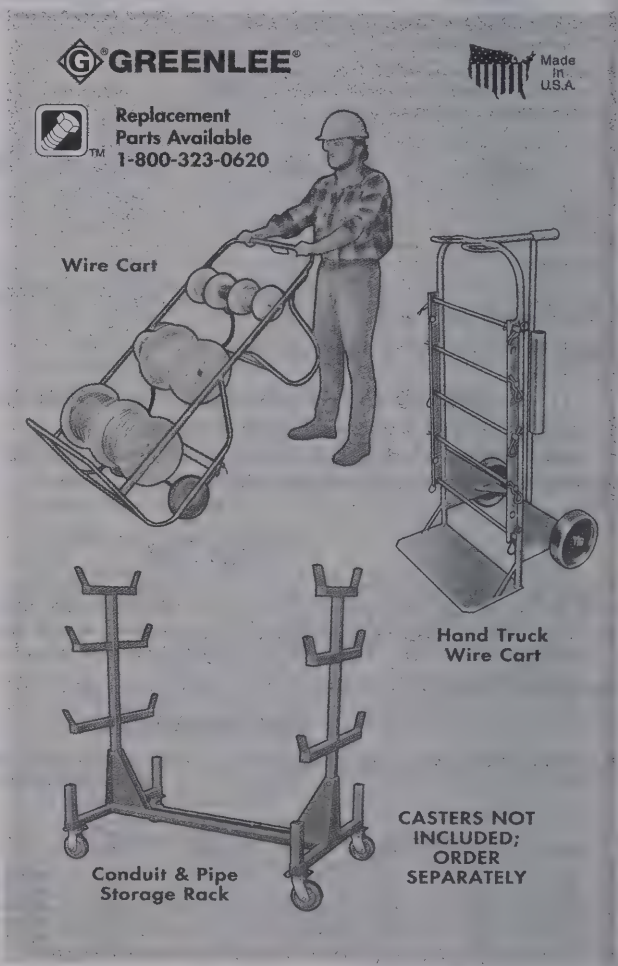
## WIRE CART

- Excellent for storing, transporting or for feeding wire
- Can be used vertically or horizontally
- Five strong reel axles with spring clip retainers plus two positions for axle storage allows configuration for large reels without loose parts
- Strong yet lightweight tubular steel welded construction with rugged 8" polypropylene wheels
- Built-in wire guide for horizontal dispensing
- Will handle 18" spools; will pass through 28" opening
- 54½H x 27W x 26½"D
- Greenlee brand (911)

**No. 5C648.** Shpg. wt. 62.0 lbs. Each ..... $323.75▲

## HAND TRUCK WIRE CART

- Heavy-duty wheels for durability and easy transport
- Dual heavy-duty wire guides for dispensing multiple wires in all directions
- 46H x 23W x 22½"D
- Five 5/8" dia. reel spindles for storing and dispensing up to 15-500 ft reels of #14 THHN wire
- Storage space for 3 spindles & clips eliminates loose parts when not in use
- Greenlee brand (38733)



**No. 4CN24.** Shpg. wt. 58.0 lbs. Each..... $248.50▲

## CONDUIT AND PIPE STORAGE RACK

- 1000 lb. capacity
- Seven individual bins allows sorting by size and type
- Made of structural square tubing
- Overall dimensions: 58H x 58½L x 34"W; folds to 15½H x 61L x 34"W for storage
- Casters not included—For added mobility, order four swivel casters No. 3A844 from page 2144
- Greenlee brand (668)

**No. 5C653.** Shpg. wt. 100.0 lbs. Each ..... $578.50▲

(▲) Net prices, not subject to discounts.

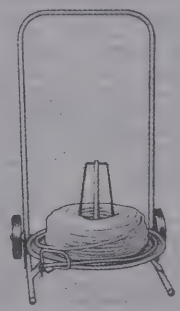
The only source you need for tools as tough as you are.

# CABLE DISPENSER/TRANSPORTER, AND PULLING ACCESSORIES

## BX ARMORED COIL CABLE DISPENSER AND DISPENSER/TRANSPORTER

- **No. 4CN11 dispenses one 250' coil of 14/2, 14/3, 12/2, or 12/3 BX-armored cable, flexible conduit, Greenfield or Romex without twists or tangles.**
- **No. 4CN10 transports up to 3 coils, maximum 250 lbs.**
- **Base with adjustable tension control rotates to dispense cable without overpulling**
- **Large pulling eye rotates freely; can be used as a carrying handle when dispenser is empty**
- **Greenlee brand**

**No. 4CN11** Cable Dispenser (37218). Shpg. wt. 32.0 lbs.
Each .....$167.00▲



**No. 4CN10** Cable Dispenser/Transporter (37202). Shpg. wt. 55.0 lbs.

# AUGER BITS, ANCHORS, PLACEMENT TOOL, SCREW ANCHORS AND EXPANDERS

## D'VERSIBIT® AUGER FLEXIBLE SHAFT BITS

**Flexible steel drill bits for installing** wire or cable inside existing walls. Drill bit is attached to long, flexible spring steel shaft, allowing manipulation of the bit within walls.

**Nos. 4CN17 and 4CN18** are wood-type augers with a screw point that pulls itself through wood, avoiding walking or skidding. Excellent for drilling soft woods or through thin sections.

**No. 4CN19** is a combination bit with a screw point for easy starting and pulling through wood. With the screw point removed, bit can be ground to function like a standard combination bit.

**Nos. 4CN20 and 4CN21** combination bits are for drilling wood and light sheet metal. Chips can be brought out easily through the hole. Excellent for tough woods and thick obstacles. Can be sharpened.

| Description | Dimensions (In.) | Greenlee Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| **Wood Type with Screw Point** | 9/16 x 54<br>3/4 x 54 | 09-03-54A<br>12-04-54A | **4CN17**<br>**4CN18** | **$36.20▲**<br>**38.05▲** | 0.5<br>0.9 |

## D'VERSIBIT® PLACEMENT TOOL

- **Allows placement of the drill bit at any point within the wall**
- **Use to position all bit and shaft sizes**
- **Useful for vertical and horizontal placements**
- **Helpful in judging where the bit will be during drilling to avoid accidentally drilling through the wall**
- **Greenlee brand (38350)**

**No. 4CN22.** Shpg. wt. 0.4 lbs. Each ..... $13.21▲

## D'VERSIBIT® ABRASION SHIELD

- **Fits all D'versiBIT® auger flexible shafts**

Prevents insulation from wrapping around bit shaft. Protects D'versiBIT shaft when used in masonry walls. Made in USA.

***New*No. 4NV69.** Greenlee brand (606AS). Shpg. wt. 0.3 lbs. Each **$3.43▲**

## WIRE AND CABLE PULLING GRIPS

- **Built-in swivel reduces twisting**
- **Clip attaches D'VersiBIT® or fish tape**
- **Metal mesh grip firmly holds wire**

For use with D'VersiBIT® auger flexible shaft bits Nos. 4CN17, 4CN18, 4CN19, 4CN20 and 4CN21. Clip attaches to hole in bit, mesh basket holds wire or cable during recovery. Use with bits 3/8" or larger. Made in USA.

***New*No. 4NV66.** Pulls up to 3/8" OD wire. (125). Shpg. wt. 0.1 lbs. Each ..... $8.34▲

***New*No. 4NV67.** Pulls up to 1/2" OD wire. (150). Shpg. wt. 0.1 lbs. Each ..... $10.20▲

***New*No. 4NV68.** Pulls up to 3/4" OD wire. (168). Shpg. wt. 0.1 lbs.. Each ..... $12.28▲

## SCREW ANCHOR EXPANDERS

Quickly and securely set expansive screw anchors in masonry, regardless of thickness. Manufactured from hardened alloy steel. Greenlee brand.

| Expansive Bolt Size | Greenlee Model | Stock No. | Each | Shpg. Wt. |
|---|---|---|---|---|
| **1/4" - 20** | 868 | **4CM94** | **$33.40▲** | 0.4 |

| **Screw Anchor** | 3/8"-16 | 4CM95 | 84305 | **4NV92** | **46.90▲** | 5.6 |

# PIPE WRENCHES

### A CAST-IRON STRAIGHT HANDLE PIPE WRENCHES

With I-beam handle, wrenches have full-floating hook jaw with spring suspension for instant grip, instant release. Rugged, easy spin, non-stick adjustment nut cleans grime from shank and allows one-hand adjustment. Meet Federal Specification GGG-W-651, Type II, Class A.

### B ALUMINUM STRAIGHT HANDLE PIPE WRENCHES

Lightweight, yet strong enough for heavy-duty work. Hook and heel jaws are made of strong alloy steel and hardened. Meet Federal Specification GGG-W-651, Type II, Class C.

### C END PIPE WRENCHES

Assures a fast and easy grip for pipe working in restricted spaces or close to a wall. Wrenches have same heavy-duty features as Ridgid Straight Pipe Wrenches.

### D OFFSET PIPE WRENCH

With aluminum handle features a jaw opening parallel to the handle and a narrow hook jaw head to allow easy entry into tight spots. Maximum pipe size 2½". Lightweight—adds to operator comfort.

### E STRAP WRENCHES

For use on polished pipe and tubing. Wrenches have strong I-beam handle and solid head.

### F CHAIN WRENCHES

Designed with a double jaw to provide a fast, ratchet-like action in either direction. Nos. 4CW47 and 4CW48 are heavy-duty and equipped with replaceable alloy steel jaws. No. 4CW46 is a light-duty wrench with a one-piece forged alloy steel handle and jaw making it suitable for use in close quarters.

### G OFFSET HEX WRENCH

Extra wide jaw opening (max. 2⅝"). Use to remove power elements from expansion valves in refrigeration applications and for hard-to-reach nuts and fittings. Ideal for securing drain nuts on sinks and tubs.

### H TELESCOPING BASIN WRENCH

Has forged alloy spring-loaded jaws. For fast, one-hand ratcheting. Tension plug holds head in any position up to 90° angle. Stainless steel spring assures firm grip. Telescoping shank is easily adjusted and held in place by spring-loaded pin.

### I SPIRAL RATCHET PIPE REAMER

For pipe, sheet metal, or for enlarging conduit box outlets. For fast, easy hand reaming.

Die heads come complete with NPT alloy dies. Die heads fi Ridgid No. 12R ratchet and handle included wtih pipe threade No. 4A508. Die heads also fit Ridgid Model 700 Power Drive (No 1AC02) without the use of an adapter.

*The only source you need for tools as tough as you are.*

# PIPE THREADING EQUIPMENT, PIPE FREEZING UNIT AND ELECTRIC SOLDERING GUN

## BENCH YOKE VISE

Yoke and base made of iron. Features hardened alloy steel jaws. Base includes pipe rest and bender. Designed to hold pipe sizes 1/8 to 4". Ridgid brand (25/40100).

***New*** **No. 4NV31.** Bench Yoke Vise. Shpg. wt. 28.0 lbs.. List $207.80. Each ..... **$197.50▲**

## PIPE STAND

Used to support pipe extending from rear of threading machines. Strong tubular steel construction. Locking collar allows for fast approximate height adjustment. Final adjustment is made by turning feedscrew handle which provides exact positioning to desired height, from 28 to 52". V-Head holds pipe to 12" in dia. Ridgid brand (VJ-99/56662).

**No. 4CX07.** Shpg. wt. 24.0 lbs. List $86.50. Each..... **$82.20▲**

## TRISTAND

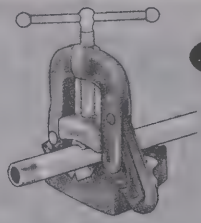
Alloy steel jaws are hardened for firm grip and long wear. Vise has 1/8 through 5" capacity; large base overhangs front legs for clear tool swing.

Has rear pipe rest, tool hanger slots, 3 pipe benders and ceiling brace screw. Integral folding legs and tool tray lock open for sturdy workbench, close for easy carrying. Ridgid Model (450/40160).

**No. 4A507*.** Shpg. wt. 46.0 lbs. List $371.80. Each..... **$353.25▲**

## PIPE THREADING OILER

Stops oil waste, keep dies flooded for quality threads, and lengthens die life. Hand operated pump. Large diameter chip pan and long hose provide a completely portable oiling unit. Comes with one gallon of Ridgid Nu-Clear thread cutting oil. Ridgid brand (318/41650).



**No. 5A194*.** Shpg. wt. 22.0 lbs. List $207.40. Each..... **$197.25▲**

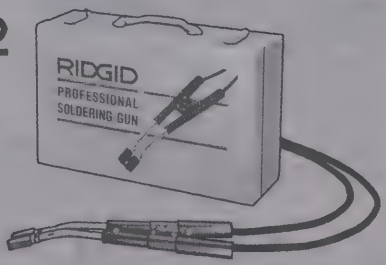
## SUPERFREEZE® PIPE FREEZING UNIT

RIDGID

New

- **Eliminated the use of CO2, nitrogen, or illegally releasing refrigerants into the atmosphere**
- **Can form one or two ice plugs with the same machine, at the same time**
- **No need to shut off water supply or drain system to make repairs**



SuperFreeze pipe freezer is an easy-to-use pipe freezing unit that allows water systems to be kept in operation while making repairs. System is a mini-refrigeration unit that circulates refrigerant to its aluminum freeze heads. Capacity: 1/2 - 1" steel; 1/2 - 1½" copper tube. Note: Unit remains operating while making repairs to ensure ice plug will not melt. Ridgid brand (SF2000R/62867).

***New*** **No. 4NV36.** Shpg. wt. 46.0 lbs. List $1749.00. Each ..... **$1662.00▲**

## ELECTRIC SOLDERING GUN

RIDGID

New

- **Sweats joints on copper tube up to 3"**
- **Operates on standard 115V, 15A outlet**
- **No open flame so it's safer to use**

Easy-to-use soldering gun has two power settings that allow better control of the heat applied to the joint. Carbon tips surround the fitting to deliver heat evenly to the joint. This helps prevents overheating smaller diameter tubes, yet delivers enough power to melt solder in 3" joints. Includes 12 ft. of cable. Ridgid brand (RT175/62862).

***New*** **No. 4NV35.** Electric Soldering Gun. Shpg. wt. 33.0 lbs.. List $729.00. Each ..... **$693.00▲**

(▲) Net prices, not subject to discounts.

# PIPE THREADING EQUIPMENT

## MODEL 1822-I PIPE THREADING MACHINE

Designed for a wide range of applications from threading pipe and bolt to producing nipples, cut grooving, and beveling, with appropriate accessories. Features center lock chuck which automatically centers and grips pipe and bolt. Powerful, quiet, 1–1/2 HP, 115 volt induction motor and two-speed transmission provide two threading speeds—45 and 16 RPM—with low noise levels. Through-the-head automatic oiling system has a triple filtration design for longer, dependable pump life and clean threads. Machine is designed for ease of movement and is available with the optional Folding Wheel Stand No. 5A192 (as shown). Unit also may be mounted on the Portable Wheel and Cabinet Stand, No. 4LT54 (sold separately below). Comes complete with self-opening right hand die head, 1/2–3/4" NPT alloy dies, 1–2" NPT high speed dies, one gallon Nu-Clear (thread-cutting oil), 1/8–2" wheel cutter, and 1/8–2" five fluted reamer. Ridgid brand (1822-I/20000).

**No. 5A191.** Shpg. wt. 240.0 lbs. List $3617.35. Each ..... **$3437.00▲**

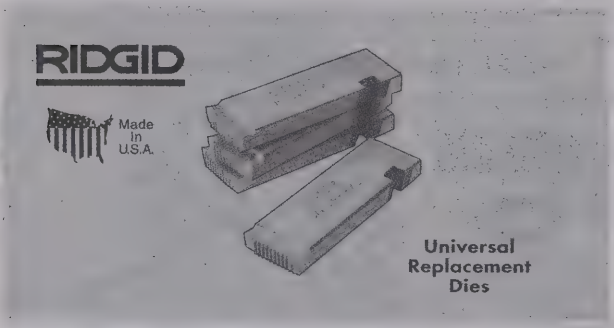
### OPTIONAL ACCESSORIES

**Self-Opening Die Head** features through-the-head oiling and opens automatically after completion of the proper thread length. Uses Ridgid universal, right hand, pipe or bolt dies. Ridgid brand (815A/97075).

**No. 5A195.** Shpg. wt. 13.0 lbs. List $355.15. Each ..... **$337.50▲**

**Portable Wheel Stand** provides solid mounting platform and adds to mobility of the machine. Stand has 16" wheels and storage compartment for extra dies and die heads. Ridgid brand (200/68222).

***New* No. 4LT54.** Shpg. wt. 105.0 lbs.
List $712.40. Each..... **$677.00▲**



**Folding Wheel Stand** provides one-man maneuverability. Comes complete with oil pan cover to allow the convenience of transporting the machine without draining thread cutting oil. Ridgid brand (1406/20105).

**No. 5A192.** Shpg. wt. 72.0 lbs. List $589.35. Each ..... **$560.00▲**

(▲) Net prices, not subject to discounts.

## MODEL 300 PIPE THREADING MACHINE

Consists of power drive, stand, carriage with lever, reamer, cutter, universal die head, set of 1/2-3/4" universal dies, set of 1-2" universal dies, and oiler.

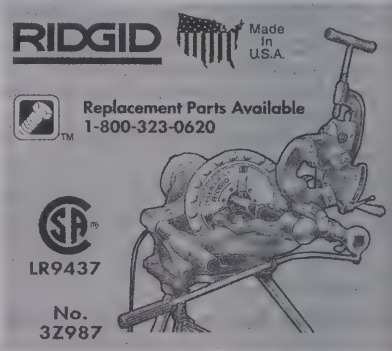
**Speed chuck holds tight in forward or reverse.** Pipe threads can be run right up to the chuck. Replaceable rocker action jaw inserts. All metal, one-piece hand wheel.

**Universal, reversible, 1/2 HP, single-phase, 115V, 25-60 Hz motor** features armature with extra large commutator and brushes for longer brush life and fast speed even on 2" pipe or conduit. Motor is easily removed for service.

**Recessed reversible switch, integral foot switch** for safer operation.

**Rear centering device.** 3-jaw, cam action type for straight thread and cuts; spindle speed 38 RPM.

**One-piece cast aluminum housing.** Two heavy-duty tool support bars. CSA Certified (LR9437). Ridgid brand (300/15682).



**No. 3Z987.** Shpg. wt. 212.0 lbs.
List $3099.70. Each ..... **$2945.00▲**

### OPTIONAL ACCESSORY

**Quick-Opening Die Head** slips quickly into carriage, is easily removed. Uses universal right-hand pipe or bolt dies. Ridgid brand (811A/97065).

**No. 4Z974.** Shpg. wt. 12.0 lbs.
List $276.50. Each..... **$262.75▲**

(▲) Net prices, not subject to discounts.

# PIPE THREADING EQUIPMENT

## MODEL 535 PIPE THREADING MACHINE

**Speed chuck with rocker-action jaws** centers and grips work piece with a spin of the hand wheel. Cam-action rear centering device aligns work piece with front chuck. Powered by a 1/2 HP 115 Volt reversible universal motor. Spindle turns at 36 RPM (no load). Geroter-type oil pump delivers a constant supply of oil to the die head. Oil flows through the die head producing quality threads and extending die life. Machine is capable of powering geared threaders through 6" pipe. Carriage operates smoothly and has length gauge for measuring cut-off lengths. Self-centering, full-floating cutter quickly adjusts to pipe size. Machine can be mounted on a bench or the optional wheel stand No. 4LT54 (sold separately below).

**Unit comes with:** 1 universal die head No. 4Z974, 1/2 - 3/4" and 1 - 2" NPT universal dies, reamer, cutter, 1 gallon oil, spare cutter wheel, and integral footswitch. Ridgid brand (535/41910).

**No. 4CW84.** Shpg. wt. 260.0 lbs. List $4525.40. Each ..... **$4300.00▲**

### OPTIONAL ACCESSORIES

**Portable Wheel Stand** provides solid mounting platform and adds to mobility of the machine. Stand has 16" wheels and storage compartment for extra dies and die heads. Ridgid brand (200/68222).

***New*** **No. 4LT54.** No. 4LT54.. Shpg. wt. 105.0 lbs.List .....$712.40.
Each .....**$677.00▲**

## MODEL 1224 PIPE THREADING MACHINE

Threads 1/4 - 4" pipe. When equipped with the appropriate dies, a wide range of pipe can be threaded, including: black, galvanized, plastic coated, stainless steel, IMC and heavy wall conduit, and ROD up to 30 Rockwell C. The 2½ - 4" receding die head cuts both tapered (NPT) or straight (NPSM) threads with same set of dies. A two-speed transmission allows for threading 1/4 - 2" pipe at 36RPM and 2½ - 4" at 12RPM. Through-the-head oiling ensures proper lubrication of dies and workpiece. Machine may be mounted on a bench or on optional wheel stand No. 4LT54.

**Unit comes with:** Ridgid Model 714 2½ - 4" die head, 1/4 - 2" die head No. 4CW40; 1 set 1/2 - 3/4" universal alloy dies; 1 set 1-2" universal alloy dies; 1 set 2½ - 4" high speed dies; reamer, cutter, spare cutter wheel; tool box, 3/4" combination wrench, 1 gallon nuclear oil, and integral foot switch. Ridgid brand (1224/26092)..

**No. 4CW39.** Shpg. wt. 490.0 lbs. List $6450.20. Each..... **$6128.00▲**

## RIDGID KOLLMAN DRAIN GUN KITS

**Designed for quick cleaning of stopped-up drains.** Recommended for ¾ -1½" drain lines in kitchens, bathrooms, utility rooms. Slide action handgrip permits dual action—pull handgrip back and it snap-locks cable for effortless feeding; push handgrip forward and it releases, allowing more cable to be drawn. Two-piece "Twist-Lock" drum housing will not dent or corrode. Allows easy access to inner drum and cable. Inner drum eliminates cable flip-over and drum leakage. Variable speed trigger provides greater control in negotiating elbows and P-traps. Holds up to 35 ft. of 3/8" cable or 50 ft. of 5/16" cable (not included). 5/16" cable best for 3/4" to 1½" lines, 3/8" cable best for 1¼" to 2½" lines.

**Cordless Drain Gun Kit** is 7.2 Volt for 0-600 RPM. Offers freedom from power cords and extensions. Includes cordless drain gun, 25 ft. of 5/16" cable with bulb auger, two battery packs, battery charger, steel tool box. Fully charges in one hour. Reversible. Ridgid/Kollmann brand (K-39B-1/68142). UL Listed (E40368) and CSA Certified (LR16251).

**No. 5A190.** Shpg. wt. 26.0 lbs. List $340.00. Each ..... **$323.00▲**

**Portable Drain Gun Kit** is 115 Volt, 3.2 amp for 0-500 RPM. With 4½" radius totally enclosed drum gets into the tightest places. Includes 25 ft of 5/16" cable with bulb auger. Tool length 19", tool weight 11 lbs. Reversible. UL Listed (E40368) and CSA Certified (LR13710). Ridgid/Kollmann brand (K-39/68057).

**No. 4Z661.** Shpg. wt. 14.0 lbs. List $264.00. Each..... **$251.00▲**

## MILWAUKEE DRAIN GUN KIT

**Clean out sinks and toilets, eliminate removing traps or clean out plugs.** Variable speeds let operator start slowly past cross bars, then run at higher speeds to remove stoppage. Feature reversing variable speed trigger switch for breaking up clogged areas and freeing jammed hooks in wastelines up to 2" ID. Rust-resistant aluminum drum. Equipped with Jacobs keyless chuck for quick cable feed. UL Listed (E22124).

Heavy-duty Drain Cleaner Gun is 120 Volt, 1.60 amp for 0-450 RPM. Reversible. Reversing trigger speed control protects cable from damage. Holds up to 35 ft. of 3/8" or 50 ft. of 5/16" inner core cable (not included). Tool length 17", weight 7¼ lbs. Kit includes: 1/4" x 25 ft. steel cable, 1/4" repair hook, toilet trap guide holder, toilet trap guide, and steel carrying case. UL Listed; CSA Certified. Milwaukee brand (0567-1).

**No. 2Z738.** Shpg. wt. 27.0 lbs. List $472.13. Each..... **$310.75▲**

# DRAIN CLEANING EQUIPMENT

## MODEL K-375 DRAIN CLEANING MACHINE

**Speed cleans sink, lavatory, and floor drains from 1½ - 4"** in diameter. Quick-disconnect speed coupler makes it easy to match the right tool to the job. No special stands or drive pins are required to change tools, tools snap connect to cable. Quick-disconnect mechanism splits unit into 2 assemblies. Portable and lightweight for easy transport and setup.

**1/3 HP motor spins cable at 190 RPM** through stoppages in 1½ to 4" indoor drain lines up to 100 ft. Durable polypropylene plastic drum is corrosion- and impact-resistant. Withstands exposure to caustic drain cleaning chemicals and won't dent like ordinary metal drums.

Footswitch leaves both hands free to feed cable and work the stoppage. Sturdy frame gives added stability; features a convenient tool hanger. CSA Certified (LR13710).

No. 6A648 Cable Drain Cleaning Machine. Best for cleaning 1½ - 3" lines. Includes 3/8" x 75 ft. inner core cable, bulb auger, "C" cutter, spade cutter, pin key, and one pair work gloves. Ridgid/Kollman brand (K-375SE/37797).

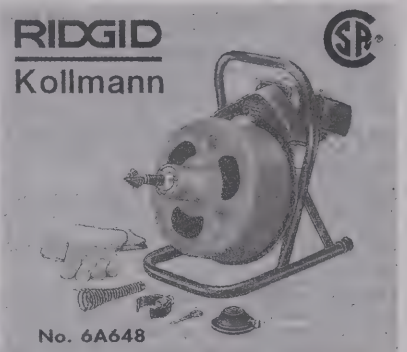
**Drum Assembly for Drain Cleaning Machines.** Polyethylene molded drum, corrosion- and impact-resistant. Holds 100 ft. of 3/8" cable, or 75 ft. of 1/2" cable. Ridgid/Kollman brand (A-375/37787).

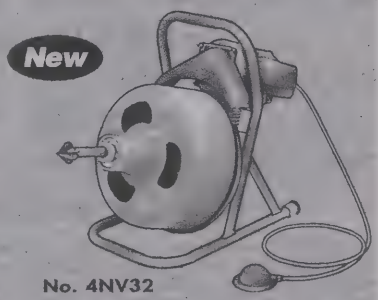
**New No. 4NV30.** Shpg. wt. 8.7 lbs. List $118.40. Each.....$112.50▲



## MODEL K-3800 DRAIN CLEANING MACHINE

**Powerful, easy to transport,** versatile machine for cleaning indoor drains from 3/4 to 4". Requires minimal set-up to clean sink lines, floor drains, roof vents. Rugged, corrosion-resistant molded drum will not dent or rust. Drum tilt-adjusts for proper cable feed angle. Inner-drum guards against cable flip-over within drum. Cable drum's quick-release and built-in hand holds allow easy cable size changes and balanced, two-handed transport.

**Powerful 1/12HP universal motor** spins cable at 240 RPM max. When cable hits blockage, motor gears down automatically to deliver more power; enhances operator control. Tools snap connect to cable. Machine comes equipped with 3/8" x 75' inner core cable—recommended for 1Z\x to 3" lines. Other standard equipment includes: GFI protection, bulb auger, "C" cutter, spade cutter, pin key, and operator's gloves.



**Optional 1/2" cable recommended for use in 2 - 4" lines** up to 90'. Tools for 1/2" cable are listed under accessories below. Machine can also be used to clean small 3/4 to 1½" lines with use of optional 5/16" x 25' inner core cable with bulb auger. Special sink drum listed below is required for this application. Ridgid/Kollmann brand (K-3800/53117).

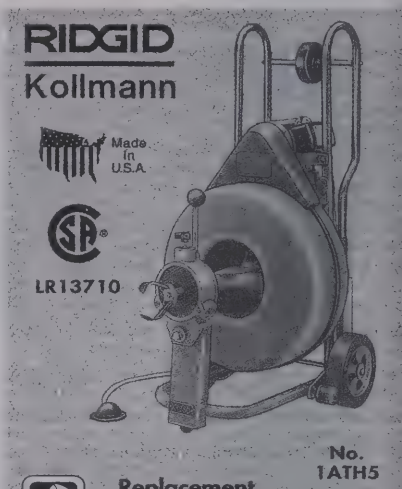
# DRAIN CLEANING EQUIPMENT

## MODEL K-750 DRAIN CLEANING MACHINE

**Designed for one-man operation.** Lightweight, compact, and balanced for ease of handling. Only 21" wide to fit easily through narrow doorways and into tight work spaces.



**1/2 HP electric motor spins 5/8" or 3/4"** cable through stoppages up to 200 feet in 3 to 10" lines. Durable drum is molded from high-density polyethylene, and is corrosion and impact resistant. Drum capacity is 100 feet of 3/4" cable or 125 ft. of 5/8" cable. For lines over 100 feet, additional cable and drum are required. To order additional cable and drum call 1-800-323-0620.

**Powerfeed mechanism allows instant cable size adjustment.** A twist of the screwdriver locks powerfeed into one of two preset positions for either 5/8 or 3/4" cable. 5/8" cable is best for 3" to 6" lines; 3/4" cable is best for 4" to 10" lines. To change drum, simply loosen one bolt to remove powerfeed unit and another to remove drum from its mount, and replace with a new one.

**Features swing-leg kickstand** designed into main frame for stability during use. Kicks forward for better balance and maneuverability during transportation. Stair-climber skids facilitate transportation. Loading rails and transport wheel in handle make loading and unloading from trucks easier. Spring handle aids in quick drum removal.

**Includes air-actuated footswitch,** 3/4" x 100 ft. inner core cable (Ridgid/Kollmann brand C-100), spear blade cutter, 2, 3, and 4" cutters, retrieving auger, and one pair work gloves. CSA Certified (LR13710). Ridgid/Kollmann brand (K-750/42007).

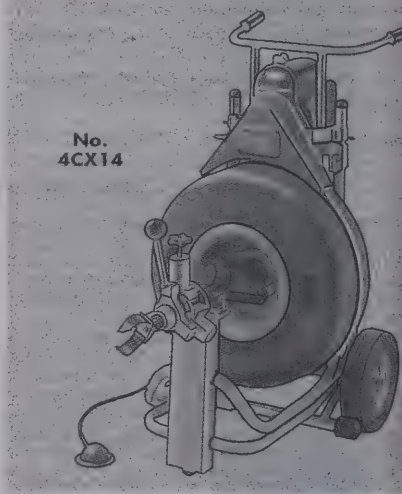
## DRUM ASSEMBLY WITH PIGTAIL

**Drum Assembly with 3/4" Pigtail.** Polyethylene-molded drum, corrosion- and impact-resistant. For use on No. 1ATH5 drain cleaning machine. Drum holds 100 ft. of 3/4" cable, or 125 ft. of 5/8" cable. Note: Drum comes equipped with 3/4" pigtail for use with 3/4" cable. Ridgid/Kollman brand (A-7534/41982).

***New*No. 4NV33.** Drum Assembly. Shpg. wt. 38.0 lbs. List $235.95. Each.....**$224.25▲**



## MODEL K-7500 DRAIN CLEANING MACHINE

**Designed to provide the cable control, durability, and maneuverability** demanded by professional users. Powerful, quiet 4/10HP universal motor and gear box bear down as cutter engages obstruction. Power builds as motor slows giving operator visual and audible signals of increasing cable torque. Reduced drum speed provides greater operator reaction time. Inner-drum and ball bearing distributor arm reduce chance of cable flip-over within drum. Main and inner drums will not rust, split, or dent. Drum holds up to 125 ft. of 3/4" cable or 150 ft. of 5/8" cable.

**Powerful feed mechanism** has grease fittings and an open design for easy maintenance; advances and retrieves cable up to 22 ft. per minute. Heavy-duty frame features two-position stair climbers for easy loading. Handles adjust to desired height to ensure balanced transport. Cleans 3 to 10" lines up to 250 ft. (**Note:** 5/8" cable recommended for 3-6" lines; 3/4" cable for 4-10" lines).

**Machine comes with:** air activated footswitch, GFI protection, 3/4" x 100' inner core cable, trap leader, retrieving auger, 2, 3, 4 and 6" double cutters, saw tooth cutter, 3" P-trap cutter, spear blade cutter, operator's gloves, and tool box. Ridgid/Kollmann brand (K-7500/60052).

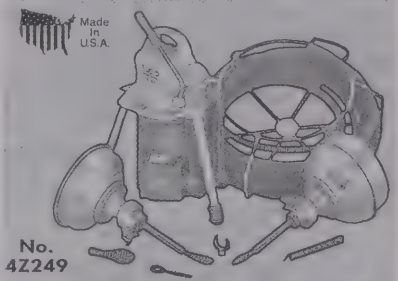
## MODEL KJ-1750-C WATER JETTER DRAIN CLEANING MACHINE

**Powerful jets of water** blast sludge, soap, or grease-choked lines (3 - 4") power scrubbing them clean. Duplex pump with corrosion-resistant, forged brass head produces actual pressure of 1750 PSI and a flow of 1.4 GPM. Two levels of pulse action are provided to assist in negotiating difficult bends and traps. Portable heavy-duty cart rolls jetter to job; unit snaps free in seconds, allowing jetter to be taken to hard-to-reach drains. 2HP motor draws a maximum of 17 amps, which requires a 20A, 115V circuit (**NOTE:** Unit comes with 20A plug).

**Machine comes with:** jetter unit, cart, Model H-41 propulsion nozzle, Model H-42 penetrating nozzle, Model H-44 drop head nozzle (fits 1/8 and 1/4" hose), Model H-51 propulsion nozzle, H-52 penetrating nozzle (fit 1/2" hose), 1/8" x 50' sink trap hose, 1/2" x 110' jet hose, and nozzle cleaning tool. Ridgid/Kollmann brand (KJ-1750-C/62697).

**No. 4CX15.** Shpg. wt. 188.0 lbs. List $2496.00. Each.....$2372.00▲

## MODEL KJ-3000 WATER JETTER DRAIN CLEANING MACHINE



- **Fast, effective, environmentally safe cleaning of 2 - 8" drain lines**
- **Powerful 13HP recoil start gasoline engine**
- **3000 PSI, 4.0 GPM flow**
- **Pulse action pump for negotiating bends**
- **Two-wheeled cart fits through standard sized doors**

Jetter propels a highly flexible and lightweight hose that blasts through sludge, soap, grease, and sediment blockages. As hose is pulled back, it power-scrubs the line, flushing away debris. Unit comes with: propulsion and penetrating nozzle, 3/8" x 200 ft. jet wash hose, pressure wash package, foot valve for remote operation, and nozzle cleaning tool. Ridgid brand (KJ3000/64882).

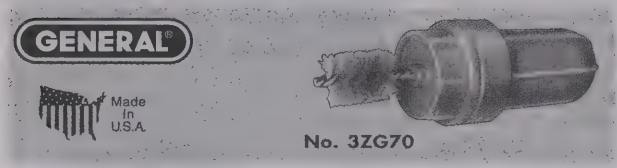
# PIPE AND PVC CUTTERS, PIPE BRUSHES, CIRCLE CUTTERS, AND FAUCET SEAT WRENCHES

## PIPE CUTTERS

**Heavy-Duty Pipe Cutters** are for fast, clean pipe cutting by hand or power. Extra-long feedscrew shank protects adjustment threads. Large comfortable handle provides quick, easy adjustment.



**Heavy-Duty 4-Wheel Pipe Cutters** are designed for work in areas where a complete turn is impossible. No. 4CW52 has a short handle for use in areas where only a 130° turn can be made. No. 4CW53 has a second handle which makes two-man leverage possible on large pipe sizes. Both models are equipped with four heavy-duty cutter wheels.

- **Angle cutting feature**
- **Ergonomically designed handle locks for safety**

**No. 3ZG72.** PVC Cutter (119) Shpg. wt. 1.5 lbs. List $26.16. Each **$23.54**

## CIRCLE CUTTERS

- **Circle cutters produce precision circles in sheet metal, brass, copper, soft aluminum, plastic, wood, and composition materials**
- **Adjustable for variable hole diameter and cutter depth**
- **Bodies are constructed of heat treated tool steel for durability**
- **Cutter blades are made of high speed steel for precise and clean cuts**
- **Hex wrench included**

## FAUCET SEAT WRENCHES

- **For the removal of faucet seats**
- **Six steps on step wrench and two tapered ends on taper wrench**
- **Fits most sizes of faucet seats with square or hex holes**
- **Made of hardened steel and plated to prevent rust**
- **6" right angle handle**

# TUBING TOOLS

## A MIDGET TUBE CUTTERS

- For use in restricted spaces on small diameter, hard and soft copper, aluminum, brass, and plastic tubing
- Strong, lightweight slide & wheel housing, large knurled feed screw knob gives easy control of cutting pressure
- No. 1ATH7 provides full 1⅛" O.D. capacity—allows for cutting of 1" nominal copper tubing; also equipped with spare cutter wheel in feed screw knob

## B ENCLOSED FEED SCREW TUBE CUTTERS

- For thin wall conduit, copper, brass, and aluminum tubing
- Features enclosed feed screw to eliminate clogging and jamming; grooved rolls for close-to-flare cuts
- Sturdy aluminum frame, fold-away reamer, and spare cutter wheel in handle
- No. 4CW57 has aluminum alloy frame

## C QUICK ACTING TUBE CUTTERS

- For copper, aluminum, and brass
- Thrust bearing and twin rollers with flare cutoff groove
- Quick-acting release mechanism
- Fold-away reamer on all models except No. 4A516

## D HEAVY-DUTY TUBE CUTTERS

- For copper, brass, aluminum, and thin-wall steel conduit
- Convenient fold-away reamer

## E PLASTIC PIPE TUBE CUTTER

- Compound leverage ratchet mechanism
- Spring-loaded steel blade retracts into guard

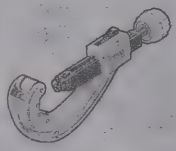
## F LEVER BENDERS

- 90° start angle minimizes effort required to form a bend
- Solid handles with cushion grips and built-in vise mount
- For accurate bends of copper, steel, and stainless steel
- Oil-absorbing shoe

## G TRI-BENDERS

- For plumbing or HVAC applications, use in tight quarters
- Bends 3 sizes of soft tubing: 1/4, 5/16, and 3/8"
- For annealed copper and other types of soft tubing
- 90° start angle minimizes effort required to form a bend

## H STAINLESS STEEL BENDERS



- For bending stainless steel, titanium, other hard tubing
- Two-stage handle and rollers in bending handle produce bends with less effort than conventional benders

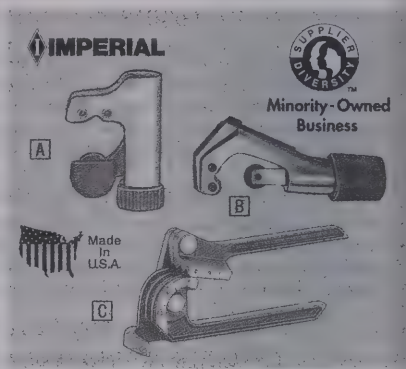
# TUBING TOOLS

## TUBING TOOLS

### A IMP® TUBE CUTTER

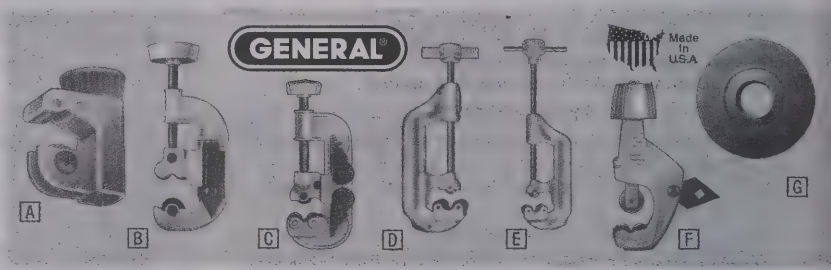
- For close quarters or small size hard and soft copper, aluminum, brass, and plastic tubing
- Screw-type feed, twin rollers
- Conforms to federal specification GGG-C-771D, Type II, Class 2, Amendment 1



### B STANDARD TUBE CUTTER

- For copper, aluminum, brass, thin wall and stainless steel
- Thrust bearing feed & twin rollers with flare cutoff groove
- Fold-away reamer blade with spare cutting wheel

### C TRI-BENDER



- For plumbing or HVAC applications & use in tight quarters
- Bends 3 sizes of tubing: 1/4, 5/16, and 3/8"
- For annealed copper and other types of soft tubing
- 90° start angle minimizes effort required to form a bend

Replacement Parts Available 1-800-323-0620

| Key | Description | Overall Length (In.) | Capacity Tubing O.D. (In.) | Imperial-Eastman Model | Stock No. | List | Each | Shpg. Wt. |

## TUBING TOOLS

### A MINI TUBING CUTTER

- For cutting copper, aluminum, brass and thin walled tubing in tight or hard-to-reach places
- Two hardened flare groove rollers allow you to cut close to flared ends
- Beveled knob for extra torque in confined cutting areas

### B STANDARD TUBING CUTTER

- For cutting copper, aluminum, brass and thin walled tubing
- Two flare groove rollers allow you to cut close to flared ends
- Hardened steel reamer slides and locks in place and retracts for safety

### C HEAVY-DUTY TUBING CUTTER

- For heavy duty tube cutting applications, cuts copper, aluminum, brass and thin walled tubing
- Two hardened flare groove rollers allow you to cut close to flared ends
- Double retractable hardened steel reamer, reams full cutting capacity
- Large feed screw for extra strength; large knob size for extra torque

### D PIPE AND TUBING CUTTER

- For cutting pipe, copper, aluminum, brass, thin walled tubing and PVC
- Fast push button carriage adjustment
- Deburrer has positive lock with two cutting edges
- T-handle gives greater torque
- Large hardened flare groove rollers

### E PIPE CUTTER

- For cutting pipe and PVC
- Will convert to PVC cutter by using No. 3ZH49 cutter wheel
- Large hardened rollers
- Deburrer has positive lock with two cutting edges
- Sliding t-handle design allows zero clearance for confined work areas while providing greater torque

### F ENCLOSED FEED TUBING CUTTER

- Design allows cutter length to remain unchanged when cutting size is altered
- For cutting in confined spaces
- Enclosed feed seals out dirt, eliminates clogging
- Two flare groove rollers allow you to cut close to flared ends
- Hardened steel retractable reamer with built-in gas bottle wrench
- Conforms to government specifications GGG-C-771d
- Extra cutter wheel stored in handle

### G REPLACEMENT CUTTER WHEELS

- Hardened alloy and tool steel cutter wheels are designed for smooth cuts in tubing, pipe, and PVC
- Replacement cutter wheels can be substituted to alter material to be cut

The only source you need for tools as tough as you are.

# FLARING AND SWAGING TOOLS

## A 45° FLARING TOOL

- For soft copper, brass, aluminum, and mild steel (JIC and Bundy) tubing
- Hardened, smooth cone provides fast single lap flares (Double flare adapters available, see No. 4A518 below)
- Tubing sizes clearly marked

## B DELUXE 45° FLARING TOOL

- Hardened steel flaring cone with eccentric action
- Large flaring handle
- Yoke permanently attached to prevent loss
- Tubing size is clearly marked
- Ratchets out freely upon completion of flare
- Recommended for steel, stainless, hard copper, and brass

## C FLARE & CUTTER KIT

- For both single and double 45° flares
- Single flare sizes: 3/16, 1/4, 5/16, 3/8, 7/16, 1/2, and 5/8"
- Double flare sizes: 3/16, 1/4, 5/16, 3/8, and 1/2"
- Enclosed feed screw tubing cutter with a 1/8 to 1⅛" O.D. capacity includes easy spinning feed screw, fold-away reamer, spare cutter wheel in handle
- Sturdy polyethylene box

## D TUBE EXPANDER KIT

- For quick, accurate joints in soft copper, aluminum, and soft steel tube
- Eliminates fitting and reduces solder consumption
- Can be used to recalibrate damaged tubing
- Comes in plastic case
- Recommended for soft copper, brass, aluminum, and mild steel

## E SWAGING TOOL SET

- For copper, aluminum, or brass
- Zinc-plated for accuracy and durability
- Set of four tools in vinyl pouch

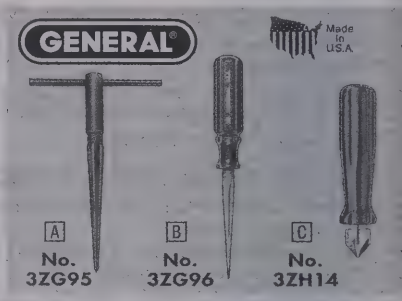
# REAMERS, FLARING AND SWAGING TOOLS, PIPE WRENCH SET AND BENDING TOOLS

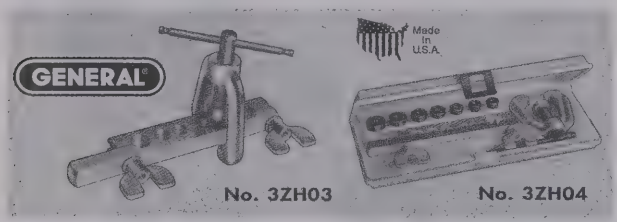
## [A] T-HANDLED REAMER



- For removing burrs from cut pipe, tubing, conduit, or for enlarging & countersinking holes in sheet metal, plastic, & other materials
- Made of hardened, tempered tool steel

## [B] SCREWDRIVER HANDLE REAMER

- For removing burrs from cut pipe, tubing, and conduit, or for enlarging and countersinking holes in sheet metal, plastic, other materials
- Fluted plastic handle for quick and easy reaming, cutters are made of hardened, tempered tool steel



## [C] HAND REAMER AND COUNTERSINK

- 3/4", 5-flute, 82° point angle, tool steel cutter makes fast work of countersinking wood, plastic, Formica, sheetrock, and deburring plastic, copper, iron pipe, sheet metal
- Fluted plastic handle for quick, easy reaming
- Cutters made of hardened, tempered tool steel

| Key | Overall Length (In.) | Handle Type | Capacity (In.) | General Model | Stock No. | List | Each | Shpg Wt. |
|---|---|---|---|---|---|---|---|---|

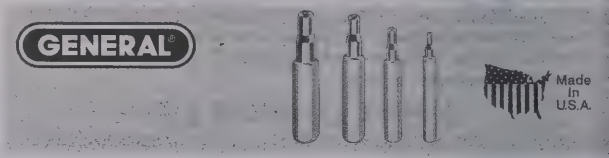
## FLARING TOOLS

### FEATURES

- Forged plated yokes have 45° cone
- Extra-long bar to fit in bench vise
- Sizes—3/16, 1/4, 5/16, 3/8, 7/16, 1/2, 5/8"

### FLARING TOOL No. 3ZH03

- For use with copper, aluminum, brass, thin walled tubing
- Screw yoke slips over bars without removing wing nuts on bars
- Sliding T-handle provides maximum leverage
- Quick opening plated bars for easy insertion/removal of tubing

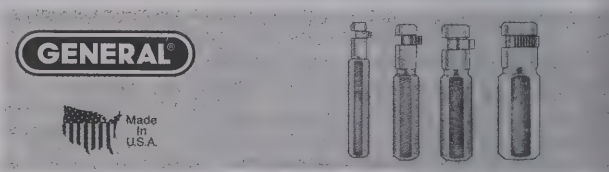


### DOUBLE FLARING TOOL No. 3ZH04

- For high pressure applications in automotive, A/C, refrigeration
- Accurately single or double flares in copper, aluminum, thin walled tubing
- Quick-opening plated steel bars for easy insertion/removal of tubing bars tighten with wing nuts
- Double flare inserts are hardened steel.

**No. 3ZH03.** Flaring Tool (155). Shpg. wt. 1.8 lbs.
List $30.22. Each..... **$27.20**

**No. 3ZH04.** Double Flaring Tool (157). Shpg. wt. 2.8 lbs.
List $55.14. Each ..... **$49.65**

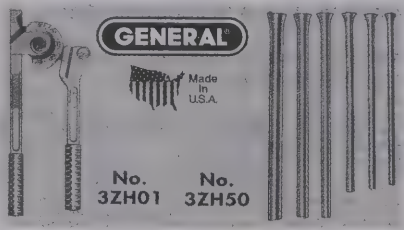


## 4-Pc. SWAGING TOOL SET

- Ideal for easy joining of copper, other thin walled tubing
- Eliminates need for coupling
- Precision tapered for tight fit
- Hex body for use with wrench
- Made of heat-treated alloy steel and plated to prevent rust
- Includes sizes 1/4, 3/8, 1/2, and 5/8"

**No. 3ZH02.** Swaging Tool Set (154ST). Shpg. wt. 1.1 lbs.
List $14.96. Each..... **$13.46**

## INTERNAL PIPE WRENCH SET



- Ideal for removing broken threaded pipe ends, pipe plugs and fittings
- Hex body for use with wrench
- Made of hardened steel and plated to prevent rust
- Overall length 3 3/4"
- 4-Pc. set includes sizes 3/8, 1/2, 3/4, and 1"

**No. 3ZG99.** Internal Wrench Set (139/4). Shpg. wt. 2.0 lbs.
List $23.76. Each..... **$21.38**

## COMPOUND TUBING BENDER

- Bends four sizes—3/16, 1/4, 5/16, 3/8" copper, brass, thin wall tubing, steel, aluminum, soft wire and rod
- 180° bends in a single action
- Calibrated angle markings from 10° to 180° for making accurate left, right, and offset bends

**No. 3ZH01.** Tubing Bender (153). Shpg. wt. 1.9 lbs. List $26.42.Each..... **$23.78**

## 6-Pc. SPRING TUBING BENDER SET

- Eliminates crimping and collapsing of copper and other thin-walled tubing when making bends
- Oil-hardened, tempered spring steel
- Six sizes: 1/4, 5/16, 3/8, 7/16, 1/2, and 5/8"

**No. 3ZH50.** Bender Set (S106). Shpg. wt. 1.7 lbs. List $10.66. Each..... **$9.59**

*The only source you need for tools as tough as you are.*

# SHEET METAL TOOLS AND AVIATION SNIPS SET

**A Hand Crimper** for joining corrugated, 22-gauge round or square sheet metal pipes of the same size. Graduated in 1/4" increments for depth of crimp. Compound leverage design. Matte black finish and red plastisol grips.

**B Hand Notcher** has high leverage compound action handles and produces true 90° V-shaped cut in 18-gauge sheet metal. Matte black finish and red plastisol grips.

**C Hand Seamer** has high leverage compound action handles for metal bending and flattening. Produces a permanent tight fitting seam in 18-gauge sheet metal. 1/4" incremental depth marks on jaw. Matte black finish and red plastisol grips.

**D Offset Hand Seamer** has high leverage offset, compound action handles for easy metal bending and flattening in confining spaces. Produces a permanent tight fitting seam in 18-gauge sheet metal. 1/4" incremental depth marks on jaw. Matte black finish and red plastisol grips.

**E 6" Hand Seamer** grips more work to minimize buckling and bowing of metals and to produce uniform, accurate bends in sheet steel and nonferrous metals.

**F Snap Lock Punch** joins sheet metal, duct and pipe sections. Punch raises a louvered-shaped projection on metal edge for locking into rolled edge of sheet or piece to be joined. Metal pieces securely snap together. Punch impression spaced 3/8" from edge of metal. Heavy forged cutting jaw. Nickel plate and black oxide finish. Green grips.

**G Duct Stretcher** pulls duct together from either direction without adjusting the wheels. Wheels are adjustable to span greater distances and can be put on either side of tool. Anodized aluminum body features large vinyl cushion grip.

**H Flexible Duct Cutter** Cuts through all layers of flexible round duct. Includes built-in wire cutter.

**J Tensioning Tool** tightens the nylon ties around the flexible duct and features a manual cutoff blade. Comfortable gray vinyl cushion grip handles.

**K Folding Tool** folds 24 to 30-gauge mild steel. Folding seams for both 3/8, 1/2, 1" folds. Gray metallic baked enamel finish.

**L Dividers** scribe thin, accurate lines and circles up to 48". Expertly heat treated scratch awl points are easily resharpenable or replaced. Nickel-plated steel body.

**M Sheet Metal Setting Hammer** has beveled face and pein. One-piece forged steel, heat treated I-beam construction (no welds or joints) minimizes head chipping or mushrooming. Contoured leather handle. Unpainted hammer heads have a high polished finish with protecting lacquer.

## 3-PC. AVIATION SNIPS SET

- For making straight, right or left cuts
- Hardened and tempered steel jaws for strength and durability cuts up to 18 gauge sheet metal
- Color-coded vinyl handle grips for user identification and comfort
- Polished steel finish jaws can be sharpened when dull
- Compound action design for powerful cutting action
- Locking latch keeps jaws together to prevent cutting edge damage when stored

WESTWARD™

New

**New No. 4PM06.** Aviation Snips Set (20550). Shpg. wt. 2.6 lbs. List $32.40. Each.....$22.95▲

(▲) Net prices, not subject to discounts.

# METAL-CUTTING SNIPS

- **Nonslip serrated jaws made of extra tough and wear-resistant special molybdenum steel to withstand the extra service demanded by the compound lever action and the strain of cutting heavy stock or tight curves**
- **Special high strength steel handles have contoured vinyl grips for superior control, safety and comfort**
- **Safety latch allows for one-hand operation to release or engage latch**

## METALMASTER® COMPOUND ACTION SNIPS

**Aviation-Type Snips** for cutting straight, left or right curves in sheet metal.

**Offset Pattern Snips** for straight or circle cuts. Offset blades keep material away from hands.

**Aviation Special Series Snips** are specially hardened for unusual industrial requirements, such as cutting inconel, stainless steel, and titanium.

**Bulldog Pattern Snips** for notching, nibbling and trimming extra heavy stock.

**Pipe and Duct Snips** for straight cuts, curves, and combination cuts. Feature ball-bearing jaw action that automatically adjusts blade clearance for a squarer, cleaner cut. Used primarily in the heating and air conditioning industry for cutting sheet metal ducts and other nonmetallic sheet materials such as fiberglass panels, laminates, and synthetic shingles.

## METAL-WIZZ® MULTIPURPOSE SNIPS

- **For cutting screening and hardware cloth, synthetic shingles, carpeting, tile, gutters and downspouts**

## SOLID STEEL TINNER'S SNIPS

- **Hot drop-forged steel with polished jaws for smooth action and cleaner cutting**

**Straight Pattern Snips** are used primarily for straight cuts. Can be used to cut wide curves when trimming light stock. Widely used in the plumbing, heating, air conditioning, and roofing trades as well as in the home.

**Duckbill Combination Pattern Snips** for cutting moderately tight curves to the left or right in light stock as well as to cut straight. Popular with professional tradesmen.

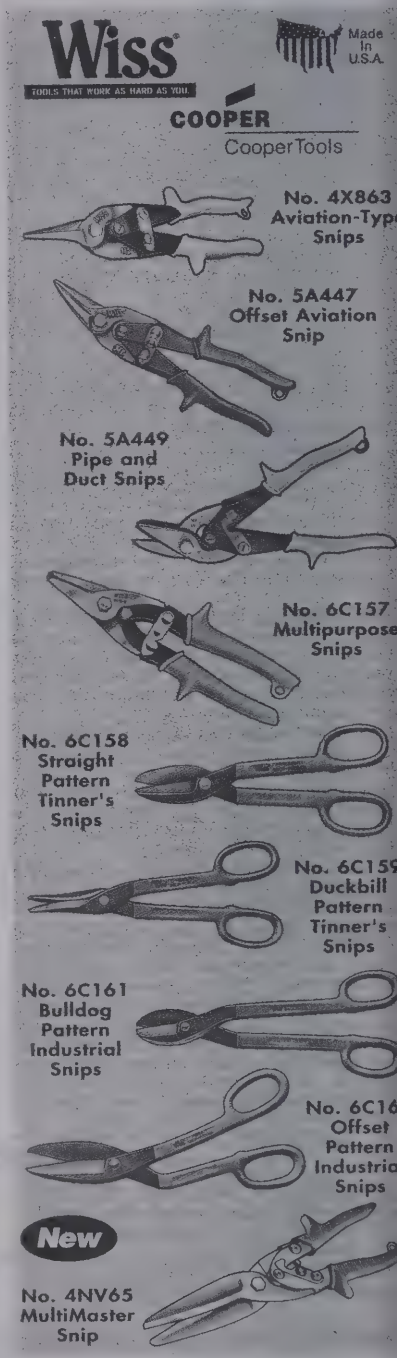
## INLAID® INDUSTRIAL SNIPS

- **Special manufacturing process heat treats blade edges and increases blade life beyond regular style snips**

**Straight Pattern Snips** are used primarily for straight cuts. Can be used to cut wide curves when trimming light stock.

**Bulldog Pattern Snips** for trimming extra heavy stock.

**Offset Pattern Snips** for straight or circle cuts.



## MULTIMASTER™ SNIP

- **Non-slip serrated jaws for superior grip**

Combines long cut of tinner's snips with strength of compound action. Makes long, fast cuts in many types of materials including: paper, plastic, sheet metal, aluminum, vinyl siding, screening. High visibility orange with a non-slip texture for better gripping action.

# TRIMMERS, SHEARS, AND SCISSORS

## TRIMMERS, SHEARS AND SCISSORS

Hot-forged, double plated steel
Full chrome over nickel protection

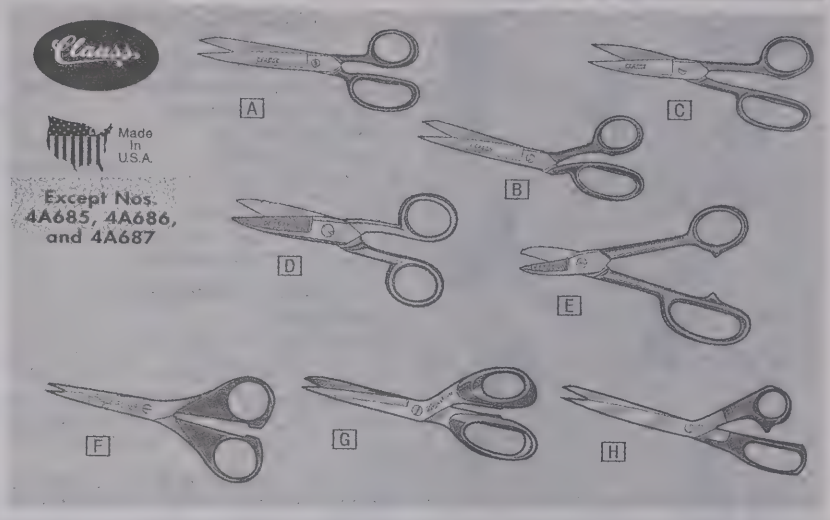
**A B BENT & STRAIGHT TRIMMERS**

Cutting applications including cloth, rubber, and paper

**C HIGH LEVERAGE SHEARS**

Cutting leather, light wire screen, light metal, fiberglass cloth, heavy canvas
Adjustable knife edge

**D ELECTRICIAN'S SCISSORS**



For wire cutting and splicing
Cuts 12-gauge and up wire, insulation, and harness ties
19- & 23-Gauge stripping notches on one blade
Meets Bell System and G.S.A. specs.

**E LIGHT METAL SHEARS**

For close, accurate trimming of light metals up to 22-gauge
High leverage and easy control
Adjustable

**F G H ZEPHYR LIGHTWEIGHT SHEARS**

Stainless steel resists rust and corrosion and retains sharp edge
Comfortable plastic handles

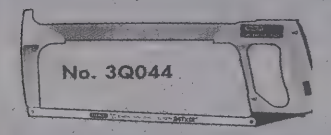
# HACKSAWS AND FRAMES



## PROFESSIONAL™ HACKSAWS

STANLEY® Made in U.S.A.

**STANDARD FEATURES**

- **Nickel-plated frame made of heavy gauge steel; will not tarnish or rust**
- **Blade can be faced in four directions**
- **Includes guard to protect knuckles**

**Professional™ Tubular Frame Hacksaw No. 5C925** features easy adjustment of frame for 10 and 12" blades and rugged cast handle. Includes 10" standard carbon steel blade.

**Professional Pistol Grip Hacksaw No. 5C927** has comfortable molded cushion grip rubber handle, and is adjustable for 8, 10, and 12" blade lengths.

**Rubber Grip Hacksaw No. 5C928** has rigid steel frame with molded cushion grip rubber handle with D-shaped guard to protect hand and knuckles. Frame is adjustable for 8, 10, and 12" blades. Includes 10" standard carbon steel blade.

**Contractor Grade High-Tension Hacksaw No. 3Q044** features rugged design for heavy-duty use. Fully adjustable tension—holds 12" blade at up to 32,000 PSI, which provides longer blade life and fast, accurate cuts. Quick-release blade changing mechanism in handle maintains tension setting. Features blade storage in frame and tension guide on handle lever. Blade extended out nose of frame can be locked into place for tight corner work.

**Contractor Grade Metal Mini-Hack™ Utility Hacksaw No. 1C069** with cast aluminum handles is lightweight, but built for durability. Comfortable handle design. Includes a high-performance, 10" bi-metal blade.

**Hacksaw Blades** are made of high-speed steel that cut most metals, including unhardened tool steel and stainless steel. 1 blade per card.

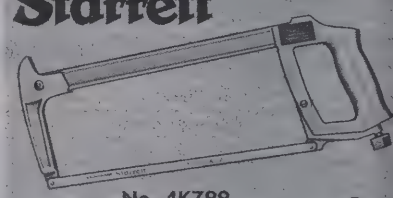
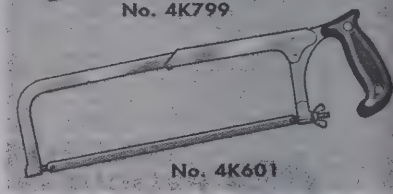
## HACKSAW FRAMES

**12" Heavy-duty High Tension Hacksaw Frame** provides faster, easier cutting and longer blade life. Easy-to-use tension knob will tighten blade to 28,000 PSI. High tension prevents twisting and binding of blade when bearing down during cutting. Rugged, lightweight frame is cast aluminum with an extra-thick tubular steel bar for added strength. Blades can be stored in the tube. Four permanently angled mounting pins allow both straight cutting and 45° angle for flush cutting. Set screw in tube allows a hacksaw or reciprocating blade to be inserted for "jab sawing." Includes Bluestripe® bi-metal blade. **NOTE:** Use only with bi-metal blades. Starrett brand (K153).

**No. 4K799.** Shpg. wt. 2.0 lbs. List $20.00. Each.....$20.00▲



**Heavy-duty Steel Hacksaw Frames** with open or closed grip accept 8, 10, or 12" blades which can be mounted in any one of four cutting directions, tensioned by a single wing nut. Includes one high-speed steel blade. Starrett brand.



**No. 4K601.** Shpg. wt. 1.7 lbs. List $15.60. Each.....$15.60▲

**No. 4K604.** Shpg. wt. 1.9 lbs. List $17.31. Each.....$17.31▲

# HANDSAWS

## PROFESSIONAL™ SHORT CUT® HANDSAWS

Aggressive tooth, unique fast cutting handsaws feature a revolutionary tooth design that delivers efficient, clean cutting performance
Short convenient blade length allows easier handling
Extra wide select hardwood handle provides greater comfort and control
Resharpenable teeth

## PROFESSIONAL™ HANDSAW

Precision set, sharpened teeth for fast, smooth, accurate cutting
Chrome-nickel alloy steel blade stays sharp
Taper ground blade for reduced binding and cleaner cuts
Extra wide, hardwood handle designed for comfort and control

## THRIFTY™ HANDSAW

Hardened and tempered—polished steel blade for durability
Hardwood handle for comfort and control

## SHORT CUT® TOOL BOX SAWS

Features a revolutionary new tooth configuration that delivers clean cuts much faster than conventional hand saws; each tooth is precision-set and bench ground with three distinct cutting angles so that the blade maintains constant contact on forward and reverse strokes
Compact blade for easier storage and handling
Comfortable hardwood handle with special square/mitre feature built in

## CONTRACTOR GRADE™ SHORT CUT® MITRE SAW

Aggressive tooth design cuts wood 50% faster than conventional saws
Induction hardened teeth stay sharp longer than non-hardened teeth
A unique mitre saw with the Short Cut® and hardened tooth advantage

## CONTRACTOR GRADE™ JAB SAW

Close quarter sawing
Accepts standard reciprocating blade or hacksaw blade

## CONTRACTOR GRADE™ CUSHION GRIP WALLBOARD SAW

Fully hardened, tempered blade is designed to be strong and durable
Teeth designed to cut fast and won't clog
Sharp tip for plunge cuts
Blade is epoxy-bonded to handle for a secured fit and long life
Ergonomic, curved handle is cushioned for comfort and extended use

## CONTRACTOR GRADE™ COMPASS SAW

High grade tempered steel blade
Induction hardened teeth stay sharp longer than non-hardened teeth
Teeth precision set and sharpened for fast and smooth cutting

## NEST OF SAWS

Solid rubber handle for comfort
Consists of one 6" metal cutting blade, one 12" key hole cutting blade, and one 10" Short Cut® general purpose blade

## COPING SAWS

6¾" Frame depth
Walnut stained hardwood handle
High carbon steel blade—hardened and tempered

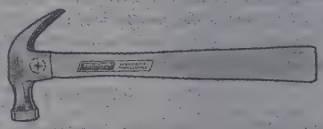
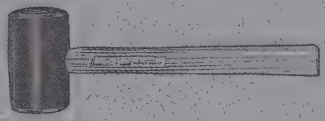
# HAMMERS, MALLETS, AND HATCHET

VAUGHAN Made in U.S.A.



**A ELECTRICIAN'S HAMMER**

Extra long poll for striking inside electrical junction boxes.

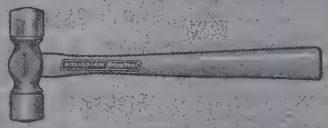


**B RIP HAMMERS**

Hammers are designed to provide superior overall balance.

**C CLAW HAMMERS**

Feature full polished head with octagon neck and face.

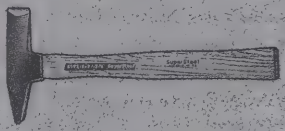


**D RAWHIDE MALLETS**

Compressed under hydraulic pressure, then seasoned for durability. Not made in USA.

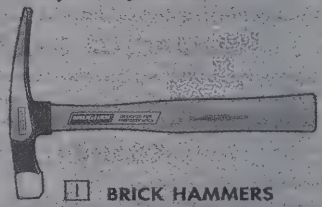
**E BALL PEIN HAMMERS**

Highly polished cheeks and pein with generous bevel on striking face.



**F SOFT FACE HAMMERS**

Supplied with two faces—soft (red) and hard (yellow). Replacement tips sold separately.



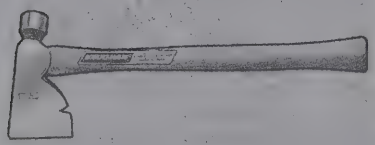
**G TINNER'S RIVETING HAMMERS**

Octagon head, flat striking face, rounded cross pein.

**H SCALING HAMMER**

Straight blade has double bevel; cross blade has single back bevel.

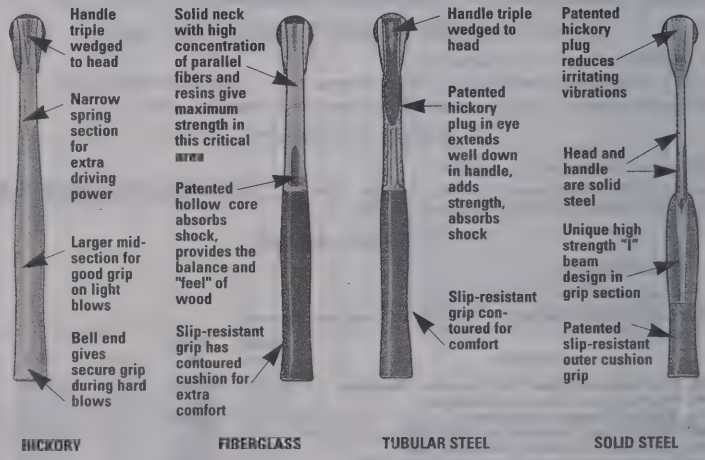
**I BRICK HAMMERS**



Striking head, sides, and blade are polished. Thin, back-beveled blade is heat treated.

**J WELDER'S CHIPPING HAMMER**

One end features sharp 1¼" blade with back bevel; other end is tapered to a sharp point.



## HATCHETS

**K RIG BUILDER'S HATCHET**

Suitable for rough framing, concrete forms, and fence building. 3½" blade.

### FOUR HANDLE STYLES AVAILABLE

NOTE: Not all hammers/hatchets are available with all of the handle types shown above. Please refer to the ordering chart for the handle styles offered for a specific tool.

# HAMMERS, MALLETS, AND HATCHET

# NAIL AND FRAMING HAMMERS, NAIL AND CUSHION-GRIP NAIL SETS

## NAIL AND FRAMING HAMMERS

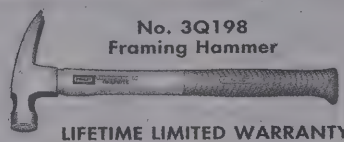
### JACKETED GRAPHITE HAMMERS

#### HANDLE FEATURES

- Ribbed pattern grip design for comfort and control
- Flared handle end for greater control and safety
- Evenly distributed handle ribs allow ventilation and reduce slipping

#### SLEEVE FEATURES

- Molded jacketed polycarbonate sleeve maximizes overstrike protection and increases hammer life
- Shock absorbing sleeve reduces vibration and fatigue
- Chemical resistant material will not deteriorate when exposed



#### HEAD FEATURES

- Rim Tempered® design minimizes chipping
- High carbon steel head exceeds ANSI safety specifications
- Large striking face allows for more precise contact to striking surface

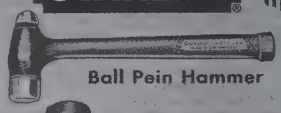
## COMPO-CAST® HAMMERS

### STANDARD FEATURES

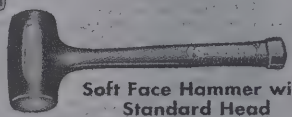
- Universal Uni-Cast™ construction provides shape-retaining memory and does not stick or become contaminated from work being struck
- Dead blow function uses steel shot to reduce bounce back and handle vibration
- Provide striking power under control for greater productivity
- Meet OSHA safety requirements

### BALL PEIN HAMMER



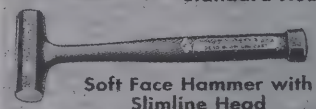
- Dead blow steel face ball pein hammer heads are tempered alloy steel with crowned faces for more accuracy
- Steel reinforced handles provide added strength and safety, resist breaking on overstrike

### SOFT FACE HAMMERS



- Nonsparking, nonmarring soft face hammers have no exposed metal
- Slimline head hammers are for assembly and repair applications in confined areas

STANLEY



Made in U.S.A.

## NAIL SET

**Nail Set No. 5C574** includes 1/32, 1/16, and 3/32" nails. Square head prevents rolling. Black phosphate finish. Made in U.S.A. Stanley brand (58-230).

**No. 5C574.** Shpg. wt. 0.3 lbs. List $6.11.
Each ..... $4.39▲
(▲) Net prices, not subject to discounts.

## CUSHION GRIP NAIL SET

- Shock absorbing ribbed grip for precision hold and fully hardened precision milled steel for long life
- 25% longer length for ease in hard-to-reach areas
- Color coded for easy identification

**No. 3ML05.** Stanley brand (58-930).. Shpg. wt. 0.3 lbs. List $9.53. Each ..... $5.99

The only source you need for tools as tough as you are.

# SOFT FACE HAMMERS AND TIPS AND HANDLELESS HAMMER

## SOFT FACE HAMMERS

**iberglass reinforced composite heads completely eliminate metallic contamination and metal-to-etal scratching or marring. Hammers use screw-in, replaceable, interchangeable tips (sold sep-rately below).**

**single hammer can be used for the most delicate** surface protective job, and then pack a teel face for the most demanding application. Ergonomic grip reduces user fatigue.

| Tip Dia. (In.) | Head Wt. | Handle Length (In.) | Nupla Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **1** | 9 oz. | 11 | SPS105 | **6D050** | $16.38 | **$13.34** | 0.7 |
| **1½** | 1 | 12 | SPS150 | **3MD69** | 16.16 | **14.54** | 1.2 |
| **1½** | 1¼ | 12 | SPS155 | **4A111** | 21.46 | **17.45** | 1.4 |
| **2** | 1½ | 13 | SPS200 | **6D049** | 22.96 | **18.57** | 1.3 |

FIBERGLASS HANDLES

**LIFETIME LIMITED WARRANTY**
All Nupla Tools are warranted to the original user for thelife of the product. Text of warranty available; see page opposite inside back cover.

## NUPLAFLEX® TIP SELECTION GUIDE

Nuplaflex tips have the toughness and resilience to outperform nd outlast other soft-face tips, as well as traditional hammers nade from materials such as lead, copper, brass, wood, rubber, awhide, plastic, micarta, etc. They provide:

**nproved Safety**—Will not mushroom, chip, or leave toxic residues.

**nproved Efficiency**—Reduces fatigue from rebound, sting, and ibration.

**Reduced Tool Inventories**—Replace tips rather than whole hammer.

**Reduced Production Damage and Rework**—Eliminates marring of almost any surface. Will not pick up or transfer chips. Have no grain or texture, are resistant to gas and most industrial chemicals, and are resistant to abrasion.

### NUPLA SOFT FACE HAMMER TIP SELECTION GUIDE

| Designation | Color Code | Description | Replaces Hammer Type | Designation | Color Code | Description | Replaces Hammer Type |
|---|---|---|---|---|---|---|---|
| S | Brown | Soft | Rubber, Wood, Soft Lead, Brass | SN | Cream | Medium Hard | Rawhide, Hardwood, Lead |
| M | Red | Medium | Rawhide, Wood, Plastic, Lead | H | Black | Hard | Rawhide, Plastic, Micarta, Fiber |

*) Priced per single tip; available only in packages of two.

## HANDLELESS "NO BOUNCE" HAMMER

- **Lightweight gray 10 oz. dual purpose hammer**
- **Has the driving force of steel on one end and a surface protective non-marring striking force on the other**
- **Use for precision tool and die, furniture repair, pipe fitting, HVAC repair, and woodworking applications**
- **Fits in glove compartment, tool box, job site or holstered on your tool belt**
- **Nupla brand (RTG10STS)**

**No. 3MD71.** Shpg. wt. 0.7 lbs. List $14.95. Each..... **$13.46**

# HAMMERS AND MALLETS

## STANDARD FEATURES

- Fiberglass handles are ten times stronger than wooden handles
- Long-lasting—will not rot, chip, or collapse
- Weatherproof—resistant to ordinary chemicals and salt water
- Handles are excellent insulators and will not conduct electricity
- Super Grip® handles on dead blow (except No. 6D047), brass, cross pein sledge, double face sledge hammers, and pick mattock increase handle-to-hand surface and lessen fatigue and stress

## DEAD BLOW HAMMERS

- Nonmarring, Powerdrive® hammer contains steel shot loaded heads
- Produce 30% more striking power than conventional hammers or mallets
- Fiberglass handle and Cush-N-Grip® grips combine with the dead blow effect to reduce effort, strain, vibration, and noise
- Nuplaflex® head covering material will not mushroom or delaminate, won't mar struck surface
- No. 3MD67 offers combination steel face and non-marring sides

## BRASS HAMMERS

- Nonmarring, nonsparking brass head protects surface

## HAND DRILLING HAMMERS

- Drop forged steel heads with hardened face
- Works with chisels, punches, star drills
- For delivering heavy blows to concrete and heavy work where space to swing is limited

## CROSS PEIN HAMMERS

- For heavy-duty shaping and bending of unhardened or soft metals
- Cross pein allows more precise blow to be struck close to shafts, raised lips, and in other tight applications

## DOUBLE FACE SLEDGE HAMMERS

- Blacksmith's double faced tempered sledge hammers with hardened head
- For striking metal, concrete, stone, or driving stakes; also for concrete forms assembly and tear down
- Replacement fiberglass E-Series hammer handle No. 3MD35 will fit all sledge hammer heads, 6 through 16 lbs. and features a mechanical lock—no epoxy required

## RUBBER MALLETS

- Nonmarring, nonsparking
- Heads are molded, cured, and resistant to oil and grease
- Made of virgin natural rubber

# PUNCHES AND PUNCH & CHISEL HOLDER

## PUNCH SETS

### DRIFT PUNCHES

- Black Oxide finish and a polished identification panel marked with tool number and size
- Modified parabolic struck end for greater resistance to mushrooming and chipping
- For installing and removing pins and shafts
- Used to align holes in two or more pieces of metal through which a bolt or screw is to be inserted

### LONG ALIGNING PUNCH

- Used for lining up holes in flanges, assemblies and other mating parts, and for removing long pins and shafts

### STARTING PUNCHES

- Similar to drift punches, but have wider points and heavier, shorter body
- Designed for installing pins and rivets and for starting their removal

### CENTER PUNCHES

- Used in metal working layout for marking intersecting center lines, hole locations and pilot drill starting points

### PRICK PUNCHES

- For scribing and for punching starting holes for sheet meta screws
- Used for aligning holes in two or more metal sheets

### DRIVE PIN PUNCHES

- Used to finish the job of driving out pins and rivets
- Black Oxide finish and a polished identification panel marked with tool number and size
- Modified parabolic struck end for greater resistance to mushrooming and chipping
- One-piece design with special tool steel allows punch to maintain a high hardness for longer life, while maintaining ductility of punch end
- Two-piece design allows tip to have a higher hardness for greater durability and allows the tip to be produced straighter to prevent binding

### ROLL PIN PUNCHES

- Specially designed ball in center of tip fits inside the roll pin to prevent damage to the pin

# PUNCH & CHISEL SETS, CHISEL/PLANE SHARPENER, AND NUT SPLITTER

## PUNCH AND CHISEL SETS

Enderes chisels and punches are forged from domestic high carbon tool steel. Forged parts have consistent uniform grain structure for maximum strength over machined parts. All tools are individually heat-treated to meet precise standards. Enderes brand.

### COLD CHISEL SET

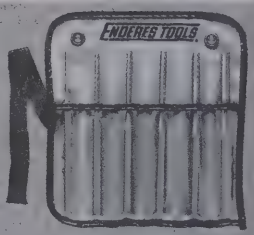
- For cutting or removing metal softer than the cutting edge itself
- Can be easily re-sharpened with a good grade file
- Packaged in a reusable vinyl pouch

### PIN PUNCH SETS

- For driving a pin out, after it has been started, with a solid punch
- Packaged in a reusable vinyl pouch

### COMBINATION PUNCH AND CHISEL SETS

- Packaged in a reusable vinyl pouch



### 7-PC. AND 14-PC. PUNCH & CHISEL SETS

- Forged, hardened, and tempered chrome vanadium steel for strength and durability
- Chamfer on struck-end helps reduce mushrooming and chipping
- Heavy-duty canvas tool roll for protection and storage
- Westward brand

## CHISEL/PLANE BLADE SHARPENER

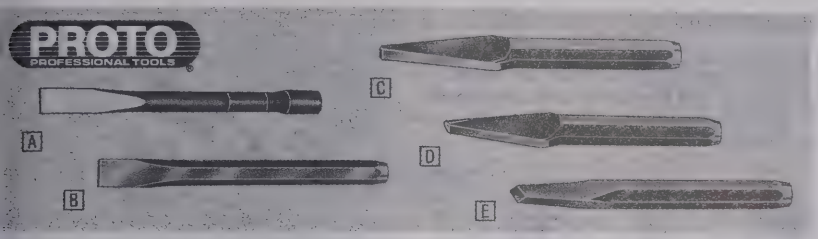
GENERAL®

- Holder for resharpening chisel and plane blades
- Graduated settings maintain correct cutting angle
- Spring clamp locks in blades up to 2⅝" wide
- Made of high impact fiberglass reinforced Lexan
- Folds for storage

**No. 3ZH43.** Blade Sharpener (809). Shpg. wt. 0.6 lbs. List .....$21.96.
Each .....**$19.76**

## NUT SPLITTER

GENERAL®



- For removal of frozen, hard-to-remove rusted nuts
- Angled body for getting into hard-to-reach work areas
- Replaceable hardened steel chisel point can be reversed to achieve best cutting angle
- Plated, black oxide finish to prevent rust
- Length—4¾"
- Capacity: nuts up to 3/4" (19mm) across flats

**No. 3ZH05.** Nut Splitter (175). Shpg. wt. 0.1 lbs. List $25.66.
Each .....$23.09

*The only source you need for tools as tough as you are.*

## SUPER DUTY COLD CHISELS

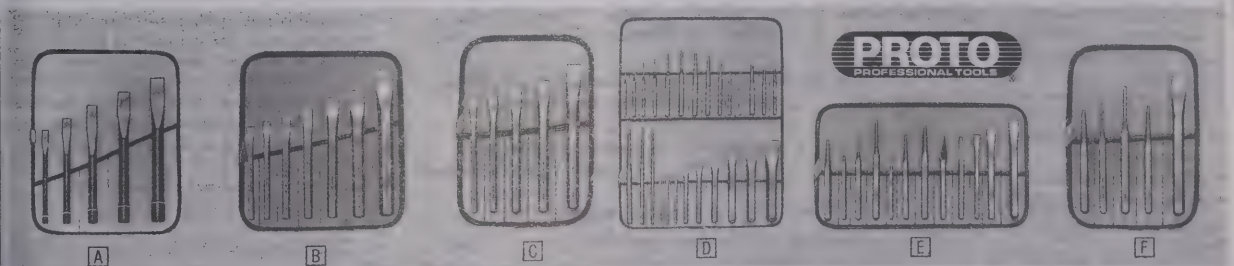
- For use in extremely harsh work environments
- Black Oxide finish and a polished identification panel marked with tool number and size
- Made from tool steel and specially heat treated for greater strength and ductility
- 20% larger striking surface than standard chisels directs the power to the cutting edge
- Longer shank features a knurl for better grip
- Modified parabolic struck end for greater resistance to mushrooming and chipping; larger striking surface

## COLD CHISELS

- Designed to cut any cold metal softer than the chisel itself such as wrought iron, cast iron, steel, brass, bronze, copper, aluminum, bolts, nuts, rivets
- Modified parabolic struck end for greater resistance to mushrooming and chipping

## CAPE CHISELS

- Designed for cutting keyways and slots in metal



## ROUND NOSE CHISELS

- Designed for cutting grooves in metal where an oval shape is desired
- One cutting edge ground flat with the other cutting edge round

## DIAMOND POINT CHISELS

- Used to cut V-grooves and clean out inside corners

# GROMMET KITS, SNAP FASTENER KITS, AND PUNCHES

## SOLID BRASS GROMMET KITS

- Kits contain solid brass grommets, hole cutter, hardwood backer block, mandrel and anvil
- Setting tool has knurled body for greater comfort and control
- Sizes individually marked on setting tool and coded with lines on anvil
- Setting tool and cutter are heat treated for long life
- Black oxide plating prevents rust

| Size (In.) | No. of Grommets | General Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|

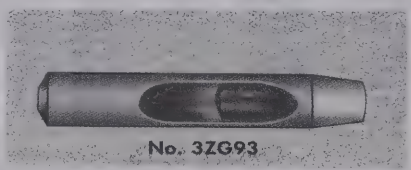
## A SNAP FASTENER KIT

- Snap fastener kit contains 2-piece setting tool with knurled body and 6 fastener sets
- Solid brass fasteners with nickel plating will not rust

## B SCREW SNAP FASTENER KIT

- Screw snap fastener kit contains 2-piece setting tool with knurled body and 6 fastener sets
- Solid brass fasteners with nickel plating will not rust

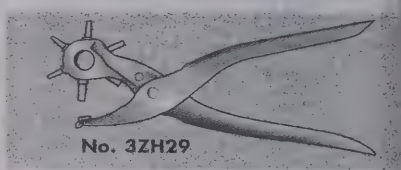
| Key | No. of Fasteners | Type | General Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| A | 6 | Snap | 1265 | 3ZG86 | $4.68 | $4.21 | 0.1 |
| B | 6 | Screw/Snap | 1267 | 3ZG88 | 5.76 | 5.18 | 0.2 |
| Refill for No. 3ZG86 | 6 | Snap | 1266 | 3ZG87 | 2.16 | 2.05 | 0.1 |
| Refill for No. 3ZG88 | 6 | Screw/Snap | 1268 | 3ZG89 | 3.18 | 3.02 | 0.1 |



## SCREW CENTERING PUNCH

- For quickly starting screw holes when attaching countersunk hardware such as hinges, hasps, hangers and drawer pulls
- Countersunk end ensures hole is centered in hardware
- Hardened steel punch pin is spring retracted
- Nickel plated body is 2½ x 3/8"
- General brand (806).

**No. 3ZH31.** Shpg. wt. 0.1 lbs. List.....$3.38.
Each.....**$3.04**

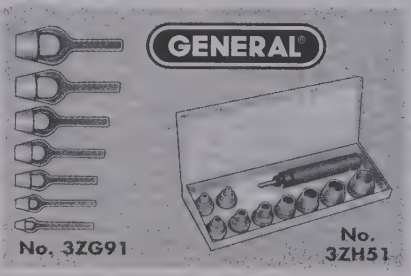


## HOLLOW STEEL PUNCH SET

- For punching holes in leather, rubber, canvas, cardboard, plastic, and other soft materials
- Made of forged steel with side clearance hole for easy removal of punched material
- Set includes 6 sizes: 3/16, 1/4, 5/16, 3/8, 7/16, and 1/2" in a plastic roll case
- General brand (1280ST).

**No. 3ZG93.** Shpg. wt. 1.5 lbs. List.....$34.72.
Each.....**$31.25**

## REVOLVING PUNCH PLIER



- A convenient spring tension, self opening tool for punching round holes in leather, plastic, rubber, canvas, cardboard, and similar materials
- Made of plated steel with six tapered and hollow, hardened steel punches
- Hole sizes; 5/64, 3/32, 7/64, 1/8, 5/32 and 3/16"
- Replacement punches available
- General brand (72)

**No. 3ZH29.** Shpg. wt. 0.5 lbs. List.....$10.72.
Each.....**$9.65**

## ARCH PUNCH SET

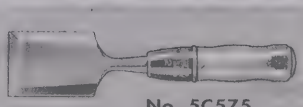
- For punching holes in leather, rubber, gasket material, and soft metals
- Inside taper for clearance
- Heat-treated Sheffield forged steel
- Set includes 7 sizes: 1/4, 3/8, 1/2, 5/8, 3/4, 7/8, and 1" in a plastic roll case
- General brand (1271ST)

**No. 3ZG91.** Shpg. wt. 2.8 lbs. List.....$79.18.
Each.....**$71.30**

## 10-Pc. GASKET PUNCH SET

- For punching holes in leather, rubber, canvas, plastic, sheet metal
- Set includes 9 sizes: 1/4, 5/16, 3/8, 7/16, 1/2, 5/8, 3/4, 7/8, and 1", plus a spring loaded self-centering steel driving mandrel in a molded plastic case
- General brand (S1274)

**No. 3ZH51.** Shpg. wt. 2.1 lbs. List.....$58.06.
Each.....**$52.30**



The only source you need for tools as tough as you are.

# WOOD CHISELS, PLANES, AWLS AND TAPPING TOOLS

## PROFESSIONAL™ WOOD CHISELS

- Tough handle designed for balance and grip
- Crown shaped steel cap centers hammer blows
- Blades have polished finish
- Blade and tang forged from one piece of high quality, cutlery grade steel
- Chisel sets include durable storage case

STANLEY

No. 5C575

## REPLACEMENT BLADES FOR SURFORM TOOLS

**Replacement 10" Flat Blade for Surform File.** For use on woods, vinyl, plaster, linoleum, autobody filler, and soft metals with edge cut feature. Stanley brand (21-293).

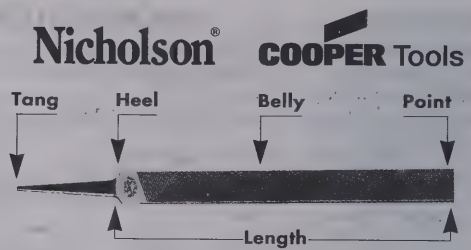
**No. 5C942.** Shpg. wt. 0.1 lbs. List $5.69. Each.....$4.95

For use on hardwoods, end grain, plywood, chipboard and plaster. Fits No. 5C940: Stanley brand.

***New* No. 6R009.** (21-299). Shpg. wt. 0.1 lbs. List $5.78. Each.....$4.45

**Replacement 5½" Flat Blade for Surform Pocket Plane.** For use on hardwoods, end grain, plywood, chipboard, and plaster. Stanley brand (21-398).

**No. 5C941.** (21-398). Shpg. wt. 0.1 lbs. List $4.87. Each.....$3.95



For use on woods, vinyl, plaster, linoleum, soft metals. Fits No. 6R004. Stanley brand.

***New* No. 6R015.** (21-515). Shpg. wt. 0.1 lbs. List $2.71. Each.....$2.09

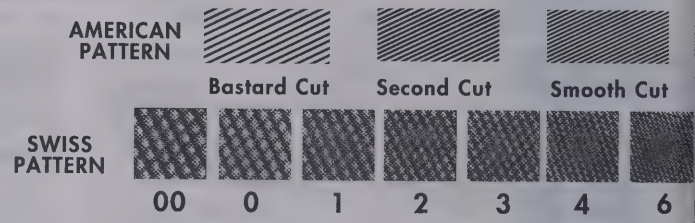
# FILE SELECTION GUIDE AND THREAD RESTORING FILES

The following information is to help you select the right file for your particular application. Files and file accessories can be found on pages 1369 thru 1370.

## FILE TERMINOLOGY

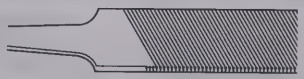
### LENGTH

- Measured exclusive of tang, from point to heel
- Desired stroke length, type of material, and size will determine length required



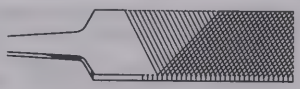
### SHAPE

- Area to be filed will determine specific cross-section (round, square, flat, etc.) to be used



### COARSENESS

- Work to be accomplished, roughing or finishing, will determine type of teeth and coarseness for each application
- Most American pattern files are available with 3 grades of cut—Bastard Cut, Second Cut, Smooth Cut
- Swiss pattern files are available in 7 cuts: No. 00, 0, 1, 2, 3, 4, and 6
- Degree of coarseness is greater in longer files, but the difference between bastard, second, and smooth are proportionate

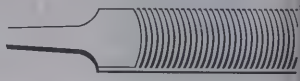


## KINDS OF TEITH

### SINGLE-CUT

- Single set of parallel, diagonal rows of teeth
- Single-cut files are often used with light pressure to produce a smooth surface finish or to put a keen edge on knives, shears, or saws

### DOUBLE-CUT



- 2 sets of diagonal rows of teeth
- Second set of teeth cut in opposite direction and on top of the first set
- First set of teeth is known as OVERCUT, the second set is known as UPCUT
- Upcut is finer than overcut
- Double-cut file is used with heavier pressure than the single-cut and removes material faster from the workpiece

### RASP-CUT

- Series of individual teeth which are formed by a single-pointed tool
- Produces a rough cut that is used primarily on wood, hooves, aluminum, and lead

### CURVED-CUT

- Teeth are arranged in curved contours across the file face
- Curved-cut is normally used in automotive body shops for smoothing body panels

Thread Restoring Files

4-Pc. Assortment No. 3MD33

## THREAD RESTORING FILES

- Restores damaged or rusted external threads on bolts, threaded shafts, pipe and pipe fittings
- Can also be used as a thread gauge
- Thread sizes are clearly marked on each file
- Each file comes in a reusable plastic tube for easy storage
- All files are 8½" in length
- No. 3MD33 Assortment comes in a convenient roll-up pouch

- 8"/200mm half round bastard file
- 8"/200mm four-in-hand file
- 6"/150mm slim taper file

### B 8-PC. MACHINIST SET

- 10"/250mm mill bastard file
- 10"/250mm half round bastard file
- 10"/250mm flat bastard file
- 10"/250mm flat smooth file
- 10"/250mm square bastard file
- 10"/250mm round bastard file
- 7"/175mm slim taper file
- 10"/250mm file cleaner (card)

### C 5-PC. GENERAL PURPOSE SET

- 10"/250mm half round bastard file
- 10"/250mm mill bastard file
- 8"/200mm mill bastard file
- 8"/200mm mill smooth file
- 6"/150mm slim taper file

### D 3-PC. WELDER'S SET

- 14"/350mm half round pipeliner file
- 12"/300mm half round bastard file
- 10"/250mm mill smooth file

### E 6-PC. HOBBY SET

- 5½"/140mm equaling file
- 5½"/140mm half round file
- 5½"/140mm flat file
- 5½"/140mm round file
- 5½"/140mm square file
- 5½"/140mm three square file

### F 12-PC. NEEDLE SET

- Barrette file
- Equaling file
- Flat file
- Half round file
- Joint file
- Knife file
- Marking file
- Crossing file
- Round file
- Slitting file
- Square file
- Three square file
- In 4"/100mm sets, oval file is furnished instead of crossing file

### G 6-PC. HANDLED AMERICAN PATTERN BASTARD CUT SET

- 4"/100mm warding file
- 4"/100mm half round file
- 4"/100mm round file
- 4"/100mm hand file
- 4"/100mm square file
- 4"/100mm slim taper file

### H 6-PC. HANDLED BENT RIFFLER SET

- 7¾"/197mm three square bastard
- 7¾"/197mm hand bastard
- 7¾"/197mm flat float safe sides
- 7¾"/197mm half round bastard
- 7¾"/197mm hthree square rasp
- 7¾"/197mm round rasp

**All file sets come packaged in a rugged pouch**

COMPLETE INDEX AT BACK OF CATALOG WILL HELP YOU QUICKLY LOCATE YOUR NEEDS

# STEEL FILES

**A CROCHET FILES**

Used by tool and die makers, jewelers, model makers and home craftsmen. Double-cut on flat sides and both edges.

**B CROSSING FILES**

Used by tool and die makers, jewelers, model makers and home craftsmen. Double circular section, 1 side same radius as half file, opposite having flatter curve or larger radius.

**C EQUALING FILES**

Used by tool and die makers, jewelers, model makers and home craftsmen. Double-cut sides, single-cut edges.

**D HAND FILES**

Used by tool and die makers, jewelers, model makers and home craftsmen. Double-cut sides. Corrugating file made for corrugating edges of barber's shears and other edged tools.

**E PIPPIN FILES**

Used by manufacturers of taps, drills, reamers, ball bearings, and gears. Rounded back tapers to sharp edge.

**F ROUND FILES**

Used by manufacturers of taps, drills, reamers, ball bearings, and gears. Single cut. Tapers to fine point.

**G MILL FILES**

For sharpening mill/circular saws and draw-filing/finishing metals. Rounded edge mill files have 2 round edges.

**H FLAT FILES**

For machinists, builders and repairmen who require fast removal of metal. Double-cut sides, single-cut edges. Babbitt files have fewer teeth per inch.

The only source you need for tools as tough as you are.

# STEEL FILES

**Nicholson® COOPER Tools** Made in U.S.A.

**A ALUMINUM FILES**

Type "A", both flat & half round in shape. All sizes have same number of teeth per inch. Special tooth construction eliminates clogging when filing aluminum.

**B LATHE FILES (Long Angle)**

Both fine & bastard. Rapid, free cutting files designed for lathe filing and finishing work. Rectangular shape. Single-cut.

**C 3-SQUARE FILES**

For general use by machinists for filing internal angles more acute than right angles, clearing out square corners and filing caps and gutters. Triangular shape. Double-cut.

**D BODIFILES**

For those who work on automobile bodies, particularly in blending solder with sheet metal. Milled tooth bodifiles are ideal for smooth, rapid work on cast iron, bronze, lead, babbitt, aluminum, zinc, plastics and any steel up to the hardness of annealed tool steel. Rectangular shape.

**E PILLAR FILES**

Used mostly by machinists for filing slots and keyways. Similar to hand files but narrower.

**F SQUARE FILES**

Used on slots, keyways and general surface filing. Square shape. Tapered slightly towards point.

**G RASP FILES**

Wood rasps in flat, round, and half round. Useful for purposes in which their different shapes make them particularly effective.

## SELECT QUALITY PRODUCTS FROM LEADING MANUFACTURERS WITH PROVEN PERFORMANCE

Grainger features quality products from the brand name manufacturers you know and trust. More than 900 national brands are listed in the Brand Index at the back of this catalog.

## DESK SPACE AT A PREMIUM? USE THE GRAINGER CD-ROM, ELECTRONIC CATALOG TO REVIEW THOUSANDS OF PRODUCTS!

Our Grainger Electronic Catalog is a state of the art CD-ROM selection guide which features products and information from our General Catalog. The perfect reference tool when you need product and technical information on the road. Contact your local branch for more information.

# STEEL FILES

## Nicholson® COOPER Tools

Made in U.S.A.

**A MACHINIST'S SCRAPERS (Handled)**

Length including handle is approximately 8". 3-square shape in hollow ground with 60° angle.

**B VENEER KNIFE FILES**

Designed for sharpening veneer knives. Thin rectangular shape. Blunt bastard cut.

**C MAGICUT® FILES (Flat)**

Used by machinists as all-purpose file to remove stock rapidly and to leave a smooth finish. Tapered point in width.

**D PLASTICS FILE**

For filing wide range of plastics and other soft materials. Rectangular shape. Easily cleaned.

**E HANDY FILE**

One side is single-cut for use in tool sharpening and smoothing metal surfaces. Reverse side is double-cut for general filing and rapid stock removal.

**F CROSSCUT—GREAT AMERICAN FILE**

For sharpening saws of Great American type and varieties of crosscut saws. Triangular shape.

**G TUNGSTEN POINT FILES**

For dressing distributor points tipped with tungsten, iridium and similar metals. Thin rectangular shape.

**H AUGER BIT FILES**

For restoring original sharpness to cutting edges of auger bits. Rectangular shape.

Check the Branch Locations listed in the front of this catalog for the location closest to you.

# STEEL FILES AND FILE ACCESSORIES

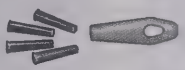
Nicholson® COOPER Tools

Made In U.S.A.

## A HALF ROUND FILES

Used by tool and die makers, jewelers, model makers and home craftsmen for smooth, rapid work on cast iron, bronze, lead, babbitt, aluminum, zinc, plastics and any steel up to the hardness of commercial tool steel. Half-round shape.

## B CHAINSAW FILES



Used for smooth, fast cutting and finishing. Spiral cut design removes more material per cut, reducing filing time.

## C TAPER FILES

Both regular and double-cut saw files (for use in saw filing machines). Triangular shape.

## D PLASTIC FILE HANDLE (with Inserts)

Made of strong high-impact material, contoured for straight, bathe and draw filing. Interchangeable cushion inserts.

## E FILE CLEANERS

Two styles: file card for general cleaning of file teeth, and file card/brush for use in finer cut files.

## F ADJUSTABLE, FLEXIBLE FILE HOLDER

Use with either 12" or 14" files. Easily adjusted for curving file outward or inward.

## G WOODEN FILE HANDLES

White birch handles with nickel-plated ferrules.

## H PLASTIC FILE HANDLES

Unbreakable plastic. Threaded steel insert bites tang for tight grip.

# BENCH VISES

## UTILITY WORKSHOP VISES

- Versatile, all-around vise for utility and light-duty applications
- Constructed with formed steel channel beam and 30,000 PSI body casting
- Red finish
- Feature replaceable, serrated hardened steel top jaws for a tight grip, built-in pipe jaws to handle various sized pipes, 180° swivel base, and large anvil with plenty of work surface

| Jaw Width (In.) | Maximum Opening (In.) | Throat Depth (In.) | Pipe Capacity (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 3½ | 4 | 2⅝ | 1/8 to 2 | 653½ | *New* 4TK27 | $89.70 | **$67.30** | 18.0 |
| 4½ | 5 | 3⅞ | 1/8 to 2½ | 674 | *New* 4TK28 | 132.50 | **99.40** | 30.0 |
| 5½ | 6 | 3¹⁵⁄₁₆ | 1/8 to 2½ | 675 | *New* 4TK29 | 169.20 | **126.90** | 40.0 |
| 6½ | 6 | 4⅜ | 3/8 tp 2¾ | 676 | 1ATH1 | 277.75 | **208.50** | 63.0 |
| 8 | 7½ | 41/2 | 1/8 to 3 | 648 | 5C804 | 360.95 | **270.75** | 80.0 |

## MECHANICS' VISES

- Quality-built vises have strength and durability to withstand many years of extra heavy-duty service with normal care; hammertone blue finish
- Include hardened steel serrated metal jaws and pipe jaws to handle a wide range of jobs
- Straight line pull transmits clamping load over entire vise body
- Unbreakable spindle and nut
- Built with 360° swivel base with serrated locking faces, double lockdowns, pipe jaws, and extra-deep throats to handle large workpieces
- Feature enclosed, unbreakable box frame, and steel channel

| Jaw Width (In.) | Maximum Opening (In.) | Throat Depth (In.) | Pipe Capacity (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 4 | 4½ | 3⁷⁄₁₆ | 1/4 to 2 | 744 | 2Z474 | $227.00 | **$170.25** | 37.0 |
| 5 | 5¼ | 3¾ | 1/4 to 2½ | 745 | 2Z346 | 298.71 | **224.25** | 50.0 |
| 6 | 5⅝ | 4⅛ | 1/4 to 3½ | 746 | 1ATH4 | 406.00 | **304.50** | 64.0 |

## HEAVY-DUTY TRADESMAN VISES

- Built with exceptional strength and precision for rugged day-in, day-out use in automotive shops, industrial and maintenance shops
- Serrated steel jaws are reversible; one side smooth for holding parts without scratching
- Hammertone blue finish
- Straight line pull of vise spindle and nut eliminates wear
- Precision thrust bearing allows more damping with less effort
- Full 360° serrated swivel-lock base has 2 locknuts for positive lock down
- Precision slide bar keyed to 0.003" fit, spindle is enclosed and permanently lubricated
- Units have steel jaws, a ductile alloy body with large, ground anvil, serrated jaws, and replaceable steel pipe jaws

| Jaw Width (In.) | Maximum Opening (In.) | Throat Depth (In.) | Pipe Capacity (In.) | Wilton Model | *New!* Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 4½ | 4 | 3¼ | 1/4 to 2½ | 1745 | 4LT62 | $335.00 | **$251.25** | 36.0 |
| 5½ | 5 | 3¾ | 1/4 to 3 | 1755 | 4LT63 | 420.00 | **315.00** | 49.0 |

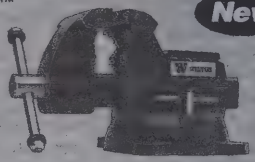
## WOODWORKERS' VISES

- Tamperproof, injuryproof jaw design
- Semi-steel casting adds strength at stress points
- All moving parts lifetime lubricated
- Aluminum handles; hammertone blue finish
- Pivot jaw on No. 4LT73

| Description | Jaw Size (In.) | Maximum Opening (In.) | Type of Nut | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 7" Vise | 4 x 7 | 10 | Rapid Acting | 78A | *New!* 4LT73 | $169.95 | **$127.50** | 33.0 |
| 10" Vise | 4 x 10 | 12 | Continuous Screw | 62A | 5C807 | 209.95 | **157.50** | 38.0 |

## SWIVEL VACUUM VISE

- Vise grips firmly to glass, metal, Formica, fiberglass, or any smooth, non-porous surface with quick lever action
- Universal ball joint swivels 360° to any position; tilts 90° to any angle
- V-grooved replaceable hardened steel jaws are 3"W, opens to 2⅝"
- Furnished with slide-on rubber jaws for fragile work



**No. 3ZH06.** General brand (1850). Shpg. wt. 4.5 lbs. List $70.18. Each ..... **$63.20**

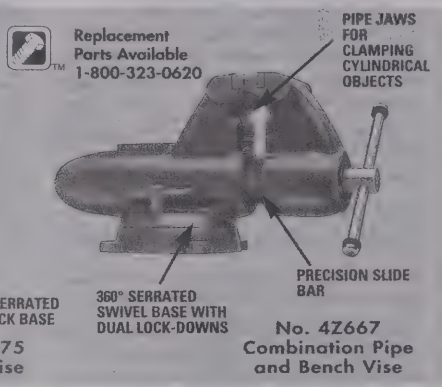
# BENCH VISES, JAW CAPS, AND JAW FACES



## HEAVY-DUTY MACHINISTS' VISES

- Rugged vises for use on production lines, plant maintenance, tool room applications, oil fields, outdoor sites
- Lifetime spindle and nut transmit straight line pull over entire high strength ductile alloy body
- Sealed construction locks in lifetime supply of lubricant; hammertone blue finish
- 360° Swivel base locks in any position for handling awkward pieces
- Deep throat bench vises provide 25% more capacity than similar models
- Combination pipe and bench vises feature case hardened pipe jaws to clamp cylindrical objects and 1/2" larger jaw size for added capacity
- Hardened tool steel serrated jaw inserts for secure holding power
- Made in USA

## MAGNETIC JAW CAPS FOR VISES

- Designed to protect workpiece from marring or deformation during any clamping application
- Caps are constructed from a hardened aluminum alloy with two built-in circular permanent magnets on the backside which hold the product securely to any vise type, including machinist and bench vises
- Standard aluminum caps have grooves to grip uneven workpieces
- Rubber caps conform to workpiece and grip firmly without slipping
- Prism caps have vertical and horizontal grooves; ideal for light tapping applications
- Priced and sold in pairs

# LOCKING CLAMPS

## VISE-GRIP® STANDARD FEATURES

- Heat treated alloy steel with nickel plated finish for maximum durability
- Easy release trigger and micro-adjustment screw mechanism
- Lock to work without slipping, leaving operator's hands free
- Meet gov't spec. GGG-W-00649

### LOCKING SHEET METAL CLAMP

- Handles bending, forming, crimping jobs
- Use to double crimp, make bread-pan corners, stretch upholstery webbing

### LOCKING WELDING CLAMP

- Locks work in proper alignment
- Deep-throated design, U-shaped jaws increase visibility, working space
- Clamp pipe, bars, or other metal work for welding or riveting

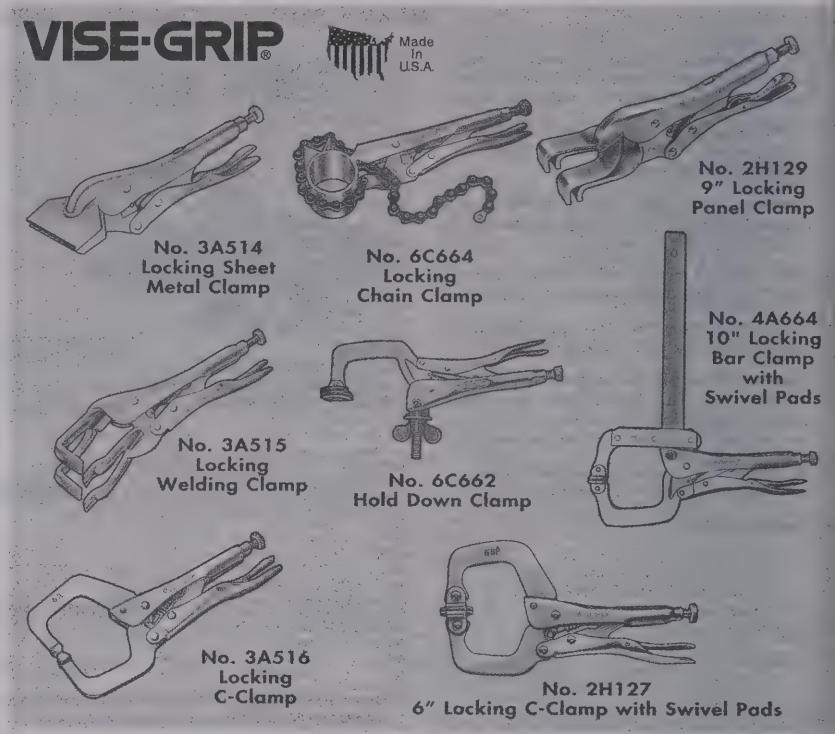
### LOCKING CHAIN CLAMP

- Holds & locks around any size or shape—won't slip, won't crush thin walled pipe
- Adjusts to ratchet action in either direction

### LOCKING HOLD DOWN CLAMP

- Clamps items to drill presses, power tools stands, workbenches, work tables
- Offset handle improves clearance, eliminates need for constant repositioning; pliable pads protect fine finishes
- Over 900 lbs. of clamping pressure

### LOCKING C-CLAMPS



- For welding sheet metal or woodwork
- 6" Size for working with smaller pieces or for holding materials in tight spaces
- 18" Size for clamping around large objects, automotive applications
- Nos. 6C663, 2H125, and 2H127 includes swivel pads

### LOCKING PANEL CLAMP

- Clamps autobody panel in place
- Allows doors to shut for checking alignment before welding
- Clamps with straight line motion for more access to work area

### LOCKING BAR CLAMP

- Adjustable clamping pressure; jaw adjusts 0-10"
- Self-leveling swivel pads for wood or laminate
- Clamp items too large for regular C-clamps
- Easy locking and quick-release action
- Self-energizing, adjustable jaws

# SPRING, BAR, PIPE, WELDING, AND SPREADER CLAMPS AND ACCESSORY KIT

### SPRING CLAMPS

- Molded grooves in ergonomic handles provide a non-slip, comfortable grip
- Made from high-tech resin material
- Strong, lightweight, and rust resistant
- Soft, durable pads to protect fine finishes

### POWER PRESS™ PIPE CLAMP/SPREADER

- Powerful clamping pressure and quick conversion for use as a spreader
- For use with 3/4" black pipe (no threads needed)
- Clamping can be performed from one or both ends eliminating awkward positioning
- Quick-action trigger for instant clamping positioning
- Jaws can be positioned at the ends or anywhere along the pipe
- 8-pitch screw allows for finer clamping pressure adjustments

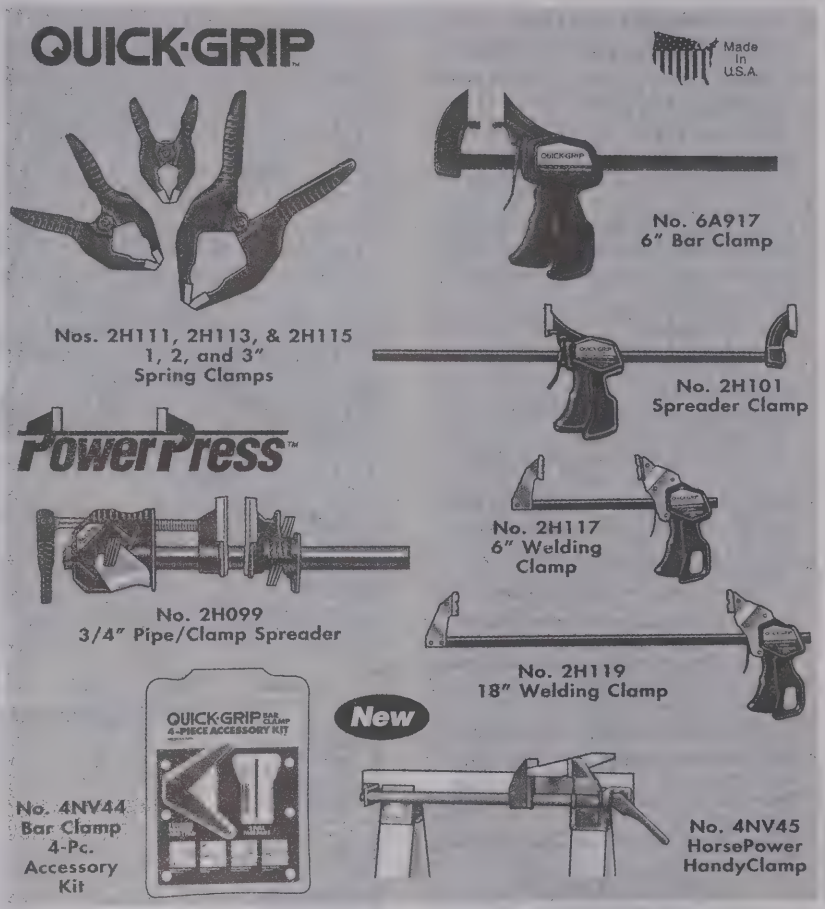
### BAR CLAMPS

- Fast, one-handed operation
- Pistol grip allows to adjust and tighten with just one hand
- Soft, durable pads to protect fine finishes
- Mini clamps for working in confined spaces

### BAR CLAMP ACCESSORY KIT

- For use with any standard QUICK-GRIP® bar clamp
- Corner brackets feature access slots for easy drilling or nailing
- Slide-on full-face pads are ideal for edge gluing
- All pads are made of soft, pliable rubber that won't mar fine finishes

### WELDING CLAMPS



- Fast, one-handed operation
- Pistol grip allows to adjust and tighten with just one hand
- Heat-treated carbon steel jaws
- Spatter-resistant copper-plated pads
- Ideal for quick tacking and other welding jobs

### SPREADER CLAMP

- Fast, one-handed operation
- Pistol grip allows to adjust and tighten with just one hand
- Applies gradual, even pressure
- Ideal for cabinet-makers, antique restorers, and woodworkers

### HORSEPOWER™ HANDY CLAMP

- Provides up to 350 lbs. clamping pressure
- Jaws rotate 180° for versatility
- Easily attached and removed for portability; mounts onto sawhorse, workbench, tool box, etc. with No. 4NV46 Mounting hardware
- Soft rubber pads protect work
- Works as a bar clamp when not attched to work surface

# C-CLAMPS

## DROP FORGED

### EXTRA-DEEP THROAT—400 SERIES

- Combines greater strength with extra-deep throat allowing wider variety of applications
- Hardened 3/4" spindles will not bend; No. 5C817 with 9/16" spindle

### HIGH-VISIBILITY—400SF SERIES

- High visibility yellow conforms to OSHA safety color standard for physical hazards, regulation 1910.144
- Powder coat finish resists scratches and corrosion
- "V" groove anvil for securely holding round materials

### MEDIUM-DUTY—800 SERIES

- Standard throat
- Lifetime lubricated spindles of through-hardened steel

### REGULAR-DUTY, SQUARE THROAT 4400 SERIES

- Extra clamping depth to secure parts
- 6 & 8" sizes give 37% more throat depth
- Through-hardened spindles

### HEAVY-DUTY—400SEP SERIES

- Holds rounds, squares, and angles
- Grooved anvil and serrated pad designed to provide secure clamping
- For welding applications; spindle and pad are copper-plated

### EXTRA HEAVY-DUTY—100 SERIES

- For heavy industrial and steel construction work
- Spindles formed from single pieces of bar stock
- Fine thread provides added clamping force

## CAST CARRIAGE

### 540 SERIES

- High tensile ductile alloy body and hardened steel spindle with crimped perma-pad swivels
- 3/4" spindle on No. 3A698; 5/8" on Nos. 3A696 and 3A697; 1/2" on No. 5C821

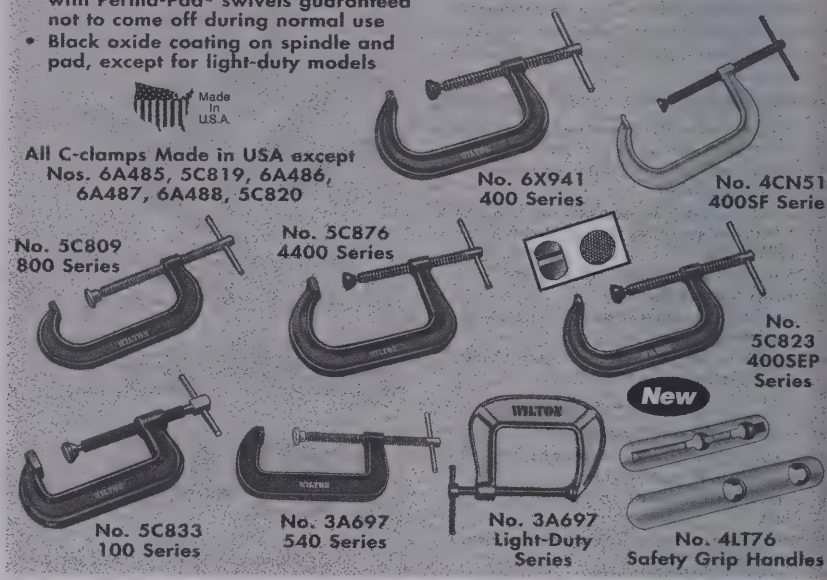
### LIGHT-DUTY SERIES

- For light- to medium-duty industrial or woodworking applications
- Ductile iron frame, ribbed to resist strain and deliver maximum strength
- Steel screws with full standard threads, sliding T-handle
- Equipped with crimped style swivel pads—all parts zinc plated

### ERGONOMIC SAFE-T-GRIP® HANDLES

- High visibility yellow rubber handle with ergonomic cushioned grip for C- and L-clamps, designed to reduce worker fatigue
- Apply clamping force with less effort
- Snap over steel T-handles, fits Wilton 400 series clamps, 6300 & 6400 series L-clamps

## C-CLAMP FEATURES



- Drop forged models are equipped with Perma-Pad® swivels guaranteed not to come off during normal use
- Black oxide coating on spindle and pad, except for light-duty models

Made in U.S.A.

All C-clamps Made in USA except Nos. 6A485, 5C819, 6A486, 6A487, 6A488, 5C820

# L-CLAMPS, LEVER CLAMPS, AND ANGLE CLAMPS

## L-CLAMPS

- All-steel sliding L-clamps handle a variety of work sizes and shapes
- Spring-tempered design is galvanized for lasting corrosion resistance
- Rapid-acting arm slides into place for quick tightening and is removed easily, making repositioning simple
- Hardened alloy steel spindles and Perma Pads® are black oxide-coated
- Screw features Perma-Pads®—tilt up to 20° to accommodate angular workpieces
- STG models include ergonomic Safe-T-Grip™ handles

## RATCHET ACTION LEVER CLAMPS

- Ratchet action lever clamps feature quick lever action
- Clamp set-up time can be reduced as much as 80% by sliding movable arm into position, setting locking handle
- For use in applications where frequent repositioning is required
- Offset handle models allow clamping in confined spaces

| Description | Throat Depth (In.) | Nominal Clamping Pressure (Lbs) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 4.0" Straight Handle | 4 | 1000 | 6610 | 4CN96 | $57.82 | $43.40 | 3.5 |

| 8" Offset Handle | 4 | 1000 | 6708 | 5C845 | 48.07 | 36.10 | 2.3 |

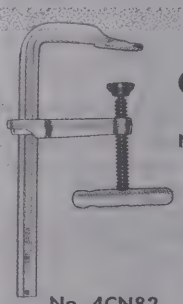
## RATCHET ACTION HOLD-DOWN CLAMPS

Suited for clamping parts on mills or drills with T-slotted tables or on welding tables

- Fast acting and adjusts to a variety of different size parts
- Can be rotated 360°

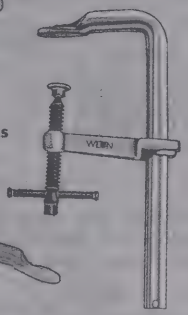
| Description | Throat Depth (In.) | Capacity (In.) | Nominal Clamping Pressure (Lbs.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 6" Ratchet Action | 3 | 6 | 1000 | 6906 | 5C846 | $55.16 | $41.40 | 1.5 |
| 8" Ratchet Action | 4 | 8 | 1900 | 6908 | 5C847 | 99.52 | 74.65 | 5.3 |

## 90° ANGLE CLAMPS



90° angle clamps eliminate set-up time and effort for metal-working applications that involve right-angle joining, assembling, welding, or grinding

- A self-centering jaw quickly adjusts to clamp workpieces, even accommodating pieces of different sizes
- Oblong holes in base for mounting clamps to workbench



| Miter Capacity (In.) | Jaw Height (In.) | Jaw Length (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| 3 11/32 | 1 3/8 | 4 1/8 | AC-325 | 5C843 | $107.30 | $80.50 | 12.0 |

# SPRING, PIPE, CLAMP PADS AND HANDSCREW CLAMPS

## SPRING CLAMPS

- Designed for applications where a fast, easy grip is required
- Ergonomically shaped for comfortable use
- Tempered steel spring for substantial pressure at the jaw tips
- Poly-vinyl covered handles and tips available for comfort and protection of the workpiece

| Description | Max. Jaw Opening (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |

## PIPE CLAMPS

- Can be mounted on any length pipe
- Multiple disc clutch provides instant adjustment, secure hold and quick release
- Includes frame, screw, handle, tip, and slide
- Nos. 4CN78 and 4CN79 use cam-style clutch

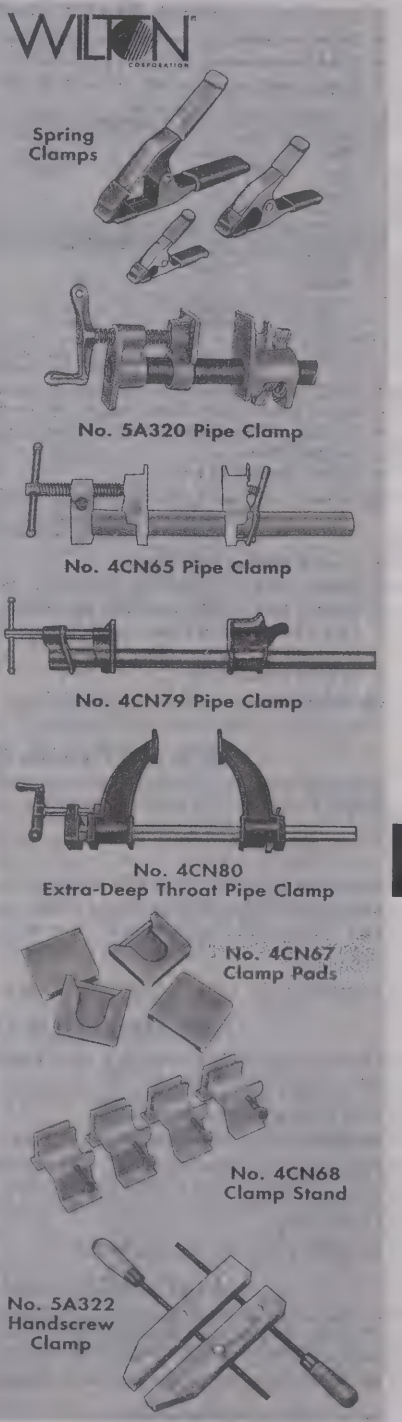
| Description | Pipe Size (In.) | Clamp Face (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| **CLUTCH-STYLE FOR THREADED PIPE** | | | | | | | |
| 1/2" Pipe Clamp | 1/2 | 1½ | 452 | 5A321 | $13.86 | $11.09 | 1.7 |
| 3/4" Pipe Clamp | 3/4 | 1¾ | 450 | 5A320 | 16.87 | 13.50 | 3.0 |
| **CLUTCH-STYLE FOR NON-THREADED PIPE** | | | | | | | |
| 1/2" Pipe Clamp | 1/2 | 1½ | 442 | 4CN66 | 18.50 | 14.80 | 1.6 |
| 3/4" Pipe Clamp | 3/4 | 1¾ | 440 | 4CN65 | 21.50 | 17.20 | 2.7 |
| **CAM-STYLE FOR THREADED PIPE** | | | | | | | |
| 1/2" Pipe Clamp | 1/2 | 1½ | 520 | 4CN79 | 12.56 | 10.05 | 1.5 |
| 3/4" Pipe Clamp | 3/4 | 1¾ | 500 | 4CN78 | 14.34 | 11.47 | 2.4 |

## EXTRA DEEP THROAT PIPE CLAMP

- Extra deep throat—7" of total throat depth to clamp a wider range of parts
- Multiple disc clutch provides sliding jaws with instant adjustment, secure hold, and quick release
- Steel screw and heavy-duty handle; for 3/4" threaded pipe

| Description | Throat Depth (In.) | Clamp Face (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|
| Deep Throat Pipe Clamp | 7 | 1¾ | 530 | 4CN80 | $60.71 | $48.60 | 8.5 |

## CLAMP PADS AND STANDS FOR PIPE/BAR CLAMPS



- Pads provide protective cushion between finished surfaces, metal clamp faces
- Pads can be used on all pipe clamps up to 1¾" clamp face
- Clamp stands hold pipe and bar clamps upright; for 1/2 and 3/4" pipe clamps, bar clamps up to 3/8" thickness

| Description | Surface Tip (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|
| Clamp Pads—4 per pkg. | 1½ | 453 | 4CN67 | $5.36 | $4.29 | 1.0 |
| Clamp Stands—4 per pkg. | — | 451 | 4CN68 | 16.77 | 13.42 | 0.3 |

## HANDSCREWS

- Designed for the craftsman who needs evenly controlled clamping pressure and minimal possibility of marring fine finishes
- Easily adjustable to conform to nonparallel surfaces
- Jaws are of select straight grain, kiln dried maple, seasoned and oiled; spindles are of cold drawn steel, with quick acting, double lead thread

| Description | Jaw Length (In.) | Max. Jaw Opening (In.) | Throat Depth (In.) | Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| 6" Handscrew | 6 | 3 | 3 | 9006HS | 4CN76 | $20.50 | $16.40 | 1.3 |
| 8" Handscrew | 8 | 5 | 4 | 9008HS | 5A322 | 24.50 | 19.60 | 2.5 |
| 10" Handscrew | 10 | 7 | 5 | 9010HS | 5A323 | 28.00 | 22.40 | 3.3 |
| 12" Handscrew | 12 | 9¼ | 6 | 9012HS | 5A324 | 32.20 | 25.80 | 4.3 |
| 14" Handscrew | 14 | 10¾ | 7 | 9014HS | 4CN77 | 40.80 | 32.65 | 0.8 |

# CLAMPS AND GLUE GUNS

## STEEL STRAP CLAMPS

- Clamp materials securely, regardless of shape
- Holds framework/cases square for precise joining
- Apply even joining pressure at all corners

**SPECIFICATIONS**

| Stock No. | Capacity (In.) Minimum | Capacity (In.) Maximum | Strap Length (Ft.) | Strap Width (In.) | Clamping Pressure (Lbs) |
|---|---|---|---|---|---|
| 4CN47 | 2⅛ x 2⅛ | 32 x 32 | 15 | 3/8 | 1000 |
| 4CN46 | 2⅝ x 2⅝ | 36 x 36 | 22 | 3/8 | 1900 |

**ORDERING DATA**

| Wilton Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|
| 147 | **4CN47** | $37.11 | **$29.70** | 2.0 |
| 146 | **4CN46** | 53.04 | **42.45** | 2.8 |

## NYLON BAND CLAMP

- 4-90° steel corner pieces insure squareness and protect nylon band from sharp edges of workpiece
- 15 Ft. x 1"W nylon band clamps square and irregularly shaped items
- Wilton brand (115)

**No. 4CN45.** Shpg. wt. 1.2 lbs. List $16.46. Each.....**$13.17**

## 90° CORNER CLAMP

- Create perfect 90° joints
- Holds work of different widths up to 3"
- Leaves joints fully exposed for nailing, gluing, or doweling
- Two countersunk holes permit mounting to work surface
- Die cast aluminum alloy
- Wilton brand (90)

**No. 4CN98.** Shpg. wt. 0.5 lbs. List $9.56. Each.....**$7.65**

## HOT MELT GLUE GUNS

**Automatic Lever Feed Glue Gun** bonds, caulks, seals, and weatherstrips. Features built-in drip tray/stand, unique design keeps heat flow away from handle so it does not get hot. Easy squeeze lever action for extra control. Clutch mechanism prevents glue back up. UL Listed. CSA Certified. Arrow brand (TR-550).

**No. 4A299.** Shpg. wt. 1.0 lbs. List $26.00. Each.....**$20.95▲**

**All-Purpose Trigger Feed Glue Gun** bonds without mixing or clamping. Trigger feed with check valve to control glue flow. High-impact, high-temperature housing. UL Listed. Arrow brand. (TR400)

**No. 4CP14.** Shpg. wt. 1.1 lbs. List $16.75. Each.....**$14.99▲**

## HOT MELT GLUE STICKS

**For use in Arrow Glue Guns Nos. 4A299 and 4CP14.** For woodworking, ceramics, leather, canvas, fabrics, cardboard, plastics, and metal. Sets in 30 to 60 seconds. Package of 12 clear 1/2" x 10" sticks. Arrow brand (AP10).

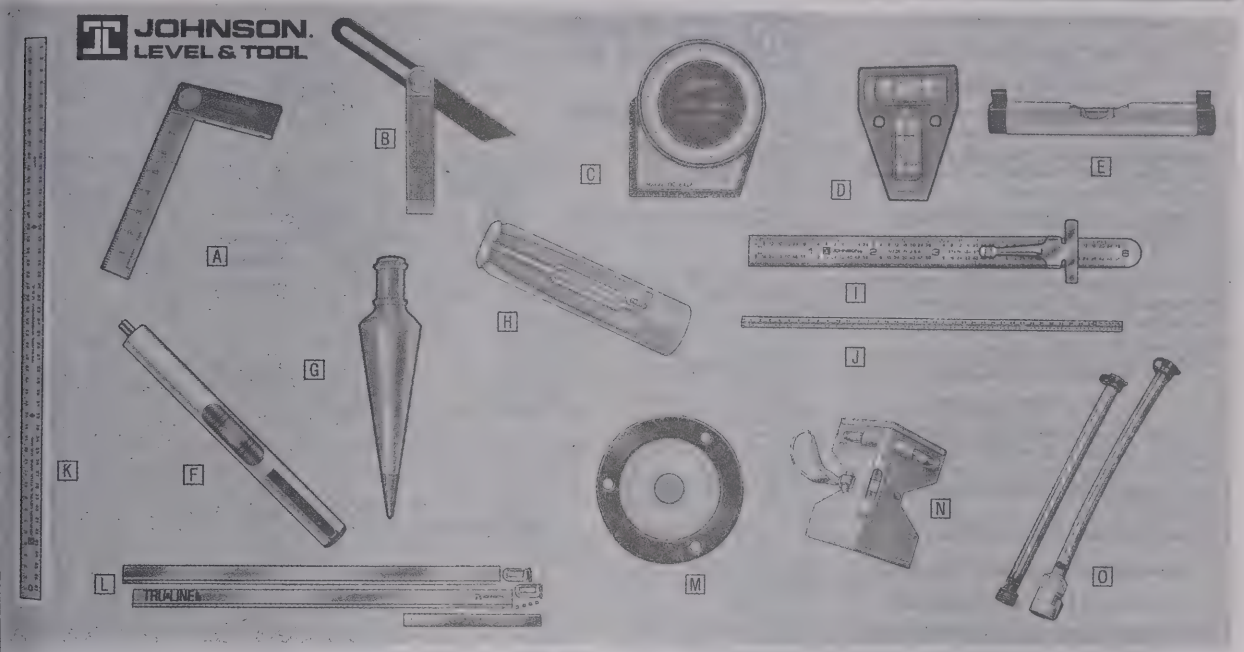
**No. 4A312.** Shpg. wt. 0.8 lbs. List $7.99. Each.....**$7.59▲**

**For use in Arrow Glue Guns Nos. 4A299 and 4CP14.** Pkg. of 24 clear 1/2" x 4" sticks. For woodworking, plastics, metal, leather, fabrics, other materials. Slow setting; sets in 90-120 seconds. Arrow brand (BSS6).

**No. 4CP07.** Shpg. wt. 0.6 lbs. List $8.60. Each.....**$8.19▲**

## WINDOW SEALER

**For use in Arrow Glue Guns Nos. 4A299 and 4CP14.** Pkg. of 12 clear 8" sticks. Easily seals out drafts for windows and walls, peels off easily without damaging surfaces. Arrow brand (WS8).



**No. 4CP15.** Shpg. wt. 0.6 lbs. List $5.99. Each.....**$5.69▲**

❸ These products are covered by OSHA Hazard Communication Standard, and Material Safety Data Sheets (MSDS) are available. See page opposite inside back cover.

# STRAIGHT EDGES, RULES, PROTRACTOR, PLUMB BOBS AND LEVELS

A **Try Square** for marking or checking 90° angles. 8" fixed stainless steel blade with stamped 8th graduations and hardwood handle with brass bound gauging edge.

B **Sliding T-Bevel** has 8" moveable steel blade for marking or transferring any angle and hardwood handle with brass trim. Wing-nut locking assembly.

C **Protractor/Angle Finder** measures any angle from 0 to 90° in any quadrant. Hi-visibility orange. ABS plastic construction, ceramic magnetic base.

D **Cross-Check Level** for quickly checking level in both planes simultaneously. ABS plastic body with mounting holes, two "cat-eye" acrylic level vials.

E **Line and Surface Level** has 3/8 x 3" octagonal aluminum body. Sturdy ABS plastic hooks "reversed" to eliminate accidental drop off line. "Cat-eye" colored level vial, flat bottom.

F **Pocket Level** is handy for small applications. ABS plastic body with convenient pocket clip, magnetic "pick-up" on one end.

G **Brass Plumb Bobs** for finding plumb over long distances. Precision machined brass with clear lacquer finish, hardened replaceable tip. Top unscrews for centered string installation.

H **Hand-Held Sight Level** obtains level line of sight over long distances, without the cost of a surveyor's transit. ABS plastic body. Single power magnification.

I **Pocket Clip Rules** are made of stainless steel with convenient sliding pocket clip which can be used as a depth gauge. No. H396 has permanent etched graduations in 16ths, 32nds, 64ths. No. 2H398 features the same graduations, including metric graduations in mm. 6L x 1/2W x 0.020" thick.

J **Aluminum Rules** are made of tempered anodized aluminum with thermal-bonded black epoxy screen-printed (on one side) graduations in 8ths, 16ths. Rules are 1⅛W x 0.075" thick.

K **Aluminum Straight Edges** for marking straight edges and measuring over long distances. 1/8 x 2" heat-treated, extruded aluminum. 8th graduations on one edge and 16ths on opposing edge (printed on one side). Clear anodized, corrosion-resistant finish.

L **Aluminum Cutting Guide** is two 49" extrusions which easily connect to make a power tool cutting guide. Furnished with 2 C-clamps which fasten to any surface under 3". Extrusion measures 2" x 2½".

M **Bull's Eye Level** levels in both horizontal planes simultaneously with one easy reading. 1¾" diameter acrylic plastic with 3 mounting holes in flange.

N **Post Level** for "hands-free" use. Quickly and easily checks vertical or horizontal in both planes simultaneously. High impact polystyrene molded body. 3 large vials with white reflective backer plates and rubber fastening strap. Measures 5½ x 3½".

O **Water Level** finds level over long distances and around corners. Fits standard garden hose. Comes with shut-off valve and plastic fittings with clear tubes. 14" length.

# SQUARES

## COMBINATION SQUARES

### A ZINC DIE-CAST HEAD

### B CAST-IRON HEAD

- 12" steel blade with stamped 32nd graduations, rust-resistant finish.
- Acrylic barrel level vial & self-aligning draw bolt, hardened scriber with brass bushing in head

## STEEL CARPENTER'S SQUARES

### C JOBMASTER® SQUARE

- 12 x ½" body and 8 x 1" tongue
- Embossed graduations, figures on face, back of square
- Lacquered finish

### D 8 x 12" SQUARE

### E 16 x 24" SQUARE

- 8 x 12" square has 12 x 1½" body, 8 x 1" tongue; 16 x 24" square has 24 x 2" body, 16 x 1½" tongue
- Stamped graduations on both sides in 8ths
- Clear, powder-coat finish resists rust

## ALUMINUM FRAMING SQUARES

### F 16 x 24" BLACK SQUARE

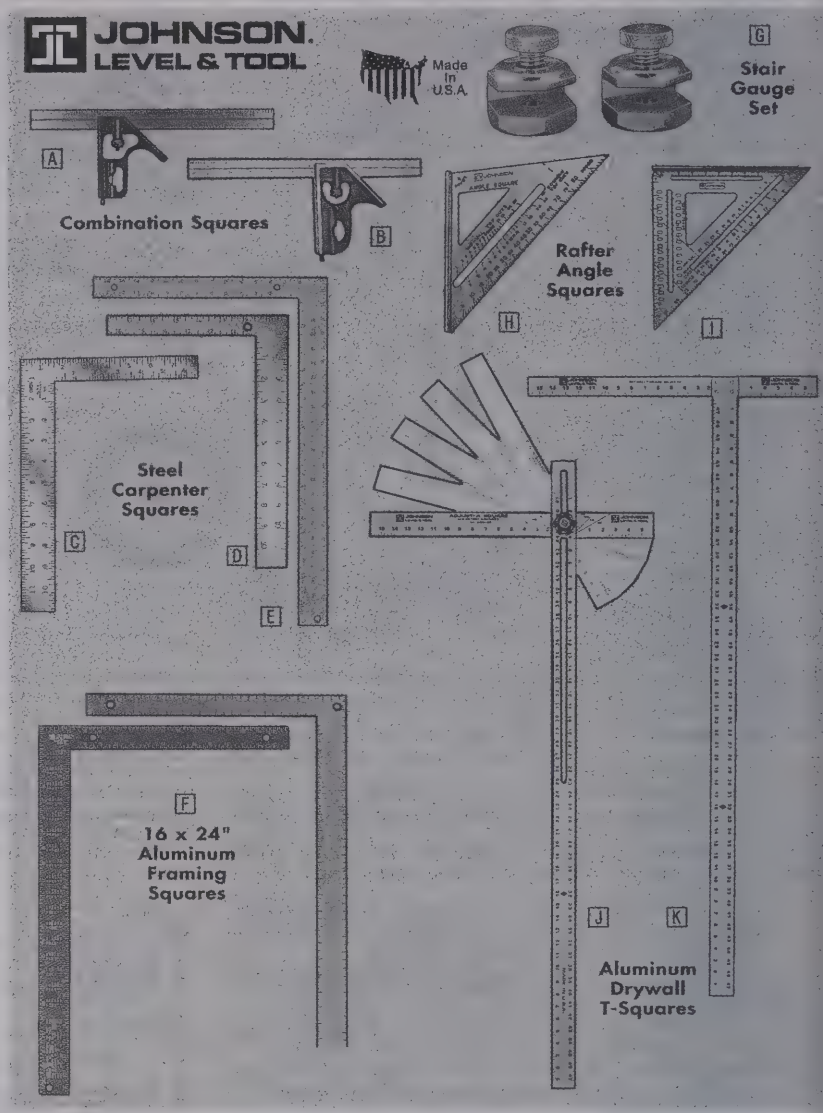
- Each square has 24 x 2" body, 16 x 1½" tongue
- Essex board measure and rafter tables are permanently stamped
- Anodized finish resists corrosion
- Stamped graduations on both sides in 8ths; No. 6C227—yellow graduations

### G STAIR GAUGE SET

- Easily attaches to any carpenter or rafter square
- Made of machined brass with brass knurled screw

## RAFTER ANGLE SQUARES

### H 7" SQUARE



### I 12" SQUARE

- Fast and easy rafter or angle layout
- Precision milled die-cast aluminum
- Permanent graduations

### J 48" ADJUST-A-SQUARE

### K 48" FIXED HEAD

- All aluminum with anodized finish
- No. 6C232 has 1/4 x 2 x 48" blade with 1/4 x 2 x 22" notched, offset head; No. 6A514 has 1/8 x 2 x 47⅞" blade with 3/8 x 1½" X22"notched, offset head secured to blade with 4 rivets
- Epoxy ink graduations in 8ths
- Markings at 16" centers on blade
- No. 6C232 48" Adjust-A-Square features fully adjustable head for laying out any angle for drywalling/panelling/siding under roof peaks, vaulted ceiling, or under staircase; head folds parallel to blade for easy storage; locks at 90°

The only source you need for tools as tough as you are.

# LEVELS

## A B BRASS BOUND HARDWOOD LEVELS

- Preferred by wet cement trades; cement and mortar are easily removed and won't damage wood
- Kiln-dried, straight-grained hardwood wood frame with protective clear lacquer finish
- Six solid-set, "cat-eye" colored, curved vials: 4 Plumb; 2 Level
- Heavy glass lenses are sealed against moisture and dirt
- 48" levels have hand holes; 24" level has hand grips
- Shock-protecting rubber end-caps
- Flat brass strip is epoxy-bound and screwed to edges
- No. 5W184 has double-angle brass binding on edges

## C BOX-BEAM ALUMINUM LEVELS

- Extruded aluminum box frame for extra rigidity, strength
- Level edges are precision machined
- Yellow epoxy coated finish frame for durability
- Precision machined, solid acrylic block vials with permanent interior metal ring vial markers for utmost sensitivity and accuracy: 2 Plumb; 1 Level
- Luminous plate on top-reading level vial acts like reflective mirror for easy reading
- Shock protecting plastic end-caps

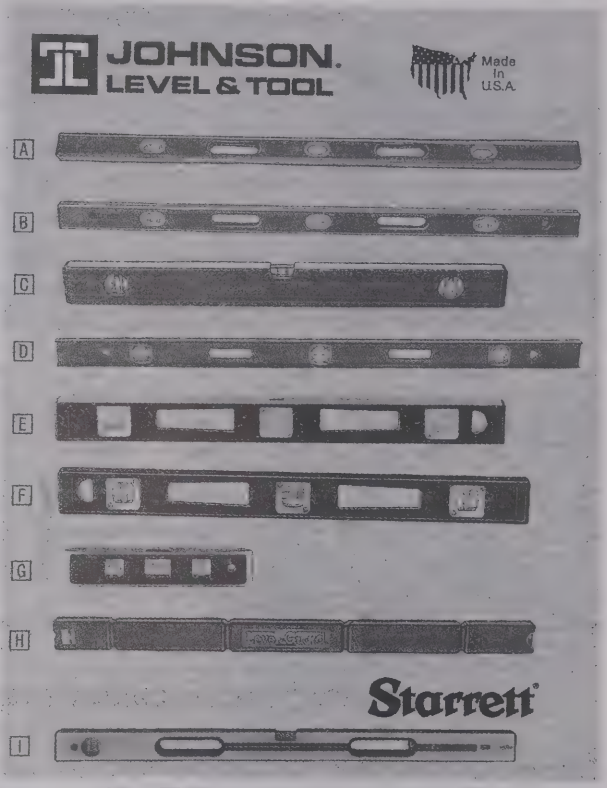
## D DUAL CURVED VIAL ALUMINUM I-BEAM LEVELS

- Extra heavy-duty extruded aluminum frame with hand holes
- Bright red anodized finish for corrosion resistance and high visibility
- Two curved vials (replaceable) per sight—48" has 6 vials: 4 Plumb; 2 Level, and 72" has 10 vials: 6 Plumb; 4 Level
- Lexan™ vial holders and lenses are virtually shatterproof
- Protective, shock-absorbing plastic end-caps

## E BARREL VIAL ALUMINUM I-BEAM LEVELS

- Heavy-duty extruded aluminum frame
- Black anodized finish to resist corrosion
- Level edges are precision machined
- Level vial is top-reading and magnified 1½ times
- ABS plastic vial holders with dustproof clear acrylic lenses
- Protective, shock-absorbing plastic end-caps
- 360° Reading, nonadjustable, replaceable acrylic vials
- Nos. 6X992 and 2W396 have 3 vials: 2 Plumb; 1 Level

## F BARREL VIAL MAGNETIC ALUMINUM I-BEAM LEVELS



- Include all features of nonmagnetic barrel vial aluminum I-beam levels
- Full-length, heavy magnetic strip for hands-free usage
- Nos. 6A508 and 6A509 have 3 vials: 2 Plumb; 1 Level
- Nos. 6A510 has 5 vials: 3 Plumb; 2 Level

## G 9" CONTRACTOR/INDUSTRIAL MAGNETIC ALUMINUM TORPEDO LEVEL

- Precision-milled, full-length, die-cast aluminum body
- Full-length, heavy magnetic strip for hands-free usage
- V-groove for pipe or conduit work
- Three acrylic 360° reading vials: 1 Level; 1 Plumb; 1 at 45°
- Level vial is also top-reading
- Durable ABS plastic vial covers

## H 48" LEVEL CASE

- Durable polyethylene protects any level up to 48" from damage due to moisture, or lens and vial breakage
- Case has removable snap-lock cap which can be affixed to case with furnished cord to eliminate loss
- High visibility orange

## I LASER BEAM BOX LEVEL

- Laser beam in end cap allows leveling and locating of points up to 150 ft.
- 32" long with one plumb vial, 2 open grips
- Starrett brand

# CHALKING EQUIPMENT, MARKING PENCILS, PENCIL COMPASS AND SCRIBER

## CHALKING EQUIPMENT

### [A] TRU-LINE SELF-CHALKING 100 FT. REEL

Features durable aluminum alloy box, self-locking plated anchor ring, and reversible line guides. Precision made with fewer parts—gives a sharp, clean line every time. Self-chalking, easy action reel doubles as plumb bob and is easy to fill.

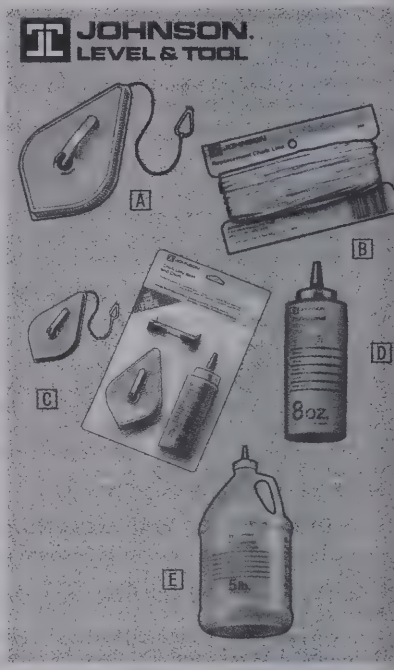
### [B] REPLACEMENT CHALK LINES

Made of highest tensile strength cord to deliver straight, true snapping action. New anchor ring supplied with each line. 100 ft. line packaged in durable polyethylene bag.

### [C] CHALK REEL COMBO PACK

Contains 100 ft. reel No. 3A914 and a 4 oz. bottle of blue marking chalk with plastic line level.

### [D] 8 Oz. CHALK REFILL



Features 'no spill' snap cap. Squeezable poly bottle won't break if dropped.

### [E] 5 Lb. PLASTIC JUG CHALK REFILLS

Has easy grip handle. Economy size offers convenience for large contractors, builders, carpet and floor installers, roofers lathers, plasterers, masons, industrial and commercial users.

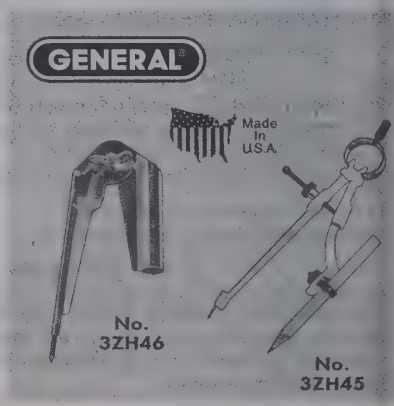
## PENCIL COMPASS AND SCRIBER



- **Designed for marking edge contours or for use as standard compass**
- **Positive wing nut adjustment**
- **Full-length hardened steel pin metal frame for greater rigidity**
- **Constructed of brass-plated steel**
- **General brand**

**No. 3ZH46**.. Shpg. wt. 0.1 lbs. List ..... $2.18.
Each ..... **$2.07**

## PRECISION PENCIL COMPASS

- **Carpentry-quality pencil compass made of die cast, rust-resistant metal**
- **Spring tension adjustment for precise marking up to 8" diameters**
- **Scribe guide for edge marking**
- **For use with pencil (included) or slim ballpoint pen**
- **General brand**

**No. 3ZH45**.. Shpg. wt. 0.2 lbs. List ..... $5.54.
Each ..... **$5.26**

# BUTT MARKERS, CONTOUR GAUGE, TRAMMEL, SAW BLADE, ROUTER & NAIL GAGES

## BUTT MARKERS

For fast and easy mortising cavities for butt hinges on wood doors and jambs. Made of hardened steel with handy depth scriber.

| Size (In.) | Johnson Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|
| 3 | 2030 | **2H370** | $7.38 | **$5.39 ▲** | 0.3 |

6" Contour Gauge

## PRECISION ADJUSTABLE TRAMMEL

- Accurately measures and marks distances that are too great for conventional compasses or dividers
- For layout, marking templates, and drawing large circles
- 6" off-center eccentric points provide extra-fine adjustments
- Points can be replaced with pencils, ballpoint pens, crayons, or soapstone sticks
- Clamp opening for beam is 5/8 to 1½"
- General brand (523)

**No. 3ZH21.** Shpg. wt. 0.8 lbs. List $32.36. Each.....**$30.75**

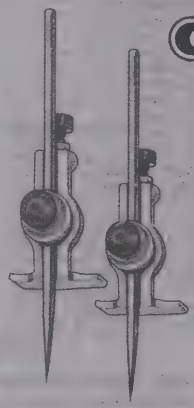
## SAW BLADE DEPTH GAGE

- Solid brass gage makes saw blade adjustments easy
- Three graduations: English increments: 1/8 to 2"; 1/16 to 3/8" with MM equivalents; and Metric increments: 3mm to 18mm
- All graduations are stamped for lasting readability
- Lacquer finished
- General brand (22)

**No. 3ZH15.** Shpg. wt. 0.2 lbs. List $3.44. Each.....**$3.27**

## ROUTER GAGE

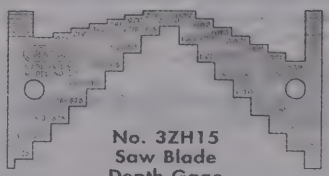
- Solid brass gage makes router height adjustments easy
- Graduations from 1/16 to 1½" with decimal equivalents
- All graduations are stamped for lasting readability
- Lacquer finished
- General brand (23)



**No. 3ZH16.** Shpg. wt. 0.2 lbs. List $3.80. Each.....**$3.61**

## NAIL GAGE

- For gaging common, box, and cooler nails
- Front is etched with diameter and length reference
- Made of stainless steel
- General brand (27)



**No. 3ZH17.** Shpg. wt. 20.11 List $8.24. Each.....**$7.83**

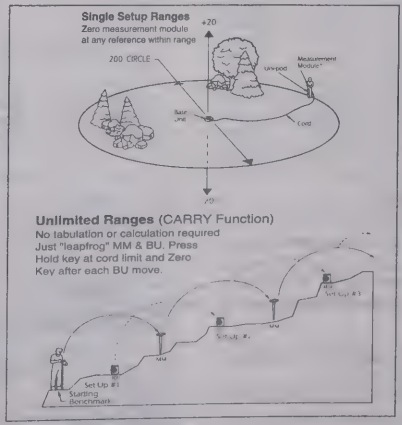
## COMPU-LEVEL

**STANLEY®**

No. 4CL78

**evation measuring system for** construction, xcavation, foundation evaluation, and istallation of plant maintenance equipent. One-person operation.



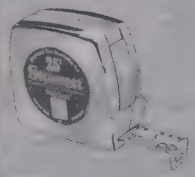
**Measures 40 ft. vertically over a 200 ft. circle with 1/8" precision on one set-up**

**Zero key sets reference plane for leveling or direct readings of elevation above or below—even around visual obstructions**

**Carry function reads elevations over unlimited distances or elevations**

**Saves 137 readings for recall or for a serial dump to a PC for tables, profiles, or 3-D maps**

**Reads in decimal, fractional inches; decimal feet, centimeters, meters**

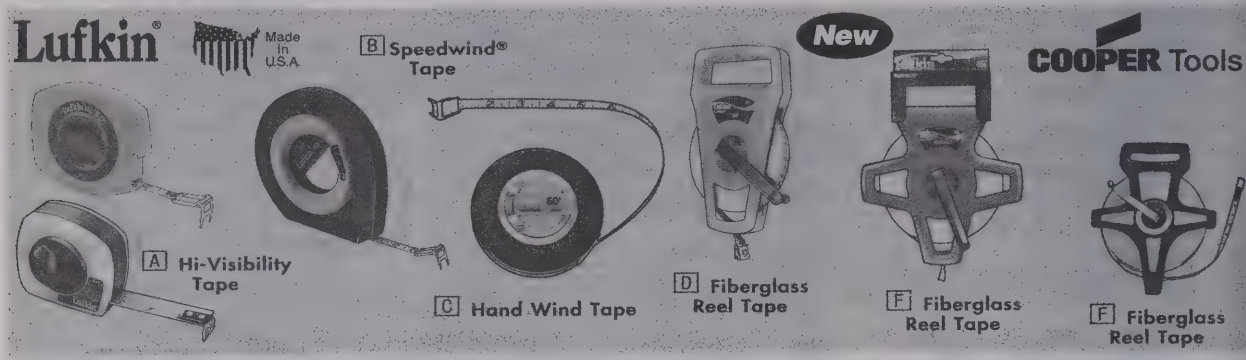


- **Does not require factory calibration**
- **Included unipod allows measuring without bending over**
- **Job-site rugged, water-resistant; operates from -22°F to +158°F.**

**No. 4CL78.** Shpg. wt. 13.0 lbs. List.....$1108.89.
Each.....$699.00▲

## ADA CODE TAPE

**Starrett®** Made In U.S.A.



No. 3TG68

**Tape features American Disabilities Act (ADA) code regulations** printed on the heavy-duty 1" x 25' blade. Combines measurements of a professional-grade tape with a brief description of the ADA code requirements, located on the blade in the area where the regulations apply.

**88 notations, covering 106 of the most frequently used** ADA codes that apply to building structures, walkways, parking areas, elevators, and fixtures for lavatory equipment, cabinetry, light switches, etc. Starrett brand (65896).

**No. 3TG68.** Shpg. wt. 6.0 lbs. List.....$19.90.
Each.....$18.95▲

# MEASURING TAPES AND WOOD RULES

## HAND WIND TAPES

- Nos. 5F336, 5F335, and 6C191 are housed in high-impact ABS case with high visibility orange color
- Nos. 6A499, 6A500, and 4CP84 are housed in rugged, vinyl-covered steel case with large easy action winding drum and friction washers
- Bold graduations with black and red numbers on yellow background
- Steel tape is 0.008"/0.2mm thick and has folding hook ring on Nos. 6C191, 6A500, and 4CP84

## LINEAR FIBERGLASS TAPES

- High visibility orange colored case
- Lightweight, high impact polystyrene case has open reel for easy handling and rewinding
- Durable fiberglass linear tape is made of nonconductive material encapsulated in flexible plastic with easy-to-read black and red markings on yellow background
- Fiberglass tape resists stretch, extreme weather conditions
- Line does not collect dirt in case of open reel tapes, making it easy to clean
- No. 4CP86 is 2-sided

# MEASURING WHEELS & DISTANCE METERS

## LINEAR MEASURING WHEELS

### A B 1 FT. DUAL MEASURING WHEELS

Automatically records measurements point to point, vertically, overhead, around curves and over contours. Adds in forward direction, deducts in reverse. 4" diameter wheels for all indoor uses as well as on outdoor hard surfaces. Features a pushbutton reset counter that records in feet and inches (up to 1000 ft.), automatic rollover, and wide tires. No. 1ARW8 has straight, telescoping handle; No. 1ARW9 has curved telescoping handle. Safety orange color.

### C D 3 FT. MEASURING WHEEL

For measuring indoor and outdoor surfaces. Adds in forward direction (up to 1000 ft.) and deducts in reverse, has pushbutton reset, and automatic rollover. Features a rugged molded 12" diameter wheel with sturdy polymer tire for reliable traction and stability. No. 1ARX1 has curved telescoping handle. No. 2H634 has straight, telescoping handle. Safety orange color.

### E 4 FT. MEASURING WHEEL FOR ROUGH TERRAIN AND GREATER DISTANCES

For outdoor use, measuring long distances (up to 100,000 ft.). No. 1ARX0 features spring-tensioned brake to minimize wheel rotation when taken off surface, includes adjustable stand, folding handle for ease of storage and transportation, heavy-duty resettable counter, and rugged molded 15" diameter tire for reliable traction and heavy use. Safety orange color.

### F 1 METER MEASURING WHEEL

Used indoors or out, wherever metric measurements are required. No. 2H632 features a curved, telescoping handle, adds in forward direction, deducts in reverse. Has a pushbutton reset counter that records in meters and tenths of a meter, up to 1000m, with automatic rollover. Incorporates a sturdy polymer tire on resilient molded wheel. Safety orange color.

NOTE: Because of varying terrains and applications, wheels should be used for estimation purposes only.

## DISTANCE METERS

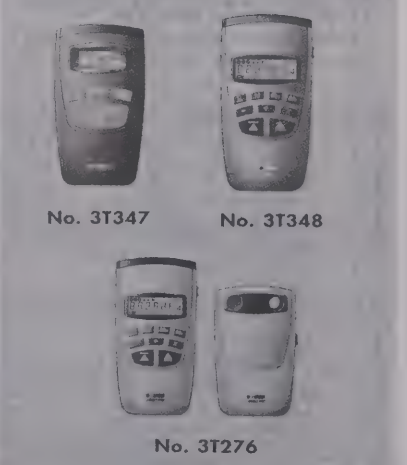
Electronic distance meters measure distances by transmitting and receiving ultrasonic waves. Improved circuitry and software with signature signal that eliminates random noise interference. All units provide 99.5% accuracy, have two memories, and compute area and volume. Tracking and Validate modes. Automatic internal temperature compensation. Ergonomic design. Quick reference instruction label on back of units. Low battery warning; automatic shut-off 7 minutes after last button is pressed. Excellent for HVAC, contractor, and other industry applications.

### No. 3T347—INDOOR USE

**Measures 1½ to 45 ft.**
**Readings in Ft./In. and M/cm**
**Sonin brand (45)**
**7 memories with recall**
**Can be field calibrated**

**No. 3T347.** Shpg. wt. 0.4 lbs. List $39.99.
Each ..... **$36.00**

### No. 3T348—INDOOR USE



**Measures 1½ to 60 ft.**
**Readings in ft./in., M/cm, decimal ft., and yards**
**Packed in protective pouch**
**Sonin brand (60 Pro)**
**7 memories with recall**
**Can be field calibrated.**

**No. 3T348.** Shpg. wt. 0.6 lbs. List $72.99.
Each ..... **$65.70**

### No. 3T276—INDOOR/OUTDOOR USE

- **Measures 1½ to 60 ft. in single mode; measures 1½ to 250 ft. in dual mode with target**
- **Includes electronic target with tripod fitting**
- **Readings in Ft./In., M/cm, Decimal Ft., and Yards**
- **Packed with dual pocket protective pouch**
- **Sonin brand (Combo PRO).**

**No. 3T276.** Shpg. wt. 1.0 lbs. List $169.99.
Each ..... **$153.00**

# WALL SCRAPERS AND PUTTY KNIVES

Stanley wall scrapers and putty knives have carbon steel blades, hardened, tempered, and polished.

**A PROFESSIONAL™ WALL SCRAPER**

- Full tang blade permanently fastened to shatter-resistant nylon handle

**B PROFESSIONAL™ PUTTY KNIFE**

- Full tang blade permanently fastened to shatter-resistant nylon handle
- Available stiff or flexible

**C PROFESSIONAL™ JOINT KNIFE**

- Full tang blade permanently fastened to shatter-resistant nylon handle

**D WORKMASTER® WALL SCRAPER**

- Full tang blade permanently fastened to hardwood handle
- Flexible ground blade
- Available stiff or flexible

**E WORKMASTER® PUTTY KNIFE**

- Full tang blade permanently fastened to hardwood handle
- Available stiff or flexible

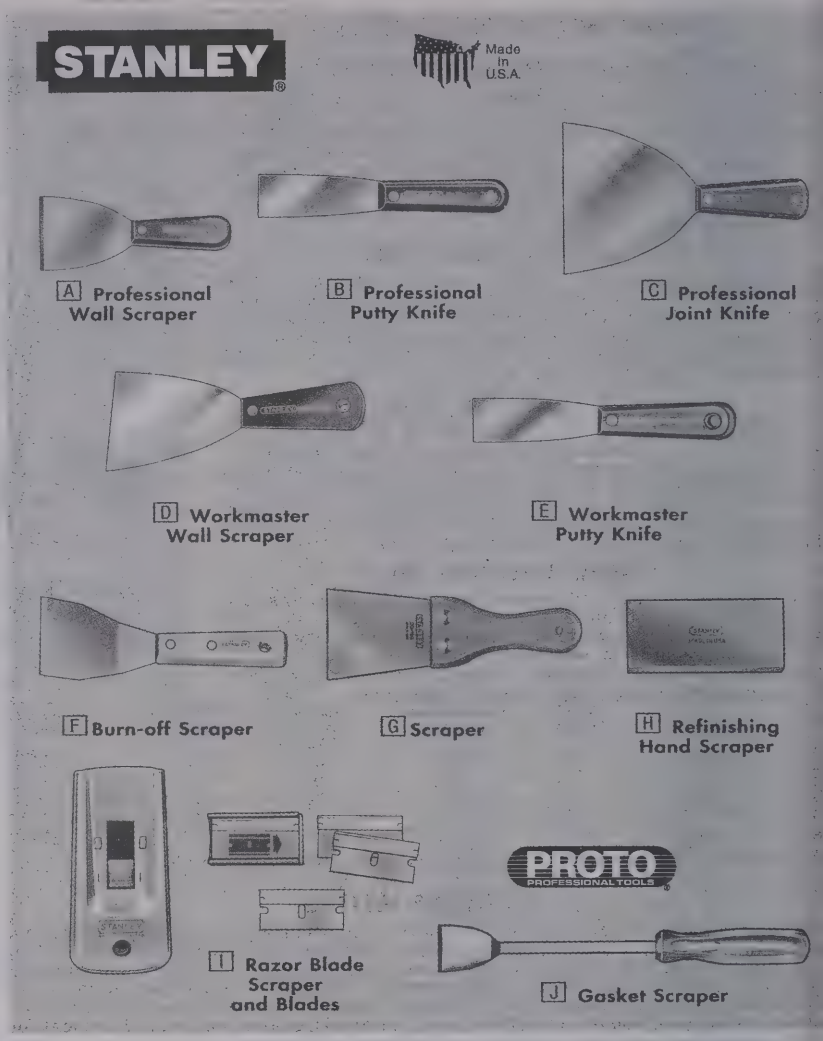
**F BURN-OFF SCRAPER**

- Heavy-duty steel blade bent at a 20°angle for easy paint removal with hardwood handle

**G SCRAPER**

- Used by painters and paper hangers
- Full-sized hardwood handle with lacquer finish

**H REFINISHING HAND SCRAPER**



- Thickness: 0.037″

**I RAZOR BLADE SCRAPER**

- Paint scraper with changeable, retractable blades
- Furnished with 5 single edge razor blades

**J GASKET SCRAPER**

- For removing gaskets and carbon, as well as many other uses
- Chrome plated alloy steel blade has big, comfortable fire-resistant handle

## BELTS, KNEE PADS, AND SUSPENDERS

A **Poly Web Belt.** 2¼" wide, army pistol-style belt. Adjustable to fit to 46" waists. For use with pouches and holders.

B **Leather Work Belt.** 1¾" wide. Basket weave embossing with rust-resistant, nickel-plated hardware. Fits waists 29 to 46".

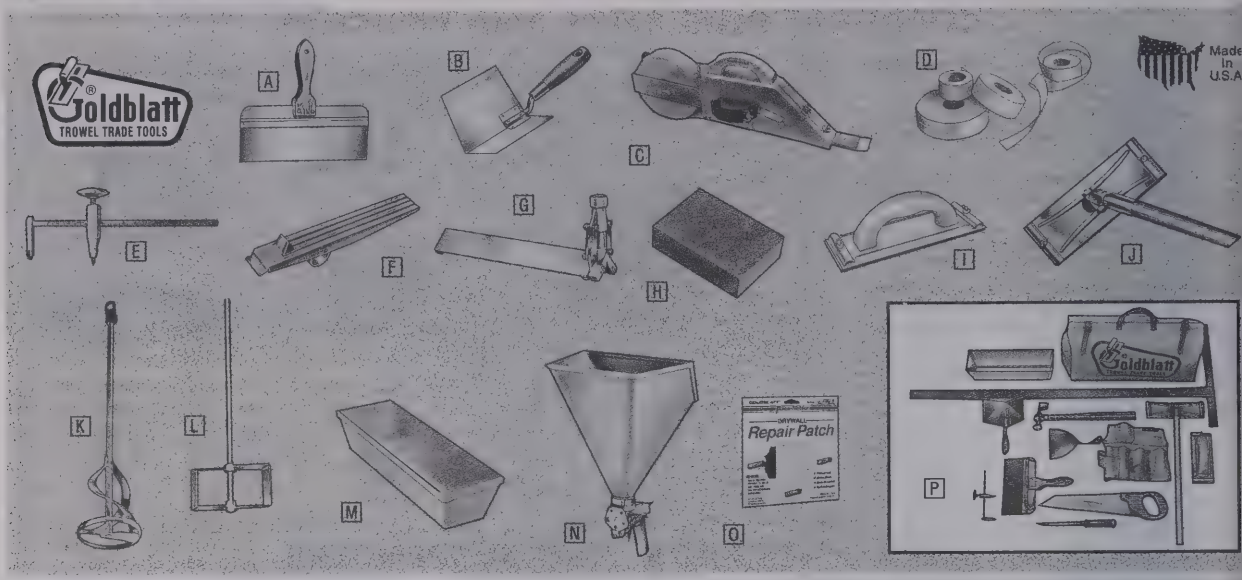
D **Poly Shield™ Knee Pads.** Hard shell polypropylene cap and tough, durable fabric. Thick foam rubber padding. Quick release elastic closures.

D **Non-Marring Knee Pads.** Designed for use on all interior floors such as wood, marble, and tile surfaces. Will not mar, scratch, or scuff floors. Ergonomically designed cap flexes with knee. Extended cap covers entire knee joint area. Slip-resistant ridges on cap.

E **Foam Rubber Knee Pads.** Made of contoured foam rubber. Single strap. Soft water repellent.

F **Professional Foam Rubber Knee Pads.** Made of comfortable, contoured foam rubber. Rubber is extra thick at knee. Two 2" wide adjustable web straps hold each pad securely in place. Perfect for use on cement, masonry, asphalt, or roof surfaces.

G **Soft Cushion Knee Pads.** Tough nylon fabric covering comfortable foam rubber padding. Water resistant. Two adjustable hook and loop closure straps to secure each knee pad.



H **Work Suspenders.** Industrial quality 2" wide adjustable front straps to reduce strain on back and hips. Nickel plated hardware. Polypropylene and elastic combination for comfort. Red color.

I **Heavy-Duty Tool Bag.** Extra-heavy 100% cotton canvas; top grain moccasin leather reinforcement of bag bottom. 24" long x 9" deep. Top grain leather handles, bilts, and plated metal buckles. Fiberboard bottom helps bag retain its shape.

# DRYWALL HAND TOOLS

## A B C TAPING TOOLS

Blue or stainless steel blade knives have rustproof aluminum mountings with wood handles. Ultra-flexible taping knives have solid plastic handle welded to blade mounting. Blade depth for all knives is 3".

## D DRYWALL TAPES

Flex Corner® tape has 2 galvanized metal strips for perfect corners. Use on any angle, cathedral or drop ceilings, around bay windows, and angles impractical for ordinary beads. Drywall mesh tape is self-adhesive and requires no special preparation.

## E F G H I J DRYWALL ACCESSORIES

## K L M MUD MIXERS AND PANS

Mud mixers fit any 3/8 or 1/2" drill. Square mud masher is 24" long, 5" square, made of heavy-duty wire and has a wood handle. Steel and plastic mud pans available.

## N PATTERN GUN AND HOPPER

Aluminum hand gun, 3/32 and 1/8" air nozzles, trigger lock, and plastic hopper. Requires 7.0 CFM @ 25 PSI. Air hose not included.

## O REPAIR PATCHES

Permanent aluminum patches for repairing holes and surface damage in drywall, plaster, and paneling. Self-adhesive.

## P 13-PC. APPRENTICE TOOL KIT

Includes one each of the following: T-square with lip, pole sander, drywall saw, 6" elastic knife, all-around circle cutter, 16" checker head drywall hammer, 20" tool bag, corner taping tool, hand sander, utility saw, 12" stainless steel mud pan, tool pouch, and 10" taping knife.

### ORDERING HAS NEVER BEEN EASIER!

**Whether you phone, fax, write or stop by your local branch to place an order, Grainger can tailor sales terms to meet your needs. Ask about establishing an open line of credit or pay with your VISA, MasterCard, or American Express card.**

# NON-SPARKING, NON-MAGNETIC TOOLS AND TOOL KITS

- Recommended for use in potentially flammable environments
- For use in confined space and hazardous areas
- Corrosion-resistant
- Non-magnetic for computer, electronic assembly, and MRI applications
- Conforms to OSHA and Factory Mutual Certified requirements
- Used in utility, construction, grain elevators
- Ideal for use with volatile resins, paints, inks, flammable/explosive and other compounds
- Offers protection against fires and explosions
- Produced from nickel-aluminum bronze alloy, copper alloy, non-ferrous alloys, beryllium-copper alloy

## HAZMAT RESPONSE TOOL KIT

- 5-Gallon polyurethane bucket with plastic handle holds 17 non-sparking, non-magnetic, corrosion-resistant hand tools
- Non-metallic, removable divider keeps tools upright and within easy reach
- Screw-on lid seals container until tools and bucket can be properly cleaned
- Bucket handle has 80,000 psi tensile strength
- Tools are Factory Mutual approved for non-sparking use
- Contains: Shoe Handle Brush, 9" Crate Opener; 16 oz. Claw Hammer; 1¼" Putty Knife; 5¾" Blade Knife; 12" Tongue & Groove Pliers; 7" Long Nose Pliers with Cutter; 8" Combination Pliers; 3" Scraper; 7/16" Slotted and No. 3 Pt. Phillips Screwdrivers; 12" Tin Shears; 8 and 12" Adjustable Wrenches; 14" Pipe Wrench; Bung Wrench; and 15" Deck Scraper

## MECHANICAL JAW PULLERS

Pulley pullers for any automotive, industrial, agricultural or construction equipment pulling job. These mechanical pullers easily remove press-fitted parts.

Jaws and crossheads are constructed of high quality forged steel. Alloy steel forcing screw has a special coating to resist galling or seizing under heavy loads. Available in 2-jaw, 3-jaw and combination 2/3-jaw heads with 1, 2, 5, 7, 13, and 17½ ton pulling capacities. (No. 5U727 comes with reversible and nonreversible sets of jaws.)

| Capacity Tons | Jaw Style | Jaw (In.) Reach | Jaw (In.) Spread | Screw Size (In.) | OTC Model | Stock No. | List | Each | Shpg Wt. |
|---|---|---|---|---|---|---|---|---|---|
| **2-JAW** | | | | | | | | | |
| **1** | Nonreversible | 2⅛ | 3¼ | 5/16-24 x 3⅞ | 1020 | **4CR45** | $28.95 | **$24.60** | 0.4 |
| **2** | Reversible | 3¼ | 4 | 3/8-24 x 4⅞ | 1022 | **4CR46** | 27.95 | **23.76** | 0.9 |

| **5** | Reversible | 5½ | 7 | 9/16 - 20 x 6 15/16 | 1027 | **1A802** | 57.95 | **50.15** | 4.0 |
| **5** | Reversible - Nonreversible | 5½ 3½ | 7 4½ | 9/16 - 20 x 6 15/16 | 220297 | **5U727** * | 71.25 | **63.05** | 3.8 |
| **7** | Reversible | 5 | 10½ | 11/16-18 x 9 | 1037 | **4CR48** | 93.95 | **78.05** | 6.1 |
| **7** | Nonreversible | 8¾ | 11 | 11/16 - 18 x 9 | 1038 | **1A803** | 93.95 | **78.95** | 8.0 |
| **13** | Nonreversible | 15¼ | 17 | 13/16 - 16 x 12 | 1042 | **1A804** | 199.95 | **181.00** | 18.0 |

(*) Nonreversible jaws have deeper jaws.

***CAUTION:*** It is impossible to predict the exact force required for every pulling job: Set-up requirements and the size, shape and condition of the part being pulled vary a great deal. In addition, the OTC Pulling System is so versatile it is possible that components in a pulling set-up may have different tonnage ratings. The lowest "capacity" component, then, determines the capacity of the set-up. For example: When an accessory with a 1 ton capacity is used with a 10 ton capacity puller, the set-up can only be used at a force of 1 ton.

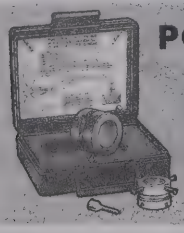
POSI LOCK

Made in U.S.A.

No. 1AC03 2-Jaw

No. 1AC05 3-Jaw

## MECHANICAL JAW PULLERS



Gear and bearing pullers have patented Safety/Control Cage® to secure position of the jaws and provide maximum protection for mechanic. The safety cage also makes using a POSI LOCK puller a one-man operation. Pullers are positive locking and self aligning; pullers can clamp onto a rounded surface or pull from a groove, eliminating the need for accessories.†

| Capacity (Tons) | Jaw Reach (In.) | Jaw Spread (In.) | Screw Size (In.) | Posi Lock Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| **2-JAW** | | | | | | | | |
| **14** | 10 | 15 | 3/4 - 14 x 1⅛ | 210 | **1AC03** | $182.00 | **$173.00** | 14.0 |
| **3-JAW** | | | | | | | | |
| **5** | 4 | 5 | 9/16 - 16 x 9 11/16 | 104 | **5U719** | 116.00 | **110.20** | 4.1 |
| **10** | 6 | 7 | 5/8 - 14 x 12¾ | 106 | **1AC04** | 153.00 | **145.35** | 8.0 |
| **20** | 10 | 15 | 3/4 - 14 x 19¼ | 110 | **1AC05** | 216.00 | **205.25** | 17.0 |

(†) Pullers can pull from the groove of a bearing race, in most situations eliminating the need for a bearing separator. You may also pull the bearing race from behind although distortion of the race may occur.

POSI LOCK

Made in U.S.A.

No. 5U720

## HUB PULLER ADAPTER SET

**For use with 5-ton, 3-jaw puller No. 5U719** to remove fans and blower wheels on HVAC equipment, convection ovens, chillers, freezers, pumps, defrosters, exhaust and ventilating fans. Works on hub diameters of 2" or less.

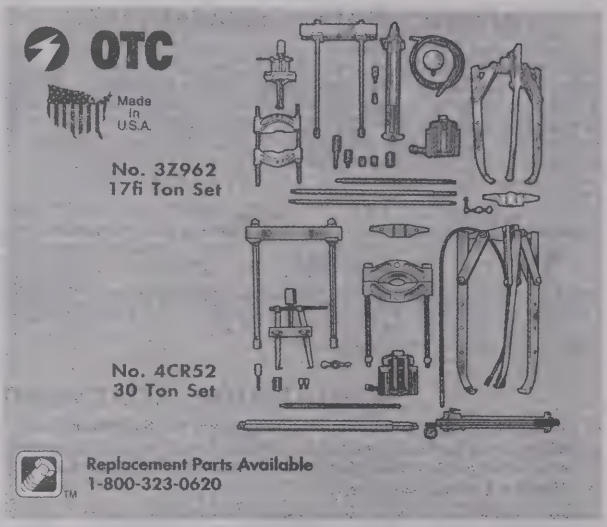
**Includes** one small collar (1¼ and 1½" ID), one large collar (1¾ and 2" ID), one tip reducer/extender, 8 square head set screws, and carrying case. Posi Lock brand (HP-1).

**No. 5U720**. Shpg. wt. 3.7 lbs. List $101.00. Each ..... $95.9

*The only source you need for tools as tough as you are.*

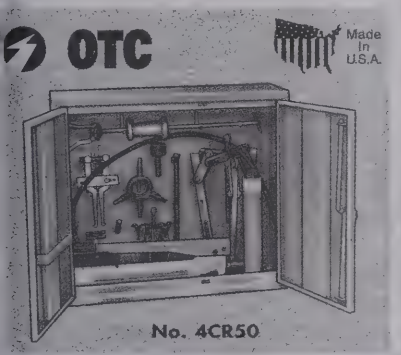
# HYDRAULIC AND MANUAL PULLER SETS

## 17½ AND 30 TON HYDRAULIC PULLER SETS



**or parts removal and installation** on many models of cars, trucks, ractors, power shovels, road building machinery, etc. Maintenance operations involving the removal and replacement f gears, bearings, wheels, and other press-fit parts, can easily be one.

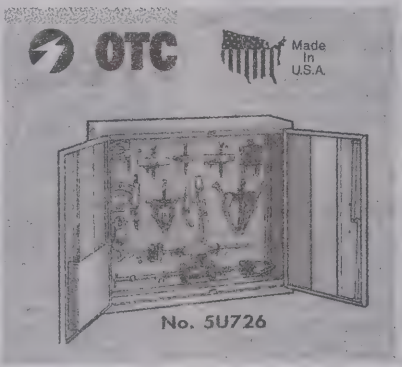
**7½ Ton Set consists of** single-stage hydraulic hand pump assem-ly, 17½ ton ram with threaded insert, hose half coupler with ust cap, 6 ft. hydraulic hose, tee adapter and pressure gauge. ncludes 17½ ton capacity push-puller with 16½" legs and 17½ on 3-jaw hydraulic puller. Accessories include male-female hreaded adapters: 1"-8F x ⅝"-18, two female threaded adapters ize ⅝"-18 x ¾"-16; bearing cup pulling attachment; bearing ulling attachment; 22½" puller leg; speed crank; pushing screw; ushing adapter; and 2-jaw head for the 3-jaw puller. OTC brand 1688).



**lo. 3Z962.** Shpg. wt. 182.0 lbs. List $2056.00. Each ..... **$1712.00**

**0-Ton Set consists of** single-stage hydraulic hand pump assembly, 0-ton ram with threaded insert, tee adapter, pressure gauge, 6 ft. ydraulic hose, hose half coupler with dust cap, 30-ton hydraulic ush puller with 18 and 28" legs, 30-ton 3-jaw hydraulic puller. ccessories include bearing pulling attachment, bearing cup ulling attachment, speed crank, ram cap, pushing adapter, djusting screw, 2-jaw head for the 3-jaw hydraulic puller, and wo female thread adapters, sizes 1"-14 x 1"14. OTC brand (1689).

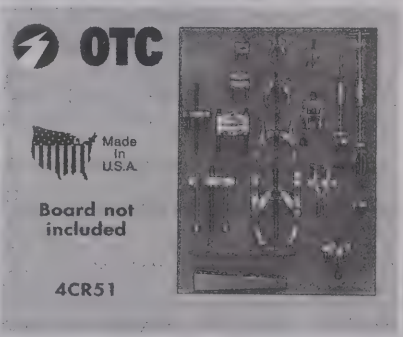
**lo. 4CR52.** Shpg. wt. 334.0 lbs. List $3266.00. Each ..... **$2854.00**



## 10-TON HYDRAULIC/MANUAL PULLER SET

**t includes** hydraulic pump, hose, ram set, vo jaw pullers, bearing pulling attach-ent, slide hammer puller, forcing screw, al hook, pusher adapter, cross block, 3-way head, medium and long jaws, and etal storage cabinet. OTC brand (1670).

**o. 4CR50.** Shpg. wt. 140.0 lbs. List $1950.00. ach ..... **$1553.00**



## 7-TON PULLER SET

**Set includes:** Two 2/3 jaw pullers with set of 3 long jaws for each, one gear and bearing puller, flange-type puller, steering wheel puller, pilot bearing puller, slide hammer puller, pitman arm puller, two bearing separators, rear axle pulling adapter, and metal storage cabinet. OTC brand (1676).

**No. 5U726.** Shpg. wt. 93.0 lbs.List $1034.00. Each ..... **$866.50**

## 13-TON PULLER SET

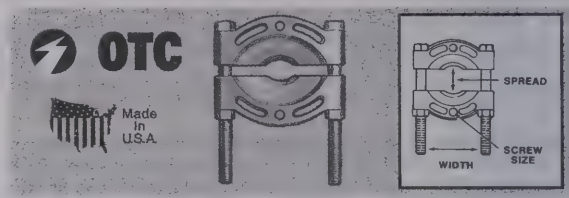
Versatile set removes gears, bearings, shafts, pinions, bearing outer races, and other tightly fitted parts. Set includes a push-puller, jaw pullers, bearing pulling attachments, specialized pullers, and many accessories. For use on all makes and models of cars, light trucks, farm/construction equipment and plant machinery. OTC brand (1675).

**No. 4CR51.** Shpg. wt. 74.0 lbs. List ..... $1306.00
Each ..... **$1064.00**

## UNIVERSAL OUTSIDE THREAD CHASERS

- **Precision dies restore threads to original condition**
- **Eliminates need for thread-cutting equipment**
- **Die cast alloy V-pad will not damage threads; pads can be replaced**
- **Capacity—1¼ to 5" OD**
- **Standard Thread Chaser No. 4CR54 includes 6 dies—threads/inch: 4, 5, 6, 7, 7½, 8, 9, 10, 11, 11½, 12, 14, 16, 18, 20, 24**
- **Metric Thread Chaser No. 4CR53 (for use with No. 4CR54) includes 3 dies—1.0-1.25-1.5-1.75; 2-2.5-3.0-3.5; and 4mm**

**o. 4CR54.** Standard Thread Chaser (7402). Shpg. wt. 2.8 lbs. List $88.95. Each ..... **$78.45**

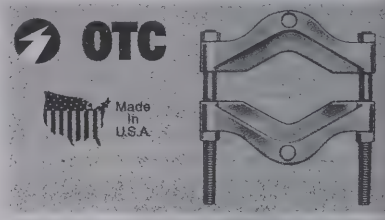


**o. 4CR53.** Metric Thread Die Set (202817). Shpg. wt. 0.2 lbs. List $21.95. Each ..... **$19.11**

# BEARING/V-BELT ATTACHMENTS, SLIDE HAMMER PULLERS, AND BLIND HOLE PULLER

## BEARING PULLING ATTACHMENTS

For use on jobs where space does not permit use of puller jaws directly behind part to be removed. These attachments feature knife-like edges which are easily placed behind the part to secure a gripping surface, even in tight spaces. When used with manual jaw pullers, jaws grip attachment's outer edge; when used with push-puller, puller legs are threaded into attachment's 2 tapped holes. Lifetime Limited Warranty.



| Spread (In.) Maximum | Spread (In.) Minimum | Screw Size | Screw Width (In.) | For Use with Jaw or Push Pullers Nos. | OTC Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| 15/16 | 1/4 | 5/16"–18 | 11/16 | 5U722, 4CR45, 4CR46 | 1121 | 5U724 | $23.95 | $20.04 | 0.7 |
| 2 | 1/8 | 3/8–16 | 27/16 | 1A799, 1A802, 5U730 | 1122 | 1A807 | 29.95 | 25.70 | 1.5 |

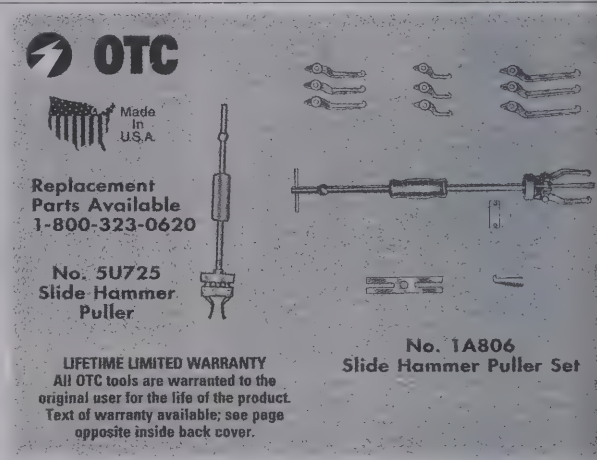
Replacement parts available. Call 1-800-323-0620.

## V-BELT PULLING ATTACHMENT

- **Attachment clamps down into V-groove to distribute load**
- **When used with manual jaw pullers, jaws grip attachment's outer edge; when used with push-puller, legs are threaded into separator's 2 tapped holes**
- **Lifetime Limited Warranty**

| Spread (In.) Max. | Spread (In.) Min. | Screw Size (In.) | Width (In.) | For Use with Jaw or Push Pullers Nos. | OTC Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| 5⅞ | 1¾ | 5/8"-18 | 6 | 1A800, 1A803, 1A805, 4CR47, 4CR48 | 679 | 4DG62 | $69.25 | $59.20 | 4.4 |

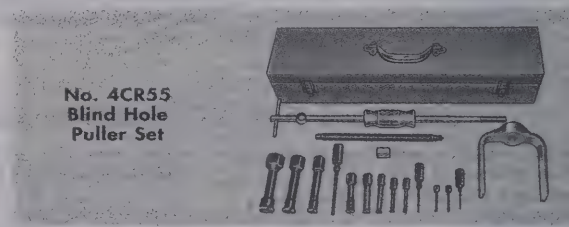


## SLIDE HAMMER PULLER AND SET

**Slide Hammer Puller.** Versatile tool handles various inside pulling jobs such as flywheel pilot bearings, and motor, generator, and magnetic bearings. Reach is 3/4". Spread capability is 1/2 to 1½". OTC brand (1170).

**No. 5U725.** Shpg. wt. 3.8 lbs. List $69.95. Each..... **$60.00**

**Slide Hammer Puller Set.** Handles many different pulling jobs involving gears, bearings, grease retainers, oil seals, timing gears, harmonic balancers and other tight-fitted parts. Two or three puller jaws (included) may be used for inside pulling jobs such as bearing cups, or outside bearing applications. Slide hammer can be used independently by removing puller head and jaw assembly. Set includes: reversible jaw slide hammer with 2½ lb. hammer; 3 medium jaws; 3 pilot bearing jaws; 3 long jaws; puller hook for removing oil seals and bearings; cross block for removing timing gears, pulleys and other parts having tapped holes. Cross block uses cap screws up to 3/8" dia. with spread capability of 1⅞"–5⅝". OTC brand (1178).



**No. 1A806.** Shpg. wt. 10.0 lbs. List $235.00. Each ..... **$192.25**

## BLIND HOLE PULLER SET

**Provides a complete selection of expanding collets** ranging in size from 5/16 to 1¾". Collet is placed through bore of part to be removed, then expanded with actuator pin so that lips of collet secure positive grip for pulling. Force is exerted by means of forcing screw & bridge assembly or a slide hammer. Actuator pins (1/8, 3/16, 1/2" dia), hammer, forcing screw, shank, & tee bar assembly included. Comes in metal box. OTC brand (981).

**No. 4CR55.** Shpg. wt. 20.0 lbs. List $840.00. Each..... **$683.00**

**IF YOU'RE IN A BIND, CALL GRAINGER**

**If it's an emergency, chances are Grainger's got the items you need today.**

# PUSH-PULLERS, SHAFT AND STEP PLATE ADAPTERS

## PUSH-PULLERS

OTC

Made in U.S.A.

No. 1A805 Push-Puller

No. 5U728 Flange-Puller

**LIFETIME LIMITED WARRANTY**

**All OTC tools are warranted to the original user for the life of the product. Text of warranty available, see page opposite inside back cover.**

**Manual Push-Pullers** for maintenance operations involving the removal and installation of gears, bearings, shafts, pulleys, and other press-fit parts. Used to apply pushing or pulling force. Nos. 1A805 and 5U733 can be used with bearing separator Nos. 1A808, 1CR49, or 1A809. Leg and leg ends included. No. 5U730 can be used with bearing separator No. 1A807. Leg and leg ends included. No. 5U729 may be used with any cap screws up to 1/2" diameter (cap screws not included). No. 5U728 is a flange type puller for pulling gears and parts having two or three tapped holes. Forcing screw is 5/8"-18 x 5½". Includes three 3/8"-24 x 3" long and three 3/8"-16 x 3" long cap screws. OTC brand.

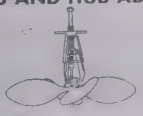
**No. 5U732.** Shpg. wt. 1.3 lbs. List $41.65. Each ..... **$34.70**

## RECOMMENDATIONS FOR PULLING FAN BLADES AND BLOWER WHEELS



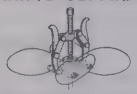
### BASIC PULLING RECOMMENDATIONS

Before starting any pulling operation, be sure power is shut off to the fan or blower. If a fan blade has a Woodruff key, remove it before starting pulling. Never pull on wings of the fan blade, use the spider hub for best results. Use of a penetrating fluid beforehand can make pulling easier. Use an appropriate shaft protector to fit the application.

### POSI LOCK PULLERS AND HUB ADAPTERS

Pulling Blower Wheel

Pulling Fan Blade



**(5U720) Hub Puller Adapter Set** is designed for use with POSI LOCK pullers in the removal of blower wheels and fan blades.

**For Blower Wheels and Fan Blades** with hub diameters of 2" or less, use one of the two collars found in Set No. 5U720 with puller No. 5U719. Cage I.D. must be 5" or greater to allow puller access.

### OTC PULLERS AND BEARING SEPARATORS

Pulling Blower Wheel

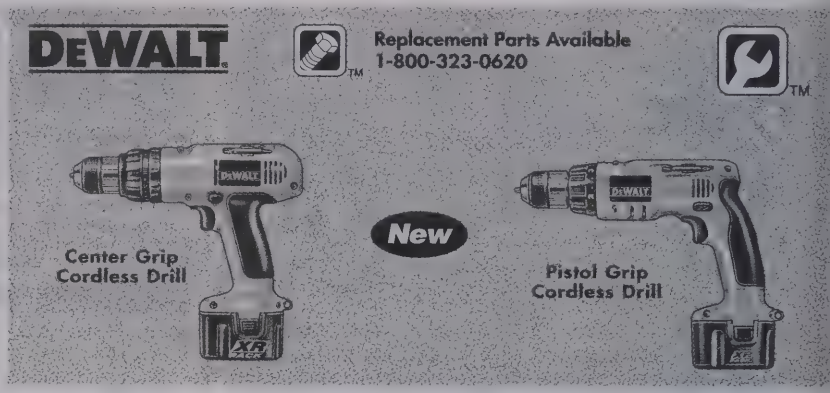
Pulling Fan Blade

**Locate the Bearing Separator** with recess behind fan's spider hub for self centering, adjusted slightly larger than the shaft diameter to prevent damage to shaft.

**For Blowers** with accessible hubs, use an appropriately sized bearing separator. Select a puller to accommodate the blower's size. Cage I.D. must be 5" or greater to permit bearing separator attachment.

**For Fan Blades** with or without accessible hubs a push puller or bearing puller may be used with a bearing separator. Be sure the separator's threaded holes or edges are accessible around the spider and between the fan's wings when separator is mounted on the spider. **Other factors to note:** bearing separator thread dimensions; bearing puller reach and spread capacity; push puller maximum cap screw diameter.

**NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE**



**Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.**

# CORDLESS DRILLS

## DeWALT CORDLESS DRILLS

**Feature:**

- Keyless chuck
- Variable-speed reversing (VSR)
- Two speed ranges
- Ball and roller bearings
- Replaceable brushes
- Electric brake
- Anti-slip rubber handle except Nos. 3MJ83, 3MJ84 and 4TG94
- UL Listed, CSA Certified

# CORDED PISTOL-GRIP DRILLS

Replacement Parts Available 1-800-323-0620

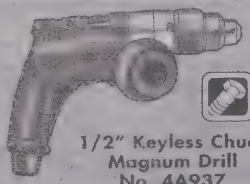
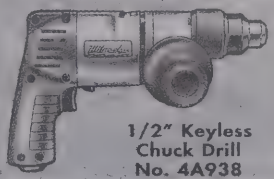
## 1/4" DRILL No. 2Z724

**Type:** Variable speed reversing
**Housing:** Cast aluminum with glass reinforced nylon handles
**Switch:** Trigger-type switch
**Cord:** 8 ft., 3-cond. rubber cord
**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 1/4" in steel, 1½" flat boring in wood, 1/2" auger in wood



## 3/8" DRILLS Nos. 6Z038 & 2Z725

**Type:** Variable speed reversing
**Housing:** Cast aluminum with glass reinforced nylon handles
**Switch:** Trigger-type switch
**Cord:** No. 2Z725 8 ft., 2-cond. Quik-Lok cord set and heavy-duty chuck, 6Z038 8 ft., 3-cond. cord
**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 3/8" in steel, 1⅛" hole saw in steel, 1½" flat boring in wood, 7/8" auger in wood, 2" hole saw in wood



## 1/2" MAGNUM™ DRILLS Nos. 4Z371 & 6Z320

**Type:** Variable speed reversing
**Housing:** Cast aluminum with glass reinforced nylon handles
**Switch:** Trigger-type switch
**Cord:** 8 ft., 3-cond. Quik-Lok cord
**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 1/2" in mild steel, 1½" flat boring in wood
**Features:** Side handle

Replacement Parts Available 1-800-323-0620

## 3/8" MAGNUM™ DRILLS Nos. 6Z039, 1Y007 & 3ZW46

**Type:** Cariable speed reversing
**Housing:** Cast aluminum with glass reinforced nylon handles, No. 3ZW46 is double insulated
**Switch:** Trigger-type switch
**Cord:** 8 ft., 3-cond. cord (No. 3ZW46 has 2-cond. cord)
**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 3/8" in mild steel, 3/4" auger in wood, 1½" flat boring in wood, 2¾" hole saw in wood. No. 3ZW46: 3/8" in mild steel, 1" flat boring in wood, 1¾" hole saw in wood, 3/8" in masonry
**Features:** Side handle: Nos. 1Y007 & 6Z039; Keyless chuck and no side handle: No. 3ZW46

## 1/2" KEYLESS CHUCK MAGNUM No. 4A937

**Type:** Variable speed reversing
**Housing:** Cast aluminum with glass reinforced nylon handles
**Switch:** Trigger-type switch
**Cord:** 8 ft., 3-cond. Quik-Lok cord
**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 1/2" in mild steel, 1/2" in masonry, 1½" flat boring in wood
**Features:** Side handle

## 1/2" HOLE SHOOTER Nos. 4A938 & 6Z321

**Type:** Variable speed reversing
**Housing:** Cast aluminum with glass reinforced nylon handles
**Switch:** Trigger-type switch
**Cord:** 8 ft., 2-cond. Quik-Lok cord set
**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 1/2" in mild steel and 1½" flat boring in wood
**Features:** Side handle 6Z321 has keyed chuck and 4A938 is keyless

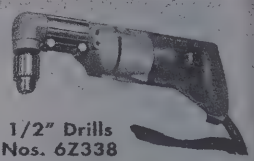
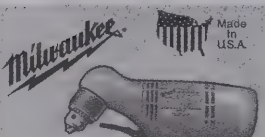
# CORDED RIGHT ANGLE DRILLS



Replacement Parts Available 1-800-323-0620

## 1/2" HOLE HAWG™ DRILLS Nos. 6Z041, 2Z965, & 3ZW50

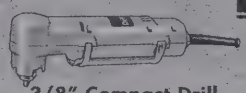


**Type:** Reversing
**Spindle:** 5/8"-16
**Handles:** 2-position pipe handle; 3-position spade handle
**Cord:** 8 ft., 3-cond. rubber cord
**Power:** For AC operation only
**Approvals:** UL Listed, CSA Certified
**Capacities:** For use with up to 4⅝" self-feed bit in low speed and up to 1⅜" selfeed bit in high speed 3ZW50 has 4¾" extra reach and dial speed control
**Includes:** No. 6Z041 drill only; Nos. 2Z965 & 3ZW50 include drill and steel carrying case

## 1/2" MAGNUM™ KIT No. 4Z564

**Type:** Reversing
**Spindle:** 1/2"-20
**Handles:** Head and side handle swivels 360° and can be locked in any position
**Cord:** 8 ft., 3-cond. Quik-Lok rubber cord
**Power:** For AC operation only
**Approvals:** UL Listed, CSA Certified
**Capacities:** For use with up to 2⅛" self-feed bits
**Includes:** Drill, right angle drive, open end wrench, socket wrench, knockout pin, side handle with clamp, 8 ft. Quik-Lok cord set, and steel carrying case

## 1/2" DRILL KITS Nos. 6Z338 & 2Z729



**Type:** No. 6Z338 V.S.R.*; No. 2Z729 is single speed nonreversing
**Spindle:** 1/2"-20
**Handles:** Head and side handle swivels 360° and can be locked in any position
**Cord:** 8 ft., 3-cond. Quik Lok cord
**Power:** For AC operation only
**Approvals:** UL Listed, CSA Certified
**Capacities:** For use with up to 2⅝" self-feed bits
**Includes:** Drill, right angle drive, open end wrench, socket wrench, chuck remover bar, side handle, and steel carrying case

# CORDED D-HANDLE DRILLS

## 1/2" COMPACT REVERSING DRILLS Nos. 2Z727 & 6Z042

**Type:** Reversing, 1/2"
**Housing:** Cast aluminum gear housing
**Handles:** Removable pipe and spade handles for close quarter drilling
**Cord:** 8 ft., 3-cond. rubber cord
**Power:** No. 6Z042 is for AC only; No. 2Z727 is AC/DC
**Approvals:** UL Listed, CSA Certified
**Capacities:** No. 6Z042—1/2" in mild steel, 3½" hole saw and 2⁹⁄₁₆" self-feed bit in wood; No. 2Z727—1/2" in mild steel

## 3/4" REVERSING DRILL No. 6Z330

**Type:** Reversing, 3/4"
**Housing:** Cast aluminum gear housing
**Handles:** Removable pipe and spade handles for close quarter drilling
**Cord:** 8 ft., 3-cond. rubber cord
**Power:** AC/DC
**Approvals:** UL Listed, CSA Certified
**Capacities:** 3/4" in mild steel; 6" hole saw in wood, 4⅝" self-feed bit in wood

## 3/4" REVERSING DRILL No. 4KV41

**Type:** Reversing, 3/4"
**Housing:** Cast aluminum gear housing
**Handles:** Removable top pipe handle and rear spade handle for close quarter drilling
**Cord:** 8 ft., 3-cond. cord
**Power:** AC/DC
**Approvals:** UL Listed, CSA Certified
**Capacities:** 3/4" in mild steel, 4" in wood
**Features:** 3/4" chuck

## 1/2" REVERSING DRILLS Nos. 2Z726 & 6Z324

**Type:** Trigger speed control reversing
**Housing:** Cast aluminum gear housing
**Handles:** Glass-reinforced nylon spade and side handles
**Cord:** 8 ft., 3-cond. cord (No. 6Z324 & has Quik-Lok cord)
**Power:** AC only
**Approvals:** UL Listed
**Capacities:** 1/2" in mild steel
**Features:** Triple gear reduction

33° Angle Drive Kit stretches up to 30"; drills up to 2 9/16" dia. holes. Includes extension tube, side handle, drive shaft with hex sockets on both ends, and 2 clamping collars. Fits Nos. 2Z726 and 6Z324. Milwaukee brand (48-06-2860).

**Approvals:** UL Listed
**Max. Torque:** 290 ft.-lbs.

## 1/2" IMPACT WRENCH No. 2Z406

**Type:** Production-duty for continous use with extra heavy-duty anvil for heavy maintenance work
**Housing:** Cast aluminum
**Feature:** Full power in reverse
**Switch:** Trigger switch
**Cord:** 15 ft. heavy-duty 3-cond. cord
**Power:** AC/DC
**Approvals:** UL Listed
**Max. Torque:** 330 ft.-lbs.

## 3/4" IMPACT WRENCH No. 3MJ17

**Type:** Heavy-duty
**Housing:** Die-cast aluminum ball bearing construction
**Features:** Detent-pin anvil for more secure socket retention
**Switch:** Two finger rocker switch
**Cord:** 8 ft. rubber 2-cond cord
**Power:** AC/DC
**Approvals:** UL Listed, CSA Certified
**Max. Torque:** 300 ft.-lbs.

## 1/2" IMPACT WRENCH No. 3MJ16

**Type:** Heavy-duty
**Housing:** Die-cast aluminum
**Features:** Compression ring anvil for faster socket changes
**Switch:** Two finger rocker switch
**Cord:** 8 ft. rubber 2-cond cord
**Power:** AC/DC
**Approvals:** UL Listed, CSA Certified
**Max. Torque:** 240 ft.-lbs.

# CORDED IMPACT WRENCHES

DEWALT

3/4" Impact Wrench No. 4KX33

Replacement Parts Available 1-800-323-0620

Milwaukee

1/2" Impact Wrench No. 6Z049

Replacement Parts Available 1-800-323-0620

## 3/4" IMPACT WRENCH No. 4KX33

**ype:** Production duty
**lousing:** All aluminum
**eatures:** Full power in reverse; detent-pin anvil for more secure socket retention
**witch:** Trigger
**ord:** 8 ft. 3-cond. cord
**ower:** AC/DC
**pprovals:** UL Listed, CSA Certified
**lax. Torque:** 350 ft.-lbs.
**ncludes:** Two rubber cushion rings and adjustable side handle

## 1/2" IMPACT WRENCHES Nos. 6Z049 & 6Z358

**Type:** For heavy-duty industrial applications and equipment maintenance
**Housing:** Double insulated, aluminum gear case; glass reinforced motor housing
**Feature:** Full power in reverse
**Switch:** Heavy-duty two finger rocker switch
**Cord:** 8 ft. 2-cond. cord
**Power:** AC/DC
**Approvals:** UL Listed, CSA Certified
**Max. Torque:** 240 ft.-lbs.
**Includes:** No. 6Z049 tool only; Kit No. 6Z358 includes six hex 1/2" drive sockets from 1/2" to 13/16"

# DRILL BIT SETS

## PILOT POINT™ DRILL BIT SETS

No. 4KW59

- Exclusive Pilot Point™ design eliminates walking, keeps the bit on course, and prevents lock-up at breakthrough
- Acute cutting edges increase drilling speed and produce a clean, smooth hole with minimal burrs and prevents lock-up at breakthrough
- Black oxide-coated M7 high speed steel for heavy-duty applications
- Back taper minimizes friction for less wear and longer life
- Enlarged flute chamber maximizes chip removal and prevents binding when drilling deep holes

### PILOT POINT DRILL BIT SETS

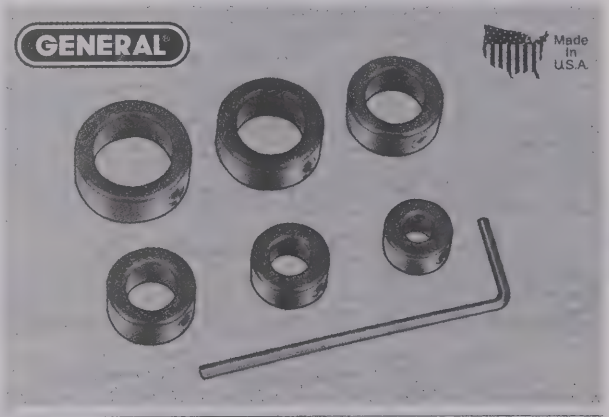
# DRILL GUIDE AND DRILL STOP SET

## DRILL GUIDE

- For use with a portable electric drill, brings drill press accuracy to hand-held drilling jobs
- Drills accurately 90° or variable angles with built-in protractor scale
- Adjusts to 45° angle in either direction of vertical
- Built-in drill depth stop
- Slide lock for sanding and buffing applications
- Anchoring pins hold guide securely in place on flat surfaces, narrow edges, or large tubing
- V-groove for positioning round stock, pipe, or tubing
- Use 3/8 or 1/2" electric drills with standard 3/8" x 24 threaded shaft
- Comes complete with chuck, adapter, and chuck key
- Portable and lightweight, folds flat for tool box storage
- General brand (36/37)



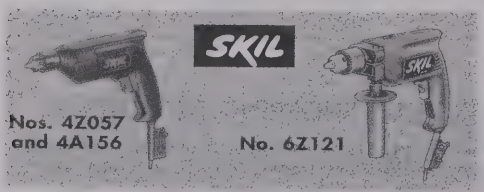
**No. 3ZH18.** Shpg. wt. 2.2 lbs. List $46.24. Each .....$41.65

## DRILL STOP SET

- Positive depth control assures exact predetermined hole depths
- For use on twist or brad point drills to prevent excessive drill penetration
- Black oxide finish on cold rolled steel
- Set includes hex wrench for locking ring adjustment
- Capacities: 3/16, 1/4, 5/16, 3/8, 7/16, and 1/2"
- General brand (S838)

**No. 3ZH52.** Shpg. wt. 0.1 lbs. List $11.82. Each .....$10.64

**NATIONWIDE BRANCH NETWORK WITH LOCAL ACCESS IS YOUR SHOPPING ADVANTAGE**



Grainger's network of more than 350 local branches provides you nationwide access to our broad selection of product offerings. And with 30-minute "Will Call" service or 24-hour shipping on in-stock items, help is as close as a phone call away. Check the Branch Locations listed in the front of this catalog for the location closest to you.

## SKIL WORKSHOP DRILLS Nos. 4Z057, 4A156 & 6Z121

**Type:** Variable speed reversing
**Housing:** Double insulated
**Switch:** Trigger switch
**Cord:** Nos. 4Z057 and 6Z121 have 6 ft., 2-cond. cord and dial speed control; No. 4A156 has heavy rubber 8 ft., 2-cond. cord; No. 6Z121 has built-in tool level guide

**Power:** AC only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 3/8" drills Nos. 4Z057 and 4A156: 3/8" in steel, 3/4" in hardwood; 1/2" drill No. 6Z121: 1/2" in steel, 1" in hardwood

**Replacement Parts Available**
**1-800-323-0620**

**DON'T FORGET THE BACK OF THE BOOK! MANY CROSS-REFERENCE GUIDES AND INDEXES HELP MAKE PRODUCT SELECTION EASIER**

**Besides complete National Brand and Product Indexes, the back section of this catalog contains a Terminology and Technical Data Section as well as a handy Stock Number/Page Number Cross-Reference Guide. And don't forget, if you need assistance with product selection, help is as close as a call to your local branch.**

# INDUSTRIAL-DUTY, EXTRA-HARD 1/4" SHANK SCREWDRIVER BITS

MAGNA™ Made in U.S.A.

Phillips Insert Bit

Phillips Power Bit

- Most widely used style

Slotted Insert Bit

Slotted Power Bit

- Common in telephones and electrical devices

Square Recess Bit

Square Recess Power Bit

Socket Hex Head Bit

- Popular in machine tools
- Widely used in automotive and appliance industry

Torx® Bit

- Provide positive torque control with no cam outs and allow maximum drive surface and longer drive life

Torx® Insert Bit

- Specially drilled tips which fit Torx tamper-resistant screws

POZIDRIV® Bit

- Popular in automotive applications

Hand Drive

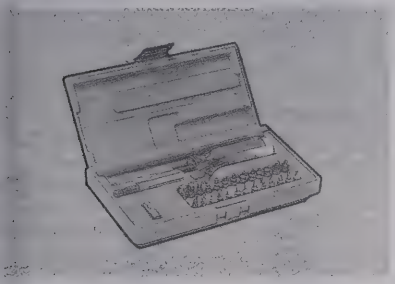
# INDUSTRIAL-DUTY, EXTRA-HARD 1/4" SHANK SCREWDRIVER BIT SETS



## MAGNA™ SCREWDRIVER BIT SETS

Made in U.S.A.

Industrial-duty, extra hard screwdriver bits are designed for all general purpose applications
Made to precision tolerances from special shock-resistant alloy steel for long life

- All bits have 1/4" shank
- Made in U.S.A.
- Bits feature quick change driving for both hand and power use

### 29-PC. MAGNETIC SCREWDRIVER AND BIT SET

**Watcha-Callit® KIT**

- For power and hand use
- Permanently magnetized screwdriver
- All bits are 1" long with 1/4" hex shank
- Magna brand (41786)

| Included in Set | |
|---|---|
| 8" Screwdriver | Hexagon Bit-7/64" |
| Spade Bit-#0-1 | Hexagon Bit-1/8" |
| Spade Bit-#3-4 | Hexagon Bit-9/64" |
| Spade Bit-#5-6 | Torx® Bit-T10 |
| Spade Bit-#8-10 | Torx® Bit-T15 |
| Spade Bit-#10-12 | Torx® Bit-T20 |
| Phillips Bit-#0 | Torx® Bit-T25 |
| Phillips Bit-#1 | Torx® Bit-T30 |
| Phillips Bit-#2 | Torx® Bit-T40 |
| Phillips Bit-#3 | Posidriv® Bit-#1 |
| Square Recess-#0 | Posidriv® Bit-#2 |
| Square Recess-#1 | Socket Adapter |
| Square Recess-#2 | 3" Bit Holder (for use with power tools) |
| Square Recess-#3 | Plastic Carrying Case |
| Hexagon Bit-5/64" | |
| Hexagon Bit-7/32" | |

**No. 5A774.** Shpg. wt. 1.3 lbs. List.....$39.82.
Each.....**$33.85;** Lots 3 **$32.17;** Lots 6 **$30.46**

### 16-PC. CORDLESS DRIVER SET

- For drilling holes or driving Phillips, slotted, Torx®, and/or square recess screws
- 1/4" hex shank
- Industrial-duty, extra-hard bits for driving heat treated or case hardened screws
- Cold forged for optimum toughness and resistance to wear
- Magna brand (45061)

| Included in Set | |
|---|---|
| Full Hex Phillips-#1 | 3/16" Nutsetter |
| Full Hex Phillips-#2 | 1/4" Nutsetter |
| Full Hex Phillips-#3 | 5/16" Nutsetter |
| Full Hex Slotted-5F-6R | 3/8" Nutsetter |
| Full Hex Slotted-8F-10R | |
| Full Hex Slotted-10F-12R | 2 Finder Sleeves |
| Torx® Bit-T15 | |
| Torx® Bit-T20 | |
| Full Hex Square Recess-R1 | |
| Full Hex Square Recess-R2 | |

**No. 4AHH4.** Shpg. wt. 0.5 lbs. List.....$22.02.
Each.....**$18.72**

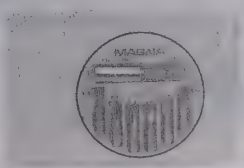
### 5-PC. DOUBLE END INSERT BIT SET

- All bits are 1½" long
- Includes most popular sized bits
- 1/4" hex shank

| Included in Set | |
|---|---|
| P1 Phillips Bit/#6 Slotted | T15 Torx/T20 Torx Sq. Recess 1 & 2 |
| P2 Phillips Bit/#8 Slotted | |
| P3 Phillips Bit/#10 Slotted | |

**No. 5F519.** Shpg. wt. 0.1 lbs. List.....$14.19.
Each.....**$12.06**

### 6-PC. TORX® TAMPER-RESISTANT INSERT BIT SET



- All bits are 1" long
- Specially drilled tips fit Torx tamper-resistant screws
- 1/4" hex shank

| Included in Set | |
|---|---|
| T10 | T25 |
| T15 | T27 |
| T20 | T30 |

**No. 5F530.** Shpg. wt. 0.1 lbs. List.....$14.00.
Each.....**$11.90**

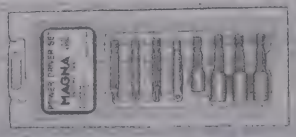
### 7-PC. INSERT BIT SET SPIN-A-BIT™

- For power and hand use
- Bits and holder in handy dispenser
- Magna brand (43967)

| Included in Set | |
|---|---|
| Phillips Bit-#1 | Bit-#4-6 |
| Phillips Bit-#2 | Bit-#6-8 |
| Phillips Bit-#3 | Bit-#8-10 |
| Bit Holder (for use with power tools) | Plastic Case |

**No. 5A773.** Shpg. wt. 0.2 lbs. List.....$9.98.
Each.....**$8.48**

### 10-PC. INSERT BIT SET DIAL-A-BIT™



- For power and hand use
- Lid dials to release individual bits
- Magna brand (43970)

| Included in Set | |
|---|---|
| Phillips Bit-#1 | Bit-#4-6 |
| Phillips Bit-#2 | Bit-#6-8 |
| Phillips Bit-#3 | Bit-#8-10 |
| Phillips Bit #2R | Bit #10-12 |
| Bit Holder-1/4" (2¼ OAL) | Square Bit #2 |

**No. 4F485.** Shpg. wt. 0.3 lbs. List.....$13.38.
Each.....**$11.37**

### 8-PC. CORDLESS SCREWDRIVER BIT SET MAGNA™

- For power and hand use
- Magna brand (45062)

| Included in Set | |
|---|---|
| Phillips Bit-#1 | Bit-#4-6 |
| Phillips Bit-#2 | Bit-#6-8 |
| Phillips Bit-#3 | Bit-#8-10 |
| Socket Adapter | Magnetic Hex Screw Holder |

**No. 2Z258.** Shpg. wt. 0.3 lbs. List $16.28.
Each.....**$13.84**

# SCREWDRIVER ACCESSORIES AND MAGNETIC SCREWDRIVERS

## BIT HOLDERS FOR HEX INSERT BITS

Industrial quality bit holders provide excellent production efficiencies when driving recess head screws. Adapt the most popular power tools for use with insert bits.

### BIT HOLDER FOR HEAVY-USE APPLICATIONS

Magnetic bit holder with C-ring retainer and stainless steel body.

### BIT HOLDER WITH ONE-PIECE CONSTRUCTION

Bit holders with C-ring retainer and stainless steel body. No. 4F479 is nonmagnetic and No. 4F480 is magnetic.

### QUICK-CHANGE BIT HOLDER

Magnetic bit holder with screw cap retainer with O-ring and stainless steel body.

### HEAVY-DUTY SILICON BRONZE BIT HOLDER

Magnetic bronze bit holder is spark-resistant and reduces finder wear. Popular for electrical applications.

### FEMALE SQUARE DRIVE BIT HOLDERS

Non-magnetic holder for use with male square drive tools Nos. 5F517 and 5F518.

| Description | Type | Shank (In.) | Length (In.) | Magna Model | Stock No. | List | Each | Lots 5 | Shpg. Wt. |

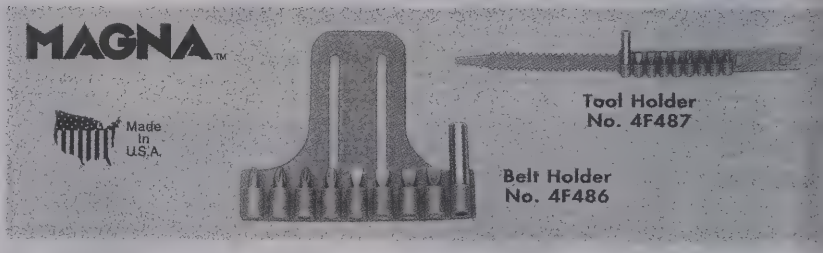
## BIT BANDOLIERS



Both belt and tool holder include Phillips bits Nos. 1, 2, and 3, 6-8, 8-10, 10-12, and 12-14 slotted bits, and a 2⅛" magnetic bit holder.

**Belt Holder** attaches to belt.

**No. 4F486.** Magna brand (11162). Shpg. wt. 0.1 lbs. List $14.36. Each **$12.21**; Lots 10 **$11.60**; Lots 20 ..... **$10.99**

**Tool Holder** wraps around power or cordless screwdriver.

**No. 4F487.** Magna brand (11163). Shpg. wt. 0.2 lbs. List $14.36. Each **$12.21**; Lots 10 **$11.60**; Lots 20..... **$10.99**

## MULTI-BIT MAGNETIC SCREWDRIVERS

### LITTLE MAX MINIATURE MAGNETIC SCREWDRIVER

Mini screwdriver with five bits. Magna brand (41785).

**No. 4F483.** Shpg. wt. 0.1 lbs. List $7.48. Each ..... $6.36

### MAGNETIC SCREWDRIVER FOR HEX INSERT BITS

Drives all 1/4" hex shank insert bits or adapters, and doubles as 1/4" hex head screw and nutdriver. Can accept numerous styles of bits in addition to 4 bits included. Magnetic force holds insert bits securely in place, but allows bits to be easily changed. Also holds screws in place for easy starting and retrieving. Handy storage compartment in handle holds extra bits. Comes with 4 bits: #1 and #2 Phillips; 3-4 and 6-8 slotted. Magna brand (37937).

**No. 6X989.** Shpg. wt. 0.3 lbs. List $9.86. Each..... $8.38

MAGNA™

Made In U.S.A.

Phillips Insert Bit

Slotted Insert Bit

Phillips Power Bit

**ISO-TEMP FEATURES**

Precision formed for secure fit

Greater flexibility to reduce breakage

Fracture-resistant tips increase life span

- For driving heat treated screws, such as sheet metal, self-tapping, and self-drilling screws
- Ideal for screwguns, cordless and electric drills
- Last up to 10 times longer than medium-hard bits and up to 6 times longer than industrial, extra-hard bits
- Tough, fracture-resistant tips
- Proprietary process gives improved flexibility to reduce breakage
- Precision formed for perfect screw fit; reduces cam out
- Made in U.S.A.
- Priced each. Sold only in pkgs. of 5

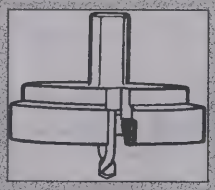
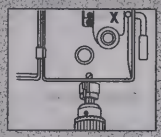
# CARBIDE HOLE CUTTERS AND STEP DRILLS

## CARBIDE HOLE CUTTERS



3/4" Hole Cutter



Unibit

Clean large holes cut with little effort

2⅜" Hole Cutter

Quickly cuts perfectly round KOs

Cleanly cuts stainless and mild steel, plus copper, brass, aluminum, fiberglass, and laminates. Designed specifically for hand-held drill operation. Carbide insert withstands heat and resists wear.

- Single cutting edge for smooth, chatter-free use
- Carbide insert for lasting cutting power
- Three-sided shank for more secure chuck hold
- Cone-shaped slug naturally pops out for ease of removal
- Dual-ended 135° pilot bit for quick, sure starts
- Maximum cutting thickness of 1/8" or 10-gauge

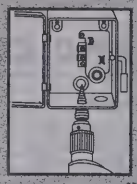
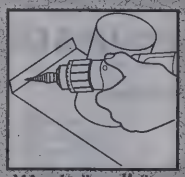
## STEP DRILLS

Modification & Service Available
Contact Your Local Branch



Unibit



3-Piece Set No. 4A954
Includes one each of
Nos. 4A946, 4A948, & 4A949

Sure starts even on curved surfaces

Large or small knockouts in seconds

Won't "walk" or "skid" like twist drill bits

13-Hole Step Drill
No. 4A946

8-Hole Enlarging Bit
No. 4A947

Self-starting Single Hole
Nos. 4A950-4A952

- Step drills create perfectly round holes without changing bits
- Nonskid tip eliminates need for center punching
- Laser marked with hole dimensions on the bit to assure accuracy
- Easy hole sizing—see and feel as each step penetrates material
- Hole deburred by cutting edge of next larger step
- Easy to resharpen

## BI-METAL HOLE SAWS

Starrett FASTCUT™ bi-metal hole saws are constructed of hardened, heat and abrasion resisting high speed steel teeth with a rough alloy body and cap. This gives them exceptional strength, durability and shatter-resistance for user safety. They will cut any wood, metal and plastic. Variable pitch teeth 4-6 in a modified set allow fast cutting action on a wide selection of materials and thicknesses. Provides smooth finishes and reduced noise levels. Maximum cutting depth is 1½". Furnished with RPM recommendations. Starrett brand.

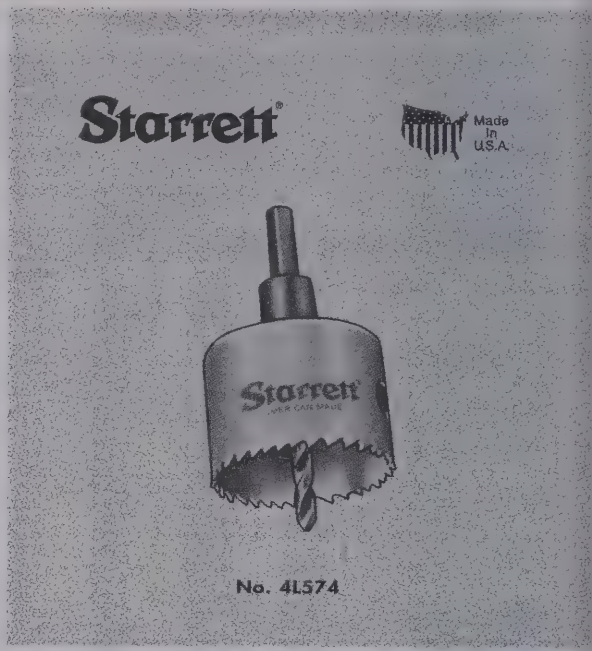
# HOLE SAWS AND KITS



## ARBORED BI-METAL HOLE SAWS

The convenient hole saw solution—saw, arbor and 1/4" high speed steel pilot drill are offered as one complete product. All solid shank arbors fit a standard 3/8" chuck. Saws up to the 3⅞" size can be replaced when worn. (From 4" to 6", arbors are welded to the saws). The cutting edge is bi-metal high speed steel with variable pitch teeth so that a wider range of materials can be cut with one saw. Cuts wood, metal, plastic. For general purpose industrial use, construction and do-it-yourself. Starrett brand.

Grainger will supply you with the dependable, brand name products you need to keep your operation running smoothly-plus the solutions you need to keep your operation running more profitably.

# CARBIDE TIPPED HOLE SAWS

ole saws have triple-chip-ground, carbide-tipped teeth that are ideal for more difficult o cut materials like fiberglass, cast iron, ceramic tile, formica, fiberboard, and more.

**High hardness teeth with precision ground angles and clearances allow smooth, concentric cuts and longer saw life on abrasive materials**

**Teeth are welded to a high alloy steel backing material, and feature a positive rake, 3 teeth per inch set, for faster cutting with greater wear and heat resistance than high speed steel edges**

**1⅝" cutting depth clears thick work easily**

Starrett

No. 4L638

## CARBIDE TIPPED HOLE SAW KIT

onvenient selection of 9 saws and 4 accompanying arbors with carbide tipped pilot rills.

# HAMMER DRILLS

## 3/8" HAMMER-DRILL Nos. 6Z337 & 2Z732

**Type:** Variable speed reversing

**Cord:** 8 ft., 3-cond. cord

**Power:** For AC operation only

**Approvals:** UL Listed, CSA Certified

**Capacities:** 9/16" percussion bits in concrete; 1/4" twist drills in steel and 1/2" twist drills in wood

**Includes:** Nos. 6Z337 has drill with depth gauge, side handle & chuck key; Nos. 2Z732 has drill with depth gauge, removable side handle, rubber dust shield, 4 bits (3/16, 1/4, 3/8, 5/16" percussion carbide tip bits), steel carrying case

**Features:** Hammer Drill or Drill Only selection

## 1/2" HAMMER-DRILL No. 3LJ24

**Type:** Two-speed variable speed reversing Cord: 8' 2-cond. rubber cord

**Power:** For AC operation only, double insulated

**Approvals:** UL Listed, CSA Certified

**Capacities:** Drilling capacities - 1⅛" flat boring bits; 3½" hole saws, 1" auger bits; 1⅛" ship auger bits; 1-½" selfeed bits in wood; 1/2" twist drill in steel. Hammer Capacities - 7/8" soft and 5/8" hard carbide tip bits in masonry

**Includes:** Hammer-drill, chuck key, side handle and depth gauge

**Features:** Hammer Drill or Drill Only selection

## 1/2" HAMMER-DRILL No. 6Z044

**Type:** Variable speed

**Cord:** 8 ft., 3-cond. cord

**Power:** For AC operation only

**Approvals:** UL Listed, CSA Certified

**Capacities:** Drilling capacities—1½" flat boring bits; 3½" hole saws; 1" auger bits: 1⅛" ship auger bits; 1½" selfeed bits in wood; 1/2" twist drill in steel. Hammer Capacities—7/8" soft and 5/8" hard carbide tip bits in masonry

**Includes:** Drill with depth rod, side handle, chuck key, and steel carrying case

**Features:** Hammer Drill or Drill Only selection

## 1/2" HAMMER-DRILL Nos. 6Z040, 4Z817 & 1Y082

**Type:** Two gear V.S.R.*

**Cord:** 8 ft., 3-cond. Quik-Lok rubber cord

**Power:** For AC operation only

**Approvals:** UL Listed, CSA Certified

**Capacities:** 1/2" boring bits: 3¼" hole saws; 7/8" auger and ship auger bits; 1⅛" selfeed bits in wood; 1/2" twist drill in steel; 5/8" percussion bits in masonry; and 1/4" Tapcon screws in masonry

**Includes:** Include hammer drill with depth gauge, side handle, and chuck key; No. 1Y082 and; No. 4Z817 also has 4 bits (3/16, 1/4, 3/8, and 5/16" percussion carbide tip bits), and steel carrying case 1Y082 has keyless chuck.

**Features:** Hammer Drill or Drill Only selection

## HEAVY-DUTY 7/8" SDS ROTARY HAMMER KITS

- 6.9 Amp motor provides high performance and overload protection
- Hammer mechanism optimized for broad range of bit sizes
- Gearbox engineered for long life by keeping grease in and dust out
- Jampot design with removable rear handle makes service easy
- Switch and brushes designed for long life
- No. 4PC25 has a hammer-only mode that allows for light chipping and material removal applications
- Includes multi-position side handle, depth rod, and kit box
- DeWalt brand

## HEAVY-DUTY 1" SDS ROTARY HAMMER KIT WITH CHISELING FEATURE

- 6.9 Amp motor provides high performance and overload protection
- Hammer mechanism optimized for broad range of bit size
- Gearbox engineered for long life by keeping grease in and dust out
- D-handle grip configuration for optimal control overhead
- Switch and brushes designed for long life
- Includes multi-position side handle, depth rod, and kit bo

# ROTARY HAMMER KITS

5/8" Rotary Hammer
No. 3LJ21

3/4" Drive Kit
No. 6W285

1" Drive Kit
No. 6A345

Replacement Parts Available
1-800-323-0620

## 5/8" SDS PLUS ROTARY HAMMER No. 3LJ21

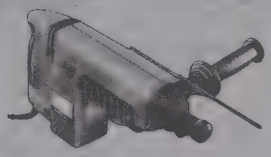
**ype:** Variable speed reversing
**ord:** 8 ft. 2-wire rubber cord
**ower:** For AC operation only
**pprovals:** UL Listed, CSA Certified
**apacities:** 5/8" in concrete or masonry
**ncludes:** Rotary hammer, steel carrying case, side handle, depth gauge
**eatures:** SDS Plus drive system, two mode operation - rotation with hammer, rotation only, electronic speed control trigger

## 3/4" SDS PLUS DRIVE KIT No. 6W285

**Type:** Variable speed reversing, 3/4"
**Cord:** 8 ft., 3-cond. Quik-Lok flexible rubber cord
**Power:** For AC operation only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 3/4" SDS bit or 1¾" core bit
**Includes:** Rotary hammer, side handle, depth gauge, 5 SDS bits, and steel carrying case
**Features:** Hammer Drill or Drill Only selection

## 1" SDS PLUS DRIVE No. 6A345

**Type:** Variable speed reversing, 1"
**Cord:** 8 ft., 3-cond. rubber cord
**Power:** For AC operation only
**Approvals:** UL Listed, CSA Certified
**Capacities:** 1" SDS bit or 3½" core bit
**Includes:** Rotary hammer, side handle, depth gauge, clamp, and steel carrying case
**Features:** Self-stopping long life brush and SDS bit retention systems; Hammer Drill or Drill Only selection



1⅛" Drive
No. 4GC23

Replacement Parts Available
1-800-323-0620

1½" Drive Kit
No. 6Z332 & 2Z734

Nos. 5M622, 5M623 & 3JL19

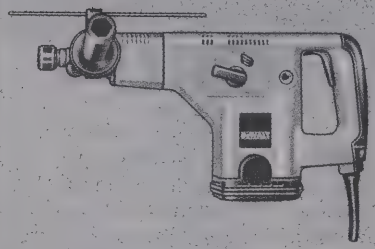
## 1⅛" SDS PLUS DRIVE KIT No. 4GC23

**ype:** Variable speed
**ord:** 9 ft., 2-cond. rubber cord
**ower:** AC only
**pprovals:** UL Listed, CSA Certified
**apacities:** 1⅛" SDS bit, 3½" core bit, 1½" flat boring bit, ⅝" twist drill
**ncludes:** Steel carrying case, side handle and depth gauge
**eatures:** Exclusive Quik-Lok chuck system for quick change of adapter from SDS chuck to standard geared drill chuck or SDS max chuck. Selector switch for rotation only, hammer only, and hammer with rotation

## 1½" DRIVE KITS Nos. 6Z332 & 2Z734

**Type:** Single speed, 1½"
**Cord:** Flexible rubber cord
**Power:** AC/DC
**Approvals:** UL Listed, CSA Certified
**Capacities:** For concrete drilling—1½" percussion; 6" in percussion core drilling
**Includes:** Rotary hammer, side handle, depth gauge and steel carrying case; 6Z332 also includes: 1/2", 5/8", and 3/4" x 16" spline shank bits, 12" bull point chisel and 12" cold chisel
**Features:** Stop-rotation control for hammer action only

## 1½" ROTARY HAMMERS Nos. 5M622, 5M623 & 3LJ19



**Type:** Variable speed, 1½"
**Cord:** 9 ft., 2-cond. rubber cord
**Power:** For AC operation only
**Approvals:** UL Listed, CSA Approved
**Capacities:** 6" Core bit, 1½" spline drive, 3/4" hex shaft, 5/8" round shank tools. 3LJ19 uses SDS max, and 5M622 & 5M623 use spline tools
**Includes:** Steel carrying case, side handle, depth gauge; 5M623 also includes: 1/2", 5/8", and 3/4" x 16" spline shank bits, 12" bull point chisel and 12" cold chisel
**Features:** Vibration isolation system, ergonomically designed cushioned gripping surface, soft-shift, stop-rotation switch for chiseling

## 1½" ROTARY HAMMER KITS Nos. 4LC31 & 4LC22

- Single speed, 1½"
- 8 ft., 3-cond. cord
- For AC operation only
- UL Listed, CSA Certified
- 5/8" to 1½" percussion carbide bits, 1½-3½" core bits
- Rotary hammer, side handle, depth gauge, and heavy-duty carrying case
- No. 4LC31—Stop rotation for use with demolition tools
- Spline Drive System

## 1½" ROTARY HAMMERS Nos. 4LC42 & 4LC50

**No. 4LC42:**

- 8.3 amps AC, 100-295 RPM, 950-2800 BPM
- Optimum capacity 5/8"-1¼", maximum 1½", core bit 3½"

**No. 4LC50:**

- 10.6 amps AC, 100-275 RPM, 1000-2600 BPM
- Optimum capacity 3/4"-1½", maximum 1¾", core bit 4"

**Both Feature:**

- Spline shank drive system
- Electronic vari-speed/vari-impact
- Bit-lock, allows removal of jammed bits
- Include side handle, depth rod, and heavy-duty kit box

## 1½" ROTARY HAMMERS Nos. 4LC62 & 4LC64

**No. 4LC62:**

- 8.3 amps AC, 100-295 RPM, 950-2800 BPM
- Optimum capacity 5/8"-1¼", maximum 1½", core bit 3½"

**No. 4LC64:**

- 10.6 amps AC, 100-275 RPM, 1000-2600 BPM
- Optimum capacity 3/4"-1½", maximum 1¾", core bit 4"

**Both Feature:**

- SDS-max® drive system
- Electronic vari-speed/vari-impact
- Bit-lock, allows removal of jammed bits
- Include side handle, depth rod, and heavy-duty kit box

Replacement Parts Available
1-800-323-0620

## CHIPPING HAMMER
## No. 3LJ22

- 8.5 amp AC, 120 Volt
- Vibration isolation system for greater comfort, less fatigue
- Cushioned grips
- Speed control allows accurate hole placement without bit walk
- 0-4100 blows-per-minute
- Double insulated
- Includes side handle and steel carrying case
- Uses 3/4" hex x 21/32" round shank hammer iron tools
- 4.7 Ft./lbs. of impact energy

## CHIPPING HAMMER KIT
## No. 4LC65

- Cooling system circulates air around mechanism keeping it cooler for longer reliability
- Nylon outer housing is rubber mounted over inner mechanism to housing to reduce vibration
- L.E.D. signals when routine service is needed
- Includes side handle and sturdy kit box
- 10.6 amp AC, 120 Volt, 50/60Hz
- 1000-2600 blows-per-minute
- 6.2 Ft./lbs. of impact energy
- Uses 3/4" hex x 21/32" round shank hammer iron tools

## BREAKER HAMMER
## No. 3LJ23

- T-handles for operator control
- Heavy hitting 44 ft./lbs. of impact energy
- Uses 1⅛" hex shank hammer iron
- UL Listed, CSA Certified

## DEMOLITION HAMMER
## No. 5U710

- 13 amps, 1400 watts motor output
- Front handle rotates 360°
- Ball & roller bearings
- Vibration isolation in back handle
- Includes carrying case and dust shield
- Uses 3/4" hex shank hammer tools
- 1600 blows-per-minute
- 18.5 Ft./lbs. of impact energy
- UL Listed

## DEMOLITION HAMMER KIT
## No. 4LG34

- Powerful motor has overload protection and efficient cooling for constant use
- Low vibration rear handle and side handle can be rotated 360°
- Well-balanced, ergonomic design for easy handling
- Includes side handle, chisel, and sturdy kit box
- 10 amps AC, 120 Volt, 50/60HZ
- 1800 blows-per-minute
- 13.5 Ft./lbs. of impact energy
- Uses 3/4" hex shank hammer iron tools

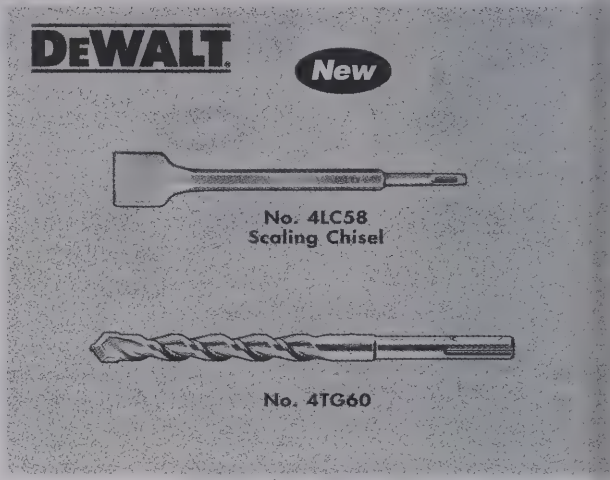
# CARBIDE TIPPED HAMMER DRILL BITS

## SDS PLUS BITS



- For drilling in concrete, brick, stone, and other masonry materials
- New serrated titanium carbide tip provides extreme durability for longer drilling life
- Pilot point tip starts on contact for greater accuracy
- Improved flute design pulls out dust quickly for faster drilling
- Fits all drill hammers with SDS-Plus and Hilti (four flute drills) chucks. Only use diameters up to 5/8" for Hilti TE 12. Diameters up to 3/4" may be used for Hilti TE 12S

## ACCESSORIES

### SDS CHUCK ADAPTER

Converts SDS hammers to 1/2" chuck capacity.

**No. 4LC60.** (DW5351). Shpg. wt. 0.1 lbs. List $22.68. Each.....**$17.86▲**

### 1/2" CHUCK AND KEY FOR No. 4LC60

**No. 4LT24.** 1/2" Chuck & Key (DW5353).. Shpg. wt. 0.9 lbs. List $40.50. Each.....**$30.40▲**

### 5-PC. SDS BIT SET

Includes 3/16 x 4½ x 6½", 1/4 x 2 x 4", 1/4 x 4 x 6", 3/8 x 4 x 6", 1/2 x 4 x 6" bits.

***New* No. 4TG60.** (DW5470). Shpg. wt. 1.8 lbs. List $59.42. Each.....**$51.75▲**

### 10" BULL POINT*

**No. 4LC57.** (DW5348). Shpg. wt. 1.0 lbs. List $15.35. Each.....**$12.09▲**

(*) Used only in SDS.

### 10 x 1½" SCALING CHISEL*

**No. 4LC58.** (DW5349). Shpg. wt. 0.7 lbs. List $26.00. Each.....**$20.48▲**

### 10 x 3/4" COLD CHISEL*

**No. 4LC59.** (DW5350). Shpg. wt. 1.0 lbs. List $15.35. Each.....**$12.09▲**

(▲) Net prices, not subject to discounts.

**OUR PRODUCT SELECTION IS BIGGER AND BETTER THAN EVER!**

In addition to our new product listings from the leading brand names, Grainger now offers you more than 78,000 products to meet your maintenance, repair, or operation supply needs.

# CARBIDE TIPPED HAMMER DRILL BITS

## LARGE DIAMETER SPLINE SHANK BITS

- Large flute access for better dust extraction and longer life
- Double flute design gives quicker dust extraction and faster drilling
- Hardened core reduces breakage

## 4-CUTTER LARGE DIA. SPLINE SHANK BITS

- Four cutter heads reduce vibration for less user fatigue
- Concave head design allows dust to enter flute chambers quickly increasing bit life
- Double flute life design gives quicker dust extraction and faster drilling
- Hardened core reduces breakage

## STRAIGHT SHANK PERCUSSION MASONRY CARBIDE-TIPPED BITS

DEWALT

**No. 4KZ92**
**7-Pc. Straight Bit Shank Set**

- Improved carbide tip provides up to 2 times longer life
- Innovative tip configuration reduces walking for improved accuracy
- Unique flute design efficiently removes dust, reducing bit binding

### 7-PC STRAIGHT BIT SHANK SET

Includes: 3/16 x 3", 1/4 x 4", two 1/4 x 6", 5/16 x 6", 3/8 x 6" and 1/2 x 6".

**No. 4KZ92.** (DW5207). Shpg. wt. 0.7 lbs. List $47.18. Each ..... **$37.20▲**

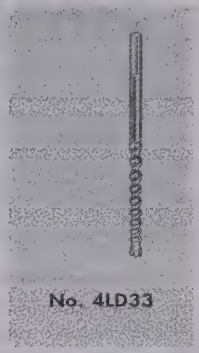
# CARBIDE TIPPED HAMMER DRILL BITS AND DEMOLITION INSERT TOOLS



## CARBIDE TIPPED HAMMER DRILL BITS

**DEWALT**

**4-CUTTER SDS-max™ SHANK**

- Four cutter heads reduce vibration for less user fatigue
- Concave head design allows dust to enter flute chambers quickly increasing bit life
- Double flute life design gives quicker dust extraction and faster drilling
- Hardened core reduces breakage

# DIAMOND CORING RIGS

- Cast aluminum base with 4 leveling screws for fast accurate leveling adjustment
- Durable precision-ground 2½" steel column, 43½" high
- Rear-mounted rack-and-pinion feed
- Jackscrew for ceiling and backwall bracing
- Reversible feed handle locking carriage
- Heavy-duty 5" solid rubber wheels
- Motors have clutch protection
- Spindle size—1¼ - 7"
- No. 3PW13 includes small base stand, vacuum pump, pump mounting bracket, hose, vacuum pad, meter box and 20 amp motor; No. 3PW14 includes all the above, but with a large base stand
- UL Listed, CSA Certified

DEWALT

No. 4KV82

## MILWAUKEE MODELS

- 6 ft. safety chain is standard equipment
- Heavy-duty 9 ft. rubber cord
- UL Listed
- CSA Certified

### 3/4" PRESS No. 4A939

- Heavy-duty electronic speed control stand with increased holding power for materials as thin as 1/2" plate
- Up to 1670 lbs. drill point pressure on 1" steel plate
- 9" drill travel, reversible feed handle; adjustable gibs for smooth travel
- Motor mounts in 3 positions on rack and drill point centers 2 29/32" and 5 7/8" from base
- 3/4" chuck
- Includes 6Z291 and 6Z361
- Capacities: 3/4" drill bit; 1"-14 tap

### 1¼" PRESS No. 4A940

- Heavy-duty electronic speed stand with adjustable base; 3/4" movement forward and back; 20° movement right, left
- Up to 1915 lbs. drill point pressure on 1" steel plate
- 11" drill travel, reversible feed handle; adjustable gibs for smooth travel
- #3 morse taper arbor (Chuck and arbor not included; use No. 2Y794)
- Motor mounts in 3 positions on rack and drill point centers 3 13/32" and 5 33/64" from base
- Capacities: 1¼ drill bit; 1"-14 tap
- Includes Nos. 6Z362 and 6Z285

## DeWALT MODELS

- Oversized brush ring rotates for positive forward or reverse operation
- Feed handle is pushbutton reversible for close quarter operation
- 8 ft. 3-cond. cord
- 5 ft. safety chain is standard
- UL Listed, CSA Certified
- 1/2" minimum plate thickness

### 1/2" PRESS No. 4KW08

- 7⅛" stroke length (less bits and adapters)
- Includes magnetic base, 1/2" chuck and 5 ft. safety chain
- Capacities in mild steel: 5/64 to 1/2" tapping, reaming, or drilling

### 3/4" PRESS No. 4KW02

DeWalt annular cutters are available for No. 4KW02 and also fit Jancy, Hougen, Black & Decker, and other magnetic drill presses with 3/4" arbor collets; see Index.

- 6 3/16" stroke length (less bits and adapters)
- Includes magnetic base, 3/4" 3-jawed chuck, and 5 ft. safety chain
- Capacities in mild steel: 1/4 to 3/4" drilling; 5/8" tapping; 5/8" light gauge reaming; 1/2" heavy gauge reaming

### 2" PRESS No. 4KV82

- 2" stroke length (less bits and adapters)
- Arbor system designed for annular cutting use and provides automatic lubrication and slug ejection
- Includes magnetic base, arbor system, 5 ft. safety chain
- Capacities: 7/16" to 2" in mild steel with annular cutting
- Optional 3/4" chuck and arbor on No. 4KW03

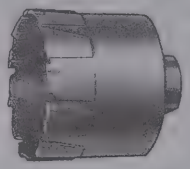
DEWALT



No. 4KV46

## ANNULAR CUTTERS

- Tooth geometry provides greater mass in the cutting edge to dissipate heat, thus reducing chance of breakage
- No center punch required for greater convenience
- Tougher, more durable than carbide cutters
- Can cut holes in material up to two inches thick
- For use with DeWalt models DW154 (No. 4KV82) with No. 4KW03 arbor and DW156 (No. 4KW02) with No. 4KW01 arbor; DW157 (No. 4KW08) with No. 4KW99 arbor; Jancy, Hougen, and other magnetic presses with 3/4" arbor collets

Milwaukee

No. 4AK56

## STEEL HAWG® HOLE CUTTERS

- 2" cutting depth for steel plate, stainless steel, cast iron, or aluminum
- Carbide tipped inside/outside multiple cutting edges
- For Milwaukee models 4232-1 (No. 4A940) and 4233-1 (No. 4A939) with arbor listed below
- Will slot or notch material away from edge of workpiece or from edge of existing hole
- Premarked holes are located by positioning center pin of arbor on center mark; no pre-punching or pilot holes required

### HAWG WASH® CUTTING FLUID

- Water soluble chemical fluid concentrate with extra pressure additives in 16 oz. bottle. Sold in lots of 12. Priced per each.

# WORM DRIVE AND CIRCULAR SAWS

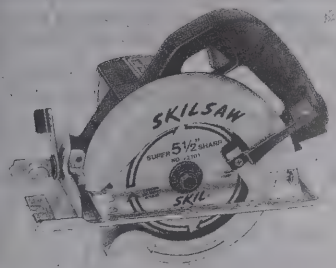
7¼ " Saw No. 4Z095
8¼" Saw No. 4A155

Made in U.S.A.

7¼ " Saw No. 6Z051

4½ " Trim Saw
No. 6Z297

## 7¼ & 8¼" SAWS Nos. 4Z095 & 4A155

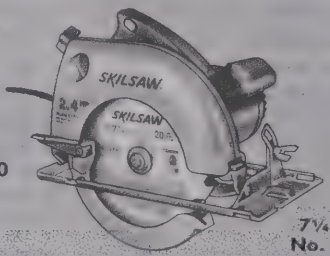


- No. 4Z095 is 7¼"; No. 4A155 is 8¼"
- Die-cast aluminum motor and gear housing with diamond blade arbor
- Blade guard automatically retracts on 45° cuts
- Include combination blade and blade wrench and heavy gauge 8 ft., 3-cond. rubber cord
- Power source AC/DC
- 5/8" diamond arbor
- No. 4A155 has 60° cut
- UL Listed, CSA Certified

## 7¼" SAW No. 6Z051

- Rigid steel wraparound shoe for maximum strength and accuracy
- Spindle lock and diamond arbor
- Oil plug is located at side of gear case for easy access
- Includes combination blade and 9/16" wrench
- 9 ft., 3-cond. rubber cord and plug
- Power source AC/DC
- UL Listed, CSA Certified

## 4½" TRIM SAW No. 6Z297



- Heavy-duty wrap-around base with insert to minimize chipping/splintering while cutting
- Oversize, rugged worm gear drive provides high torque
- Includes combination/rip blade, wrench, and case
- 10 ft., 3-cond. cord
- For AC operation only; 4.5 amp AC/DC
- 3/8" arbor hole
- UL Listed
- Replacement blade available through Grainger parts operations

5½" Saw
No. 4Z821

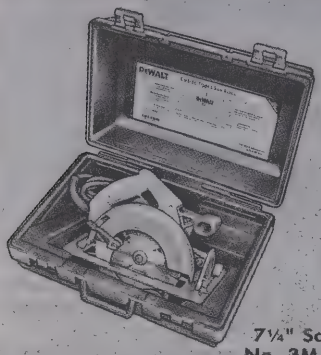
Made in U.S.A.

Replacement Parts Available
1-800-323-0620

7¼" Saw
No. 2Z562

## 5½" PROFESSIONAL TRIM SAW No. 4Z821

- Features heavy gauge steel wraparound foot plate for accurate cutting, locking depth and bevel controls, and adjustable depth of cut scales
- Includes combination blade and blade wrench
- 1/2" round blade arbor
- 8 ft., 3-cond. rubber cord and plug
- For AC operation only
- Replacement blade available through Grainger Parts Operations



## 7¼" SKILSAW No. 2Z562

- 5/8" round blade arbor
- Includes combination blade and blade wrench
- Double insulated construction
- 6 ft., 2-cond. cord
- For AC operation only
- Features front handle for better control, remote switch, and helical gears

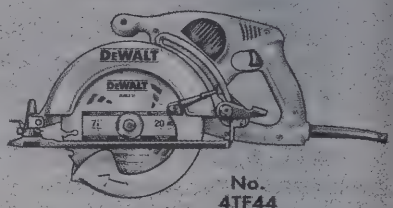
# CIRCULAR SAWS AND CARPENTRY REFERENCE BOOK



7¼" Saw
No. 3MJ20

DEWALT

7¼" Saw
No. 3MJ21

Replacement Parts Available
1-800-323-0620

New

No. 4TF44

## 7¼" LIGHTWEIGHT, HEAVY-DUTY CIRCULAR SAW KIT
## No. 3MJ20

- Cut steel helical gears
- Modular design allows critical components to be replaced or repaired
- 50° bevel capacity
- Planned aluminum shoe measures 1½" and 5½" from blade to assist in laying out and making cuts
- Parallel adjustment
- AC/DC power source
- 9 ft., 2-cond. rubber cord
- Includes 20-tooth blade and plastic carrying case
- UL Listed, CSA Certified
- Spindle lock

## 7¼ & 8¼" HEAVY-DUTY CIRCULAR SAW WITH ELECTRIC BRAKE & REAR PIVOT DEPTH OF CUT ADJUSTMENT
## Nos. 3MJ21AND 3MJ24

- Cut steel helical gears
- Modular design allows critical components to be replaced or repaired
- 50° bevel capacity with 2-second electric blade brake
- Planned aluminum shoe design based on measurements of dimensional lumber with rear pivot depth of cut adjustment
- Parallel adjustment for setting shoe parallel to blade
- Power source AC/DC
- 9 ft., 3-cond. cord
- Includes 20-tooth carbide blade and wrench
- UL Listed, CSA Certified
- Spindle lock

## HEAVY-DUTY 7¼" HIGH-TORQUE FRAMING SAW
## No. 4TF44

- 15.0 amp high-torque motor
- Integrated saw hook to hang tool on rafters/trusses
- Lower guard improves performance when making bevel cuts and cutting shims
- High-strength aluminum cast shoe with integral stiffeners for durability
- Shoe provides a1½" edge distance that matches dimensional lumber thickness
- 50° bevel capcity
- Includes 20-tooth carbide blade and wrench
- Spindle lock
- 9 ft. 3-cond. cord

## CARPENTRY REFERENCE BOOK

By Leonard Koel. Visually enhanced and comprehensive, this book addresses subjects such as materials, tools, building design and blueprint reading, foundations, roof frames, exterior and interior finishing. Heavy construction and concrete framework are also detailed. The author provides valuable trade tips acquired over many years on the job and while teaching. 736 pages, hard cover.

Circular Saw

No. 6Z314
Circular Saw

## 7¼" HEAVY-DUTY CIRCULAR SAWS Nos. 4PF74, 4PF75 & 4PF76

- New, 15.0 Amp, 3.25 peak horsepower, double-insulated motor
- Extra-wide, durable magnesium shoe
- Fast, easy adjustments with permanent scales
- Center balanced for comfort
- Heavy-duty steel gears and bearings for long life
- All models come with carbide blade and blade wrench; No. 4PF75 comes with rip fence and carrying case; No. 4PF76 comes with electric brake
- 50° bevel capacity to cut joists, rafters and trusses for unusual roof angles
- 9 ft. 2-cond. cord

## 8¼" CIRCULAR SAW No. 6Z050

- 5/8" blade arbor
- Housing and handle are made of strong nonconductive glass-reinforced nylon
- Includes spindle lock
- Shoe and upper and lower guard die-cast aluminum
- Includes combination blade and 9/16" wrench
- Has 9 ft., 3-prong 16-gauge SJ solvent resistant rubber cord
- UL Listed, CSA Certified

## 10¼" SAW No. 6Z314

- Heavy-duty saw has 5/8" blade arbor
- Includes combination/rip saw blade, auxiliary handle, rip fence, 9/16" utility wrench, and steel carrying case
- Rigid steel wrap-around shoe for maximum strength and accuracy
- 9 ft., 3-prong 16-gauge SJ solvent resistant rubber cord
- AC/DC operation
- UL Listed, CSA Certified

# HEAVY-DUTY 8" PANEL SAW

- UL Listed, CSA Certified
- For building contractors, lumber yards, building material suppliers, cabinet shops, remodelers, sign shops, and rental shop outlets
- 8" blade with 5/8" arbor
- Cuts up to 4 x 8 ft. section of paneling to size
- Cutting capacities: Thickness—1¾"; Height—50"
- Cutting accuracy is within 1/32" in either crosscutting or ripping direction
- Material being ripped can move from either right or left side
- Power unit can be easily changed from crosscutting to ripping
- All steel frame, square tubing is electrically welded; will not warp or twist
- Removable blade guard
- Saw carriage moves up and down on graphite impregnated nylon roller bearings which require no lubrication
- Vertical and horizontal scales provide quick and accurately measured cuts
- Heavy-duty all ball and roller bearing power unit
- Smooth acting roller mechanism allows heavy material to gently roll through machine
- Comes complete with rugged, self-support stand that folds into unit for easier portability

DEWALT

New

No. 4LF42

No. 4KX56

## SERIES 20 LARGE DIAMETER SAW BLADES

Professional quality carbide-tipped blades offer greater durability, a faster, freer cut, and longer life than other carbide-tipped blades.

- **Exclusive wedge shoulder design puts more steel behind each tip for increased durability and accuracy**
- **Computer balanced plate reduces vibration for improved accuracy and better finish**
- **Thin kerf design for fast and smooth cutting action**
- **Fully hardened heat-treated steel body-retains its extreme flatness for a more accurate cutting line**

## SERIES 20 SMALL DIAMETER SAW BLADES

Professional quality carbide-tipped blades offer greater durability, a faster, freer cut, and longer life than other carbide-tipped blades.

- **25° hook angle for faster, freer cutting**
- **Wedge shoulder design puts more steel behind each tip for increased durability and accuracy**
- **Patented, ribbed heat vents allow blade to run cooler, reducing blade flexing and binding**
- **Ultra thin kerf blade design-yields more cuts per charge by minimizing battery drain**

## STEEL SAW BLADES

- **Precision sharpened teeth**
- **Thicker body for heavy-duty applications**
- **Fully hardened steel body**
- **Coated blade prevents rust and reduces friction**

# CARBIDE TIPPED STEEL CIRCULAR SAW BLADES

## SERIES 20 - LARGE DIAMETER THIN KERF CARBIDE TIPPED SAW BLADES

DEWALT

New

No. 3MF70

Ideal for all cutting applications in softwood, hardwood, chip board, or plywood using a table saw or miter saw. Professional quality thin kerf carbide saw blades produce a smooth finish with minimal material waste.

- Ribbed heat vents for stiffer body and longer life (table saw blades only)
- Wedge shoulder for blade stability and durability
- Thin kerf for faster cutting
- Computer balanced for accuracy

## SERIES 40 AND SERIES 60 WOODWORKING CARBIDE SAW BLADES

DEWALT

No. 3MF76

### SERIES 40

Large micrograin carbide tips deliver long service life

Unique laser cut expansion slots reduce vibration and noise for excellent surface finish

Laser cut plate is precision balanced and tensioned for extremely accurate cuts

### SERIES 60

Extra large, corrosion-resistant C4 submicrograin carbide stays sharper delivering the longest possible service life

Laser cut plate is precision balanced and tensioned for superior precision and accuracy

Arbor Hole is honed for improved blade to spindle fit

Exclusive starburst anti-vibration slots minimize blade resonance to deliver uncompromising surface finish

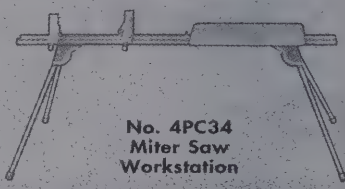
# POWER MITER SAWS AND ACCESSORIES

DEWALT



Made in U.S.A.

Replacement Parts Available 1-800-323-0620

Nos. 3W884 & 3W885

No. 4GD64

New

No. 4PC34 Miter Saw Workstation

## 12" MITER SAWS Nos. 3W884 & 3W885

- Powerful 13 amp motor with 1" arbor
- Positive stops at 0°, 15°, 22°, 30°, and 45° right or left
- No. 3W885 has stop at 31.62° for compound cuts
- Includes 32-tooth carbide blade and blade wrench
- Capacity: 2 x 8" at 90°, 2 x 6" at 45°
- Electric brake
- No. 3W885 includes compound cutting action; crown molding capacity of 6⅝" at 90°
- UL Listed, CSA Certified

## 12" DOUBLE BEVEL SLIDING COMPOUND MITER SAW No. 4GD64

- Electric brake
- 0-45° bevel capacity to the left and right
- 12" crosscut capacity at 90°
- Precision miters 0-50° left & 0-60° right
- Stainless steel detent plate with 11 positive stops
- Includes 60 tooth carbide blade & blade wrench
- Capacity: 5½" crown and base moulding vertically

## HEAVY-DUTY MITER SAW WORKSTATION No. 4PC34

- Universal design; lightweight, easy to transport and store
- 7 ft. beam for extra capacity
- Supports up to 300 lbs.
- Legs lock into place for stability
- Anodized aircraft-grade aluminum construction won't rust or corrode
- Double rail design allows tool mount, work stop, and work support to be repositioned quickly, easily
- On-board measuring system utilizes standard tape measure for fast, accurate cuts
- Tool mount has non-marring feet
- Includes tool mount, work support and work stop

***New*No. 4PC34.** DeWalt brand (DW730). Shpg. wt. 49.0 lbs. List $470.00. Each.....**$345.75▲**

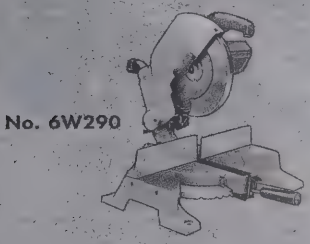
# POWER MITER SAWS

No. 3LJ32 & 5M627

## 10" SLIDE COMPOUND SAW Nos. 3LJ32 & 5M627



- Precision axis mechanism with dual guide tubes for superior cutting accuracy
- Powerful 15 amp motor
- Positive stops at 0°, 15°, 22½°, 30°, and 45° left and right sides
- Die-cast aluminum base with super smooth rotating table
- Automatic retracting lower guard for high visibility and large capacity Patented Flip Fence™ on left side
- Spindle lock and electric brake
- Override to lock table at any angle
- 5/8" arbor
- Double insulated. Includes carbide tipped blade
- UL Listed, CSA Certified Made in U.S.A.
- No. 3LJ32 includes 80-tooth carbide tipped blade, extension with stop gauge, vise, dust bag and wrench. No. 5M627 includes 40-tooth carbide tipped blade and wrench only

No. 3G713 & 1D578

## 10" COMPOUND SAW Nos. 3G713 & 1D578

- Powerful 15 amp motor
- Positive stops at 0°, 15°, 22½°, 30°, and 45° left and right sides
- Bevels angles for negative 50° left and 3° right
- Die cast aluminum base with super smooth rotating table
- Automatic retracting lower guard for high visibility and large capacity
- Patented Flip Fence for either compound or miter cutting
- Spindle lock and electric brake
- Override locks table at any angle
- Double insulated
- 5/8" arbor
- UL Listed, CSA Certified
- No. 3G713 includes 80 tooth 10" carbide tipped blade, extension with stop gauge, vise, dust bag and blade wrench. No. 1D578 includes 40-tooth carbide tipped blade and wrench only

No. 6W290

## 10" MAGNUM SAW No. 6W290

- Powerful 15 amp motor
- Positive stops at 0°, 15°, 22½°, 30°, and 45° left or right
- Includes 126-tooth steel blade and blade wrench
- Capacity: 2 x 8" at 90°, 6¼" high; 2 x 6" at 45°, 6¼" high
- Extra tall fence for large workpieces
- Spindles lock and electric brake
- Override locks table at any angle
- 5/8" arbor
- UL Listed, CSA Certified

# PORTABLE CHOP SAWS, CUT-OFF MACHINES AND CHOP SAW WHEELS

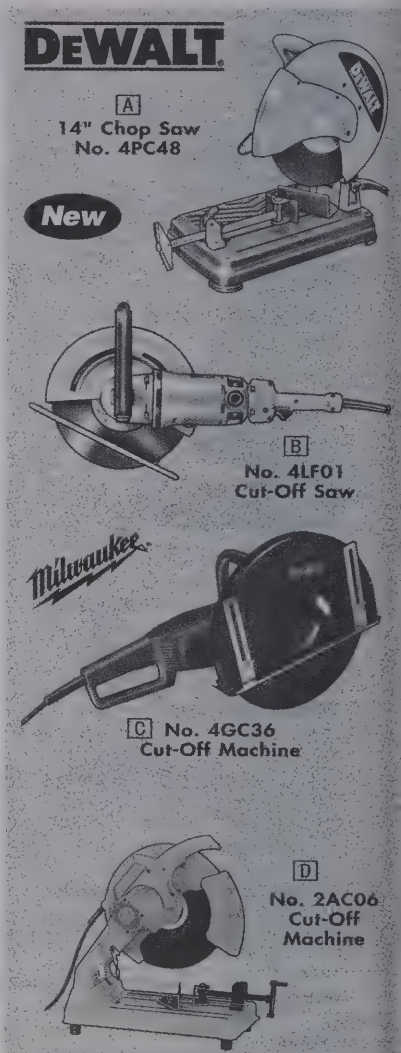
## [A] HEAVY-DUTY 14" HIGH POWER METAL-CUTTING CHOP SAW No. 4PC48

Powerful 15.0 amp, 5.5HP, 120V AC/DC motor, 3800 RPM, generates 4000 watts of power. Large, 5" cutting capacity allows enough clearance for even the largest materials. Ergonomically-designed handle and switch delivers superior comfort and control. Extra wide base provides maximum material support. 45° tool-free miter adjustment for greater versatility. Quick clamping vise. Ball and roller bearings. Includes 14" abrasive wheel and wrench. DeWalt brand.

## [B] 12" CUT-OFF MACHINE No. 4LF01

Cuts sheet metal, concrete, cinder block, reinforcing rods, 1/8" wire mesh, corrugated flooring, and ceiling forms. Maximum cutting depth 4". Blade rotation throws sparks and debris away from operator. Adjustable guard for different cutting depths is mounted in two places for proper alignment. Switch is protected from dust. Spindle lock button for fast, easy wheel changes. Handle is placed for lifting at tool centerline to prevent tilting. Includes: spindle nut wrench, 12" abrasive disc for masonry, and 12" abrasive disc for ferrous metals. Ball and roller bearings. UL Listed, CSA Certified. DeWalt brand.

## [C] HEAVY DUTY 14" CUT-OFF MACHINE No. 4GC36



Superior performance and outstanding durability for rescue work, steel fabrication, salvage operations, roof decking, pipeline cutting, and general construction. Blade rotation directs sparks down and back for safety and clear visibility of work area. Enclosed handle protects switch from accidental start-up. Maximum cutting depth 4⅝". Includes wheel guard, guide frame, flanges, open end wrenches, and clamping nut. Ball and roller bearings. UL Listed, CSA Certified. Requires 5-20, 20A receptacle. Milwaukee brand.

## [D] HEAVY-DUTY 14" ABRASIVE CUT-OFF MACHINE No. 2AC06

**Designed for fast and efficient cutting** of angle iron, pipe, tubing, conduit, and channels. Built-in carrying handle maximizes operator comfort and job-site convenience. Cutting capacities are 4" outside pipe diameter, 2⁹⁄₁₆" bar stock diameter, 5" square stock, and 9" maximum opening. Wheel rotation directs particles away from operator. Quick release locking device swivels to 45°, spindle lock for positive safe changing of abrasive wheels 1" arbor size, chain for locking saw in down position. Ball and roller bearings. UL Listed, CSA Certified. Milwaukee brand.

# JIG SAWS

Heavy-Duty Jig Saw No. 3ML17

Heavy-Duty Jig Saw No. 4NZ55

Orbital Saw No. 6Z108

Replacement Parts Available 1-800-323-0620

## HEAVY-DUTY JIG SAWS Nos. 3ML17, 3MM53 AND 4NZ55

- Keyless blade change system
- Shoe bevels to 45° in both directions without tools
- Variable speed
- Dust blower
- Uses T-shank or universal blades
- Anti-slip soft comfort grip
- Four position orbital action
- Includes 3 assorted cobalt steel blades and heavy-duty plastic carrying case; No. 4NZ55 does not include case
- No. 3MM53 has body grip design

## JIG SAWS Nos. 6W333 & 6Z108

- Accepts all 1/4" universal shank jig saw blades
- Double insulated construction
- 4-position orbital cutting action
- No. 6Z108 has straight cutting action and no carrying case
- Patented curved track yoke for maximum power
- Fully sealed to prevent dust and dirt contamination
- Infinite speed lock for precision cutting
- Capacities: 2³/₈," in hardwood, 3/4" in aluminum, and 1/4" in mild steel
- Includes Allen wrench, 2 metal/2 wood-cutting blades, blade clamp, and heavy-duty plastic carrying case
- For AC operation only

# JIG SAWS AND SAW BLADES

No. 4Z825

No. 6Z122

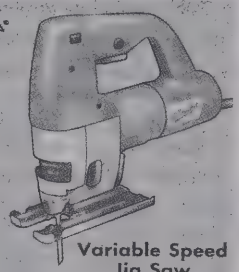
No. 4Z813

## PROFESSIONAL VARI-ORBIT SAW No. 4Z825

- Features variable speed, 6 orbital actions: Variable speed control dial in trigger
- Capacities: 2" in softwood, 1¼" in hardwood, 3/8" in aluminum, and 3/16" in mild steel
- Supplied with one blade
- 8 ft., 2-wire rubber cord
- Uses universal blades
- For AC operation only
- UL Listed, CSA Certified

## WORKSHOP SAW No. 6Z122

- Features 5 orbital actions for cutting material from softwood to aluminum or steel
- Automatic scrolling capability
- Supplied with one blade and blade wrench
- 6 ft., 2-wire cord
- Double insulated construction
- Uses universal blades
- For AC operation only
- UL Listed, CSA Certified



## MILWAUKEE SAW No. 4Z813

- Accepts standard 1/4" universal shank blades, base tilts 45°
- Includes 5 bi-metal quality wood and metal cutting blades
- Capacities: 2½" in hardwood, 1/4" nonferrous metal, and 1/8" in mild steel
- 8 ft., 2-wire cord
- Double insulated construction
- For AC operation only
- UL Listed, CSA Certified
- Variable speed

Variable Speed Jig Saw No. 3G711

New

Variable Speed Jig Saw No. 4PF73

## VARIABLE SPEED JIG SAWS Nos. 3G711 and 4PF73

- Double insulated construction
- Uses T-shank blades
- Features 4 orbital action settings and 1 non-orbiting setting
- 45° tilt for angle cutting
- Quik-Lok blade system for simple blade changes - no tools required
- Thumbwheel speed control
- Built-in dust collection port allows attachment to vacuum
- 2 blades included
- For AC operation only
- No. 4PF73 includes plastic carrying case

# JIG SAW BLADES

## BI-METAL BLADES FOR JIG/SABRE SAWS

- For jig saws that use a 1/4" universal shank
- Bi-metal blades last up to 5 times longer than carbon steel blades
- High speed steel teeth provide sharp, long-lasting cutting life
- Flexible spring steel back for long blade life
- Hardened teeth allow for cutting nail-embedded wood
- Electron beam welding insures a strong blade and a long life
- Fits most U.S. and foreign saws
- Priced each. Sold only in pkgs. of 5

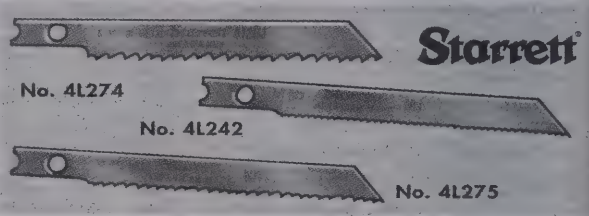
# JIG SAW BLADES AND SCROLL SAW BLADES

## JIG SAW BLADES

Universal shank unless otherwise noted

### BI-METAL



A high speed steel cutting edge combined with a flexible back, make these blades tough, shock absorbing and virtually unbreakable. Provides long blade life and user safety. Cuts almost all forms of wood, metal and plastic.

### FASTCUT™

Variable pitch high speed steel teeth allow fast cutting action on a wide selection of materials and thicknesses. Also provides smooth finishes and reduced noise levels on all forms of wood, metal and plastic.

1½ HP Router
No. 6W360

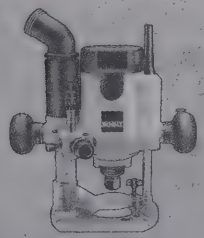
Modification & Service Available
Contact Your Local Branch

DEWALT

Replacement Parts Available
1-800-323-0620

No. 4Z566

## 1½ HP ROUTER No. 6W360



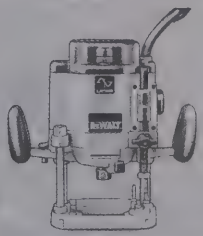
- Collet capacity: 1/4 & 1/2"
- For continuous production use
- Accurate calibrated depth adjustment
- Long collet system ensures positive bit holding and less runout
- 6" diameter base for easy bit changes, depth adjustments
- Includes 1/4 & 1/2" collets and two wrenches
- 8 ft., 2-cond. rubber cord
- For AC operation only
- UL Listed, CSA Certified

## 1½ HP ROUTER MOTOR No. 4LD87

- No. 4LD87 does not include base
- Collet capacity: 1/4" & 1/2"
- For continuous production use
- Accurate calibrated depth adjustment
- Long collet system ensures positive bit holding and less runout
- 8 ft., 2-cond. rubber cord
- For AC operation only
- UL Listed, CSA Certified

## 1½ & 2 HP ROUTERS Nos. 4Z566 & 6Z357

- Adjusting ring with 1/64" graduations with lock to maintain depth of cut
- No. 4Z566 includes 1/4" collet and two wrenches
- No. 6Z357 includes 1/2" collet and two wrenches
- Both models include 8 ft., 3-cond. rubber cord
- Power source AC/DC
- UL Listed, CSA Certified



2 HP Router
No. 3MM54

Milwaukee

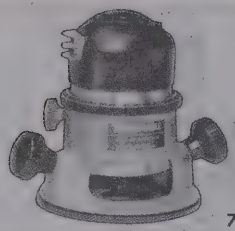
DEWALT

3 HP Router
No. 6Y933

## 2 HP PLUNGE ROUTER No. 3MM54

- Collet capacity: 1/4-1/2"
- Built-in dust extraction through plunge column
- Variable speed with electronic feedback circuitry maintains constant speed under load & provides soft start
- Micro-fine depth adjuster
- Spindle lock button
- Convenient round handles with plunge lock on one side and On/Off trigger on the other
- Includes 1/4 & 1/2" collets, template guide bushing adapter, vacuum adapter, and wrench

## 3 HP PLUNGE ROUTER No. 6Y933



- No. 6Y933 is 3 HP, 120V router
- Accept 1/2, 1/4, and 3/8" collets
- Polished steel guide rods with machined bushings
- Plunge lock mechanism in handle
- Precision machined collet is slotted on six sides to minimize vibration and runout and prevent sticking
- Three-position turret depth setting
- Rack and pinion depth adjuster with magnified scale
- Variable speed with electronic feedback
- Includes 1/2 & 1/4"collet, template guide, bushing adapter, and three wrenches
- 10 ft., 2-cond. rubber cord
- For AC operation only
- UL Listed

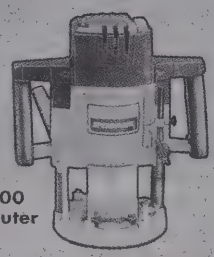
## 1½ HP ROUTER No. 4Z951

- For tradesman use where overload protection and high torque performance are needed
- Has flattop design for easy bit changes
- Motor and base die-cast aluminum
- Micrometer type of depth adjustment
- Max. collet capacity: 1/2"
- Includes 1/4 and 1/2" collet, self-releasing collets system, and two collet wrenches
- 7 ft., 3-cond. cord
- Power source AC
- UL Listed, CSA Certified



## 1½ HP D-HANDLE ROUTER No. 6Z308

- Solid die-cast aluminum motor housing and base
- Micrometer depth of cut control
- Adjustable subbase permits accurate centering of the template guide with bit
- Flat top design for easy bit changes
- Includes 1/4 and 1/2" collets and two collet wrenches
- New self-releasing collet system
- Power source AC only

## 3¼ HP PLUNGE ROUTER No. 3W896

- 5-speed production plunge router
- 3" plunge capacity
- Die-cast housing has precision-machined 7/8" steel posts with DuPont Teflon®-lined bearings for smooth plunge action
- Posts are sealed for dust protection
- Powerful 15 amp motor
- Soft start feature for long motor life and user safety
- Includes 1/2" collet
- Self-releasing collet system

## 3¼ HP PLUNGE ROUTER No. 2AC00

- Solid die-cast aluminum motor housing and base
- Plunge capacity 3"
- Adjustable depth rod with six position stop turret
- Soft start for longer motor, switch, and bearing life
- Includes 1/2" collet
- New self-releasing collet system
- Power source AC only
- UL Listed, CSA Certified

## LOCK INSTALLATION KIT CYLINDRICAL LOCK BORING JIG

- The quick, easy way to install cylindrical locks
- Jig locates for 2⅜" or 2¾" backset in seconds
- Adjustable for door thickness from 1⁵⁄₁₆" to 2⅛"
- Drills all holes in one set-up
- Includes strike locator for accurate placement of jamb mortise

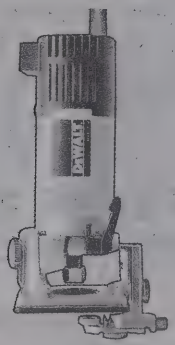
# LAMINATE TRIMMERS

## PORTER-CABLE

See Index for Trimmer Accessories



No.4Z953

No.6A706

Replacement Parts Available
1-800-323-0620

## DEWALT

No.1N560

## PORTER-CABLE TRIMMER No. 4Z953

- Compact, lightweight, design with 360° access to unit for greater control, safety, and durability during operation
- Precision-machined aluminum base tilts 45° left and 30° right
- Spindle lock for fast bit changes, 1/4" collet
- Double insulated sealed ball bearing construction
- Power source AC/DC
- UL Listed, CSA Certified

## PORTER-CABLE TRIMMER No. 6A706

- Die-cast precision-machined fixed aluminum base
- Spindle lock for fast bit changes, 1/4" collet
- Unique micro-set depth adjustment for pinpoint accuracy in seconds
- Double sealed ball bearing construction
- Power source AC/DC
- UL Listed, CSA Certified

### PORTER-CABLE ROUTER COLLETS

| Description | Application | PC Model | Stock No. | List | Each | Shpg. Wt. |

# PLATE JOINER, PLATE JOINER KIT AND ACCESSORIES

## PLATE JOINER WITH TILT FENCE & CASE

**PORTER-CABLE**

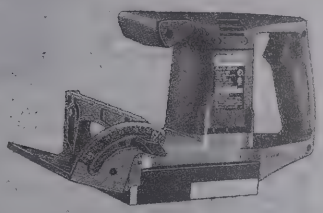

Plate Joiner
No. 6A707

Replacement Parts Available
1-800-323-0620

- For joining material and making joints quickly
- Easier and faster than doweling
- Unique vertical push-handle with trigger switch
- Super torque PD belt drive for quieter, smoother operation
- Exclusive miter fence permits precise matching of miter joint corners even if materials are of different thickness
- Easy-to-use fence with preset 45 and 90° faces; includes precision 0-45° tilt fence
- Easy rotating cutter adjustment with preset depth stop for accurate cutting for all three standard biscuit sizes
- Power source AC/DC
- UL Listed, CSA Certified

ıcludes 6 tooth carbide-tipped blade (8000 RPM), and steel car-ying case. Belt driven. 5.0 amps at 120V. 10" long, weighs 6 lbs. orter-Cable brand (556).

**o. 6A707.** Shpg. wt. 14.0 lbs. List ..... $240.00.
ach ..... $190.25▲

▲) Net prices, not subject to discounts.

## PLATE JOINER KIT

**DEWALT**

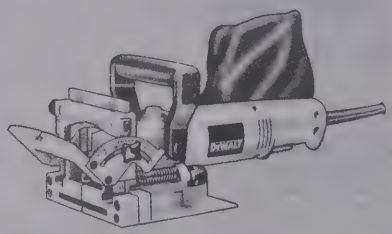

Plate Joiner Kit
No. 6W875

Replacement Parts Available
1-800-323-0620

- Rack and pinion integral adjustable fence ensures parallel plunge cuts for easy joining
- Fence tilts 0 to 90°; fence flips to 0° for flush cuts—no extra parts needed
- Retractable steel anti-slip pins
- 4" six tooth carbide blade No. 4GD63
- Fence allows location on either face of miter joint for accuracy
- Preset depth stops for #0, #10, and #20 biscuits and 20mm depth of cut
- 8 ft., 3-cond. rubber cord
- UL Listed

Includes heavy-duty plastic case, dustbag, deflector, 4" blade, vacuum adapter, and wrench. 10,000 RPM no-load speed, 6.5 amps at 120V. 12½" L, weighs 6.6 lbs. DeWalt brand (DW682K).

**No. 6W875.** Shpg. wt. 14.0 lbs. List ..... $300.00.
Each ..... $199.00▲

**No. 4GD63.** Shpg. wt. 1.6 lbs. List ..... $60.08.
Each ..... $47.40▲

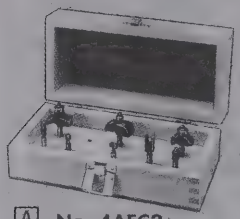
## PLATE JOINER ACCESSORIES

**iscuits** are manufactured in the U.S.A. and completely inter-hangeable in size and performance with foreign-made biscuits. ssortment pack contains 500 of size "20" (24mm x 58mm), 250 of ize "10" (20mm x 52mm), and 250 size of "0" (16mm x 47mm). 'orter-Cable brand (5554).

**lo. 6A708.** Shpg. wt. 4.8 lbs. List $38.50.
:ach ..... $30.00▲

**Replacement Cutter** is interchangeable with all competitive plate-joiner cutter blades. 12 tooth carbide-tipped blade. 10,000 RPM max. Porter-Cable brand (5557).

**No. 6A709.** Shpg. wt. 0.6 lbs. List $67.15. Each ..... $55.45▲



(▲) Net prices, not subject to discounts.

## LAMINATE TRIMMING BITS cont.

### TWO-WING BEVEL

For trimming high-pressure plastic laminate counter top edges where a 25° bevel is required.

**TWO-WING BEVEL—Carbide Tipped, Ball Bearing Pilot**

| Bevel | Dia. | Flute Length | Shank Dia. | Shank Length | P-C Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| **25°** | 13/16" | 3/8" | 1/4" | 1 1/4" | 43253 | **3ZJ91** | $21.00 | **$16.42▲** | 0.1 |

## EDGE FORMING BITS

### CORNER ROUND

For smooth, uniformly round edges.

**CORNER ROUND—Carbide Tipped, Ball-Bearing Pilot**

| Radius | Flute Length | Shank Dia. | Shank Length | P-C Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| **1/8"** | 25/64" | 1/4" | 1 3/8" | 43421 | **3ZK04** | $29.50 | **$23.06▲** | 0.1 |
| **3/16** | 1/2 | 1/4 | 1 1/4 | 43085 | **3ZJ79** | 31.50 | **24.63▲** | 0.1 |
| **1/4** | 7/16 | 1/4 | 1 1/4 | 43402 | **3ZK01** | 32.00 | **25.05▲** | 0.1 |
| **3/8** | 5/8 | 1/4 | 1 1/4 | 43405 | **3ZK02** | 33.50 | **26.20▲** | 0.1 |
| **1/2** | 3/4 | 1/4 | 1 1/4 | 43408 | **3ZK03** | 34.00 | **26.60▲** | 0.1 |

### COVE

For cutting decorative edging and inverted radii with a smooth finish.

**COVE—Carbide Tipped, Ball Bearing Pilot**

| Radius | Flute Length | Shank Dia. | Shank Length | P-C Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| **1/4"** | 9/16" | 1/4" | 1 1/4" | 43102 | **3ZJ80** | $32.00 | **$25.05▲** | 0.1 |
| **3/8** | 9/16 | 1/4 | 1 1/4 | 43103 | **3ZJ81** | 32.50 | **25.45▲** | 0.1 |
| **1/2** | 3/4 | 1/4 | 1 1/4 | 43104 | **3ZJ82** | 33.00 | **25.85▲** | 0.2 |

### CHAMFER

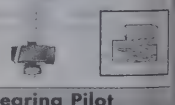
For 45° bevel cutting. Lower depth setting results in chamfer with fillet.

**CHAMFER—Carbide Tipped, Ball Bearing Pilot**

| Bevel | Flute Length | Fillet | Shank Dia. | Shank Length | P-C Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| **45°** | 9/16" | 1/8" | 1/4" | 1 1/4" | 43072 | **3ZJ77** | $31.00 | **$24.24▲** | 0.1 |
| **45°** | 9/16 | 1/8 | 1/2 | 1 3/4 | 43190 | **3ZJ87** | 32.00 | **25.10▲** | 0.2 |

### ROMAN OGEE-REVERSE CURVE

For decorative edging and furniture. Lower depth setting results in addition of fillet.



**ROMAN OGEE, REVERSE CURVE—Carbide Tipped, Ball Bearing Pilot**

| Overall Dia. | Flute Length | Radius | Shank Dia. | Shank Length | P-C Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|---|
| **1 1/8"** | 9/16" | 5/32" | 1/4" | 1 1/4" | 43126 | **3ZJ84** | $36.00 | **$28.20▲** | 0.1 |
| **1 3/8** | 5/8 | 1/4 | 1/4 | 1 1/4 | 43127 | **3ZJ85** | 37.80 | **29.60▲** | 0.1 |

### RABBETING

For rabbeting or step cutting edges with piloted bits.

**RABBETING—Carbide Tipped, Ball Bearing Pilot**

| Cut Width | Flute Length | Shank Dia. | Shank Length | P-C Model | Stock No. | List | Each | Shpg. Wt. |
|---|---|---|---|---|---|---|---|---|
| **3/8"** | 1/2" | 1/4" | 1 1/4" | 43082 | **3ZJ78** | $27.00 | **$21.12▲** | 0.2 |
| **1/2** | 1/2 | 1/4 | 1 5/8 | 43120 | **3ZJ83** | 32.00 | **25.05▲** | 0.2 |

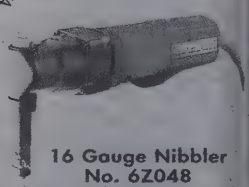
# NIBBLERS

16 Gauge Nibbler
No. 4LF25

DEWALT



Replacement Parts Available
1-800-323-0620

16 Gauge Nibbler
No. 4LF22

Milwaukee

Made in U.S.A.

16 Gauge Nibbler
No. 6Z048

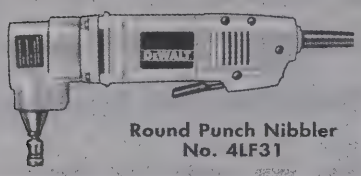
## 16 GAUGE PROFILE NIBBLER No. 4LF25

- Capacity: 16 gauge; 18 gauge stainless steel
- 6.5 amp motor for continuous duty
- Cuts corrugated trapezoids and square sheet profiles
- Rotating punch and die allows cut direction to be changed
- Multi-regrindable, easy-to-change tooling
- UL Listed

## 16 GAUGE NIBBLER

- For fast cutting of metal sheet stock
- 18 Gauge stainless steel
- Cutting mechanism rotates 360°; can be locked in any position
- Double insulated construction
- Includes collar, Allen wrench, die, and open end wrench
- UL Listed, CSA Certified

### REPLACEMENT PUNCHES FOR No. 4LF22

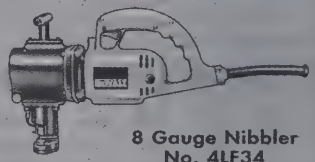


Set of 5. DeWalt brand (DW8967)

**No. 4LF24.** Shpg. wt. 0.1 lbs. List $75.00.
Each ..... $53.60▲

(▲) Net prices, not subject to discounts.

## 10 & 16 GAUGE NIBBLERS Nos. 6Z048 & 1Y135



- Cuts curved and square corrugation
- 18 gauge stainless steel capacity for No. 6Z048
- 12 gauge stainless steel capacity for No. 1Y135
- 8-position indexing punch holder
- Paddle-type switch
- Ball and sleeve bearings
- Double insulated construction
- UL Listed, CSA Certified
- No. 1Y135 has AC/DC toggle switch

Round Punch Nibbler
No. 4LF31

DEWALT

Replacement Parts Available
1-800-323-0620

8 Gauge Nibbler
No. 4LF34

## 14 GAUGE ROUND PUNCH NIBBLER No. 4LF31

- Capacity: 14 gauge; 16 gauge stainless steel
- 6.5 amp motor for continuous duty
- 1950 strokes per minute for fast cutting
- Round punch for on the spot turning 360°
- Cutting line keeps clear because chips drop down
- Multi-regrindable, easy-to-change tooling
- Rotating tooling system allows cut direction to be changed
- UL Listed

## 8 GAUGE NIBBLER No. 4LF34

- Develops pressure of 2-ton press
- Capacity: 8 gauge, 10 gauge stainless steel
- Patented automatic oiler
- Carbide die for long effective cutting without distortion
- Turndown control on main shaft permits inspection of punch
- UL Listed, CSA Certified

### REPLACEMENT PUNCH FOR No. 4LF34

**No. 4LF36.** Shpg. wt. 0.2 lbs. List $46.23.
Each ..... $32.95▲

### PUNCH & CARBIDE DIE SET FOR No. 4LF34

**No. 4LF35.** Shpg. wt. 0.2 lbs. List $98.37.
Each ..... $70.05▲

# ELECTRIC SHEARS

## 12 GAUGE SHEAR No. 4LF17

Unsurpassed curve accessibility with easy-to-change cutters

Easy-to-change four edge blade
Fast precision cutting with minimum force
UL Listed

## 18 GAUGE SHEAR No. 4LF09

Cuts flat sheet metal quickly and accurately

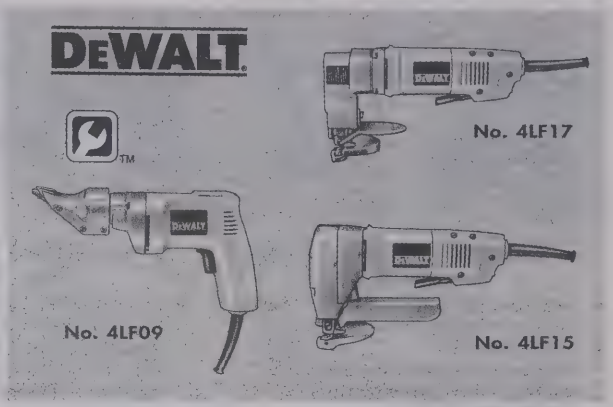
Removes 7/32" width of material

Variable speed switch control

Replacement blades available, see Index

UL Listed, CSA Certified

## 14 GAUGE SHEAR No. 4LF15



Highly polished, hardened steel shoe

Blades can be sharpened up to five times

Double insulated construction

Includes shoe, Allen wrench, feeler gauge, sharpening guide, and scrap deflector

UL Listed, CSA Certified

### SHEAR ACCESSORIES

## 18 GAUGE SHEAR No. 6Z045

Cuts round, square and irregular holes
Capacity 20 gauge stainless steel
Head swivels 360°
Center blade cuts 1/4" continuous metal curl; cuts up to 15 ft. per minute
7" minimum radius
8 ft., 3-cond. rubber cord
UL Listed, CSA Certified

## 16 AND 18 GAUGE SHEARS Nos. 6Z046 & 6Z047

- No. 6Z046 is 18 gauge; capacity 20 gauge stainless steel
- No. 6Z047 is 16 gauge; capacity 18 gauge stainless steel
- Toggle switch on No. 6Z047; paddle switch on No. 6Z046
- Double insulated construction
- 8 ft., rubber cord
- UL Listed, CSA Certified

# RANDOM ORBIT SANDERS AND SANDPAPER

No. 3W786
Random Ordbit Sander

PORTER-CABLE

No. 3W893
Random Ordbit Sander

5" Sander
No. 6W283

## 5" RANDOM ORBIT SANDER No. 3W786

- Side handle switches to either side for right or left-handed operation
- Paddle switch
- Uses pressure sensitive adhesive sanding discs, see Index under "Adhesives, PSA"
- 8 ft., 2-cond. rubber cord
- Includes sander, 5" backing pad, 3 assorted sanding discs, and 3/4" wrench
- UL Listed, CSA Certified

## 5" RANDOM ORBIT SANDER No. 3W893

- Front grip for better control
- Side handle mounts on left or right
- Provides a swirl-free finish
- Spiral/bevel gears for smooth power transfer to the pad and quiet operation
- Industrial quality 10 ft., 2-cond. rubber cord
- Includes sander, standard profile 5" pad, assorted paper, and wrench
- Uses standard PSA disks

## 5" PALM GRIP RANDOM ORBIT SANDER No. 6W283

- All-position, lightweight palm grip sanders can be controlled from top or side for best maneuverability and control
- Small 3/32" orbit for super smooth finished results without swirl marks
- Pad Control feature prevents pad spin-up to prevent gouging
- Uses pressure sensitive adhesive disc
- 7 ft., 2-cond. rubber cord with separate strain relief
- Includes sander and 5" pressure-sensitive adhesive disc
- UL Listed, CSA Certified

## 5" SANDERS Nos. 1N572, 1N573 AND 2FX57

- Heavy-duty construction for continuous shop use
- Controlled Finishing System™ maintains constant pad speed on or off work to prevent gouging
- Low profile design minimizes hand-to-surface distance
- Dust sealed switches, accessible brushes
- Nos. 1N573 and 2FX57, have 5" rubber pad that accepts pressure sensitive adhesive (PSA) sandpaper; 2FX57 uses 8 hole PSA sandpaper. No. 1N572 accepts 8 hole hook-and-loop-type sandpaper
- For AC operation only; includes 10-ft. rubber cord. UL Listed, CSA Certified
- Premium aluminum oxide grain removes material more efficiently
- Chemically treated backing resists tearing
- Resin adhesive resists heat build-up
- Stearate coating reduces gum-up

# ORBITAL SANDERS

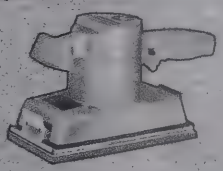
DEWALT

Replacement Parts Available
1-800-323-0620

Palm Grip Sander
No. 4Z742

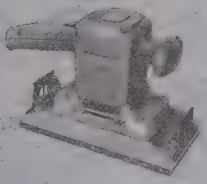
PORTER-CABLE

Speed Bloc Sander
No. 4Z956



## PALM GRIP SANDER No. 4Z742

Removable top cap for access to brushes, switch, and cord-set
Sands flush on three sides
Dust-sealed switch
Metal-backed pads for easy changes
Accepts 1/4 sheet—standard sheet size in 9 x 11"
1/16" diameter orbit
Double insulated construction
Includes wide-mouth zipperless dust bag and paper hole punch
High efficiency through-the-pad dust collection and switch "boot" minimizes dust contamination
For AC operation only
8 ft., 2-cond. rubber cord
UL Listed, CSA Certified



## SPEED BLOC® SANDER No. 4Z956

- Palm grip design for one hand operation
- Sands flush on all sides
- Double insulated construction
- Vibration free orbital action
- Uses 1/4" sheet—standard sheet size is 9 x 11"
- 5/64" diameter orbit
- Slide-type On-Off switch
- Includes one sheet of sandpaper and clamp tool
- Power source AC/DC
- 7 ft., 2-cond. cord
- UL Listed, CSA Certified

## HEAVY-DUTY SANDER No. 4Z957

For continuous production use
Sands flush on three sides
Aluminum housing
Uses 1/2 sheet—standard sheet size in 9 x 11"
1/8" diameter orbit
Trigger switch with lock-on
Full width clamps
Includes one sheet of sandpaper and 3M StiKit® sandpaper pad
Power source AC/DC
7 ft., 3-cond. cord
UL Listed, CSA Certified

## HEAVY-DUTY SANDER No. 4Z565

- For continuous production use
- Sands flush on three sides
- 40% glass reinforced nylon housing and handles
- Uses 1/2 sheet—standard sheet size is 9 x 11"
- 1/8 diameter orbit
- Self-sticking backing pad
- Power source AC/DC
- 8 ft., 2-cond. rubber cord, double insulated
- UL Listed, CSA Certified

## HEAVY-DUTY SANDERS Nos. 4A941 & 6W286

- Compact one-hand design
- Sands flush on three sides
- 40% glass reinforced nylon housing and handles
- Double insulated construction
- Uses 1/4 sheet—standard sheet size is 9 x 11"
- 1/16" diameter orbit
- Rubber backing pad
- Power source AC operation only
- No. 6W286 includes dustbag
- 8 ft., 2-cond. rubber cord, double insulated
- UL Listed, CSA Certified

## CLOTH BANDFILE BELTS

### METALITE® R283 BELTS

- Offer improved resistance to grain shedding and a more flexible backing
- P-Graded Aluminum Oxide abrasive
- Waterproof close coated, resin bonded on a semi-flexible X-wgt.
- Developed specifically for use on portable belt machines

### NORTON SG® R981 BELTS

- For hard-to-grind, heat-sensitive metals such as alloyed steel
- Premium ceramic abrasive is specially coated to promote a cool-cutting action that gives a long, aggressive grinding life
- Resin bonded on a Y-weight polyester backing

Cloth Belt
No. 2D593

### BELT SELECTION

Look for abrasive requirement and select appropriate belt. When same size and grit are available, premium belts will offer faster stock removal and longer life. Coated Abrasive Belts are listed by groups in the following order:

1. **Width** (narrow to wide)
2. **Length** (short to long)
3. **Grit Size** (coarse grit to fine grit)
4. **Abrasive Type** (Aluminum Oxide Zirconia—SG Ceramic)
5. **Coating Type** (closed coat to open coat).

# ELECTRIC HAND GRINDERS

## DIE GRINDERS

### DeWALT 1½" DIE GRINDER No. 4LF06

- For use in die shops, stamping plants, and tool rooms
- Extended spindle housing permits user to grip the tool near the stone
- Includes 1/4" collet and collet wrench
- For AC operation only
- UL Listed, CSA Certified

### DeWALT 2" DIE GRINDER No. 4LF08

- Powerful 5 amp motor for continuous use under heavy loads
- Ball bearing construction
- Extended spindle housing permits user to grip the tool near the stone
- 1/4" collet for mounted points and carbide burrs
- Includes 1/4" collet, 2 wrenches, and reducing sleeve for reducing collet opening to 1/8"
- UL Listed, CSA Certified

### MILWAUKEE 2" DIE GRINDERS Nos. 4Z818 & 1Y068

- For finishing, polishing, deburring, chamfering, and sharpening in die shops, stamping plants, and tool rooms
- Lightweight glass reinforced nylon motor housing and durable neoprene coated aluminum spindle housing
- Self-disconnecting brushes
- Dynamically balanced armature for efficient operation
- No. 4Z818 has On-Off toggle switch; No. 1Y068 has On-Off paddle switch
- Includes 1/4" collet, 1/2" and 11/16" open end wrenches
- 8 ft., 2-cond. rubber cord
- Power source AC/DC
- UL Listed, CSA Certified

## STRAIGHT GRINDERS

### DeWALT 2½" STRAIGHT GRINDER No. 4LF04

- For grinding, sanding, carving, buffing, sharpening, and any continuous production use
- Direct drive gear mountings
- Instant release trigger switch
- Adjustable wheel guard with wing nuts for fast wheel changes
- Wheel size: 2½" dia. x 1/2" thick x 3/8" arbor
- Shaped grips to prevent tool from turning in operator's hands
- Cast metal housing
- Includes clamp nut, adjustable steel wheel guard, and two wrenches
- Power source AC/DC
- UL Listed, CSA Certified

### DeWALT 6" STRAIGHT GRINDER No. 4LF05

- For material removal jobs
- 13 amp, 3 HP motor with high efficiency cooling system for long service life under continuous load
- All ball bearing construction
- Excellent ventilation; cools motor parts and prevents accumulation of dust and grit
- Includes adjustable wheel guard, arbor nut, washers, and 6" type 1 A24 grit wheel
- 8 ft., 2-cond. cord
- 6" dia. x 1" thick x 5/8" arbor
- UL Listed, CSA Certified

# ELECTRIC HAND GRINDERS

## 1/8" HAND GRINDER KITS Nos. 2Z163 & 2Z962

- Double insulated construction
- Shatterproof nylon housing
- Variable speed unit No. 2Z962 uses AC power source only and includes 72 accessories
- Two-speed unit No. 2Z163 uses AC power source only and includes 30 accessories
- UL Listed, CSA Certified
- Includes 3/32 and 1/8" collets, assorted high speed steel cutters, emery and silicon grinding wheels and points, wire brushes, felt polishing tip and wheel, sanding discs, drum sander and bands, mandrels, dressing stone, cutting wheels, collet key, and self-storing polyethylene carrying case.

## 1/8" FLEX-SHAFT HAND GRINDER No. 1A193

- 360° swivel base
- 34" thermoplastic rubber covered flex shaft with ball bearing
- 1/2" diameter handpiece
- Built-in hanger bracket
- Override switch for going from variable speed to full speed
- 1/8" collet included
- Accepts 1/32, 1/16, and 3/32" collets (not included)
- 3-cond. cord
- UL Listed, CSA Certified

## HEAVY-DUTY 1/4" FLEX-SHAFT HAND GRINDER No. 6A423

- 1/5 HP motor (20,000 RPM) with high impact shatter resistant housing
- Built in hanger bracket
- 1" diameter all ball bearing aluminum handpiece with 1/4 and 1/8" collets
- 39" flexible shaft with quick release handpiece feature
- Solid state, rugged metal, variable speed (0-20,000 RPM) foot control with nonskid base
- 2 amps at 115V
- Tool length 6fi"; weight 3 lbs.
- UL Listed, CSA Certified

## FINE DETAIL 1/2" DIA. HANDPIECE No. 6A424

- Aluminum housing, all ball bearing
- Pencil-like grip
- Quick disconnect feature
- 1/8 and 3/32" collets included

## TOOL STAND No. 6A425

- For use with bench mount applications
- UL Listed

## 7.2 VOLT, 2-SPEED MULTIPRO™ CORDLESS TOOL KIT No. 3JP50

- Multipurpose cordless tool cuts, grinds, polishes and sands
- Lightweight, compact size is ideal for do-it-yourself projects around the home
- Ball bearing drive shaft with shaft lock for easy bit changes
- 2 speeds: 7500 & 15,000 RPM
- Tool kit includes cordless tool with rechargeable battery pack, 1/8" collet, 3-hour battery charger, accessories, guide book and storage case
- Accessories include 1/8" dia. drill bit, high speed cutter, two mandrels, bristle brush, 60 grit drum sander, 60 grit sanding band, (6) cut-off wheels, (2) 220 grit sanding discs, (3) 1/2" dia. felt polishing wheels, dressing stone, emery polishing wheel, felt polishing wheel, (2) 120 grit sanding bands, aluminum oxide grinding stone, and silicon carbide grinding stone

| M | 3/8 | 932 | **3W850** | 2.76 | **1.90▲** | 0.1 |

### N EMERY CUT-OFF WHEEL, Pkg. of 36

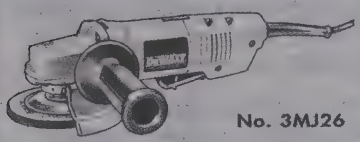
For slicing and cutting off metal, plastic. 15/16" dia. 0.025" thick. Package of 36. Dremel brand (409). Use with No. 3W843.

**No. 3W841.** Shpg. wt. 0.1 lbs. List $5.51.
Each ..... **$3.78▲**

### O FIBERGLASS CUT-OFF WHEEL, Pkg. of 5

Reinforced fiberglass wheel. 1¼" dia., 0.045" thick. Package of 5. Dremel brand (426). Use with No. 3W843.

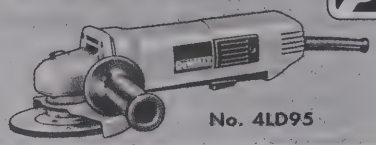
**No. 3W842.** Shpg. wt. 0.1 lbs. List $7.96.
Each ..... **$5.47▲**



### P MANDREL No. 3W843

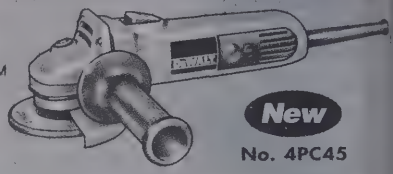
1/8" shank mandrel is for use with cutting wheels Nos. 3W841 and 3W842, sold above. Dremel brand (402).

**No. 3W843.** Shpg. wt. 0.1 lbs. List $2.76.
Each ..... **$1.90▲**



# SANDERS/GRINDERS

**NOTE: PROPER GUARDING REQUIRED FOR GRINDING OPERATIONS**



No. 3MJ26

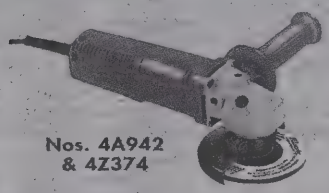
DEWALT

No. 4LD95

New

No. 4PC45

## 4½" DISCS Nos. 3MJ26 & 4KZ07



- Rotatable guard requires no tools for repositioning or removal
- Reversible side handle
- Includes 4½" x 1/4" depressed center wheel, metal guard, reversible side handle, spanner wrench, disc wheel adapter, adapter clamp nut
- 5/8"-11 spindle; arbor and flange nut for 7/8" non-threaded grinding wheels
- No. 3MJ26 has 10 ft., 2-cond. cord; No. 4KZ07 has 10 ft., 3-cond. cord
- UL Listed, CSA Certified

## 4½" SMALL ANGLE GRINDER No. 4LD95

- High performance, high-durability 1000 watt motor
- 5/8"-11 spindle thread
- Spindle lock for easy wheel and accessory changing
- High efficiency cooling system keeps motor cooler
- Paddle switch for easier operation at difficult working angles
- 8 ft. cord set
- Includes grinding disc, wrench, side handle, guard, backing flange, clamp nut for 7/8" non-threaded wheel and grinding wheel

## 4½" HEAVY-DUTY SMALL ANGLE GRINDER No. 4PC45

- Durable 5.0 amp, 120V AC/DC moto that generates 650 watts; 10,000 RPM
- 5/8" - 11 spindle thread
- Convenient spindle lock for easy accessory changes
- 2-position removable side handle for convenience
- External brush doors for easy servicing
- Includes grinding wheel, wrench, disc wheel, adapter and champ-nut

Nos. 4A942 & 4Z374

Milwaukee

Made in U.S.A.

Replacement Parts Available 1-800-323-0620

No. 5M624 Disc Sander

## 4½" DISCS Nos. 4A942 & 4Z374

- Motor automatically turns off when brushes are worn
- Glass filled nylon motor housing, durable aluminum gear housing
- Nonconductive paddle switch
- Reversible side handle
- Max. capacity 4½"
- Arbor and flange nut for 7/8" non-threaded grinding wheels
- Spindle lock
- UL Listed, CSA Certified
- 2-cond., 8 ft. rubber cord
- 5/8"-11 spindle, 4Z374 has 1/2"-13 spindle
- Includes spanner wrench, disc guard, side handle, grinding disc, flange and flange nut

## 4½" DISC Nos. 5M624, 5M625, & 4GC35

- Spindle lock for fast, easy wheel changes
- Quick set disc guard for "tools free" positioning in 5 preset locations; 3 position side handle
- Paddle switch with lock-on button for continuous operatio
- Include spanner wrench, disc guard, side handle, grinding disc, flange and flange nut; No. 5M625 also includes stee carrying case; No. 4GC35 has dial speed control and 10 ft. Quik-Lok cord
- 8 ft., 2-cond. rubber cord
- UL Listed, CSA Certified
- 5/8"-11 spindle; arbor and flange nut for 7/8" non-threaded grinding wheels

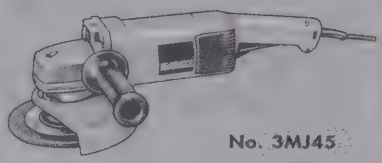
# SANDERS/GRINDERS AND ACCESSORIES

NOTE: PROPER GUARDING REQUIRED FOR GRINDING OPERATIONS

DEWALT



No. 4KZ36

Nos. 4PC46 and 4PC47

New

No. 3MJ45

## 5" SMALL ANGLE GRINDER No. 4KZ36

High performance, high-durability 1400 watt motor
5/8"-11 spindle thread
Spindle lock for easy wheel and accessory changing
High efficiency cooling system keeps motor cooler
Paddle switch for easier operation at difficult working angles
8 ft. cord set
Include grinding disc, wrench, side handle, guard, backing flange, clamp nut for 7/8" non-threaded wheel and grinding wheel

## HEAVY-DUTY 5 AND 7" MEDIUM ANGLE GRINDERS Nos. 4PC46 AND 4PC47

- 120V AC/DC capacity works off welding machines and generators for increased productivity and versatility
- No. 4PC46 has 12 amp, 10,000 RPM motor; No. 4PC47 has 15.0 amp, 8,000 RPM motor–provides high power and speed for grinding applications
- High power-to-weight ratio for greater efficiency and reduced user fatigue
- Rear handle design for greater comfort and control
- External brush doors for easy servicing
- Spindle lock for quick, easy wheel changes
- Includes depressed center wheel, wrench, backing flange, clamp nut and tool-free guard
- 5/8"-11 spindle thread

## 7" DISC GRINDER No. 3MJ45

- 3-position handle mounts on either side or top of grinder for two-handed control
- Externally accessible brushes
- Spindle lock for easy wheel changes
- 5/8"-11 spindle with arbor and flange nut for 7/8" nonthreaded grinding wheels
- Includes side handle, spanner wrench, back-up flange, flange washer, 7" guard, and 7" wheel
- 8 ft., 2-cond. cord
- UL Listed

TM Replacement Parts Available 1-800-323-0620

## Nos. 4KZ67 & 4KZ69

- For continuous industrial use
- Trigger switch with lock-on
- Reversible side handle
- 5/8"-11 thread spindle
- Soft mount prevents wheel from locking
- Checkpoint brush system, fan and baffle system, and exhaust deflector
- UL Listed, CSA Certified
- 120 Volt AC/DC

## Nos. 4Z819, 3G709 & 3LJ29

All feature:

- UL listed CSA certified
- Glass-filled nylon motor housing
- 5/8"-11 Thread spindle
- Recessed spindle lock button
- Reversible side handle, flange and nylon washer
- No. 3G709 includes 10 ft. 2-wire Quik-Lok cord
- No. 3LJ29 includes 10 ft. 2-wire Quik-Lok cord, spanner wrench, 7" guard, spindle washer, disc hub adapter, disc retaining nut and flange washer for 7/8 bore type 27 grinding wheels. Order No. 5A871
- Nos. 3G709 and 3LJ29 have dial speed control

## Nos. 2Z736, 2Z964, 4A944, 6Z353 & 6Z354

- Heavy-duty aluminum gearcase and motor housing
- 5/8"-11 Thread spindle, side handle flange and nylon washer
- Nos. 2Z964, 6Z354, and 2Z736 include controlled start to reduce torque reaction when starting tool
- Nos. 2Z964 and 2Z736 include line lock-out to prevent tool from operating should voltage be restored to an interrupted line
- No. 6Z353 includes wheel guard and mounting hardware for type 28 grinding wheel; order No. 5A876 grinding wheel. See Index for listing

# ROTARY TABLES, ACCESSORIES, AND TOOL POST SETS

## HORIZONTAL/VERTICAL 8", 10", & 12" ROTARY TABLES

**Machinist's dual position, rotary table** is for indexing, circular cutting, angle setting, boring, spot facing, and similar operations. Worktable is precision machined of high density Meehanite with four T-slots and MT3 center taper. Worm gear of high carbon steel hardened and ground with 90:1 ratio, so that one turn of the handle moves the table through 4". Tables are graduated to a full 360°. Micro collar is graduated in divisions of 1 min. and vernier scale makes settings down to 10 seconds possible. 8" table accurate to 1 minute/20 seconds; 10" and 12" tables accurate to 45 seconds. Gear can be disengaged for free spinning of table; two lock downs at 180°. Machine remains very steady under load cutting.

# DRILL PRESSES

## A 8" BENCH TOP DRILL PRESS

Cast-iron construction for strength and durability designed to help reduce vibration
Table and base work surfaces are slotted for use with hold down accessories (not included) to keep workpiece secure
Depth gauge for precision repetitive drilling
Adjustable motor bracket to assure proper belt tensioning
Table adjusts vertically and tilts 45° right and left
Five drilling speeds from 620 to 3100 RPM (no load)
1/2" chuck with key accepts most standard sized bits and accessories
Drills to the center of an 8" workpiece

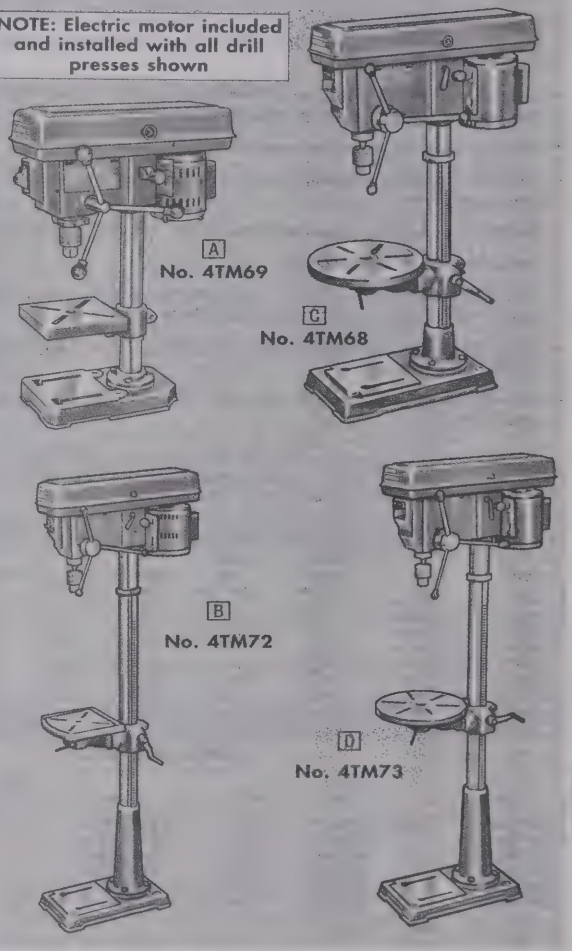
## B 13" FLOOR TOP DRILL PRESS

Cast iron construction for strength and durability designed to help reduce vibration
Table and base work surfaces are slotted for use with hold down accessories (not included) to keep workpiece secure
Depth gauge for precision repetitive drilling
Adjustable motor bracket to assure proper belt tensioning
Table tilts 45° right and left for precision drilling requirements
Rack and pinion elevation control for simple and precise height adjustments
12 drilling speeds from 250 to 3100 RPM (no load)
5/8" chuck with key accepts most standard sized bits and accessories
Drills to the center of a 15" workpiece

## C 15" BENCH TOP DRILL PRESS

Cast iron construction for strength and durability designed to help reduce vibration
Table and base work surfaces are slotted for use with hold down accessories (not included) to keep workpiece secure
Depth gauge for precision drilling of repetitive holes
Adjustable motor bracket to assure proper belt tensioning
Table tilts 45° right and left for precision drilling requirements
Rack and pinion elevation control for simple and precise height adjustments
12 drilling speeds from 250 to 3100 RPM (no load)
5/8" chuck with key accepts most standard sized bits and accessories
Drills to the center of a 15" workpiece

## D 15" FLOOR DRILL PRESS



Cast iron construction for strength and durability designed to help reduce vibration
Table and base work surfaces are slotted for use with hold down accessories (not included) to keep workpiece secure
Depth gauge for precision repetitive drilling
Adjustable motor bracket to assure proper belt tensioning
Table tilts 45° right and left for precision drilling requirements
Rack and pinion elevation control for simple and precise height adjustments
12 drilling speeds from 250 to 3100 RPM (no load)
1/2" chuck with key accepts larger sized bits and accessories
Drills to the center of a 15" workpiece

# MAINTENANCE DRILL PRESSES

- For any general purpose to high volume drilling operation in tool rooms, machine/model shops, and production areas
- Cast-iron head, base, table, and column reduce vibration and increase strength and rigidity for safe, accurate operation
- Hardened steel rack and pinion mechanism for raising and lowering the table provides safe, quick, and easy table height adjustments
- Precision ground tilting worktable with 5/8" T-slots secure workpiece for accurate production
- Locking power switch prevents unauthorized use
- Full ball bearing construction provides long, maintenance-free operation
- Depth stop makes repeated operations accurate and easy
- Prewired for 115 Volt only
- No. 3Z993, 5Z146, 3Z917, and 3Z918 spindle speeds are 460, 740, 1150, 1680, and 2470 RPM
- No. 3Z919 spindle speeds are 260, 300, 440, 540, 1150, 1550, and 2220 RPM
- No. 4TJ87 spindle speeds are 540, 880, 1600, 2610, and 3600 RPM

Drill presses are shipped complete with pulleys, drive belt, chuck with key, front-mounted locking power switch, Securvue Drill Press Guard, and 6 ft. power cord. Motor not included.

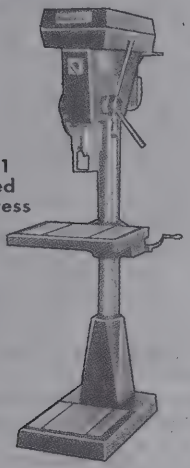
# 69-PIECE CLAMPING KIT

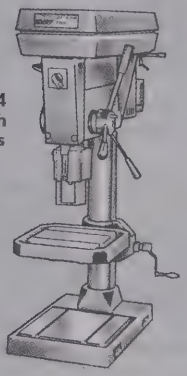
**Complete kit includes all components necessary to make any clamping operation safe and efficient.** Kit includes both 9/16" and 5/8" T-slot nuts. To make clamping setups easier, entire length of 1/2"-13 studs is threaded with flats for gripping. Kits can be used on Dayton milling machine No. 2AC40, rotary table No. 2AC32, milling table No. 6Z849, and drill presses Nos. 5Z146, 3Z917, 3Z918, 3Z919, 6W281, and 6W282.

**Set includes** four 9/16" T-slot nuts, four 5/8" T-slot nuts, six flange nuts, four coupling nuts, six step block pairs, six step clamps,, 24 studs (four each: 3, 4, 5, 6, 7, & 8" lengths), storage rack, and two 1¾" wide U-clamp sets (consisting of two 5" studs, two flange nuts, two ball joint U-clamps, and two 9/16" T-slot nuts). Advantage Plus brand.



**No. 6Z850.** Shpg. wt. 28.0 lbs. List $166.30. Each.....$141.40

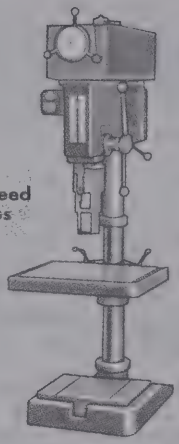
# HEAVY DUTY DRILL PRESSES



Dayton® New

Replacement Parts Available
1-800-323-0620™

No. 6W281
20" 9-Speed
Floor Drill Press



Includes 1 HP
110/220V Motor
(Prewired for 110V)

No. 4TJ94
20" Bench
Drill Press

Includes 1 HP
110/220V Motor
(Prewired for 110V)

69 Pc. Clamping Kit available;
order No. 6Z850. See page 1498

No. 6W282
20" Variable Speed
Floor Drill Press

Includes 1½ HP
110/220V Motor
(Prewired for 220V)

- **For any general purpose to high volume drilling operation in tool rooms, machine/model shops, and production areas**
- **Fine grain heavy cast-iron head, base, table, and column to reduce vibration and increase strength and rigidity for safe, accurate operation**
- **Rack and pinion mechanism with hardened steel gears for raising and lowering the table provides safe, quick, and easy table height adjustments**
- **Precision ground table and base work surfaces with 5/8" T-slots secure workpiece for accurate production**
- **Coolant trough for cleaner, more efficient operation**

**ill presses are shipped complete** with pulleys, drive belt, chuck th key, prewired power switch, and 6 ft. power cord.

## 9-SPEED 20" FLOOR DRILL PRESS No. 6W281 AND BENCH DRILL PRESS No. 4TJ94

**ills up to 1" in cast iron.** Convenient belt tensioning allows for ick, easy speed changes. 110 or 220V operation allows drill ess to be used in any location. Rotary drum switch is UL cognized.

**Spindle speeds are 150, 260, 300, 440, 490, 540, 1150, 1550, and 2220 RPM.** Motor pivots on a unique mounting system that allows quick and easy speed changes.

**Shipped complete** with pulleys, drive belt, 5/8" chuck with arbor, 1 HP, 60 Hz, 110/220 volt motor, Securvue Drill Press Guard, and 6 ft. power cord. Motor prewired for 110V.

## VARIABLE SPEED 20" FLOOR DRILL PRESS

**Drills up to 1½" cast iron.** Heavy-duty speed change mechanism provides quick, easy speed changes for all machining operations with infinite variable speeds from 300 to 2000 RPM with easy-to-read dial. Speeds are easily changed while motor runs by large up-front controls.

**Table rotates on lubricated ball bearings** for easy adjustments even with heavy workpieces on the table. Positive table lock locks securely in position for safe, accurate machining. Tension springs for spindle return provide soft spindle return and longer life.

**Shipped complete** with Securvue drill press guard, drive belts, and 1½ HP, 60 Hz, 110/220V motor and 5/8" chuck with arbor. Motor and magnetic starter switch are prewired for 220V. Motor is controlled by magnetic contactor to provide long life and safe operation.

# HEAVY-DUTY DRILL PRESSES AND MILLING TABLES

Wilton drill presses are designed to handle general purpose to high volume production drill operations. Ideally suited for tool rooms, job shops, fabrication shops, and maintenance shops. All Wilton drill presses feature heavy-duty cast iron construction, accurate fully enclosed spindles, positive lock depth stops, T-slotted production worktable and base, and variable speed drive that allows the operator to dial the best RPM for the tool and material while the job is running.

## 15" MODEL

15" Drill press with 1 HP, 115/220V, single phase motor. Wilton brand (A5816).

**No. 4LL11.** Shpg. wt. 260.0 lbs. List $1708.50. Each.....**$1675.00▲**

## 20" POWER FEED MODEL

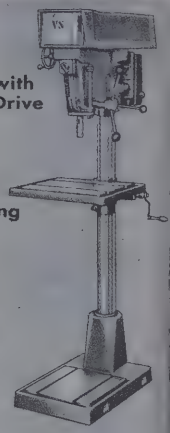
20" Power feed 1½ HP, 115/230V, single phase drill press. Wilton brand (2035).

**No. 5Z134.** Shpg. wt. 730.0 lbs. List $7156.00. Each.....**$6211.00▲**

## 20" MANUAL FEED MODEL

20" Manual feed 1½ HP, 115/230V, single phase drill press. Wilton brand (2015).

**No. 3Z713.** Shpg. wt. 700.0 lbs. List $5132.64. Each.....**$4494.00▲**



Convert either 20" production drill press into a vertical mill with optional milling table No. 3Z714 listed below. Use up to 1/2" milling cutters and use milling adapter and cutting tools without a drawbar. Spindle and threaded collar do not interfere with normal drilling functions.

## SPECIFICATIONS

WILTON CORPORATION

**No. 4LL11**
**15" Drill Press with Variable Speed Drive**

**15" Variable Speed Drill Press**
- **3" column for maximum rigidity**
- **2¼" quill ensures accurate drilling**
- **Rack and pinion table raiser**
- **6" spindle stroke for deep hole drilling**

**No. 5Z134**
**20" Drill Press with Power Feed**

**20" Variable Speed Drill Presses with Power Feed**
- **Variable speed gear drive provides full torque at low speeds**
- **Fully enclosed spindle with internal taper, ball bearings at top and thrust bearings at bottom, maximizes drilling accuracy**
- **Standard table raiser for easy setup and operator convenience**
- **7" spindle stroke/hand feed—6¾" spindle stroke/power feed for deep hole drilling**

## END MILL HOLDER

Used for milling applications. Holds any end mill with 3/8" diameter shank. Has #3 Morse taper for adapting to 20" drill press. Wilton brand (510446).

**No. 6X968.** Shpg. wt. 1.0 lbs. List $94.86. Each.....**$65.7(**

## CHUCK & ARBOR ATTACHMENT KIT

3/16 to 3/4" capacity chuck with arbor for drilling with straight shank drills. Chuck and arbor use #3 Morse taper for all connections and adapting to 20" drill press. Wilton brand (510801).

**No. 6X249.** Shpg. wt. 4.6 lbs. List $103.50. Each.....**$76.5(**

## MILLING TABLES

Tables, bases, and slides are cast iron. Use for drilling, milling, or grinding operations when coordinated table movements are required.

- **Compound Milling Table No. 6Z849 has an 18⅝ x 6" table surface**
- **Two 9/16" T-slots**
- **Clamp set included with 2 U-clamps 5 x 1/2" studs; 9/16" T-nuts and flange nuts**
- **Dayton brand**
- **Precision Milling Table No. 3Z714 has 22⁹⁄₁₆ x 9⁷⁄₁₆" table surface**
- **Three 1/2" T-slots and coolent trough**
- **Lead screw accuracy 0.0005" per inch with table accuracy in horizontal planes 0.001"**
- **Wilton brand (510456)**

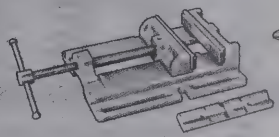
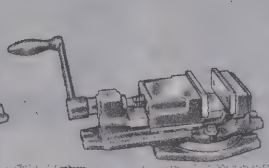
# DRILL PRESS VISES

Dayton® New

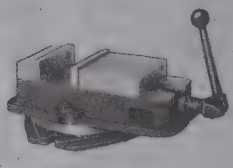
A Drill Press Vise



B Quick Release Vise



C Quick Release Vise



D Angle Vise

E Angle Vise

F Cross Vise

G Drill Press Vises

H Milling Vise

I Milling Vise

J Angle Milling Vise

## A 3½ & 6" DRILL PRESS VISE

se can be turned on either side or set on end for general use.

## B 3" QUICK VISE

›cking cam action grips workpiece securely. Prismatic jaw ›lds irregular cylindrical shapes. slotted shoulders for mount-g to machines.

## C 4 & 6" QUICK VISE

gh tensile strength vise with precision ground guide bars and ›cking cam action to grip workpiece securely. Each vise cludes prismatic jaw to hold irregular, tubular and cylindrical apes for drilling and shaping.

## D 4 & 6" ANGLE VISE

ounted on an angle base for quick adjustments to any angle 0° 90° vertical. Precision locking bolts linked by side plates lock e vise body securely. Hinged pin hole is precision drilled and amed for smooth accurate angle settings with no lateral end ay. Prismatic jaw secures irregular cylinder shapes.

## E 3½" ANGLE VISE

cludes trunnion base with 90° scale in 1° graduations. Positive nned stops at 0, 30, 45, 60, and 90°. Securely locks to any angle ›siton with wrenchless locking. 1/2" shoulder slots for clamping drill press table. Includes extra 3½" prismatic jaw to hold egular, tubular and cylindrical shapes.

**Replacement Parts Available**
**1-800-323-0620**

## F 6 & 8" CROSS VISES WITH PRISMATIC JAWS

Heavy-duty cross vises move workpiece in longitudinal and cross-feed directions for easy positioning of workpiece during machine operations. 6" vise has 8" longitudinal travel and 6" cross travel; 8" vise has 10" longitudinal travel and 8" cross travel. Each includes prismatic jaw.

## G 4, 6 & 8" STANDARD DRILL VISES

1/2" wide slotted shoulders for easy bolting to drill press table. One-piece construction slide bar and axial sleeve increases ruggedness and reliability. Each vise includes an extra prismatic jaw for gripping tubular and spherical objects.

## H 4 & 6" CAST-IRON MILLING VISE WITH SWIVEL BASE

Movable jaw plates are constructed of hardened and ground tool steel. Vise swivels 360° on base. Bed is guaranteed flat and parallel to 0.0005".

## I 6" PRECISION MILLING MACHINE VISES WITH SWIVEL BASES

Vise bed is guaranteed flat and parallel to 0.0001". Locking design provides 1/2 lb. vertical clamping pressure for every 1 lb. of horizontal pressure. Vise swivels 360° on base. Moveable jaw plates, enclosed lead screw, and all sliding surfaces are constructed of hardened and ground tool steel.

## J 3-WAY HEAVY-DUTY ANGLE MILLING VISES

Angles can be set in three directions: tilted 90° from the horizontal to the vertical, and also 45° to left or right of center. Vise swivels 360° on base. Jaws are made of hardened and ground tool steel.

# BENCH GRINDERS AND ACCESSORIES

Handle all grinding operations including sharpening of tool bits, shaping of parts, snagging, stock removal, and cleaning of rust and scale. Two-way adjustable cast aluminum tool rests adjust for wear and angle grinding.

- **Use in factories, foundries, garages, and machine shops**
- **Cast aluminum construction; Capacitor start motor**
- **Extra-wide clearance for grinding long, odd-shaped pieces**
- **Large cast aluminum tool rest that tilts for angle grinding**
- **Compliance with OSHA standards under normal use**
- **All grinders are UL Listed and CSA Certified, except Nos. 4Z910 and 4Z912**
- **Exhaust ports supplied on all grinders except Nos. 2Z425 and 4Z123**
- **All grinders include tool rests, spark arrestors, eyeshields, one 36 grit grinding wheel, one 80 grit grinding wheel, and 6 ft., 3-conductor cord**
- **Grinders are machined to accept Dayton lighted eyeshield No. 6X854 (Sold below)**

## BENCH GRINDER ACCESSORIES

### TOOL STAND FOR GRINDERS

Made from heavy cast iron with a 3½" steel column. **Predrilled and slotted 10 x 11" top** is 32⅝" high. 7L x 3W x 3"D cast-iron water pot is supplied for quenching hot workpieces. Water pot is removable for easy cleaning and filling. **Heavy, triangular base** measures 15 x 16¼" with mounting holes for securing stand to floor.

### LIGHTED EYESHIELD

Die-cast aluminum frame holds 40 watt bulb and 5¾ x 3¾" plexiglas lens. Provides increased visibility of grinding operation. Bolts directly to all Dayton grinders except Nos. 2Z341, 1Z707, and 1Z853. Comes with lens, bulb, grounded power cord, and mounting hardware.

### SAFETY SHIELDS

**3 x 5" Eyeshields** fit all Dayton industrial grinders. Protect eyes from sparks and chips. Safety glass inserts, plated steel frames. Sold in pairs. Dayton brand.

### GRINDING WHEEL DRESSERS

**Dresser No. 2X951** has 4 star-toothed hardened steel cutters and 2 spacers. Face width is 0.450" for use on grinding wheel face up to 2". **Heavy-duty Dresser No. 6Z851** grips with both hands for firm contact with grinding wheel. Has 7 star-toothed hardened steel cutters and 2 spacers. Face width is 0.930" for use on grinding wheel face up to 3½".

# COMBINATION BELT/DISC SANDERS AND HEAVY-DUTY FLOOR STAND

## 6" DISC, 2 X 42" BELT SANDER

**No. 6Y945 Belt Grinder** has 2 x 42" belt that travels at 4500 FPM and 6" disc that rotates at 3450 RPM. Belt table tilts 0-90° and disc table tilts 0-45°. Belt housing tilts from vertical to horizontal making sanding of long pieces easy. Belt is tensioned with spring-loaded mechanism that also provides for fast belt changes. Belt platen is removable for contour sanding. Direct drive 120V, 60 Hz motor produces 1/3 HP. Sander includes one medium grit 2 x 42" sanding belt, one medium grit 1 x 42" belt, and one medium grit 6" PSA sanding disc and miter gauge.

## 8" DISC, 2 x 48" BELT SANDER

**No. 6Z117 Belt/Disc Sander.** For both metal and wood operations, performs many shop and on-the-job tasks such as deburring, precision grinding, tool sharpening, inside finishing and contour sanding. Belt grinder has a 2 x 48" belt that travels at 3100 FPM and 8" disc that rotates at 3450 RPM. Belt table tilts at 0-90° and disc table tilts 0-45°. Belt is tensioned with a spring loaded mechanism that allows fast belt changing. Direct drive 120V, 60 Hz motor produces 1/2 HP. Sander includes one medium grit 1 x 42" sanding belt, one medium grit 2 x 42" sanding belt and a medium grit 8" PSA sanding disc and miter gauge. UL Listed ES2174.

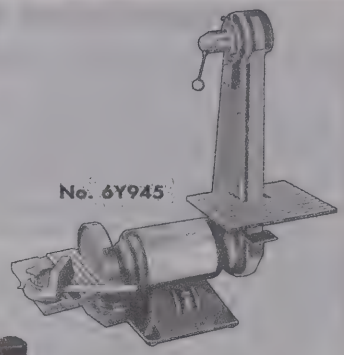
## 9" DISC, 6 x 48" BELT SANDER

**No. 6Y001 Sander** comes complete with two worktables: 6 x 12" disc and 6 x 10" for belt sanding, miter gauge, safety switch, power cord, and 3/4 HP, 3450 RPM motor. Motor assembly has permanently lubricated ball bearings. UL Listed (ES2174).

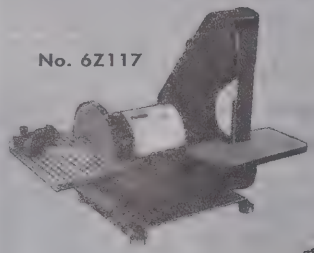
For trade or home workshop sanding applications. Use 9" pressure sensitive adhesive sanding disc and 6 x 48" cloth sanding belt. Aluminum 6 x 12" worktable tilts 15-90° for disc and has graduated scale to show tilt angle. Belt operates in horizontal or vertical position and can be used for contour sanding. Belt is easily changed by sliding off after loosening tension handle.

## 12" DISC, 6 x 48" BELT SANDER

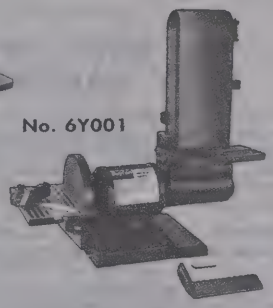
**No. 4TJ97 Sander** is designed for all types of finishing operations on wood, metal, plastic, and other building materials. Can perform typical sanding operations including surfacing, finishing, sanding, polishing, grinding, and deburring. Adjustable 6" belt operates vertically, horizontally, or can be set to any degree between with cast iron platen with backstop for accurate operation. Thermal overload protection. Features fine thread adjustment for accurate belt tracking which locks securely to hold belt in place. 12" abrasive disc provides fine finishes. Belt and disc have cast iron tables that tilt out 45° and in to 20° with a graduated scale to show angle of tilt. Table includes slots for miter gauges. Shipped complete with heavy gauge steel stand, tables, 4" dust port for belt and disc area, miter gauge, drive pully, V-belt, and motor prewired for 110V (6 ft. cord included).



## HEAVY-DUTY FLOOR STAND



All-steel construction with 10 gauge table top. Has hole patterns for securing belt grinder No. 6Z117 and many other bench grinders and bench drill presses. Table surface: 10 x 19⅝"; height 33"; capacity 2500 lbs. Dimensions: 28D x 19W x 33½"H.



**No. 5A335.** Shpg. wt. 35.0 lbs. List $66.80. Each.....$54.80▲

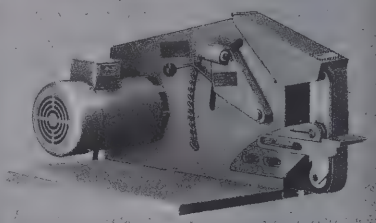
# 4-IN-1 SANDER AND COMBINATION BELT/DISC SANDERS

## PRODUCTION 4-IN-1 BELT SANDER

**Provides all-purpose surface preparation** from snagging to fine finishing by rotating the exclusive square wheel platen to one of three belt positions or using the serrated contact wheel. Operates at 4600 SFPM.

**8" diameter serrated contact wheel** is used for heavy stock removal, cleaning welds or snagging a casting. In calibrated platen belt position, belt is at perfect angle for high speed, precision flat and leveling grinding of tools, plastics, and other materials. An adjustable work rest and protractor type angle indicator make the job easier. Yoke surface belt position is best for grinding and finishing cylindrical shapes. Conforms to shape of surface being worked to produce an even, smooth finish. By rotating to either the 3" or 1½" contact wheel position, belt grinding of difficult to reach areas and contouring is quick and efficient.



**Square wheel platen design for belt position changes.** Easy opening side door makes changing of the 2 x 72" belt quick and simple. Steel 25 x 15" base allows for easy set up on any workbench. Grinder comes with 1 HP, single phase, 115/230V, 60 Hz, TEFC motor with manual thermal protection and 5½ ft. cord. Wilton brand (4103).

**No. 3Z813.** Shpg. wt. 115.0 lbs. List $1125.00. Each ..... **$1033.00▲**

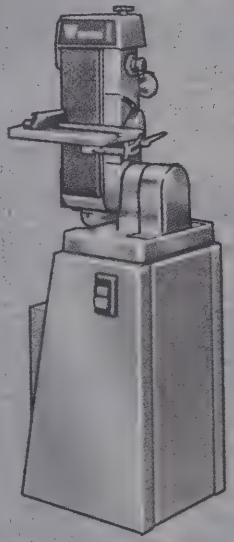
## 6" BELT, 12" DISC SANDERS

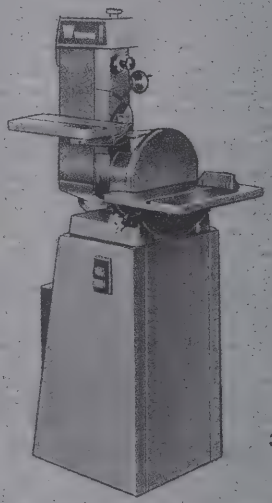
**All cast construction for heavy-duty operations** on metal, wood, plastic and leather in factories, cabinet shops, schools and pattern shops. Use for surface finishing, polishing, sanding, grinding, deburring, and cleaning operations.

**Adjustable position 6" belt is capable of performing multiple operations** vertically, horizontally or any position in between. Features an accurate belt tracking adjustment that locks securely to hold belt alignment tight. For contour finishing, upper belt guard is removable to expose surface of idler drum.



**Abrasive 12" disc simplifies polishing, deburring, chamfering and grinding operations.** Both belt and disc sanders have separate tilting worktables with miter gauge slots. Tables tilt out to 45° and in to 20° and have graduated scales to show angle of tilt. Miter gauges have readings through 120° swing.

**Shipped complete** with heavy gauge steel stand, tables, miter gauge, drive pulleys, V-belt, 6" belt and 12" disc. Also includes a 3-pole single throw toggle switch that can be used for single or 3-phase. Switch comes wired to motor housing for single phase. 115/230V operation and includes 10 ft. of 12/3 oil resistant power cord.



**Available in two models:** Combination Belt & Disc and 6 x 48" Belt only. Order motor separately below.

# 12¹/₂" AND 15" WOOD PLANERS

## DAYTON 15" WOOD PLANER

Dayton®

New

No. 4TJ93

- Heavy-duty cast iron constructed planer handles large and irregularly-shaped stock up to 15"W and 6" deep
- Two-speed rate: 16 or 20' per minute
- Magnetic contacts with overload relay, push button emergency stop, key lock motor control, and anti kick back feature
- 3" dia meter 3-knife cutter head with jack-screws for easy knife adjustments or replacement; provides 10,500 cuts per minute
- Exterior adjustment for chip breaker, in-feed and out-feed roller pressure without disassembling
- Enclosed welded cabinet comes with 4" male hose connection adapter for dust collection ability
- Motor not included. Order Dayton 2 HP, 3500 RPM, 220V, 60 HZ single phase TEFC motor No. 3K344
- Cutter head and feed rollers raise and lower on four precise ground steel columns

# IRONWORKER METAL FABRICATION MACHINE AND ACCESSORIES

## 40-TON IRONWORKER

**The Metalpro 4000 Ironworker** has 40 tons of electric hydraulic power to perform all the functions of a fabrication shop in one machine. This versatile machine performs punching, shearing, forming, bending, pressing, and notching operations.

- **Note: All capacities are based on 65,000 PSI tensile steel. Punch and die sets sold separately below**
- **Punching station is punch-ready with 2" die holder, stripper and punch retaining nut. Capacity is 1" diameter in 3/8" steel**
- **3-in-1 shear handles 3/4" rods, 3/8 x 4" flat, 1/4 x 6" flat, and 1/4 x 3 x 3" angle shear**
- **Power cavity accommodates 3-in-1 shear (included), optional 8" brake, and heavy-duty notcher sold separately below**
- **3/4 HP, 110V/10 amp, single-phase 60 Hz motor**

Jointer Cabinet
with Motor

NOTE: Jointer and Cabinet must be purchased together. Jointer will not operate if purchased separately.

## DAYTON 8" JOINTER

Designed for accurate production work. Balanced 3" diameter, three blade cutter head of ball bearing construction makes 13,500 cuts per minute. Built-in springs keep blades at proper height when adjustments are made, locking bar secures blades. Knife setting gauge is included. Cutter head assembly is easily removed and replaced for minimal downtime.

4"H x 38¼"L center mounted tilt fence adjusts to L45°, 90°, -R45° with positive stops and locks with a single lever control. Provisions made to expand fence length when desired. Cutter head is guarded in front and rear of rip fence in all positions.

Total table surface 9W x 66"L with a cutting capacity of 8⅛W x 1/2"D and a positive stop at 1/8" depth.

Table height adjustments for both "in feed" and "out feed" tables with large hand wheel crank handles. "Out feed" table has positive stop and locks at zero. Both ends of the table have 10" table extension work supports with rollers that increase table capacity to 86".

Totally enclosed welded plate steel cabinet 23½ x 23½ x 16½" with built-in chip chute and a 4" male hose connection adapter. Cabinet includes switch, 220V magnetic contactor, motor locking switch with key, and 14 gauge 3-wire harness for motor and adjustable motor mounting support. Push blocks included. Motor not included; must order separately. Jointer shipped in two cartons.

## DAYTON 6" JOINTER

- **Designed for accurate production**
- **Heavy cast iron table construction to dampen vibration**
- **Center mounted cast-iron fence tilts 0° to 45° for chamfering and beveling; moves forward for rabbeting operations**
- **Fully guarded cutter-head and push blocks for safe operation**
- **Totally enclosed welded plated steel cabinets with built-in chip chute and 4" male hose connector**
- **Cabinet with 3/4HP, 115/230V, 3450 RPM motor**
- **Jack screw knife-holding arrangement for east asdjustment or replacement**
- **Easy to read 0 to 1/2" depth of cut scale with positive stops at 1/8"**
- **3-knife cutting-head provides 14,400 cuts per minute**
- **1/8" cutting capacity for jointing — 1/2" cutting capacity for rabbeting**
- **4 x 28" center mounted tilt fence**

Features a 6⅝W x 45"L table surface. Balanced 2½" diameter 3-blade cutting head of ball bearing construction. In-feed table with lock handle for quick easy height adjustments. Adjustable out-feed table allows convenient knife setting. Cabinet includes removable safety switch and 115/230V, 3/4 HP, 3450 RPM single phase motor. Shipped in two cartons.

# TABLE SAWS AND ACCESSORIES

## DAYTON 10" TABLE SAW No. 4TJ88

- Features cast iron table top and two steel extensions wings
- Blade guide assembly includes splitter and anti-kick back paws for safety
- Metal miter gauge
- Machined T-slots on both sides of blade
- 5/8" standard/dado arbor dado table insert
- On/Off switch with removal key wired for 115V operation
- Front and rear locking rip fence assembly
- Open stand

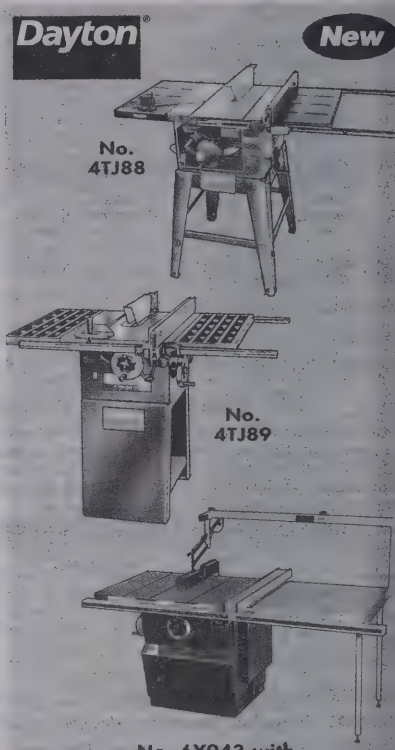
Ideal for light industrial, contractor and home shop use. Saw has separate hand controls for the raising and tilting of blade. Includes saw stand, table insert, wrench, 1 HP, 15A universal motor.

## DAYTON 10" CONTRACTOR SAW No. 4TJ89

- Features cast iron table top and cast iron grid extension wings
- Blade guide assembly includes splitter and anti-back back paws for safety
- Cast iron miter gauge has positive stops at 45° left, 90° and 45°right
- Machined T-slots on both sides of blade
- 5/8" standard/dado arbor dado table insert
- On/Off switch with removal key wired for 115V operation
- Front and rear locking rip fence assembly; table is pre-drilled to accept Biesmeyer fence system
- Open stand with front, back panels

Heavy-duty contractor saw provides 3⅛" cuts at 90°, and 2⅛" cuts at 45°. Dado insert and dado arbor allow dadoing up to 13/16" wide. Saw pre-wired for 115V operation. Includes v-belt, 1-step motor pulley. Motor not included. Order Dayton 1.5 HP, 115/230V, 3500 RPM, 60 Hz single phase TEFC motor No. 3K300, below.

## DAYTON 10 AND 12" TILTING ARBOR TABLE SAWS



- Features cast iron table top and cast iron grid extension wings
- Blade guide assembly includes splitter and anti-back back paws for safety
- Cast iron miter gauge has positive stops at 45° left, 90° and 45° right
- Machined T-slots on both sides of blade
- 5/8" standard/dado arbor dado table insert
- Fully enclosed magnetic starter with overload protection and safety stop button
- Fully enclosed 12 gauge steel stand with 4" exhaust port

Designed and constructed for heavy use in lumberyards, furniture and cabinet-making shops, and large maintenance shops.

**No. 6Y943 10" Table Saw** cuts 3" at 90° and 2⅛ at 45°. Saw wired for 230V operation. Motor not included.
